BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS a Convention Providing for the Creation of an Inter-American Indian Institute, which was opened for signature by the American Governments from November 1 to December 31, 1940, at the City of Mexico, was signed by the respective plenipotentiaries of the United States of America, Costa Rica, Cuba, Ecuador, El Salvador, Honduras, Mexico, and Peru, on November 29, 1940, and by the plenipotentiary of Bolivia on December 18, 1940, and was adhered to by Nicaragua on April 18, 1941, Panama on May 26, 1941, and Paraguay on June 17, 1941, a duly certified copy whereof in the Spanish, English, Portuguese, and French languages, is word for word as follows:

CONVENTION PROVIDING FOR CREATION OF THE INTER-AMERICAN INDIAN INSTITUTE

11304

1The Governments of the American Republics, inspired by the desire to create efficient instruments for collaboration in the solution of their common problems, and recognizing the fact that the Indian problem is a question of interest to all America; that it is desirable clearly to state and solve said problem; that in many of the American nations it offers similar and comparable aspects; the Governments of said republics further recognize the fact that it is highly desirable to clarify, stimulate and coordinate the Indian policies of the various nations, said policies being construed as the aggregation of desiderata, standards and measures that should be applied for integral improvement of the living standards of the Indian groups of the Americas; and whereas establishment of an Inter-American Indian Institute was recommended for study, by the Eighth International Conference of the American Nations, assembled at Lima in 1938, in the following resolution: *That the Continental Conference on Indian Life study the advisability of establishing an Inter-American Indian Institute and, if the occasion arises, set forth the basis for its organization and take the necessary steps for its immediate installation and organization*; and whereas the First Inter-American Indian Conference that was held at Patzcuaro in April 1940, passed a resolution creating the Inter-American Indian Institute and recommended the conclusion of a Convention to that end:

CENTENNIAL OF THE SIGNING OF THE 1868 TREATY OF PEACE
BETWEEN THE NAVAJO INDIAN TRIBE AND THE UNITED STATES

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

The Navajo Indian Tribe of Arizona, New Mexico, and Utah signed a final peace treaty with the United States in 1868. This treaty, signed by 29 Navajo headmen and 10 officers of the United States Army on June 1, 1868, officially recognized the sovereignty of the Navajo Tribe.

This treaty was ratified by the Senate of the United States on July 23, 1868, and was proclaimed by President Andrew Johnson on August 12, 1868.

The terms of the treaty and its mutual acceptance brought to an end a tragic four-year period of suffering, hardship, deprivation, and exile of the Navajo Tribe from its usual tribal area to detention at Fort Sumner, New Mexico, on the banks of the Pecos River.

This is the centennial year of the signing, ratification, and proclaiming of the 1868 treaty. In the intervening 100 years, the number of Navajos has increased from about 8,350 to more than 100,000. And, contrary to the general trend toward reduction of tribal land holdings, the Navajo lands have increased from about 3.5 million acres in 1868 to about 12 million acres. The tribe is now the Nation's largest in number and resides on the largest reservation.

The tribe's forest industries, oil and mineral wealth, agriculture, arts and crafts, and the recent welcome to the reservation of nationally known manufacturing firms, make the Navajos an outstanding example of a people who have moved with the new century while still holding fast to their Indian identity, ancient beliefs, and creeds.

I recited the progress of the Navajos earlier this year when I spoke by telephone to Indian leaders and supporters gathered at a dinner in Gallup, New Mexico, formally launching observance of the Navajo centennial year.

Last month I mentioned progress of the Navajos in the message I sent to the Congress on the Indian American—the Forgotten American.

Now, the Congress, by a joint resolution approved May 17, 1968, has requested the President to designate the calendar year 1968 as the centennial of the signing of the peace treaty of 1868. I am happy to honor this request.

NOW, THEREFORE, I, LYNDON B. JOHNSON, President of the United States of America, do hereby designate the year 1968 as the 1centennial of the signing of the 1868 Treaty of Peace between the Navajo Indian Tribe and the United States; and I call upon the Governors of the States, mayors of cities, and other public officials, as well as other interested persons, organizations, and groups to observe

this centennial year of a progressive tribe of Indian Americans with appropriate celebrations and ceremonies.

CHAPTER 13.—FINANCIAL ASSISTANCE TO LOCAL EDUCATIONAL AGENCIES

Subchapter I.—Assistance for Local Educational Agencies in Areas Affected by Federal Activity

§ 236. Congressional declaration of policy.

In recognition of the responsibility of the United States for the impact which certain Federal activities have on the local educational agencies in the areas in which such activities are carried on, the Congress declares it to be the policy of the United States to provide financial assistance (as set forth in this subchapter) for those local educational agencies upon which the United States has placed financial burdens by reason of the fact that—

- (1) the revenues available to such agencies from local sources have been reduced as the result of the acquisition of real property by the United States; or
- (2) such agencies provide education for children residing on Federal property; or
- (3) such agencies provide education for children whose parents are employed on Federal property; or
- (4) there has been a sudden and substantial increase in school attendance as the result of Federal activities.

(Sept. 30, 1950, ch. 1124, § 1, 64 Stat. 1100; Apr. 11, 1965, Pub. L. 89-10, title I, § 2, 79 Stat. 27.)

§ 237. Federal acquisition of property within school district as financial burden; Federal contributions; property excluded; effect of school district consolidations.

(a) Where the Commissioner, after consultation with any local educational agency and with the appropriate State educational agency, determines for any fiscal year ending prior to July 1, 1973—

- (1) that the United States owns Federal property in the school district of such local educational agency, and that such property (A) has been acquired by the United States since 1938, (B) was not acquired by exchange for other Federal property in the school district which the United States owned before 1939, and (C) had an assessed value (determined as of the time or times when so acquired) aggregating 10 per centum or more of the assessed value of all real property in the school district (similarly determined as of the time or times when such Federal property was so acquired); and

- (2) that such acquisition has placed a substantial and continuing financial burden on such agency; and

- (3) that such agency is not being substantially compensated for the loss in revenue resulting from such acquisition by increases in revenue accruing to the agency from the carrying on of Federal activities with respect to the property so acquired,

then the local educational agency shall be entitled to receive for such fiscal year such amount as, in the judgment of the Commissioner, is equal to the continuing responsibility for the additional finan-

cial burden with respect to current expenditures placed on such agency by such acquisition of property. Such amount shall not exceed the amount which, in the judgment of the Commissioner, such agency would have derived in such year, and would have had available for current expenditures, from the property acquired by the United States (such amount to be determined without regard to any improvements or other changes made in or on such property since such acquisition).

(b) For the purposes of this section any real property with respect to which payments are being made under section 831L of Title 16 shall not be regarded as Federal property.

(c) Where the school district of any local educational agency shall have been formed at any time after 1938 by the consolidation of two or more former school districts, such agency may elect (at the time it files application under section 240 of this title) for any fiscal year to have (1) the eligibility of such local educational agency, and (2) the amount which such agency shall be entitled to receive, determined under this section only with respect to such of the former school districts comprising such consolidated school district as the agency shall designate in such election. (Sept. 30, 1950, ch. 1124, § 2, 64 Stat. 1101; Aug. 8, 1953, ch. 402, § 1, 67 Stat. 530; Aug. 12, 1955, ch. 868, § 1, 69 Stat. 713; Aug. 3, 1956, ch. 915, title II, § 201, 70 Stat. 970; Aug. 12, 1958, Pub. § 238. Payments to local school agencies.

- (a) *Children of persons who reside and work on Federal property; parent in uniformed services.*

For the purpose of computing the amount to which a local educational agency is entitled under this section for any fiscal year, the Commissioner shall determine the number of children who were in average daily attendance at the schools of such agency, and for whom such agency provided free public education, during such fiscal year, and who, while in attendance at such schools, resided on Federal property and (1) did so with a parent employed on Federal property situated in whole or in part in the same State as the school district of such agency or situated within reasonable commuting distance from the school district of such agency, or (2) had a parent who was on active duty in the uniformed services (as defined in section 102 of the Career Compensation Act of 1949).

- (b) *Children of persons who reside or work on Federal property, who are on active duty in the uniformed service, or who are refugees.*

For the purpose of computing the amount to which a local educational agency is entitled under this section for any fiscal year ending prior to July 1, 1973, the Commissioner shall also deter-

mine the number of children (other than children to whom subsection (a) of this section applies) who were in average daily attendance at the schools of a local educational agency, and for whom such agency provided free public education, during such fiscal year and who, while in attendance at such schools, either (1) resided on Federal property, or (2) resided with a parent employed on Federal property situated in whole or in part in the same State as such agency or situated within reasonable commuting distance from the school district of such agency, or (3) had a parent who was on active duty in the uniformed services (as defined in section 102 of the Career Compensation Act of 1949). In the case of fiscal years ending prior to July 1, 1973, the Commissioner shall also determine the number of children (other than children to whom subsection (a) of this section or any other provision of this subsection applies) who were in average daily attendance at the schools of a local educational agency and for whom such agency provided free public education, during such fiscal year, and who, while in attendance at such schools resided with a parent who was, at any time during the three-year period immediately preceding the fiscal year for which the determination is made, a refugee who meets the requirements of section 2601(b)(3) (A) and (B) of Title 22.

(c) *Computation of amount of entitlement.*

(1) The amount to which a local educational agency is entitled under this section for any fiscal year shall be an amount equal to (A) the local contribution rate determined under subsection (d) of this section multiplied by (B) the sum of the number of children determined under subsection (a) and one-half of the number determined under subsection (b) of this section.

(2) No local educational agency shall be entitled to receive any payment for a fiscal year with respect to a number of children determined under subsection (a) or the first sentence of subsection (b) of this section, as the case may be, unless the number of children who were in average daily attendance during such year and to whom such subsection or such sentence applies—

(A) is ten or more; and

(B) amounts to, whichever is the lesser, four hundred such children, or a number of such children equal to 3 per centum or more of the total number of children who were in average daily attendance during such year and for whom such agency provided free public education, except that such 3 per centum requirement need not be met by such agency for any period of two fiscal years which follows a fiscal year during which such agency met such requirement and was entitled to payment under the provisions of this section, but the payment, under the provisions of this section to such agency for the second fiscal year of any such two-year period during which such requirement is not met, shall be reduced by 50 per centum of the amount thereof.

For the purposes of this paragraph, a local educational agency may count as children determined under the first sentence of subsection (b) of this section any number of children determined under subsection (a) of this section. Notwithstanding the provisions of clause (B) of this paragraph, the Commissioner may waive the 3 per centum condition of entitlement contained in such clause whenever, in his judgment, exceptional circumstances exist which would make the application of such condition inequitable and would defeat the purposes of this subchapter.

(3) No local educational agency shall be entitled to receive any payment for a fiscal year with respect to a number of children determined under the second sentence of subsection (b) of this section unless the number of children who were in average daily attendance to whom such sentence applies amounts to 20 per centum or more of the number of children who were in average daily attendance during such year and for whom such agency provided free public education, but in determining the number of such children under such second sentence no child shall be counted with respect to whose education a payment was made under section 2601(b)(4) of Title 22.

(4) If—

(A) the amount computed under paragraph (1) of this subsection for a local educational agency for any fiscal year, together with the funds available to such agency from State, local, and other Federal sources (including funds available under section 239 of this title, but excluding funds available under subchapter II of this chapter) is, in the judgment of the Commissioner, less than the amount necessary to enable such agency to provide a level of education equivalent to that maintained in the school districts of the State which, in the judgment of the Commissioner, are generally comparable to the school district of such agency;

(B) such agency is, in the judgment of the Commissioner, making a reasonable tax effort and exercising due diligence in availing itself of State and other financial assistance;

(C) not less than 50 per centum of the total number of children who were in average daily attendance at the schools of such agency, and for whom such agency provided free public education, during such fiscal year resided on Federal property; and

(D) the eligibility of such agency under State law for State aid with respect to the free public education of children residing on Federal property, and the amount of such aid, is determined on a basis no less favorable to such agency than the basis used in determining the eligibility of local educational agencies for State aid, and the amount thereof, with respect to the free public education of other children in the State, the Commissioner may increase the amount computed under paragraph (1) of this subsection to the extent necessary to enable such agency to provide a level of education equivalent to that maintained in such comparable school districts; except that this paragraph shall in no case operate to increase the amount computed for any fiscal year under paragraph (1) of this subsection for a local educational agency above the amount determined by the Commissioner to be the cost per pupil of providing a level of education equivalent to that maintained in such comparable school districts, multiplied by the number of children who were in average daily attendance at the schools of such agency, and for whom such agency provided free public education, during such year and who resided on Federal property during such year, minus the amount of State aid which the Commissioner determines to be available with respect to such children for the year for which the computation is being made.

(5) The determinations whether a local educational agency has met the requirements for eligibility under paragraph (2)(B) and (4)(C) of this subsection for any fiscal year shall be made on the basis of estimates by the Commissioner made prior to the close of such year, except that an underestimate made by the Commissioner pur-

suant to the foregoing provisions of this sentence shall not operate to deprive an agency of its entitlement to any payments under this section to which it would be entitled had the estimate been accurate.

(d) *Local contribution rate; special determination for territories.*

The local contribution rate for a local educational agency (other than a local educational agency in Puerto Rico, Wake Island, Guam, American Samoa, or the Virgin Islands, or in a State in which a substantial proportion of the land is in unorganized territory for which a State agency is the local educational agency, or in a State in which there is only one local educational agency) for any fiscal year shall be computed by the Commissioner of Education, after consultation with the State educational agency and the local educational agency, in the following manner:

(1) he shall determine which school districts within the State are in his judgment generally comparable to the school districts of the agency for which the computation is being made; and

(2) he shall then divide (A) the aggregate current expenditures, during the second fiscal year preceding the fiscal year for which he is making the computation, which the local educational agencies of such comparable school districts made from revenues derived from local sources, by (B) the aggregate number of children in average daily attendance to whom such agencies provided free public education during such second preceding fiscal year.

The local contribution rate shall be an amount equal to the quotient obtained under clause (2) of this subsection. If, in the judgment of the Commissioner, the current expenditures in those school districts which he has selected under clause (1) of this subsection are not reasonably comparable because of unusual geographical factors which affect the current expenditures necessary to maintain, in the school district of the local educational agency for which the computation is being made, a level of education equivalent to that maintained in such other districts, the Commissioner may increase the local contribution rate for such agency by such amount as he determines will compensate such agency for the increase in current expenditures necessitated by such unusual geographical factors. In no event shall the local contribution rate for any local educational agency in any State (other than Puerto Rico, Wake Island, Guam, American Samoa, or the Virgin Islands) for any fiscal year be less than (i) 50 per centum of the average per pupil expenditure in such State or (ii) 50 per centum of the average per pupil expenditure in the United States (which for the purposes of this sentence and the next sentence means the fifty States and the District of Columbia), but not to exceed the average per pupil expenditure in the State: *Provided*, That if, for the fiscal year ending June 30, 1959, the application of clause (ii) of this sentence results in a lower local contribution rate than resulted from the application of such clause during the fiscal year ending June 30, 1958, as such clause was then in effect, then such clause, as in effect during the fiscal year ending June 30, 1958, shall be in effect during the fiscal year ending June 30, 1959. For the purposes of the preceding sentence the "average per pupil expenditure" in a State, or in the United States, shall be the aggregate current expenditures, during the second fiscal year preceding the fiscal year for which the computation is made, of all local educational agencies in the State, or in the United States, as the case may

be, plus any direct current expenditures by the States for the operation of such agencies (without regard to the sources of funds from which either of such expenditures are made), divided by the aggregate number of children in average daily attendance to whom such agencies provided free public education during such preceding fiscal year. The local contribution rate for any local educational agency in Puerto Rico, Wake Island, Guam, American Samoa, or the Virgin Islands, or in any State in which a substantial proportion of the land is in unorganized territory for which a State agency is the local educational agency, or in any State in which there is only one local educational agency, shall be determined for any fiscal year by the Commissioner in accordance with policies and principles which will, in his judgment, best effectuate the purposes of this subchapter and most nearly approximate the policies and principles provided herein for determining local contribution rates in other States.

(e) *Adjustment for certain decreases in Federal activities.*

Whenever the Commissioner determines that—

(1) a local educational agency has made preparations to provide during a fiscal year free public education for a certain number of children to whom subsection (a) or (b) of this section applies;

(2) such preparations were in his judgment reasonable in the light of the information available to such agency at the time such preparations were made; and

(3) such number has been substantially reduced by reason of a decrease in or cessation of Federal activities or by reason of a failure of any of such activities to occur,

the amount to which such agency is otherwise entitled under this section for such year shall be increased to the amount to which, in the judgment of the Commissioner, such agency would have been entitled but for such decrease in or cessation of Federal activities or the failure of such activities to occur, minus any reduction in current expenditures for such year which the Commissioner determines that such agency has effected, or reasonably should have effected, by reason of such decrease in or cessation of Federal activities or the failure of such activities to occur. (Sept. 30, 1950, ch. 1124, § 3, 64 Stat. 1102; Aug. 8, 1953, ch. 402, § 2, 67 Stat. 530; Aug. 12, 1955, ch. 863, § 1, 69 Stat. 713; Aug. 1, 1956, ch. 852, § 10, 70 Stat. 909; Aug. 3, 1956, ch. 915, title II, §§ 202-206, 70 Stat. 970; Aug. 12, 1958, Pub. § 239. *Sudden and substantial increases in attendance.*

(a) *Determination by Commissioner; amount of contribution.*

If the Commissioner determines for any fiscal year ending prior to July 1, 1973—

(1) that, as a direct result of activities of the United States (carried on either directly or through a contractor), an increase in the number of children in average daily attendance at the schools of any local educational agency has occurred in such fiscal year, which increase so resulting from activities of the United States is equal to at least 5 per centum of the difference between the number of children in average daily attendance at the schools of such agency during the preceding fiscal year and the number of such children whose attendance during such year resulted from activities of the United States (including children who resided on Federal property or with a parent employed on Federal property); and

(2) that such activities of the United States have placed on such agency a substantial and continuing financial burden; and

(3) that such agency is making a reasonable tax effort and is exercising due diligence in availing itself of State and other financial assistance but is unable to secure sufficient funds to meet the increased educational costs involved, then such agency shall be entitled to receive for such fiscal year an amount equal to the product of—

(A) the number of children which the Commissioner determines to be the increase, so resulting from activities of the United States, in such year in average daily attendance; and

(B) the amount which the Commissioner determines to be the current expenditures per child necessary to provide free public education to such additional children during such year, minus the amount which the Commissioner determines to be available from State, local, and Federal sources for such purpose (not counting as available for such purpose either payments under this chapter or funds from local sources necessary to provide free public education to other children).

For the next fiscal year (except where the determination under the preceding sentence has been made with respect to the fiscal year ending June 30, 1973) such agency shall be entitled to receive 50 per centum of such product reduced by the amount of such product which is attributable to children with respect to whom such agency is, or upon application would be, entitled to receive any payment under section 238 of this title for such fiscal year, but not to exceed for such year the amount which the Commissioner determines to be necessary to enable such agency, with the State, local, and other Federal funds (exclusive of funds available under subchapter II of this chapter) available to it for such purpose, to provide a level of education equivalent to that maintained in the school districts in such State which in his judgment are generally comparable to the school district of such agency. The determinations whether an increase has occurred for purposes of clause (1) of this subsection and whether such increase meets the 5 per centum requirement contained in such clause, for any fiscal year, shall be made on the basis of estimates by the Commissioner made prior to the close of such year, except that an underestimate made by the Commissioner pursuant to the foregoing provisions of this sentence shall not operate to deprive an agency of its entitlement to any payments under this section to which it would be entitled had the estimate been accurate. The determination under clause (B) of this subsection shall be made by the Commissioner after considering the current expenditures

per child in providing free public education in those school districts in the State which, in the judgment of the Commissioner, are generally comparable to the school district of the local educational agency for which the computation is being made.

(b) *Omitted.*

(c) *Counting of certain children in determination of increases.*

In determining under subsection (a) of this section whether there has been an increase in attendance in any fiscal year directly resulting from activities of the United States and the number of children with respect to whom payment is to be made for any fiscal year, the Commissioner shall not count—

(A) children with respect to whom a local educational agency is, or upon application would be, entitled to receive any payment under section 238 of this title for such fiscal year: *Provided*, That the Commissioner shall count for such purposes as an increase directly resulting from activities of the United States, an increase in the number of children who reside on Federal property or reside with a parent employed on Federal property, if the local educational agency files, in accordance with regulations of the Commissioner, its election that such increase be counted for such purposes instead of for the purposes of section 238 of this title; and

(B) children whose attendance is attributable to activities of the United States carried on in connection with real property which has been excluded from the definition of Federal property by the last sentence of paragraph (1) of section 244 of this title.

(d) *Adjustment for decreases in Federal activities.*

Whenever the Commissioner determines that—

(1) a local educational agency has made preparations to provide during a fiscal year free public education for a certain number of children to whom subsection (a) of this section applies;

(2) such preparations were in his judgment reasonable in the light of the information available to such agency at the time such preparations were made; and

(3) such number has been substantially reduced by reason of a decrease in or cessation of Federal activities or by reason of a failure of any of such activities to occur,

the amount to which such agency is otherwise entitled under this section for such year shall be increased to the amount to which, in the judgment of the Commissioner, such agency would have been entitled but for such decrease in or cessation of Federal activities or the failure of such activities to occur, minus any reduction in current expenditures for such year which the Commissioner determines that such agency has effected, or reasonably should have effected, by reason of such decrease in or cessation of Federal activities or the failure of such activities to occur.

(e) *Consultation with State and local authorities.*

All determinations of the Commissioner under this section shall be made only after consultation with the State educational agency and the local educational agency. (Sept. 30, 1950, ch. 1124, § 4, 64 Stat. 1104; Aug. 8, 1953, ch. 402, §§ 3-5, 67 Stat. 552; Aug. 12, 1955, ch. 868, §§ 1, 2, 69 Stat. 713; Aug. 3, 1956, ch. 915, title II, §§ 207, 208, 70 Stat. 972; Aug. 12, 1958, Pub. L. 85-620, title II, § 203, 72

L. 90-576, title I, § 101(a)(1), 82 Stat. 1064, Oct. 16, 1964, Pub. L. 88-665, title XI, § 1102(a), 79 Stat. 1109; Apr. 11, 1965, Pub. L. 89-10, title I, §§ 3(b), 5, 79 Stat. 34, 36; Jan. 2, 1968, Pub. L. 90-247, title III, § 301(e), 81 Stat. 813; Apr. 13, 1970, Pub. L. 91-230, title II, § 201(b), 84 Stat. 154.)

§ 240. Method of making payments.

(a) *Application.*

No local educational agency shall be entitled to any payment under sections 237, 238, or 239 of this title for any fiscal year except upon application therefor, submitted through the State educational agency and filed in accordance with regulations of the Commissioner, which application gives adequate assurance that the local educational agency will submit such reports as the Commissioner may reasonably require to determine the amount to which such agency is entitled under this subchapter.

(b) *Payment.*

The Commissioner shall, subject to the provisions of subsection (c) of this section, from time to time pay to each local educational agency, in advance or otherwise, the amount which he estimates such agency is entitled to receive under this subchapter. Such estimates shall take into account the extent (if any) to which any previous estimate of the amount to be paid such agency under this subchapter (whether or not in the same fiscal year) was greater or less than the amount which should have been paid to it. Such payments shall be made through the disbursing facilities of the Department of the Treasury and prior to audit or settlement by the General Accounting Office. Sums appropriated pursuant to this subchapter for any fiscal year shall remain available, for obligation and payments with respect to amounts due local educational agencies under this subchapter for such year, until the close of the following fiscal year.

(c) *Adjustments where necessitated by appropriations.*

(1) If the funds appropriated for any fiscal year for making payments under this subchapter are not sufficient to pay in full the total amounts which the Commissioner estimates all local educational agencies will be entitled to receive under this subchapter for such year, the Commissioner (A) shall determine the part of the entitlement of each such local educational agency which is attributable to determinations under subsections (a) and (b) of section 238 of this title of the number of children who resided on, or resided with a parent employed on, property which is part of a low-rent housing project assisted under the United States Housing Act of 1937, section 516 of the Housing Act of 1949, or part B of title III of the Economic Opportunity Act of 1964, and (B) except as otherwise provided in paragraph (3), shall allocate such funds, other than so much thereof as he estimates may be required for carrying out the provisions of section 241 of this title, among sections 237, 238 and 239(a) of this title in the proportion that the amount he estimates to be required under each such section bears to the total estimated to be required under all such sections, except that he shall not take into consideration any part of any entitlement determined under clause (A). The amount so allocated to any such section shall be available for payment of a percentage of the

amount to which each local educational agency is entitled under such section. Such percentage shall be equal to the percentage which the amount allocated to a section under the second sentence of this paragraph is of the amount to which all such agencies are entitled under such section. For the purposes of this paragraph, in determining the amount to which each local educational agency is entitled under section 238 of this title he shall include any increases under paragraph (4) of subsection (c) thereof; but he shall exclude any part of any entitlement determined under clause (A) of this paragraph.

(2) If the funds available for allocation under paragraph (1) for any fiscal year exceed the amount necessary to fully satisfy entitlements for which allocations will be made under such paragraph, that excess shall be available for payment of a percentage of that part of the entitlement of each local educational agency determined under clause (A) of paragraph (1). Such percentage shall be equal to the percentage which the amount of such excess is of the total amount to which all such agencies are so entitled.

(3) All funds appropriated for making payments under this subchapter for any fiscal year shall be allocated in the manner specified in paragraphs (1) and (2), unless an Act making appropriations for making payments under this title for any fiscal year specifically makes funds available for payments on the basis of entitlements determined under clause (A) of paragraph (1), apart from other payments under this subchapter, in which case, if the funds so appropriated are not sufficient to pay in full the total amount to which all local educational agencies are so entitled, such funds shall be available for making payments in the manner specified in paragraph (2) respecting allocations of any excess appropriations.

(4) In case the amount allocated to a section under paragraph (1) for a fiscal year exceeds the total to which all local educational agencies are entitled under such section for such year or, in case additional funds become available for making payments under this subchapter, the excess or such additional funds, as the case may be, shall be allocated among sections for which previous allocations are inadequate, on the same basis as is provided in paragraphs (1), (2), and (3) for the initial allocation.

(d) *Adjustments for reduction in State aid.*

(1) The amount which a local educational agency in any State is otherwise entitled to receive under section 237, 238, or 239 of this title for any fiscal year shall be reduced in the same proportion (if any) that the State has reduced for that year its aggregate expenditures (from non-Federal sources) per pupil for current expenditure purposes for free public education (as determined pursuant to regulations of the Commissioner) below the level of such expenditures per pupil in the second preceding fiscal year. The Commissioner may waive or reduce this reduction whenever in his judgment exceptional circumstances exist which would make its application inequitable and would defeat the purpose of this subchapter.

(2) No payments may be made during any fiscal year to any local educational agency in any State which has taken into consideration payments under this subchapter in determining the eligibility of any local educational agency in that State for State aid (as defined by regulation), or the amount of that aid, with respect to free public education during that year or the preceding fiscal year, or which makes such aid available to local educational agencies in such a manner as to

result in less State aid to any local educational agency which is eligible for payments under this subchapter than such local educational agency would receive if it were not so eligible. (Sept. 30, 1950, ch. 1124, § 5, 64 Stat. 1106; Aug. 8, 1953, ch. 402, §§ 6, 7, 67 Stat. 534; Aug. 3, 1956, ch. 915, title II, § 209, 70 Stat. 972; Apr. 11, 1965, Pub. L. 89-10, title I, § 2, 79 Stat. 27; Nov. 3, 1966, Pub. L. 89-750, title II, §§ 202, 203, 80 Stat. 1211, 1212; Oct. 16, 1968, Pub. L. 90-576, title III, § 305(a), 82 Stat. 1097; Apr. 13, 1970, Pub. § 241. Education of children where local agencies cannot supply facilities.

(a) *Necessary arrangements by Commissioner; standard of education.*

In the case of children who reside on Federal property—

(1) if no tax revenues of the State or any political subdivision thereof may be expended for the free public education of such children; or

(2) if it is the judgment of the Commissioner, after he has consulted with the appropriate State educational agency, that no local educational agency is able to provide suitable free public education for such children,

the Commissioner shall make such arrangements (other than arrangements with respect to the acquisition of land, the erection of facilities, interest, or debt service) as may be necessary to provide free public education for such children. Such arrangements to provide free public education may also be made for children of members of the Armed Forces on active duty, if the schools in which free public education is usually provided for such children are made unavailable to them as a result of official action by State or local governmental authority and it is the judgment of the Commissioner, after he has consulted with the appropriate State educational agency, that no local educational agency is able to provide suitable free public education for such children. To the maximum extent practicable, the local educational agency, or the head of the Federal department or agency, with which any arrangement is made under this section, shall take such action as may be necessary to ensure that the education provided pursuant to such arrangement is comparable to free public education provided for children in comparable communities in the State, or, in the case of education provided under this section outside the continental United States, Alaska, and Hawaii, comparable to free public education provided for children in the District of Columbia. For the purpose of providing such comparable education, personnel may be employed and the compensation, tenure, leave, hours of work, and other incidents of the employment relationship may be fixed without regard to the Civil Service Act and rules and the following: (1) the Classification Act of 1949, as amended; (2) the Annual and Sick Leave Act of 1951, as amended; (3) the Federal Employees' Pay Act of 1945, as amended; (4) the Veterans' Preference Act of 1944, as amended; and (5) the Performance Rating Act of 1950, as amended. In any case where education was being provided on January 1, 1955, or thereafter under an arrangement made under this subsection for children residing on an Army, Navy (including the Marine Corps), or Air Force installation, it shall be presumed, for the purposes of this subsection, that no local educational agency is able to provide suitable free public education for the children residing on such installation, until the Commissioner and the Secretary

of the military department concerned jointly determine, after consultation with the appropriate State educational agency, that a local educational agency is able to do so.

(b) *Education of children in adjacent areas.*

In any case in which the Commissioner makes such arrangements for the provision of free public education in facilities situated on Federal property, he may also make arrangements for providing free public education in such facilities for children residing in any area adjacent to such property with a parent who, during some portion of the fiscal year in which such education is provided, was employed on such property, but only if the Commissioner determines after consultation with the appropriate State educational agency (1) that the provision of such education is appropriate to carry out the purposes of this subchapter, (2) that no local educational agency is able to provide suitable free public education for such children, and (3) in any case where in the judgment of the Commissioner the need for the provision of such education will not be temporary in duration, that the local educational agency of the school district in which such children reside, or the State educational agency, or both, will make reasonable tuition payments to the Commissioner for the education of such children. Such payments may be made either directly or through deductions from amounts to which the local educational agency is entitled under this subchapter, or both, as may be agreed upon between such agency and the Commissioner. Any amounts paid to the Commissioner by a State or local educational agency pursuant to this section shall be covered into the Treasury as miscellaneous receipts.

* * *

(d) *Restrictions on making arrangements.*

The Commissioner may make an arrangement under this section only with a local educational agency or with the head of a Federal department or agency administering Federal property on which children reside who are to be provided education pursuant to such arrangement or, in the case of children to whom the second sentence of subsection (a) of this section applies, with the head of any Federal department or agency having jurisdiction over the parents of some or all of such children. Except where the Commissioner makes arrangements pursuant to the second sentence of subsection (a) of this section, arrangements may be made under this section only for the provision of education in facilities of a local educational agency or in facilities situated on Federal property.

(e) *Limit on payments.*

To the maximum extent practicable, the Commissioner shall limit the total payments made pursuant to any such arrangement for educating children within the continental United States, Alaska, or Hawaii, to an amount per pupil which will not exceed the per pupil cost of free public education provided for children in comparable communities in the State. The Commissioner shall limit the total payments made pursuant to any such arrangement for educating children outside the continental United States, Alaska, or Hawaii, to an amount per pupil which will not exceed the amount he determines to be necessary to provide education comparable to the free public education provided for children in the District of Columbia.

(f) *Children living on Federal property.*

If no tax revenues of a State or of any political

subdivision of the State may be expended for the free public education of children who reside on any Federal property within the State, or if no tax revenues of a State are allocated for the free public education of such children, then the property on which such children reside shall not be considered Federal property for the purposes of sections 238 and 239 of this title. If a local educational agency refuses for any other reason to provide in any fiscal year free public education for children who reside on Federal property which is within the school district of that agency or which, in the determination of the Commissioner, would be within that school district if it were not Federal property, there shall be deducted from any amount to which the local educational agency is otherwise entitled for that year under section 238 or 239 of this title an amount equal to (1) the amount (if any) by which the cost to the Commissioner of providing free public education for that year for each such child exceeds the local contribution rate of that agency for that year, multiplied by (2) the number of such children. Subchapter II.—Assistance to Local Educational Agencies for the Education of Children of Low-Income Families

§ 241a. Congressional declaration of policy.

In recognition of the special educational needs of children of low-income families and the impact that concentrations of low-income families have on the ability of local educational agencies to support adequate educational programs, the Congress hereby declares it to be the policy of the United States to provide financial assistance (as set forth in the following parts of this subchapter) to local educational agencies serving areas with concentrations of children from low-income families to expand and improve their educational programs by various means (including preschool programs) which contribute particularly to meeting the special educational needs of educationally deprived children. § 241b. Payments to State educational agencies; duration.

The Commissioner shall, in accordance with the provisions of this subchapter, make payments to State educational agencies for the period beginning July 1, 1965, and ending June 30, 1973. (Sept. 30, 1950, ch. 1124, title I, § 102, formerly title II, § 202, as added Apr. 11, 1965, Pub. L. 89-10, title I, § 2, 79 Stat. 27, amended Nov. 3, 1966, Pub. PART A.—BASIC GRANTS

§ 241c. Grants.

(a) *Determination of grants; eligibility of State educational agency or other State or local public agency for grant.*

(1)(A) There is hereby authorized to be appropriated for each fiscal year for the purposes of this paragraph an amount equal to not more than 3 per centum of the amount appropriated for such year for payments to States under section 241g(a) of this title (other than payments under such section to jurisdictions excluded from the term "State" by this subsection). The Commissioner shall allot the amount appropriated pursuant to this paragraph among Puerto Rico, Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands according to their respective need for such grants. In addition he shall allot from such amount to the Secretary of the Interior the amount necessary to make payments pursuant to subparagraph (B) of this paragraph, and for the fiscal year ending June 30, 1968, and each of the succeeding fiscal years ending prior to July 1, 1972, the amount necessary to meet the special educational needs of educationally deprived children on reservations serviced by elementary and secondary schools operated for Indian children by the Department of the Interior. The maximum grant which a local educational agency in Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands shall be eligible to receive and the terms upon which payment shall be made to the Department of the Interior shall be determined pursuant to each criteria as the Commissioner determines will best carry out the purposes of this part.

(B) The terms on which payment shall be made to the Department of the Interior shall include provision for payments by the Secretary of the Interior to local educational agencies with respect to out-of-State Indian children in the elementary or secondary schools of such agencies under special contracts with that Department. The amount of any such payment may not exceed, for each such child, one-half the average per pupil expenditure in the State in which the agency is located.

(2) In any case in which the Commissioner determines that satisfactory data for that purpose are available, the maximum grant which a local educational agency in a State shall be eligible to receive under this part for any fiscal year shall be (except as provided in paragraph (3)) an amount equal to the Federal percentage (established pursuant to subsection (c) of this section) of the average per pupil expenditure in that State or, if greater, in the United States, multiplied by the number of children in the school district of such agency who are aged five to seventeen, inclusive, and are (A) in families having an annual income of less than the low-income factor (established pursuant to subsection (c) of this section), (B) in families receiving an annual income in excess of the low-income factor (established pursuant to subsection (c) of this section) from payments under the program of aid to families with dependent children under a State plan approved under title IV of the Social Security Act, or (C) living in institutions for neglected or delinquent children (other than such institutions operated by the United States) but not counted pursuant to paragraph (7) of this subsection for the purpose of a grant to a State agency, or being supported in foster homes with public funds. In any other case, the maximum grant for any local

educational agency in a State shall be determined on the basis of the aggregate maximum amount of such grants for all such agencies in the county or counties in which the school district of the particular agency is located, which aggregate maximum amount shall be equal to the Federal percentage of such per pupil expenditure multiplied by the number of children of such ages in such county or counties who are described in clause (A), (B), or (C) of the previous sentence, and shall be allocated among those agencies upon such equitable basis as may be determined by the State educational agency in accordance with basic criteria prescribed by the Commissioner. Notwithstanding the foregoing provisions of this paragraph, upon determination by the State educational agency that a local educational agency in the State is unable or unwilling to provide for the special educational needs of children, described in clause (C) of the first sentence of this paragraph, who are living in institutions for neglected or delinquent children, the State educational agency shall, if it assumes responsibility for the special educational needs of such children, be eligible to receive the portion of the allocation to such local educational agency which is attributable to such neglected or delinquent children, but if the State educational agency does not assume such responsibility, any other State or local public agency, as determined by regulations established by the Commissioner, which does assume such responsibility shall be eligible to receive such portion of the allocation.

(3)(A) If the maximum amount of the grant determined pursuant to paragraph (1) or (2) for any local educational agency for the fiscal year ending June 30, 1967, is greater than 50 per centum of the sum budgeted by that agency for current expenditures for that year (as determined pursuant to regulations of the Commissioner), such maximum amount shall be reduced to 50 per centum of such budgeted sum.

(B) In the case of local educational agencies which serve in whole or in part the same geographical area, and in the case of a local educational agency which provides free public education for a substantial number of children who reside in the school district of another local educational agency, the State educational agency may allocate the amount of the maximum grants for those agencies among them in such manner as it determines will best carry out the purposes of this part.

(4) For purposes of this subsection, except paragraphs (5) and (7), the term "State" does not include Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(5) In the case of a State agency which is directly responsible for providing free public education for handicapped children (including mentally retarded, hard of hearing, deaf, speech impaired, visually handicapped, seriously emotionally disturbed, crippled or other health impaired children who by reason thereof require special education), the maximum grant which that agency shall be eligible to receive under this part for any fiscal year shall be an amount equal to the Federal percentage of the average per pupil expenditure in the State or, if greater, in the United States, multiplied by the number of such children in average daily attendance, as determined by the Commissioner, at schools for handicapped children operated or supported by the State agency, including schools providing special ed-

ucation for handicapped children under contract or other arrangement with such State agency, in the most recent fiscal year for which satisfactory data are available. Such State agency shall use payments under this part only for programs and projects (including the acquisition of equipment and where necessary the construction of school facilities) which are designed to meet the special educational needs of such children.

(6) A State educational agency which has submitted and had approved an application under section 241e(c) of this title for any fiscal year shall be entitled to receive a grant for that year under this part, based on the number of migratory children of migratory agriculture workers to be served, for establishing or improving programs for such children. The maximum total of grants which may be made available for use in any State or any fiscal year shall be an amount equal to the Federal percentage of the average per pupil expenditure in that State or, if greater, in the United States multiplied by (A) the estimated number of such migratory children aged five to seventeen, inclusive, who reside in the State full time, and (B) the full-time equivalent of the estimated number of such migratory children aged five to seventeen, inclusive, who reside in the State part time, as determined by the Commissioner in accordance with regulations, except that if, in the case of any State, such amount exceeds the amount required under the preceding sentence and under section 241e(c)(2) of this title, the Commissioner shall allocate such excess, to the extent necessary, to other States whose maximum total of grants under this sentence would otherwise be insufficient for all such children to be served in such other States.

(7) In the case of a State agency which is directly responsible for providing free public education for children in institutions for neglected or delinquent children, the maximum grant which that agency shall be eligible to receive under this part for any fiscal year shall be an amount equal to the Federal percentage of the average per pupil expenditure in that State or, if greater, in the United States multiplied by the number of such children in average daily attendance, as determined by the Commissioner, at schools for such children operated or supported by that State agency, including schools providing education for such children under contract or other arrangement with such agency, in the most recent fiscal year for which satisfactory data are available. Such State agency shall use payments under this part only for programs and projects (including the acquisition of equipment and where necessary the construction of school facilities) which are designed to meet the special educational needs of such children.

(b) Eligibility of local educational agency for grant.

A local educational agency shall be eligible for a grant for a fiscal year under this part only if it meets the following requirements with respect to the number of children aged five to seventeen, inclusive, described in clauses (A), (B), and (C) of the first sentence of paragraph (2) of subsection (a) of this section:

(1) In any case (except as provided in paragraph (3)) in which the Commissioner determines that satisfactory data for the purpose of this subsection as to the number of such chil-

dren are available on a school district basis, the number of such children in the school district of such local educational agency shall be at least ten.

(2) In any other case, except as provided in paragraph (3), the number of such children in the county which includes such local educational agency's school district shall be at least ten.

(3) In any case in which a county includes a part of the school district of the local educational agency concerned and the Commissioner has not determined that satisfactory data for the purpose of this subsection are available on a school district basis for all the local educational agencies for all the counties into which the school district of the local educational agency concerned extends, the eligibility requirement with respect to the number of such children for such local educational agency shall be determined in accordance with regulations prescribed by the Commissioner for the purposes of this subsection.

(c) Federal percentage; low-income factor.

For the purposes of this section, the "Federal percentage" shall be 50 per centum and the "low-income factor" shall be \$2,000 for the fiscal year ending June 30, 1966, and the fiscal year ending June 30, 1967. Except as otherwise provided in section 241h of this title, for the fiscal years ending June 30, 1968, and for the four succeeding fiscal years they shall be 50 per centum and \$3,000, respectively, and for the fiscal year ending June 30, 1973 they shall be 50 per centum and \$4,000, respectively.

(d) Compilation of data; children living in institutions for delinquent children.

For the purposes of this section, the Commissioner shall determine the number of children aged five to seventeen, inclusive, of families having an annual income of less than the low-income factor (as established pursuant to subsection (c) of this section) on the basis of the most recent satisfactory data available from the Department of Commerce. At any time such data for a county are available in the Department of Commerce, such data shall be used in making calculations under this section. The Secretary of Health, Education, and Welfare shall determine the number of children of such ages from families receiving an annual income in excess of the low-income factor from payments under the program of aid to families with dependent children under a State plan approved under title IV of the Social Security Act, and the number of children of such ages living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the case load data for the month of January of the preceding fiscal year or, to the extent that such data are not available to him before April 1 of the calendar year in which the Secretary's determination is made, then on the basis of the most recent reliable data available to him at the time of such determination. When requested by the Commissioner, the Secretary of Commerce shall make a special estimate of the number of children of such ages who are from families having an annual income less than the low income factor (established pursuant to subsection (c) of this section) in each county or school district, and the Commissioner is authorized to pay (either in advance or by way of reimbursement) the Secretary of Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection

of additional census information. For purposes of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.

(e) Average per pupil expenditure.

For purposes of this section, the "average per pupil expenditure" in a State, or in the United States, shall be the aggregate current expenditures, during the second fiscal year preceding the fiscal year for which the computation is made (or, if satisfactory data for that year are not available at the time of computation, then during the earliest preceding fiscal year for which satisfactory data are available), of all local educational agencies as defined in section 2446(A) of this title in the State, or in the United States (which for the purposes of this subsection means the fifty States and the District of Columbia), as the case may be, plus any direct current expenditures by the State for operation of such agencies (without regard to the sources of funds from which either of such expenditures are made), divided by the aggregate number of children in average daily attendance to whom such agencies provided free public education during such preceding year. § 633. Dates for filing applications; priorities.

The Commissioner shall from time to time set dates by which applications for payments under this chapter with respect to construction projects must be filed, except that the last such date with respect to applications for payments on account of children referred to in paragraphs (2) or (3) of section 635 (a) of this title shall be not later than June 30, 1973. The Commissioner shall by regulation prescribe an order of priority, based on relative urgency of need, to be followed in approving applications in the event the funds appropriated under this chapter and remaining available on any such date for payment to local educational agencies are less than the Federal share of the cost of the projects with respect to which applications have been filed prior to such date (and for which funds under this chapter have not already been obligated). Only applications meeting the conditions for approval under this chapter (other than section 636(b)(2)(C) of this title) shall be considered applications for purposes of the preceding sentence. Such order of priority shall provide that applications for payments based upon increases in the number of children residing on, or residing with a parent employed on, property which is part of a low-rent housing project assisted under the United States Housing Act of 1937 shall not be approved for any fiscal year until all other applications under paragraphs (2) and (3) of subsection (a) of section 635 of this title have been approved for that fiscal year. (Sept. 23, 1950, ch. 995, § 3, as added Aug. 12, 1958, Pub. L. 85-620, title I, § 101, 72 Stat. 548, and amended Oct. 3, 1961, Pub. L. 87-344, title I, § 101(a), 75 Stat. 759; Dec. 18, 1963, Pub. L. 88-210, title III, § 301(a), formerly § 31(a), 77 Stat. 419, renumbered Oct. 16, 1968, Pub. L. 90-576, title I, § 101(a)(1), 82 Stat. 1064; Oct. 16, 1964, Pub. L. 88-665, title XI, § 1101(a), 78 Stat. 1109; Nov. 3, 1966, Pub. L. 89-750, title II, § 221, 80 Stat. 1213; Jan. 2, 1968, Pub. L. 90-247, title III, § 301(d)(1), 81 Stat. 813; Apr. 13, 1970, Pub. L. 91-230, title II, §§ 201(a)(1), 203(c)(3), 84 Stat. 154, 156.)

§ 634. Federal share of cost for any project.

Subject to section 635 of this title (which imposes limitations on the total of the payments which may be made to any local educational agency), the Federal share of the cost of a project under this chapter shall be equal to such cost, but in no case to exceed the cost, in the school district of the applicant, of constructing minimum school facilities, and in no case to exceed the cost in such district of constructing minimum school facilities for the estimated number of children who will be in the membership of the schools of such agency at the close of the second year following the increase period and who will otherwise be without such facilities at such time. For the purposes of the preceding sentence, the number of such children who will otherwise be without such facilities at such time shall be determined by reference to those facilities which (1) are built or under contract as of the date on which the Commissioner set, under section 633 of this title, the earliest date on or before which the application for such project was filed, or (2) as of the date the application for such project is approved, are included in a project the application for which has been approved under this chapter. (Sept. 23, 1950, ch. 995, § 4, as added Aug. 12, 1958, Pub. L. 85-620, title I, § 101, 72 Stat. 549, and amended Nov. 3, 1966, Pub. L. 89-750, title II, § 224, 80 Stat. 1214.)

§ 635. Limitation on total payments to local agencies.

(a) Determination by categories of Federally-connected children.

Subject to the limitations in subsection (c) and (d) of this section, the total of the payments to a local educational agency under this chapter may not exceed the sum of the following:

(1) the estimated increase, since the base year, in the number of children residing on Federal property, (A) who so resided with a parent employed on Federal property (situated in whole or in part in the same State as the school district of such agency or within reasonable commuting distance from such school district), or (B) who had a parent who was on active duty in the uniformed services (as defined in section 102 of the Career Compensation Act of 1949), multiplied by 95 per centum of the average per pupil cost of constructing minimum school facilities in the State in which the school district of such agency is situated; and

(2) the estimated increase, since the base year, in the number of children (A) residing on Federal property, or (B) residing with a parent employed on Federal property (situated in whole or in part in the same State as the school district of such agency or within reasonable commuting distance from such school district), or (C) who had a parent who was on active duty in the uniformed services (as defined in section 102 of the Career Compensation Act of 1949), multiplied by 50 per centum of the average per pupil cost of constructing minimum school facilities in the State in which the school district of such agency is situated; and

(3) the estimated increase, since the base year, in the number of children whose membership results directly from activities of the United States (carried on either directly or through a contractor), multiplied by 45 per centum of the average per pupil cost of constructing minimum school facilities in the State in which the school district of such agency is situated. For purposes of this paragraph, the Commissioner shall not consider as activities of the United States those activities which are carried on in connection with real property excluded from the definition of Federal property by the last sentence of paragraph (1) of section 645 of this title, but shall (if the local educational agency so elects pursuant to subsection (b) of this section) consider as children whose membership results directly from activities of the United States children residing on Federal property or residing with a parent employed on Federal property; and

(4) for the fiscal year ending June 30, 1967, the estimated number of children, without regard to the limitation in subsection (d) of this section, whose membership in the schools of such local educational agency resulted from a change in residence from land transferred to Mexico as part of a relocation of an international boundary of the United States, multiplied by 50 per centum of the average per pupil cost of constructing minimum school facilities in the State in which the school district of such agency is situated; but if, by reason of any other provision of law, this clause is not considered in computing the maximum payments a local educational agency may receive for the fiscal year ending June 30, 1967, the additional amount such agency would have been entitled to receive shall be added to such agency's entitlement for the first fiscal year for which funds

appropriated to carry out this chapter may be used for such purpose.

In computing for any local educational agency the number of children in an increase under paragraph (1), (2), or (3), the estimated number of children described in such paragraph who will be in the membership of the schools of such agency at the close of the increase period shall be compared with the estimated number of such children in the average daily membership of the schools of such agency during the base year.

(b) Election where two or more categories apply.

If two or more of the paragraphs of subsection (a) of this section apply to a child, the local educational agency shall elect which of such paragraphs shall apply to such child, except that, notwithstanding the election of a local educational agency to have paragraph (2) apply to a child instead of paragraph (1), the determination of the maximum amount for such agency under subsection (a) of this section shall be made without regard to such election.

(c) Eligibility conditions for each category.

A local educational agency shall not be eligible to have any amount included in its maximum by reason of paragraph (1), (2), or (3) of subsection (a) of this section unless the increase in children referred to in such paragraph, prior to the application of the limitation in subsection (d) of this section is at least twenty and—

(1) in the case of paragraph (1) or (2), is—

(A) equal to at least 6 per centum of the number of all children who were in the average daily membership of the schools of such agency during the base year, or

(B) at least one thousand five hundred, whichever is the lesser; and

(2) in the case of paragraph (3), is—

(A) equal to at least 10 per centum of the number of all children who were in the average daily membership of the schools of such agency during the base year, or

(B) at least two thousand five hundred, whichever is the lesser: *Provided*, That no local educational agency shall be regarded as eligible under this paragraph (2) unless the Commissioner finds that the construction of additional minimum school facilities for the number of children in such increase will impose an undue financial burden on the taxing and borrowing authority of such agency.

In determining the eligibility of a local educational agency under this subsection and in determining the number of federally connected children who are in the average daily membership of the schools of such agency during a base year and in estimating the increase since the base year in the number of such children under subsection (a) of this section, children residing on any housing property (whether or not owned by the United States), which is part of a low-rent housing project assisted under the United States Housing Act of 1937, shall not be considered as having been federally connected during the base year if such housing project was begun after the base year of 1964-1965.

(d) Reduction in number of Federally-connected children to be used in computation, in certain cases.

If (1) the estimated number of nonfederally connected children who will be in the membership of the schools of a local educational agency at the close of the increase period is less than (2) 106 per centum of the number of such children who were in the average daily membership of such agency during the base year, the total number of children

counted for purposes of subsection (a) of this section with respect to such agency shall be reduced by the difference between (1) and (2) hereof, except that the number of children counted for the purposes of paragraph (1) or (2) of subsection (a) of this section shall not be reduced by more than one thousand five hundred and that the number of children counted for the purposes of paragraph (3) of subsection (a) of this section shall not be reduced by more than two thousand five hundred. For purposes of this subsection, all children in the membership of a local educational agency shall be counted as nonfederally connected children except children whose membership in the base year and increase period was compared in computing an increase which meets the requirements of subsection (c) of this section.

(e) *Waiver of conditions.*

Notwithstanding the provisions of subsections (c), (d), and (f) of this section, whenever and to the extent that, in his judgment, exceptional circumstances exist which make such action necessary to avoid inequity and avoid defeating the purposes of this chapter, the Commissioner may do any one or more of the following: (1) he may waive or reduce the minimum number requirement or any percentage requirement or requirements in subsection (c) of this section; (2) he may waive the requirement contained in the first sentence of subsection (d) of this section or reduce the percentage specified in clause (2) of such sentence; or (3) he may waive or reduce the requirement contained in subsection (f) of this section.

(f) *Limitation on numerical count of children.*

In determining under this section the total of the payments which may be made to a local educational agency on the basis of any application, the total number of children counted for purposes of paragraph (1), (2), or (3), as the case may be, of subsection (a) of this section may not exceed—

(1) the number of children whose membership at the close of the increase period for the application is compared with membership in the base period for purposes of that paragraph, minus

(2) the number of such children whose membership at the close of the increase period was compared with membership in the base year for purposes of such paragraph under the last previous application, if any, of the agency on the basis of which any payment has been or may be made to that agency.

§ 636. Applications for payment.

(a) *Submission and filing.*

No payment may be made to any local educational agency under this chapter except upon application therefor which is submitted through the appropriate State educational agency and is filed with the Commissioner in accordance with regulations prescribed by him.

(b) *Contents; approval conditions.*

(1) Each application by a local educational agency shall set forth the project for the construction of school facilities for such agency with re-

spect to which it is filed, and shall contain or be supported by—

(A) a description of the project and the site therefor, preliminary drawings of the school facilities to be constructed thereon, and such other information relating to the project as may reasonably be required by the Commissioner;

(B) assurance that such agency has or will have title to the site, or the right to construct upon such site school facilities as specified in the application and to maintain such school facilities on such site for a period of not less than twenty years after the completion of the construction;

(C) assurance that such agency has legal authority to undertake the construction of the project and to finance any non-Federal share of the cost thereof as proposed, and assurance that adequate funds to defray any such non-Federal share will be available when needed;

(D) assurance that such agency will cause work on the project to be commenced within a reasonable time and prosecuted to completion with reasonable diligence;

(E) Repealed. Pub. L. 91-230, title IV, § 401(g)(4), Apr. 13, 1970, 84 Stat. 174.

(F) assurance that the school facilities of such agency will be available to the children for whose education contributions are provided in this chapter on the same terms, in accordance with the laws of the State in which the school district of such agency is situated, as they are available to other children in such school district; and

(G) assurance that such agency will from time to time prior to the completion of the project submit such reports relating to the project as the Commissioner may reasonably require.

(2) The Commissioner shall approve any application if he finds (A) that the requirements of paragraph (1) have been met and that approval of the project would not result in payments in excess of those permitted by sections 634 and 635 of this title, (B) after consultation with the State and local educational agencies, that the project is not inconsistent with overall State plans for the construction of school facilities, and (C) that there are sufficient Federal funds available to pay the Federal share of the cost of such project and of all other projects for which Federal funds have not already been obligated and applications for which, under section 633 of this title, have a higher priority: *Provided*, That the Commissioner may approve any application for payments under this chapter at any time after it is filed and before any priority is established with respect thereto under section 633 of this title if he determines that—

(i) on the basis of information in his possession, it is likely that the urgency of the need of the local educational agency is such that it would have a priority under section 633 of this title which would qualify it for payments under this chapter when such priorities are established, and

(ii) the number of children in the increase under section 635 (a) of this title is in large measure attributable to children who reside or will reside in housing newly constructed on Federal property.

(c) *Hearing.*

No application under this chapter shall be disapproved in whole or in part until the Commissioner of Education has afforded the local educational agency reasonable notice and opportunity for hearing. (Sept. 23, 1950, ch. 995, § 6, as added

Aug. 12, 1958, Pub. L. 85-620, title I, § 101, 72 Stat. 551, and amended Apr. 13, 1970, Pub. L. 91-230, title IV, § 401(g)(4), 84 Stat. 174.)

§ 637. Payments to local agencies; repayment of unexpended funds.

(a) Upon approving the application of any local educational agency under section 636 of this title, the Commissioner of Education shall pay to such agency an amount equal to 10 per centum of the Federal share of the cost of the project. After final drawings and specifications have been approved by the Commissioner of Education and the construction contract has been entered into, the Commissioner shall, in accordance with regulations prescribed by him and at such times and in such installments as may be reasonable, pay to such agency the remainder of the Federal share of the cost of the project.

(b) Any funds paid to a local educational agency under this chapter and not expended for the purposes for which paid shall be repaid to the Treasury of the United States. (Sept. 23, 1950, ch. 995, § 7, as added Aug. 12, 1958, Pub. L. 85-620, title I, § 101, 72 Stat. 552.)

§ 638. Additional payments in unusual cases.

Not to exceed 10 per centum of the sums appropriated pursuant to this chapter for any fiscal year (exclusive of any sums appropriated for administration) may be used by the Commissioner, under regulations prescribed by him, to make grants to local educational agencies where (1) the application of such agencies would be approved under this chapter but for the agencies' inability, unless aided by such grants, to finance the non-Federal share of the cost of the projects set forth in their applications, or (2) although the applications of such agencies have been approved, the projects covered by such applications could not, without such grants, be completed, because of flood, fire, or similar emergency affecting either the work on the projects or the agencies' ability to finance the non-Federal share of the cost of the projects. Such grants shall be in addition to the payments otherwise provided under this chapter, shall be made to those local educational agencies whose need for additional aid is the most urgent and acute, and insofar as practicable shall be made in the same manner and upon the same terms and conditions as such other payments. (Sept. 23, 1950, ch. 995, § 8, as added Aug. 12, 1958, Pub. L. 85-620, title I, § 101, 72 Stat. 552.)

§ 639. Procedure in cases of temporary Federal activities; donation of temporary school facilities.

Notwithstanding sections 631 to 638 of this title, whenever the Commissioner determines that the membership of some or all of the children, who may be included in computing under section 635 of this title the maximum on the total of the payments for any local educational agency, will be of temporary duration only, such membership shall not be included in computing such maximum. Instead, the Commissioner may make available to such agency such temporary school facilities as may be necessary to take care of such membership; or he may, where the local educational agency gives assurance that at least minimum school facilities will be provided for such children, pay (on such terms and conditions as he deems appropriate to carry out the purposes of this chapter) to such agency for use in constructing school facilities an amount equal to the amount which he estimates would be necessary to make available such temporary facilities. In no

case, however, may the amount so paid exceed the cost, in the school district of such agency, of constructing minimum school facilities for such children. The Commissioner may transfer to such agency or its successor all the right, title, and interest of the United States in and to any temporary facilities made available to such agency under this section (or section 309 of this Act as in effect January 1, 1958); any such transfer shall be without charge, but may be made on such other terms and conditions, and at such time as the Commissioner deems appropriate to carry out the purposes of this chapter. (Sept. 23, 1950, ch. 995, § 9, as added Aug. 12, 1958, Pub. L. 85-620, title I, § 101, 72 Stat. 553.)

§ 640. Children for whom local agencies are unable to provide education.

(a) Provision for minimum school facilities.

In the case of children who it is estimated by the Commissioner in any fiscal year will reside on Federal property at the end of the next fiscal year—

(1) if no tax revenues of the State or any political subdivision thereof may be expended for the free public education of such children; or
(2) if it is the judgment of the Commissioner, after he has consulted with the appropriate State educational agency, that no local educational agency is able to provide suitable free public education for such children,

the Commissioner shall make arrangements for constructing or otherwise providing the minimum school facilities necessary for the education of such children. In any case in which the Commissioner makes arrangements under this section for constructing or otherwise providing minimum school facilities situated on Federal property in Puerto Rico, Wake Island, Guam, or the Virgin Islands, he may also include minimum school facilities necessary for the education of children residing with a parent employed by the United States though not residing on Federal property, but only if the Commissioner determines, after consultation with the appropriate State educational agency, (1) that the construction or provision of such facilities is appropriate to carry out the purposes of this chapter, (2) that no local educational agency is able to provide suitable free public education for such children, and (3) that English is not the primary language of instruction in schools in the locality. Such arrangements may also be made to provide, on a temporary basis, minimum school facilities for children of members of the Armed Forces on active duty, if the school in which free public education is usually provided for such children is made unavailable to them as a result of official action by State or local governmental authority and it is the judgment of the Commissioner, after he has consulted with the appropriate State educational agency, that no local educational agency is able to provide suitable free public education for such children. To the maximum extent practicable school facilities provided under this section shall be comparable to minimum school facilities provided for children in comparable communities in the State. This section shall not apply (A) to children who reside on Federal property under the control of the Atomic Energy Commission, and (B) to Indian children attending federally operated Indian schools. Whenever it is necessary for the Commissioner to provide school facilities for children residing on Federal property under this section, the membership of such children may not be included in computing under section 635 of

this title the maximum on the total of the payments for any local educational agency.

(b) *Transfer in the Federal interest of title of facilities to local educational agencies.*

When the Commissioner determines it is in the interest of the Federal Government to do so, he may transfer to the appropriate local educational agency all the right, title, and interest of the United States in and to any facilities provided under this section (or sections 204 or 310 of this Act as in effect January 1, 1958). Any such transfer shall be without charge, but may be made on such other terms and conditions, and at such time as the Commissioner deems appropriate to carry out the purposes of this chapter.

(c) *Children living on Federal property.*

If no tax revenues of a State or of any political subdivision of the State may be expended for the free public education of children who reside on any Federal property within the State, or if no tax revenues of a State are allocated for the free public education of such children, then the property on which such children reside shall not be considered Federal property for the purposes of section 635 of this title (Sept. 23, 1950, ch. 995, § 10, as added Aug. 12, 1958, Pub. L. 85-620, title I, § 101, 72 Stat. 553, and amended May 6, 1960, Pub. L. 86-449, title V, § 502, 74 Stat. 89; July 21, 1965, Pub. L. 89-77, § 1, 79 Stat. 243; Nov. 3, 1966, Pub. L. 89-750, title II, §§ 228, 229, 80 Stat. 1215.)

§ 641. Withholding of payments for noncompliance; judicial review of Commissioner's action in disapproving applications or withholding payments.

(a) Whenever the Commissioner of Education, after reasonable notice and opportunity for hearing to a local educational agency, finds (1) that there is a substantial failure to comply with the drawings and specifications for the project, (2) that any funds paid to a local educational agency under this chapter have been diverted from the purposes for which paid, or (3) that any assurance given in an application is not being or cannot be carried out, the Commissioner may forthwith notify such agency that no further payment will be made under this chapter with respect to such agency until there is no longer any failure to comply or the diversion or default has been corrected or, if compliance or correction is impossible, until such agency repays or arranges for the repayment of Federal moneys which have been diverted or improperly expended.

(b) The final refusal of the Commission to approve part or all of any application under this chapter, and the Commissioner's final action under subsection (a) of this section, shall be subject to judicial review on the record, in the United States court of appeals for the circuit in which the local educational agency is located, in accordance with the provisions of the Administrative Procedure Act. (Sept. 23, 1950, ch. 995, § 11, as added Aug. 12, 1958, Pub. L. 85-620, title I, § 101, 72 Stat. 554.)

§ 642. Administration of chapter; supervision of schools; regulations; reports; prevailing wage provisions.

(a) Repealed, Pub. L. 91-230, title IV, § 401(f)(3), Apr. 13, 1970, 84 Stat. 173.

(b) The Commissioner of Education shall administer this chapter, and he may make such regulations and perform such other functions as he finds necessary to carry out the provisions of this chapter.

(c) The Commissioner shall include in his an-

nual report to the Congress a full report of the administration of his functions under this chapter, including a detailed statement of receipts and disbursements. (Sept. 23, 1950, ch. 995, § 12, as added Aug. 12, 1958, Pub. L. 85-620, title I, § 101, 72 Stat. 554, and amended Apr. 13, 1970, Pub. L. 91-230, title IV, § 401(f)(3), (g)(4), 84 Stat. 173, 174.)

§ 643. Information to Commissioner; transfer and availability of appropriations.

(a) Repealed, Pub. L. 91-230, title IV, § 401(c)(3), Apr. 13, 1970, 84 Stat. 173.

(b) All Federal departments or agencies administering Federal property on which children reside, and all such departments or agencies principally responsible for Federal activities which may give rise to a need for the construction of school facilities, shall to the maximum extent practicable, comply with requests of the Commissioner for information he may require in carrying out the purposes of this chapter.

(c) No appropriation to any department or agency of the United States, other than an appropriation to carry out this chapter, shall be available for the same purpose as this chapter; except that nothing in this subsection shall affect the availability of appropriations authorized, prior to September 23, 1950, for the construction of school facilities to be attended by Indian children or appropriations (1) for the construction of school facilities on Federal property under the control of the Atomic Energy Commission, (2) for the construction of school facilities which are to be federally operated for Indian children, or (3) for the construction of school facilities under the Alaska Public Works Act, approved August 24, 1949. (Sept. 23, 1950, ch. 995, § 13, as added Aug. 12, 1958, Pub. L. 85-620, title I, § 101, 72 Stat. 554, and amended Apr. 13, 1970, Pub. L. 91-230, title IV, § 401(c)(3), 84 Stat. 173.)

§ 644. Assistance in other Federally-affected areas.

(a) *Eligibility requirements due to impairment in financing abilities created by immunity from taxation of Indian lands.*

If the Commissioner determines with respect to any local educational agency that—

(1) such agency is providing or, upon completion of the school facilities for which provision is made herein, will provide free public education for children who reside on Indian lands, and whose membership in the schools of such agency has not formed and will not form the basis for payments under other provisions of this chapter, and that the total number of such children represents a substantial percentage of the total number of children for whom such agency provides free public education, or that such Indian lands constitute a substantial part of the school district of such local educational agency, or that the total number of such children who reside on Indian lands located outside the school district of such agency equals or exceeds 100;

(2) the immunity of such Indian lands to taxation by such agency has created a substantial and continuing impairment of its ability to finance needed school facilities;

(3) such agency is making a reasonable tax effort and is exercising due diligence in availing itself of State and other financial assistance available for the purpose; and

(4) such agency does not have sufficient funds available to it from other Federal, State, and local sources to provide the minimum school

facilities required for free public education of a substantial percentage of the children in the membership of its schools, he may provide the additional assistance necessary to enable such agency to provide such facilities, upon such terms and in such amounts (subject to the provisions of this section) as the Commissioner may consider to be in the public interest; but such additional assistance may not exceed the portion of the cost of such facilities which the Commissioner estimates has not been, and is not to be, recovered by the local educational agency from other sources, including payments by the United States under any other provisions of this chapter or any other law. Notwithstanding the provisions of this subsection, the Commissioner may waive the percentage requirement in paragraph (1) whenever, in his judgment, exceptional circumstances exist which make such action necessary to avoid inequity and avoid defeating the purposes of this section. Assistance may be furnished under this subsection without regard to paragraph (2) (but subject to the other provisions of this subsection and subsection (e) of this section) to any local educational agency which provides free public education for children who reside on Indian lands located outside its school district. For purposes of this subsection "Indian lands" means Indian reservations or other real property referred to in this second sentence of section 645 (1) of this title.

(b) *Alternative eligibility requirements due to impairment in financing abilities created by immunity from taxation of Indian lands.*

If the Commissioner determines with respect to any local educational agency that—

(1) such agency is providing or, upon completion of the school facilities for which provision is made herein, will provide free public education for children who reside on Indian lands, and whose membership in the schools of such agency has not formed and will not form the basis for payments under other provisions of this chapter, and that the total number of such children represents a substantial percentage of the total number of children for whom such agency provides free public education, or that such Indian lands constitute a substantial part of the school district of such local educational agency, or that the total number of such children who reside on Indian lands located outside the school district of such agency equals or exceeds one hundred; and

(2) the immunity of such Indian lands to taxation by such agency has created a substantial and continuing impairment of its ability to finance needed school facilities;

he may, upon such terms and in such amounts (subject to the provisions of this section) as the Commissioner may consider to be in the public interest, provide the additional assistance necessary to enable such agency to provide the minimum school facilities required for free public education of children in the membership of the schools of such agency who reside on Indian lands; but such additional assistance may not exceed the portion of the cost of constructing such facilities which the Commissioner estimates has not been, and is not to be, recovered by the local educational agency from other sources, including payments by the United States under any other provisions of this chapter or any other law. Notwithstanding the provisions of this subsection, the Commissioner may waive the percentage requirement in paragraph (1) whenever, in his judgment, exceptional circumstances exist which

make such action necessary to avoid inequity and avoid defeating the purposes of this section. Assistance may be furnished under this subsection without regard to paragraph (2) (but subject to the other provisions of this subsection and subsection (e) of this section, to any local educational agency which provides free public education for children who reside on Indian lands located outside its school district. For purposes of this subsection "Indian lands" means Indian reservations or other real property referred to in the second sentence of section 645(1) of this title.

(c) *Eligibility requirements due to impairment in financing abilities created by immunity from taxation of Federal property.*

If the Commissioner determines with respect to any local educational agency—

(1) that (A) such agency is providing or, upon completion of the school facilities for which provision is made herein, will provide, free public education for children who are inadequately housed by minimum school facilities and whose membership in the schools of such agency has not formed and will not form the basis for payments under other provisions of this chapter, and (B) the total number of such children represents a substantial percentage of the total number of children for whom such agency provides free public education, and (C) Federal property constitutes a substantial part of the school district of such agency,

(2) that the immunity of such Federal property from taxation by such agency has created a substantial and continuing impairment of such agency's ability to finance needed school facilities,

(3) that such agency is making a reasonable tax effort and is exercising due diligence in availing itself of State and other financial assistance for the purpose, and

(4) that such agency does not have sufficient funds available to it from other Federal, State, and local sources to provide the minimum school facilities required for free public education of a substantial percentage of the children in the membership of its schools,

he may provide the assistance necessary to enable such agency to provide minimum school facilities for children in the membership of the schools of such agency whom the Commissioner finds to be inadequately housed, upon such terms and conditions, and in such amounts (subject to the applicable provisions of this section) as the Commissioner may consider to be in the public interest. Such assistance may not exceed the portion of the cost of such facilities which the Commissioner estimates has not been, and is not to be, recovered by the local educational agency from other sources, including payments by the United States under any other provisions of this chapter or any other law. Notwithstanding the provisions of this subsection, the Commissioner may waive the percentage requirement in paragraph (1) whenever, in his judgment, exceptional circumstances exist which make such action necessary to avoid inequity and avoid defeating the purposes of this subsection.

(d) *Authorization of appropriations.*

There are authorized to be appropriated for each fiscal year such sums as may be necessary to carry out the provisions of this section. There are also authorized to be appropriated such sums as may be necessary for administration of such provisions. Amounts so appropriated, other than amounts appropriated for administration, shall remain available until expended.

(e) *Applications; priority of approvals; conditions precedent; consultation with agencies.*

No payment may be made to any local educational agency under subsection (a) or (b) of this section except upon application therefor which is submitted through the appropriate State educational agency and is filed with the Commissioner in accordance with regulations prescribed by him, and which meets the requirements of section 636 (b) (1) of this title. In determining the order in which such applications shall be approved, the Commissioner shall consider the relative educational and financial needs of the local educational agencies which have submitted approvable applications and the nature and extent of the Federal responsibility. No payment may be made under subsection (a) or (b) of this section unless the Commissioner finds, after consultation with the State and local educational agencies, that the project or projects with respect to which it is made are not inconsistent with over-all State plans for the construction of school facilities. All determinations made by the Commissioner under this section shall be made only after consultation with the appropriate State educational agency and the local educational agency.

(f) *Payments to local agencies; repayments of unexpended funds.*

Amounts paid by the Commissioner to local educational agencies under subsection (a) or (b) of this section may be paid in advance of, or by way of reimbursement for, work performed or purchases made pursuant to the agreement with the Commissioner under this section, and may be paid in such installments as the Commissioner may determine. Any funds paid to a local educational agency and not expended or otherwise used for the purposes for which paid shall be repaid to the Treasury of the United States.

(g) *Application of sections 631 to 640 of this title.*

None of the provisions of sections 631 to 640 of this title, both inclusive, other than section 636 (b)(1) of this title, shall apply with respect to determinations made under this section.

(h) *Congressional declaration of policy with respect to school construction assistance for Indian children.*

It is hereby declared to be the policy of the Congress that the provision of assistance pursuant to subsections (a) and (b) of this section shall be given a priority at least equal to that given to payments made pursuant to section 640 of this title. (Sept. 23, 1950, ch. 995, § 14, as added Aug. 12, 1958, Pub. L. 85-620, title I, § 101, 72 Stat. 555, and amended Oct. 3, 1961, Pub. tion, increased by a percentage estimated by the Commissioner to represent additional costs for site improvements, equipment, and architectural, engineering, and legal fees, and multiplied by a factor estimated by the Commissioner to represent the area needed per pupil in minimum school facilities. If the Commissioner finds that the information available for the State concerned for such preceding fiscal year is inadequate or not sufficiently representative, he shall determine such cost on the basis of such information as he has available and after consultation with the State educational agency. The cost of constructing minimum school facilities in the school district of a local educational agency shall be determined by the Commissioner, after consultation with the State and local educational agencies, on the basis of such information as may be contained in the application of such local educational agency and such other information as he may obtain.

(10) Whether or not school facilities are minimum school facilities shall be determined by the Commissioner, after consultation with the State and local educational agencies, in accordance with regulations prescribed by him. Such regulations shall (A) require the local educational agency concerned to give due consideration to excellence of architecture and design, (B) provide that no facility shall be disqualified as a minimum school facility because of the inclusion of works of art in the plans thereof if the cost of such works of art does not exceed 1 per centum of the cost of the project, and (C) require compliance with such standards as the Secretary may prescribe or approve in order to insure that facilities constructed with the use of Federal funds under this chapter shall be, to the extent appropriate in view of the uses to be made of the facilities, accessible to and usable by handicapped persons.

The terms upon which payments for such purpose shall be made to the Secretary of

the Interior and the Secretary of Defense shall be determined pursuant to such criteria as the Commissioner determines will best carry out the purposes of this subchapter.

(2) From the sums appropriated for making grants under this subchapter for any fiscal year pursuant to section 841(b) of this title, the Commissioner shall allot \$200,000 to each State and shall allot the remainder of such sums among the States as follows:

(b) It is hereby declared to be in the national interest to accelerate the construction of the Federal-aid highway systems, including the National System of Interstate and Defense Highways, since many of such highways, or portions thereof, are in fact inadequate to meet the needs of local and interstate commerce, for the national and civil defense.

It is hereby declared that the prompt and early completion of the National System of Interstate and Defense Highways, so named because of its primary importance to the national defense and hereafter referred to as the "Interstate System", is essential to the national interest and is one of the most important objectives of this Act. It is the intent of Congress that the Interstate System be completed as nearly as practicable over the period of availability of the twenty years' appropriations authorized for the purpose of expediting its construction, reconstruction, or improvement, inclusive of necessary tunnels and bridges, through the fiscal year ending June 30, 1976, under section 108(b) of the Federal-Aid Highway Act of 1956 (70 Stat. 374), and that the entire system in all States be brought to simultaneous completion. Insofar as possible in consonance with this objective, existing highways located on an interstate route shall be used to the extent that such use is practicable, suitable, and feasible, it being the intent that local needs, to the extent practicable, suitable, and feasible, shall be given equal consideration with the needs of interstate commerce.

(c) It is the sense of Congress that under existing law no part of any sums authorized to be appropriated for expenditure upon any Federal-aid system which has been apportioned pursuant to the provisions of this title shall be impounded or withheld from obligation, for purposes and projects as provided in this title, by any officer or employee in the executive branch of the Federal Government, except such specific sums as may be determined by the Secretary of the Treasury, after consultation with the Secretary of Transportation, are necessary to be withheld from obligation for specific periods of time to assure that sufficient amounts will be available in the Highway Trust Fund to defray the expenditures which will be required to be made from such fund.

(d) No funds authorized to be appropriated from the Highway Trust Fund shall be expended by or on behalf of any Federal department, agency, or instrumentality other than the Federal Highway Administration unless funds for such expenditure are identified and included as a line item in an appropriation Act and are to meet obligations of the United States heretofore or hereafter incurred under this title attributable to the construction of Federal-aid highways or highway planning, research, or development, or as otherwise specifically authorized to be appropriated from the Highway Trust Fund by Federal-aid highway legislation. § 102. Authorizations.

The provisions of this title apply to all unappropriated authorizations contained in prior Acts, and also to all unexpended appropriations, heretofore made, providing for the expenditure of Federal funds upon the Federal-aid systems. All such authorizations and appropriations shall continue in full force and effect, but hereafter obligations entered into and expenditures made pursuant thereto shall be subject to the provisions of this title. (Pub. L. 85-767, Aug. 27, 1958, 72 Stat. 887.)

§ 103. Federal-aid systems.

(a) For the purposes of this title, the four Federal-aid systems, the primary system, the urban system, the secondary system, and the Interstate System, are established and continued pursuant to the provisions of this section.

(b) The Federal-aid primary system shall consist of an adequate system of connected main highways, selected or designated by each State through its State highway department, subject to the approval of the Secretary as provided by subsection (f) of this section. This system shall not exceed 7 per centum of the total highway mileage of such State, exclusive of mileage within national forests, Indian, or other Federal reservations and within urban areas, as shown by the records of the State highway department on November 9, 1921. Whenever provision has been made by any State for the completion and maintenance of 90 per centum of its Federal-aid primary system, as originally designated, said State through its State highway department by and with the approval of the Secretary is authorized to increase the mileage of its Federal-aid primary system by additional mileage equal to not more than 1 per centum of the total mileage of said State as shown by the records on November 9, 1921. Thereafter, it may make like 1 per centum increases in the mileage of its Federal-aid primary system whenever provision has been made for the completion and maintenance of 90 per centum of the entire system, including the additional mileage previously authorized. This system may be located in both rural and urban areas. The mileage limitations in this paragraph shall not apply to the District of Columbia, Hawaii, Alaska, or Puerto Rico.

(c) The Federal-aid secondary system shall be selected by the State highway departments and the appropriate local road officials in cooperation with each other, subject to approval by the Secretary as provided in subsection (f) of this section. In making such selections, farm-to-market roads, rural mail routes, public school bus routes, local rural roads, county roads, township roads, and roads of the county road class may be included, so long as they are not on the Federal-aid primary system or the Interstate System. This system may be located both in rural and urban areas, but any extension of the system into urban areas shall be subject to the condition that such extension pass through the urban area or connect with another Federal-aid system within the urban area.

(d) The Federal-aid urban system shall be established in each urbanized area. The system shall be so located as to serve the major centers of activity, and designed taking into consideration the highest traffic volume corridors, and the longest trips within such area and shall be selected so as

to best serve the goals and objectives of the community as determined by the responsible local officials of such urbanized area based upon the planning process required pursuant to the provisions of section 134 of this title. No route on the Federal-aid urban system shall also be a route on any other Federal-aid system. Each route of the system shall connect with another route on a Federal-aid system. Routes on the Federal-aid urban system shall be selected by the appropriate local officials and the State highway departments in cooperation with each other subject to the approval of the Secretary as provided in subsection (f) of this section. The provisions of chapters 1, 3, and 5 of this title that are applicable to Federal-aid primary highways shall apply to the Federal-aid urban system except as determined by the Secretary to be inconsistent with this subsection.

(e)(1) The Interstate System shall be designated within the United States, including the District of Columbia, and, except as provided in paragraphs (2) and (3) of this subsection, it shall not exceed forty-one thousand miles in total extent. It shall be so located as to connect by routes, as direct as practicable, the principal metropolitan areas, cities, and industrial centers, to serve the national defense, and to the greatest extent possible, to connect at suitable border points with routes of continental importance in the Dominion of Canada and the Republic of Mexico. The routes of this system, to the greatest extent possible, shall be selected by joint action of the State highway departments of each State and the adjoining States, subject to the approval by the Secretary as provided in subsection (f) of this section. All highways or routes included in the Interstate System as finally approved, if not already coincident with the primary system, shall be added to said system without regard to the mileage limitation set forth in subsection (b) of this section. This system may be located both in rural and urban areas.

(2) In addition to the mileage authorized by the first sentence of paragraph (1) of this subsection, there is hereby authorized additional mileage for the Interstate System of two hundred miles, to be used in making modifications or revisions in the Interstate System as provided in this paragraph. Upon the request of a State highway department the Secretary may withdraw his approval of any route or portion thereof on the Interstate System within that State selected and approved in accordance with this title prior to the enactment of this paragraph, if he determines that such route or portion thereof is not essential to completion of a unified and connected Interstate System (including urban routes necessary for metropolitan transportation) and will not be constructed as a part of the Interstate System, and if he receives assurances that the State does not intend to construct a toll road in the traffic corridor which would be served by such route or portion thereof. After the Secretary has withdrawn his approval of any such route or portion thereof the mileage of such route or portion thereof and the additional mileage authorized by the first sentence of this paragraph shall be available for the designation of interstate routes or portions thereof as provided in this subsection. The provisions of this title applicable to the Interstate System shall apply to all mileage designated under the third sentence of this paragraph except that the cost to the United States of the aggregate of all mileage designated under the third sentence of this paragraph shall not exceed the cost to the United

States of the aggregate of all mileage approval for which is withdrawn under the second sentence of this paragraph, as such cost is included in the 1968 Interstate System cost estimate set forth in House Document Numbered 199, Ninetieth Congress, as revised. In considering routes or portions thereof to be added to the Interstate System under the third sentence of this paragraph, the Secretary shall, in consultation with the States and local governments concerned, give due regard to (A) routes or portions thereof in States in which the Secretary has heretofore or hereafter withdrawn his approval of other routes or portions thereof, and (B) the extension of routes which terminate within municipalities served by a single interstate route, so as to provide traffic service entirely through such municipalities.

(3) In addition to the mileage authorized by paragraphs (1) and (2) of this subsection, there is hereby authorized additional mileage of not to exceed 1,500 miles for the designation of routes in the same manner as set forth in paragraph (1), in order to improve the efficiency and service of the Interstate System to better accomplish the purposes of that System.

(f) The Secretary shall have authority to approve in whole or in part the Federal-aid primary system, the Federal-aid secondary system, the Federal-aid urban system, and the Interstate System, as and when such systems or portions thereof are designated, or to require modifications or revisions thereof. No Federal-aid system or portion thereof shall be eligible for projects in which Federal funds participate until approved by the Secretary.

(g) The Secretary, on July 1, 1973, shall remove from designation as a part of the Interstate System every segment of such System for which a State has not established a schedule for the expenditure of funds for completion of construction of such segment within the period of availability of funds authorized to be appropriated for completion of the Interstate System, and with respect to which the State has not provided the Secretary with assurances satisfactory to him that such schedule will be met. Nothing in the preceding sentence shall be construed to prohibit the substitution prior to July 1, 1973, of alternative segments of the Interstate System which will meet the requirements of this title. Any segment of the Interstate System with respect to which a State has not submitted plans, specifications, and estimates for approval by the Secretary by July 1, 1975, shall be removed from designation as a part of the Interstate System. No segment of the Interstate System removed under authority of the preceding sentence shall thereafter be designated as a part of the Interstate System. (Pub. L. 85-767, Aug. 27, 1958, 72 Stat. 887; Pub. L. 86-70, § 21(d)(1), June 25, 1959, 73 Stat. 145; Pub. L. 86-624, § 17(b), (c), July 12, 1960, 74 Stat. 415; Pub. § 120. Federal share payable.

(a) Subject to the provisions of subsection (d) of this section, the Federal share payable on account of any project, financed with primary, secondary, or urban funds, on the Federal-aid primary system, the Federal-aid secondary system, and the Federal-aid urban system shall either (A) not

exceed 70 per centum of the cost of construction, except that in the case of any State containing nontaxable Indian lands, individual and tribal, and public domain lands (both reserved and unreserved) exclusive of national forests and national parks and monuments, exceeding 5 per centum of the total area of all lands therein, the Federal share shall be increased by a percentage of the remaining cost equal to the percentage that the area of all such lands in such State, is of its total area, or (B) not exceed 70 per centum of the cost of construction, except that in the case of any State containing nontaxable Indian lands, individual and tribal, public domain lands (both reserved and unreserved), national forests, and national parks and monuments, the Federal share shall be increased by a percentage of the remaining cost equal to the percentage that the area of all such lands in such State is of its total area, except that the Federal share payable on any project in a State shall not exceed 95 per centum of the total cost of any such project. In any case where a State elects to have the Federal share provided in clause (B) of this subsection, the State must enter into an agreement with the Secretary covering a period of not less than one year, requiring such State to use solely for highway construction purposes (other than paying its share of projects approved under this title) during the period covered by such agreement the difference between the State's share as provided in clause (B) and what its share would be if it elected to pay the share provided in clause (A) for all projects subject to such agreement.

(b) Subject to the provisions of subsection (d) of this section, the Federal share payable on account of any project, financed with interstate funds on the Interstate System, authorized to be appropriated prior to June 29, 1956, shall not exceed 60 per centum of the cost of construction, except that in the case of any State containing unappropriated and unreserved public lands and nontaxable Indian lands, individual and tribal, exceeding 5 per centum of the total area of all lands therein, the Federal share shall be increased by a percentage of the remaining cost equal to the percentage that the area of all such lands in such State, is of its total area. The provisions of subsection (a) of this section shall apply to any project financed with funds authorized by the provisions of section 2 of the Federal-Aid Highway Act of 1952.

(c) Subject to the provisions of subsection (d) of this section, the Federal share payable on account of any project on the Interstate System provided for by funds made available under the provisions of section 108(b) of the Federal-Aid Highway Act of 1956 shall be increased to 90 per centum of the total cost thereof, plus a percentage of the remaining 10 per centum of such cost in any State containing unappropriated and unreserved public lands and nontaxable Indian lands, individual and tribal, exceeding 5 per centum of the total area of all lands therein, equal to the percentage that the area of such lands in such State is of its total area, except that such Federal share payable on any project in any State shall not exceed 95 per centum of the total cost of such project.

(d) The Federal share payable on account of any project for the elimination of hazards of railway-highway crossings, as more fully described and subject to the conditions and limitations set forth in section 130 of this title, may amount to 100 per centum of the cost of construction of such projects, except that not more than 70 per centum of the right-of-way and property damage costs, paid from public funds, on any such project, may be

paid from sums apportioned in accordance with section 104 of this title: *Provided*, That not more than 10 per centum of all the sums apportioned for all the Federal-aid systems for any fiscal year in accordance with section 104 of this title shall be used under this subsection.

(e) The Secretary may rely on a statement from the Secretary of the Interior as to the area of the lands referred to in subsections (a) and (b) of this section. The Secretary of the Interior is authorized and directed to provide such statement annually.

(f) The Federal share payable on account of any repair or reconstruction provided for by funds made available under section 125 of this title shall not exceed 70 per centum of the cost thereof: *Provided*, That, in the case of any State containing nontaxable Indian lands, individual and tribal, and public domain lands (both reserved and unreserved) exclusive of national forests and national parks and monuments exceeding 5 per centum of the total area of all lands therein, the Federal share shall be increased by a percentage of the remaining cost equal to the percentage that the area of all such lands in such State, is of its total area: *Provided further*, That the Federal share payable on account of any repair or reconstruction of forest highways, forest development roads and trails, park roads and trails, parkways, public lands highways, public lands development roads and trails, and Indian reservation roads may amount to 100 per centum of the cost thereof, whether or not such highways, roads or trails are on any Federal-aid highway systems. The Secretary may increase the Federal share payable on account of any repair or reconstruction under this section up to 100 per centum of the replacement cost of a comparable facility if he determines it is in the public interest. As used in this section with respect to bridges and in section 144 of this title, "a comparable facility" shall mean a facility which meets the current geometric and construction standards required for the types and volume of traffic which such facility will carry over its design life. Any project agreement for which the final voucher has not been approved by the Secretary on or before the date of this Act may be modified to provide for the Federal share authorized herein.

(g) The Secretary is authorized to cooperate with the State highway departments and with the Department of the Interior in the construction of Federal-aid highways within Indian reservations and national parks and monuments under the jurisdiction of the Department of the Interior and to pay the amount assumed therefor from the funds apportioned in accordance with section 104 of this title to the State wherein the reservations and national parks and monuments are located.

(h) At the request of any State, the Secretary may from time to time enter into agreements with such State to reimburse the State for the Federal share of the costs of preliminary and construction engineering at an agreed percentage of actual construction costs for each project, in lieu of the actual engineering costs for such project. The Secretary shall annually review each such agreement to insure that such percentage reasonably represents the engineering costs actually incurred by such State. (Pub. L. 85-767, Aug. 27, 1958, 72 Stat. 898; Pub. L. 86-70, § 21(d)(4), (e)(4), June 25, 1959, 73 Stat. 145, 146; Pub. L. 86-342, title I, § 107(b), Sept. 21, 1959, 73 Stat. 613; Pub. § 125. Emergency relief.

(a) An emergency fund is authorized for expenditure by the Secretary, subject to the provisions of this section and section 120 of this title, for (1) the repair or reconstruction of highways, roads, and trails which he shall find have suffered serious damage as the result of (A) natural disaster over a wide area such as by floods, hurricanes, tidal waves, earthquakes, severe storms, or landslides, or (B) catastrophic failures from any cause, in any part of the United States, and (2) the repair or reconstruction of bridges which have been permanently closed to all vehicular traffic by the State after December 31, 1967, and prior to December 31, 1970, because of imminent danger of collapse due to structural deficiencies or physical deterioration. Subject to the following limitations, there is hereby authorized to be appropriated such sums as may be necessary to establish the fund authorized by this section and to replenish it on an annual basis: (1) not more than \$50,000,000 is authorized to be expended in any one fiscal year to carry out this section except that if in any fiscal year the total of all expenditures under this section is less than \$50,000,000, the unexpended balance of such amount shall remain available for expenditure during the next two succeeding fiscal years in addition to amounts otherwise available to carry out this section in such years, and (2) 60 per centum of the expenditures under this section for any fiscal year are authorized to be appropriated from the Highway Trust Fund and the remaining 40 per centum of such expenditures are authorized to be appropriated only from any moneys in the Treasury not otherwise appropriated.

(b) The Secretary may expend funds from the emergency fund herein authorized for the repair or reconstruction of highways on the Federal-aid highway systems, including the Interstate System, in accordance with the provisions of this chapter. Except as to highways, roads, and trails mentioned in subsection (c) of this section, no funds shall be so expended unless the Secretary has received an application therefor from the State highway department, and unless an emergency has been declared by the Governor of the State and concurred in by the Secretary.

(c) The Secretary may expend funds from the emergency fund herein authorized, either independently or in cooperation with any other branch of the Government, State agency, organization, or person, for the repair or reconstruction of forest highways, forest development roads and trails, park roads and trails, parkways, public lands highways, public lands development roads and trails, and Indian reservation roads, whether or not such highways, roads, or trails are on any of the Federal-aid highway systems. (Pub. L. 85-767, Aug. 27, 1958, 72 Stat. 901; Pub. L. 86-342, title I, § 107(a), Sept. 21, 1959, 73 Stat. 612; Pub. L. 89-574, § 9(b), (c), Sept. 13, 1966, 80 Stat. 769; Pub. CHAPTER 2.—OTHER HIGHWAYS

§ 201. Authorizations.

The provision of this title shall apply to all unappropriated authorizations contained in prior

Acts, and also to all unexpended appropriations heretofore made, providing for the expenditure of Federal funds on the following classes of highways: forest highways, forest development roads and trails, park roads and trails, parkways, Indian reservation roads, public lands highways, and defense access roads. All such authorizations and appropriations shall continue in full force and effect, but hereafter obligations entered into and expenditures made pursuant thereto shall be subject to the provisions of this title. (Pub. L. 85-767, Aug. 27, 1958, 72 Stat. 906.)

§ 202. Apportionment or allocation.

(a) On or before January 1 next preceding the commencement of each fiscal year, the Secretary shall apportion the sums authorized to be appropriated for such fiscal year for forest highways in the several States, according to the area and value of the land owned by the United States within the national forests therein, which the Secretary of Agriculture is directed to determine and certify to the Secretary from such information, sources, and departments as the Secretary of Agriculture may deem most accurate.

(b) Sums authorized to be appropriated for forest development roads and trails shall be allocated by the Secretary of Agriculture according to the relative needs of the various national forests, taking into consideration the existing transportation facilities, value of timber or other resources served, relative fire danger, and comparative difficulties of road and trail construction.

(c) Sums authorized to be appropriated for public lands highways shall be allocated by the Secretary among those States having unappropriated or unreserved public lands, nontaxable Indian lands, or other Federal reservations, on the basis of need in such States, respectively, as determined by the Secretary upon application of the State highway departments of the respective States. Preference shall be given to those projects which are located on a Federal-aid system. (Pub. L. 85-767, Aug. 27, 1958, 72 Stat. 906.)

§ 203. Availability of funds.

Funds authorized for forest highways, forest development roads and trails, public lands development roads and trails, park roads and trails, parkways, Indian reservation roads, and public lands highways shall be available for contract upon apportionment, or a date not earlier than one year preceding the beginning of the fiscal year for which authorized if no apportionment is required. Any amount remaining unexpended for

a period of two years after the close of the fiscal year for which authorized shall lapse. The Secretary of the Department charged with the administration of such funds is granted authority to incur obligations, approve projects, and enter into contracts under such authorizations and his action in doing so shall be deemed a contractual obligation of the United States for the payment of the cost thereof and such funds shall be deemed to have been expended when so obligated. Any funds heretofore or hereafter authorized for any fiscal year for forest highways, forest development roads and trails, public lands development roads and trails, park roads and trails, parkways, Indian roads and public lands highways shall be deemed to have been expended if a sum equal to the total of the sums authorized for such fiscal year and previous fiscal years since and including the fiscal year ending June 30, 1955, shall have been obligated. Any of such funds released by payment of final voucher or modification of project authorizations shall be credited to the balance of unobligated authorizations and be immediately available for expenditure. (Pub. L. 85-767, Aug. 27, 1958, 72 Stat. 906; Pub. L. 86-657, § 8(b), July 14, 1960, 74 Stat. 524; Pub. L. 87-866, § 7, Oct. 23, 1962, 76 Stat. 1147.)

§ 208. Indian reservation roads.

(a) Funds available for Indian reservation roads and bridges shall be used to pay for the cost of construction and improvement thereof.

(b) The Secretary shall approve the location, type, and design of all projects for Indian reservation roads and bridges before any expenditures are made thereon and all construction thereof shall be under the general supervision of the Secretary.

(c) Indian labor may be employed in such construction and improvement under such rules and regulations as may be prescribed by the Secretary of the Interior.

(d) Cooperation of States, counties, or other local subdivisions may be accepted in such construction and improvement, and any funds, received from a State, county, or local subdivision shall be credited to appropriations available for Indian reservation roads and bridges. (Pub. L. 85-767, Aug. 27, 1958, 72 Stat. 908; Pub. L. 87-282, Sept. 22, 1961, 75 Stat. 584.)

Title 30.—Mineral Lands and Mining

CHAPTER 7.—LEASE OF MINERAL DEPOSITS WITHIN ACQUIRED LANDS

§ 351. Definitions.

As used in this chapter "United States" includes Alaska. "Acquired lands" or "lands acquired by the United States" include all lands heretofore or hereafter acquired by the United States to which the "mineral leasing laws" have not been extended, including such lands acquired under the provisions of sections 480, 500, 513 to 519, 521, 552, and 563 of Title 16. "Secretary" means the Secretary of the Interior. "Mineral

leasing laws" shall mean the Act of October 20, 1914; the Act of February 25, 1920; the Act of April 17, 1926; the Act of February 7, 1927, and all Acts heretofore or hereafter enacted which are amendatory of or supplementary to any of the foregoing Acts. "Lease" includes "prospecting permit" unless the context otherwise requires. (Aug. 7, 1947, ch. 513, § 2, 61 Stat. 913.)

§ 352. Deposits subject to lease; consent of department heads; lands excluded.

Except where lands have been acquired by the United States for the development of the mineral deposits, by foreclosure or otherwise for resale, or reported as surplus pursuant to the provisions of

the Surplus Property Act of 1944, all deposits of coal, phosphate, oil, oil shale, gas, sodium, potassium, and sulfur which are owned or may hereafter be acquired by the United States and which are within the lands acquired by the United States (exclusive of such deposits in such acquired lands as are (a) situated within incorporated cities, towns and villages, national parks or monuments, (b) set apart for military or naval purposes, or (c) tidelands or submerged lands) may be leased by the Secretary under the same conditions as contained in the leasing provisions of the mineral leasing laws, subject to the provisions hereof. The provisions of sections 271 to 276 of this title shall apply to deposits of sulfur covered by this chapter wherever situated. No mineral deposit covered by this section shall be leased except with the consent of the head of the executive department, independent establishment, or instrumentality having jurisdiction over the lands containing such deposit, or holding a mortgage or deed of trust secured by such lands which is unsatisfied of record, and subject to such conditions as that official may prescribe to insure the adequate utilization of the lands for the primary purposes for which they have been acquired or are being administered: *Provided*, That nothing in this chapter is intended, or shall be construed, to apply to or in any manner affect any mineral rights, exploration permits, leases or conveyances nor minerals that are or may be in any tidelands; or submerged lands; or in lands underlying the three mile zone or belt involved in the case of the United States of America against the State of California now pending on application for rehearing in the Supreme Court of the United States; or in lands underlying such three mile zone or belt, or the continental shelf, adjacent or littoral to any part of the land within the jurisdiction of the United States of America. (Aug. 7, 1947, ch. 513, § 3, 61 Stat. 914.)

§ 353. Sale of lands unaffected; reservation of mineral rights; sale subject to prior lease; naval petroleum reserves unaffected.

Nothing herein contained shall be deemed or construed to (a) amend, modify, or change any existing law authorizing or requiring the sale of acquired lands, or (b) empower any commission, bureau, or agency of the Government to make a reservation of the minerals in the sale of any acquired land: *Provided*, That any such sale or conveyance of lands shall be made by the agency having jurisdiction thereof, subject to any lease theretofore made, covering the mineral deposits underlying such lands: *Provided further*, That nothing in this chapter is intended, or shall be construed to affect in any manner any provision of the Act of June 30, 1938 (32 Stat. 1252), amending the Act of June 4, 1920 (41 Stat. 813). (Aug. 7, 1947, ch. 513, § 4, 61 Stat. 914.)

§ 354. Lease of partial or future interests in deposits.

Where the United States does not own all of the mineral deposits under any lands sought to be leased and which are affected by this chapter, the Secretary is authorized to lease the interest of the United States in any such mineral deposits when, in the judgment of the Secretary, the public interest will be best served thereby; subject, however, to the provisions of section 352 of this title. Where the United States does not own any interest or owns less than a full interest in the minerals that may be produced from any lands sought to be leased, and which are or will be affected by this chapter and where, under the provisions of its

acquisition, the United States is to acquire all or any part of such mineral deposits in the future, the Secretary may lease any interest of the United States then owned or to be acquired in the future in the same manner as provided in the preceding sentence. (Aug. 7, 1947, ch. 513, § 5, 61 Stat. 914.)

§ 355. Disposition of receipts.

All receipts derived from leases issued under the authority of this chapter shall be paid into the same funds or accounts in the Treasury and shall be distributed in the same manner as prescribed for other receipts from the lands affected by the lease, the intention of this provision being that this chapter shall not affect the distribution of receipts pursuant to legislation applicable to such lands: *Provided, however*, That receipts from leases or permits for minerals in lands set apart for Indian use, including lands the jurisdiction of which has been transferred to the Department of the Interior by the Executive order for Indian use, shall be deposited in a special fund in the Treasury until final disposition thereof by the Congress. (Aug. 7, 1947, ch. 513, § 6, 61 Stat. 915.)

§ 356. Furnishing description of lands and title documents; recordation of documents; authenticated copies.

Upon request by the Secretary, the heads of all executive departments, independent establishments, or instrumentalities having jurisdiction over any of the lands referred to in section 351 of this title shall furnish to the Secretary the legal description of all of such lands, and all pertinent abstracts, title papers, and other documents in the possession of such agencies concerning the status of the title of the United States to the mineral deposits that may be found in such lands.

Abstracts, title papers, and other documents furnished to the Secretary under this section shall be recorded promptly in the Bureau of Land Management in such form as the Secretary shall deem adequate for their preservation and use in the administration of this chapter, whereupon the originals shall be returned promptly to the agency from which they were received. Duly authenticated copies of any such abstracts, title papers, or other documents may, however, be furnished to the Secretary, in lieu of the originals, in the discretion of the agency concerned. (Aug. 7, 1947, ch. 513, § 7, 61 Stat. 915.)

§ 357. State or local government rights; taxation.

Nothing contained in this chapter shall be construed to affect the rights of the State or other local authorities to exercise any right which they may have with respect to properties covered by leases issued under this chapter, including the right to levy and collect taxes upon improvements, output of mines, or other rights, property, or assets of any lessee of the United States. (Aug. 7, 1947, ch. 513, § 8, 61 Stat. 915.)

§ 358. Rights under prior leases; priority of pending applications; exchange of leases.

Nothing in this chapter shall affect any rights acquired by any lessee of lands subject to this chapter under the law as it existed prior to August 7, 1947, and such rights shall be governed by the law in effect at the time of their acquisition; but any person qualified to hold a lease who, on August 7, 1947, had pending an application for an oil and gas lease for any lands subject to this chapter which on the date the application was filed was not situated within the known geologic

structure of a producing oil or gas field, shall have a preference right over others to a lease of such lands without competitive bidding. Any person holding a lease on lands subject hereto, which lease was issued prior to August 7, 1947, shall be entitled to exchange such lease for a new lease issued under the provisions of this chapter, at any time prior to the expiration of such existing lease. (Aug. 7, 1947, ch. 513, § 9, 61 Stat. 915.)

§ 359. Rules and regulations.

The Secretary of the Interior is authorized to prescribe such rules and regulations as are necessary and appropriate to carry out the purposes of this chapter, which rules and regulations shall be the same as those prescribed under the mineral leasing laws to the extent that they are applicable. (Aug. 7, 1947, ch. 513, § 10, 61 Stat. 915.)

Title 33.—Navigation and Navigable Waters

CHAPTER 23.—POLLUTION CONTROL OF NAVIGABLE WATERS

§ 1151. Congressional declaration of policy in controlling water pollution; right of States to waters.

(a) The purpose of this chapter is to enhance the quality and value of our water resources and to establish a national policy for the prevention, control, and abatement of water pollution.

(b) In connection with the exercise of jurisdiction over the waterways of the Nation and in consequence of the benefits resulting to the public health and welfare by the prevention and control of water pollution, it is declared to be the policy of Congress to recognize, preserve, and protect the primary responsibilities and rights of the States in preventing and controlling water pollution, to support and aid technical research relating to the prevention and control of water pollution, and to provide Federal technical services and financial aid to State and interstate agencies and to municipalities in connection with the prevention and control of water pollution. The Administrator of the Environmental Protection Agency (hereinafter in this chapter called "Administrator") shall administer this chapter through the Environmental Protection Agency. The Secretary of Health, Education, and Welfare shall supervise and direct the administration of all functions of the Department of Health, Education, and Welfare which relate to water pollution.

(c) Nothing in this chapter shall be construed as impairing or in any manner affecting any right or jurisdiction of the States with respect to the waters (including boundary waters) of such States. (June 30, 1948, ch. 758, § 1, 62 Stat. 1155; July 9, 1956, ch. 518, § 1, 70 Stat. 498; July 20, 1961, Pub. L. 87-88, § 1(a), 75 Stat. 204; Oct. 2, 1965, Pub. § 1153 Comprehensive water pollution programs.

(a) *Preparation or development of programs; cooperation with other agencies.*

The Administrator shall, after careful investigation, and in cooperation with other Federal agencies, with State water pollution control agencies and interstate agencies, and with the municipalities and industries involved, prepare or develop comprehensive programs for eliminating or reducing the pollution of interstate waters and tributaries thereof and improving the sanitary condition of surface and underground waters. In the development of such comprehensive programs

due regard shall be given to the improvements which are necessary to conserve such waters for public water supplies, propagation of fish and aquatic life and wildlife, recreational purposes, and agricultural, industrial, and other legitimate use. For the purpose of this section, the Administrator is authorized to make joint investigations with any such agencies of the condition of any waters in any State or States, and of the discharges of any sewage, industrial wastes, or substance which may adversely affect such waters.

(b) *Storage for regulation of streamflow; water quality control; costs.*

(1) In the survey or planning of any reservoir by the Corps of Engineers, Bureau of Reclamation, or other Federal agency, consideration shall be given to inclusion of storage for regulation of streamflow for the purpose of water quality control, except that any such storage, and water releases shall not be provided as a substitute for adequate treatment or other methods of controlling waste at the source.

(2) The need for and the value of storage for this purpose shall be determined by these agencies, with the advice of the Administrator, and his views on these matters shall be set forth in any report or presentation to the Congress proposing authorization or construction of any reservoir including such storage.

(3) The value of such storage shall be taken into account in determining the economic value of the entire project of which it is a part, and costs shall be allocated to the purpose of water quality control in a manner which will insure that all project purposes share equitably in the benefits of multiple-purpose construction.

(4) Costs of water quality control features incorporated in any Federal reservoir or other impoundment under the provisions of this chapter shall be determined and the beneficiaries identified and if the benefits are widespread or national in scope, the costs of such features shall be non-reimbursable.

(c) *Grants for administrative expenses of planning agencies; comprehensive pollution control and abatement plans for basins.*

(1) The Administrator shall, at the request of the Governor of a State, or a majority of the governors when more than one State is involved, make a grant to pay not to exceed 50 per centum of the administrative expenses of a planning agency for a period not to exceed 3 years, if such agency provides for adequate representation of appropriate State, interstate, local, or (when appropriate) international, interest in the basin or portion thereof involved and is capable of developing an effective, comprehensive water quality control and abatement plan for a basin.

(2) Each planning agency receiving a grant

under this subsection shall develop a comprehensive pollution control and abatement plan for the basin which—

(A) is consistent with any applicable water quality standards established pursuant to current law within the basin;

(B) recommends such treatment works and sewer systems as will provide the most effective and economical means of collection, storage, treatment, and purification of wastes and recommends means to encourage both municipal and industrial use of such works and systems; and

(C) recommends maintenance and improvement of water quality standards within the basin or portion thereof and recommends methods of adequately financing those facilities as may be necessary to implement the plan.

(3) For the purposes of this subsection the term "basin" includes, but is not limited to, rivers and their tributaries, streams, coastal waters, sounds, estuaries, bays, lakes, and portions thereof, as well as the lands drained thereby (June 30, 1948, ch. 758, § 3, formerly § 2, 62 Stat. 1155; July 9, 1956, ch. 518, § 1, 70 Stat. 498; July 20, 1961, Pub. L. 87-88, §§ 1(b), 2, 75 Stat. 204; renumbered Oct. 2, 1965, Pub. L. 89-234, § 2(a), 79 Stat. 903, and amended Nov. 3, 1966, Pub. L. 89-753, title I, § 101, 80 Stat. 1246; 1970 Reorg. Plan No. 3, § 2(a)(1), eff. Dec. 2, 1970, 35 F.R. 15623, 84 Stat. —.)

§ 1154. Interstate cooperation; uniform State laws; State compacts; consent of Congress to compacts.

(a) The Administrator shall encourage cooperative activities by the States for the prevention and control of water pollution; encourage the enactment of improved and, so far as practicable, uniform State laws relating to the prevention and control of water pollution; and encourage compacts between States for the prevention and control of water pollution.

(b) The consent of the Congress is given to two or more States to negotiate and enter into agreements or compacts, not in conflict with any law or treaty of the United States, for (1) cooperative effort and mutual assistance for the prevention and control of water pollution and the enforcement of their respective laws relating thereto, and (2) the establishment of such agencies, joint or otherwise, as they may deem desirable for making effective such agreements and compacts. No such agreement or compact shall be binding or obligatory upon any State a party thereto unless and until it has been approved by the Congress. (June 30, 1948, ch. 758, § 4, formerly § 3, 62 Stat. 1157; July 9, 1956, ch. 518, § 1, 70 Stat. 498; July 20, 1961, Pub. L. 87-88, § 1(b), 75 Stat. 204; renumbered Oct. 2, 1965, Pub. L. 89-234, § 2(a), 79 Stat. 903; 1970 Reorg. Plan No. 3, § 2(a)(1), eff. Dec. 2, 1970, 35 F.R. 15623, 84 Stat. —.)

§ 1156. Grants for research and development.

(a) *Grants for improvements in disposal method into waters of untreated or inadequately treated sewage or improvements in waste treatment and water purification.*

The Administrator is authorized to make grants to any State, municipality, or intermunicipal or interstate agency for the purpose of—

(1) assisting in the development of any project which will demonstrate a new or improved method of controlling the discharge into any

waters of untreated or inadequately treated sewage or other wastes from sewers which carry storm water or both storm water and sewage or other wastes, or

(2) assisting in the development of any project which will demonstrate advanced waste treatment and water purification methods (including the temporary use of new or improved chemical additives which provide substantial immediate improvement to existing treatment processes) or new or improved methods of joint treatment systems for municipal and industrial wastes, and for the purpose of reports, plans, and specifications in connection therewith.

(b) *Authorization of grants for research and projects to prevent pollution of waters by industry.*

The Administrator is authorized to make grants to persons for research and demonstration projects for prevention of pollution of waters by industry including, but not limited to, treatment of industrial waste.

(c) *Limitations on grants for projects to improve sewage disposal methods and waste treatment and water purification.*

Federal grants under subsection (a) of this section shall be subject to the following limitations:

(1) No grant shall be made for any project pursuant to this section unless such project shall have been approved by the appropriate State water pollution control agency or agencies and by the Administrator;

(2) No grant shall be made for any project in an amount exceeding 75 per centum of the estimated reasonable cost thereof as determined by the Administrator; and

(3) No grant shall be made for any project under this section unless the Administrator determines that such project will serve as a useful demonstration for the purpose set forth in clause (1) or (2) of subsection (a) of this section.

(d) *Limitations on grants for projects to prevent industrial water pollution.*

Federal grants under subsection (b) of this section shall be subject to the following limitations:

(1) No grant shall be made under this section in excess of \$1,000,000;

(2) No grant shall be made for more than 70 per centum of the cost of the project; and

(3) No grant shall be made for any project unless the Administrator determines that such project will serve a useful purpose in the development or demonstration of a new or improved method of treating industrial wastes or otherwise preventing pollution of waters by industry, which method shall have industry-wide application.

(e) *Appropriation of funds.*

For the purposes of this section there are authorized to be appropriated—

(1) for the fiscal year ending June 30, 1966, and for each of the next five succeeding fiscal years, the sum of \$20,000,000 per fiscal year for the purposes set forth in subsections (a) and (b) of this section, including contracts pursuant to such subsections for such purposes;

(2) for the fiscal year ending June 30, 1967, and for each of the next four succeeding fiscal years, the sum of \$20,000,000 per fiscal year for the purpose set forth in clause (2) of subsection (a) of this section; and

(3) for the fiscal year ending June 30, 1967, and for each of the next four succeeding fiscal

years, the sum of \$20,000,000 per fiscal year for the purpose set forth in subsection (b) of this section.

(June 30, 1948, ch. 758, § 6, as added Oct. 2, 1965, Pub. L. 89-234, § 3, Stat. 905, and amended Nov. 3, 1966, Pub. L. 89-753, title II, § 201(a), 80 Stat. 1246; Apr. 3, 1970, Pub. L. 91-224, title I, § 106, 84 Stat. 113; 1970 Reorg. Plan No. 3, § 2(a)(1), eff. Dec. 2, 1970, 35 F.R. 15623, 84 Stat.—.)

§ 1158. Grants for construction of sewerage treatment works.

(a) *Authorization.*

The Administrator is authorized to make grants to any State, municipality, or intermunicipal or interstate agency for the construction of necessary treatment works to prevent the discharge of untreated or inadequately treated sewage or other waste into any waters and for the purpose of reports, plans, and specifications in connection therewith.

(b) *Limitations.*

Federal grants under this section shall be subject to the following limitations: (1) No grant shall be made for any project pursuant to this section unless such project shall have been approved by the appropriate State water pollution control agency or agencies and by the Administrator and unless such project is included in a comprehensive program developed pursuant to this chapter; (2) no grant shall be made for any project in an amount exceeding 30 per centum of the estimated reasonable cost thereof as determined by the Administrator; (3) no grant shall be made unless the grantee agrees to pay the remaining cost; (4) no grant shall be made for any project under this section until the applicant has made provision satisfactory to the Administrator for assuring proper and efficient operation and maintenance of the treatment works after completion of the construction thereof; and (5) no grant shall be made for any project under this section unless such project is in conformity with the State water pollution control plan submitted pursuant to the provisions of section 1157 of this title and has been certified by the appropriate State water pollution control agency as entitled to priority over other eligible projects on the basis of financial as well as water pollution control needs; (6) the percentage limitation of 30 per centum imposed by clause (2) of this subsection shall be increased to a maximum of 40 per centum in the case of grants made under this section from funds allocated for a fiscal year to a State under subsection (c) of this section if the State agrees to pay not less than 30 per centum of the estimated reasonable cost (as determined by the Administrator) of all projects for which Federal grants are to be made under this section from such allocation; (7) the percentage limitations imposed by clause (2) of this subsection shall be increased to a maximum of 50 per centum in the case of grants made under this section from funds allocated for a fiscal year to a State under subsection (c) of this section if the State agrees to pay not less than 25 per centum of the estimated reasonable costs (as determined by the Administrator) of all projects for which Federal grants are to be made under this section from such allocation and if enforceable water quality standards have been established for the waters into which the project discharges, in accordance with section 1160(c) of this title in the case of interstate waters, and under State law in the case of intrastate waters.

(c) *Determination of desirability of projects and of approving Federal financial aid; allotment of funds; determination of population and per capita income.*

In determining the desirability of projects for treatment works and of approving Federal financial aid in connection therewith, consideration shall be given by the Administrator to the public benefits to be derived by the construction and the propriety of Federal aid in such construction, the relation of the ultimate cost of constructing and maintaining the works to the public interest and to the public necessity for the works, and the adequacy of the provisions made or proposed by the applicant for such Federal financial aid for assuring proper and efficient operation and maintenance of the treatment works after completion of the construction thereof. The sums appropriated pursuant to subsection (d) of this section for each fiscal year ending on or before June 30, 1965, and the first \$100,000,000 appropriated pursuant to subsection (d) of this section for each fiscal year beginning on or after July 1, 1965, shall be allotted by the Administrator from time to time, in accordance with regulations, as follows: (1) 50 per centum of such sums in the ratio that the population of each State bears to the population of all the States, and (2) 50 per centum of such sums in the ratio that the quotient obtained by dividing the per capita income of the United States by the per capita income of each State bears to the sum of such quotients for all the States. All sums in excess of \$100,000,000 appropriated pursuant to subsection (d) of this section for each fiscal year beginning on or after July 1, 1965, shall be allotted by the Administrator from time to time, in accordance with regulations, in the ratio that the population of each State bears to the population of all States. Sums allotted to a State under the two preceding sentences which are not obligated within six months following the end of the fiscal year for which they were allotted because of a lack of projects which have been approved by the State water pollution control agency under subsection (b)(1) of this section and certified as entitled to priority under subsection (b)(4) of this section, shall be reallocated by the Administrator on such basis as he determines to be reasonable and equitable and in accordance with regulations promulgated by him, to States having projects approved under this section for which grants have not been made because of lack of funds including States having projects eligible for reimbursement pursuant to the sixth and seventh sentences of this subsection: *Provided, however,* That whenever a State has funds subject to reallocation and the Administrator finds that the need for a project in a community in such State is due in part to any Federal institution or Federal construction activity, he may, prior to such reallocation, make an additional grant with respect to such project which will in his judgment reflect an equitable contribution for the need caused by such Federal institution or activity. Any sum made available to a State by reallocation under the preceding sentence shall be in addition to any funds otherwise allotted to such State under this chapter. The allotments of a State under the second, third, and fourth sentences of this subsection shall be available, in accordance with the provisions of this section, for payments with respect to projects in such State which have been approved under this section, except that in the case of any project on which construction was initiated in such State after June 30, 1966, which was approved by the appropriate State water pollution control agency

and which the Administrator finds meets the requirements of this section but was constructed without such assistance, such allotments for any fiscal year ending prior to July 1, 1971, shall also be available for payments in reimbursement of State or local funds used for such project prior to July 1, 1971, to the extent that assistance could have been provided under this section if such project had been approved pursuant to this section and adequate funds had been available. In the case of any project on which construction was initiated in such State after June 30, 1966, and which was constructed with assistance pursuant to this section but the amount of such assistance was a lesser per centum of the cost of construction than was allowable pursuant to this section, such allotments shall also be available for payments in reimbursement of State or local funds used for such project prior to July 1, 1971, to the extent that assistance could have been provided under this section if adequate funds had been available. Neither a finding by the Administrator that a project meets the requirements of this subsection, nor any other provision of this subsection, shall be construed to constitute a commitment or obligation of the United States to provide funds to make or pay any grant for such project. For purposes of this section, population shall be determined on the basis of the latest decennial census for which figures are available, as certified by the Secretary of Commerce, and per capita income for each State and for the United States shall be determined on the basis of the average of the per capita incomes of the States and of the continental United States for the three most recent consecutive years for which satisfactory data are available from the Department of Commerce.

(d) *Authorization of appropriations.*

There are authorized to be appropriated for each fiscal year through and including the fiscal year ending June 30, 1961, the sum of \$50,000,000 per fiscal year for the purpose of making grants under this section. There are authorized to be appropriated, for the purpose of making grants under this section, \$80,000,000 for the fiscal year ending June 30, 1962, \$90,000,000 for the fiscal year ending June 30, 1963, \$100,000,000 for the fiscal year ending June 30, 1964, \$100,000,000 for the fiscal year ending June 30, 1965, \$150,000,000 for the fiscal year ending June 30, 1966, \$150,000,000 for the fiscal year ending June 30, 1967, \$450,000,000 for the fiscal year ending June 30, 1968, \$700,000,000 for the fiscal year ending June 30, 1969, \$1,000,000,000 for the fiscal year ending June 30, 1970, and \$1,250,000,000 for the fiscal year ending June 30, 1971. Sums so appropriated shall remain available until expended. At least 50 per centum of the funds so appropriated for each fiscal year ending on or before June 30, 1965, and at least 50 per centum of the first \$100,000,000 so appropriated for each fiscal year beginning on or after July 1, 1965, shall be used for grants for the construction of treatment works servicing municipalities of one hundred and twenty-five thousand population or under.

(e) *Method of payment; inclusion of preliminary planning in construction.*

The Administrator shall make payments under this section through the disbursing facilities of the Department of the Treasury. Funds so paid shall be used exclusively to meet the cost of construction of the project for which the amount was paid. As used in this section the term "construction" includes preliminary planning to determine the economic and engineering feasibility of treatment works, the engineering, architectural,

legal, fiscal, and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures, and other action necessary to the construction of treatment works; and the erection, building, acquisition, alteration, remodeling, improvement, or extension of treatment works; and the inspection and supervision of the construction of treatment works.

(f) *Increased grants for urban planning; definition of metropolitan area.*

Notwithstanding any other provisions of this section, the Administrator may increase the amount of a grant made under subsection (b) of this section by an additional 10 per centum of the amount of such grant for any project which has been certified to him by an official State, metropolitan, or regional planning agency empowered under State or local laws or interstate compact to perform metropolitan or regional planning for a metropolitan area within which the assistance is to be used, or other agency or instrumentality designated for such purposes by the Governor (or Governors in the case of interstate planning) as being in conformity with the comprehensive plan developed or in process of development for such metropolitan area. For the purposes of this subsection, the term "metropolitan area" means either (1) a standard metropolitan statistical area as defined by the Office of Management and Budget, except as may be determined by the President as not being appropriate for the purposes hereof, or (2) any urban area, including those surrounding areas that form an economic and socially related region, taking into consideration such factors as present and future population trends and patterns of urban growth, location of transportation facilities and systems, and distribution of industrial, commercial, residential, governmental, institutional, and other activities, which in the opinion of the President lends itself as being appropriate for the purposes hereof.

(g) *Rates of wages for laborers and mechanics.*

The Administrator shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors or subcontractors on projects for which grants are made under this section shall be paid wages at rates not less than those prevailing for the same type of work on similar construction in the immediate locality, as determined by the Secretary of Labor, in accordance with sections 276a to 276a-5 of Title 40. The Secretary of Labor shall have, with respect to the labor standards specified in this subsection, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 and section 276c of Title 40. (June 30, 1948, ch. 758, § 8, formerly § 6, 62 Stat. 1158; July 9, 1956, ch. 518, § 1, 70 Stat. 502; July 20, 1961, Pub. § 461. Comprehensive planning.

(a) *Grants by Secretary; authorization.*

In order to assist State and local governments in solving planning problems, including those resulting from the increasing concentration of population in metropolitan and other urban areas and the outmigration from and lack of coordinated development of resources and services in rural areas; to facilitate comprehensive planning for urban and rural development, including coordinated transportation systems, on a continuing basis by such governments; and to encourage such governments to establish and improve planning staffs and techniques on an areawide basis, and to engage private consultants where their professional services are deemed appropriate by the assisted governments, the Secretary is authorized to make planning grants to—

(1) State planning agencies for the provision of planning assistance to (A) cities and other municipalities having a population of less

than 50,000 according to the latest decennial census, and counties without regard to population: *Provided*, That grants shall be made under this paragraph for planning assistance to counties having a population of 50,000 or more, according to the latest decennial census, which are within metropolitan areas, only if (i) the Secretary finds that planning and plans for such county will be coordinated with the program of comprehensive planning, if any, which is being carried out for the metropolitan area of which the county is a part, and (ii) the aggregate amount of the grants made subject to this proviso does not exceed 15 per centum of the aggregate amount appropriated, after September 2, 1964, for the purposes of this section, (B) any group of adjacent communities, either incorporated or unincorporated, having a total population of less than 50,000 according to the latest decennial census and having common or related urban planning problems, (C) cities, other municipalities, and counties referred to in paragraph (3) of this subsection, and areas referred to in paragraph (4) of this subsection, and (D) Indian reservations;

(4) official governmental planning agencies for areas where rapid urbanization has resulted

or is expected to result from the establishment or rapid and substantial expansion of a Federal installation, or for areas where rapid urbanization is expected to result on land developed or to be developed as a new community under section 1749cc-1 of Title 12 or title IV of the Housing and Urban Development Act of 1968 or under part B of the Urban Growth and New Community Development Act of 1970;

(5) States for State and interstate comprehensive planning and for research and coordination activity related thereto, including technical and other assistance for the establishment and operation of intrastate and interstate planning agencies;

(6) State planning agencies for assistance to district planning, or planning for areas within districts, carried on by or for district planning agencies;

(7) metropolitan and regional planning agencies, with the approval of the State planning agency or (in States where no such planning agency exists) of the Governor of the State, for the provision of planning assistance within the metropolitan area or region to cities, other municipalities, counties, groups of adjacent communities, or Indian reservations described in clauses (A), (B), (C), and (D) of paragraph (1) of this subsection;

(8) official governmental planning agencies for any area where there has occurred a substantial reduction in employment opportunities as the result of (A) the closing (in whole or in part) of a Federal installation, or (B) a decline in the volume of Government orders for the procurement of articles or materials produced or manufactured in such area;

(9) tribal planning councils or other tribal bodies designated by the Secretary of the Interior for planning for an Indian reservation;

(10) the various regional commissions established by the Appalachian Regional Development Act of 1965 or under the Public Works and Economic Development Act of 1965 for comprehensive planning for the regions established under such Acts (or State agencies or instrumentalities participating in such planning); and

(11) local development districts, certified under section 301 of the Appalachian Regional Development Act of 1965, for comprehensive planning for their entire areas, or for metropolitan planning, urban planning, county planning, or small municipality planning within such areas in the Appalachian region, and for planning for Appalachian regional programs.

Planning assisted under this section shall, to the maximum extent feasible, cover entire areas having common or related development problems. The Secretary shall encourage cooperation in preparing and carrying out plans among all interested municipalities, political subdivisions, public agencies, and other parties in order to achieve coordinated development of entire areas. To the maximum extent feasible, pertinent plans and studies already made for areas shall be utilized so as to avoid unnecessary repetition of effort and expense. Planning which may be assisted under this section includes the preparation of comprehensive transportation surveys, studies, and plans to aid in solving problems of traffic congestion, facilitating the circulation of people and goods in metropolitan and other areas and reducing transportation needs. Planning carried out with assistance under this section shall also include a housing element as part of the preparation of comprehensive land use plans, and this consideration of

the housing needs and land use requirements for housing in each comprehensive plan shall take into account all available evidence of the assumptions and statistical bases upon which the project of zoning, community facilities, and population growth is based, so that the housing needs of both the region and the local communities studied in the planning will be adequately covered in terms of existing and prospective in-migrant population growth. Funds available under this section shall be in addition to and may be used jointly with funds available for planning surveys and investigations under other federally aided programs, and nothing contained in this section shall be construed as affecting the authority of the Secretary of Transportation under section 307 of Title 23.

(b) *Maximum amount of grant; terms and conditions; advances or progress payments; appropriations; grants for research on State statutes affecting local governments.*

A planning grant made under subsection (a) of this section shall not exceed two-thirds of the estimated cost of the work for which the grant is made: *Provided*, That such a grant may be made for up to 75 per centum of such estimated cost when made for planning primarily for (1) redevelopment areas, local development districts, or economic development districts, or portions thereof, described in paragraph (3)(A) and (B)(i) and paragraph (11) of subsection (a) of this section, (2) areas described in subsection (a)(4) or subsection (a)(8) of this section, and (3) the various regions, as described in subsection (a)(10) of this section. All grants made under this section shall be subject to terms and conditions prescribed by the Secretary. Except for planning for areas described in subsection (a)(4) of this section, no portion of any grant made under this section shall be used for the preparation of plans for specific public works. The Secretary is authorized, notwithstanding the provisions of section 529 of Title 31, to make advance or progress payments on account of any grant made under this section. There are authorized to be appropriated for the purposes of this section not to exceed \$265,000,000 prior to July 1, 1969, and not to exceed \$420,000,000 prior to July 1, 1972. Of the amount available prior to July 1, 1969, \$20,000,000 may be used only for district planning grants under subsection (a)(6) of this section, which amount shall be increased by \$10,000,000 on July 1, 1969. Any amounts appropriated under this section shall remain available until expended: *Provided*, That, of any funds appropriated under this section, not to exceed an aggregate of \$10,000,000 plus 5 per centum of the funds so appropriated may be used by the Secretary for studies, research, and demonstration projects, undertaken independently or by contract, for the development and improvement of techniques and methods for comprehensive planning and for the advancement of the purposes of this section, and for grants to assist in the conduct of studies and research relating to needed revisions in State statutes which create, govern, or control local governments and local governmental operations.

(c) *Encouragement of planning on a unified regional, district, or metropolitan basis.*

The Secretary is authorized, in areas embracing several municipalities or other political subdivisions, to encourage planning on a unified regional, district, or metropolitan basis and to provide technical assistance for such planning and the solution of problems relating thereto.

(d) *Comprehensive planning.*

It is the further intent of this section to encour-

age comprehensive planning, including transportation planning, for States, cities, counties, metropolitan areas, districts, regions, and Indian reservations and the establishment and development of the organizational units needed therefor. In extending financial assistance under this section, the Secretary may require such assurances as he deems adequate that the appropriate State and local agencies are making reasonable progress in the development of the elements of comprehensive planning. The Secretary is authorized to provide technical assistance to State and local governments and their agencies and instrumentalities, and to Indian tribal bodies, undertaking such planning and, by contract or otherwise, to make studies and publish information on related problems.

(e) *Consultation with officials of Federal Government; technical assistance.*

In the exercise of his responsibilities under this section, the Secretary shall consult with those officials of the Federal Government responsible for the administration of programs of Federal assistance to the State and municipalities for various categories of public facilities and other comprehensively planned activities. He shall, particularly, consult with the Secretary of Agriculture prior to his approval of any district planning grants under subsections (a)(6) and (g) of this section, and with the Secretary of Commerce prior to his approval of any planning grants which include any part of an economic development district as defined and designated under the Public Works and Economic Development Act of 1965. The Secretary of Agriculture and the Secretary of Commerce, as appropriate, may provide technical assistance, with or without reimbursement, in connection with the establishment of districts by the Secretary of Housing and Urban Development and the carrying out of planning by such districts.

(f) *Consent of Congress to agreements or compacts between States for cooperative efforts and mutual assistance in comprehensive planning.*

The consent of the Congress is hereby given to any two or more States to enter into agreements or compacts, not in conflict with any law of the United States, for cooperative effort and mutual assistance in the comprehensive planning for the growth and development of interstate, metropolitan, or other urban areas, and to establish such agencies, joint or otherwise, as they may deem desirable for making effective such agreements and compacts.

(g) *Grants to organizations composed of elected officials representative of political jurisdictions within metropolitan area, region, or district; studies, data, plans, programs, related activities; maximum grants.*

In addition to the planning grants authorized by subsection (a) of this section, the Secretary is further authorized to make grants to organizations composed of public officials representative of the political jurisdictions within the metropolitan area, region, or district for the purpose of assisting such organizations to undertake studies, collect data, develop metropolitan, regional, and district plans and programs, and engage in such other activities, including implementation of such plans, as the Secretary finds necessary or desirable for the solution of the metropolitan, regional, or district problems in such areas, regions, or districts. To the maximum extent feasible, all grants under this subsection shall be for activities relating to all the developmental aspects of the

total metropolitan area, region, or district including, but not limited to, land use, transportation, housing, economic development, natural resources development, community facilities, and the general improvement of living environments. A grant under this subsection shall not exceed two-thirds of the estimated cost of the work for which the grant is made.

(h) *Grants for surveys of historic structures.*

In addition to the other grants authorized by this section, the Secretary is authorized to make grants to assist any city, other municipality, or county in making a survey of the structures and sites in such locality which are determined by its appropriate authorities to be of historic or architectural value. Any such survey shall be designed to identify the historic structures and sites in the locality, determine the cost of their rehabilitation or restoration, and provide such other information as may be necessary or appropriate to serve as a foundation for a balanced and effective program of historic preservation in such locality. The aspects of any such survey which relate to the identification of historic and architectural values shall be conducted in accordance with criteria found by the Secretary to be comparable to those used in establishing the national register maintained by the Secretary of the Interior under other provisions of law; and the results of each such survey shall be made available to the Secretary of the Interior. A grant under this subsection shall not exceed two-thirds of the cost of the survey for which it is made, and shall be made to the appropriate agency or entity specified in paragraphs (1) through (11) or subsection (a) of this section for, if there is no such agency or entity which is qualified and willing to receive the grant and provide for its utilization in accordance with this subsection, directly to the city, other municipality, or county involved.

(i) *Definitions.*

As used in this section—

(1) The term "metropolitan area" means a standard metropolitan statistical area, as established by the Office of Management and Budget, subject, however, to such modifications or extensions as the Secretary deems to be appropriate for the purposes of this section.

(2) The term "region" includes (A) all or part of the area of jurisdiction of one or more units of general local government, and (B) one or more metropolitan areas.

(3) The term "district" includes all or part of the area of jurisdiction of (A) one or more counties, and (B) one or more other units of general local government, but does not include any portion of a metropolitan area.

(4) The term "comprehensive planning" includes the following:

(A) preparation, as a guide for governmental policies and action, of general plans with respect to (i) the pattern and intensity of land use, (ii) the provision of public facilities (including transportation facilities) and other government services, and (iii) the effective development and utilization of human and natural resources;

(B) long-range physical and fiscal plans for such action;

(C) programing of capital improvements and other major expenditures, based on a determination of relative urgency, together with definite financing plans for such expenditures in the earlier years of the program;

(D) coordination of all related plans and ac-

Comprehensive planning for the purpose of districts shall not include planning for or assistance to establishments in relocating from one area to another or assist subcontractors whose purpose is to divest, or whose economic success is dependent upon divesting, other contractors or subcontractors of contracts theretofore customarily performed by them: *Provided*, That this limitation shall not be construed to prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary of such entity, if the Secretary finds that the establishment of such branch, affiliate, or subsidiary will not result in an increase in unemployment in the area of original location or in any other area where such entity conducts business operations, unless the Secretary has reason to believe that such branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where it conducts such operations.

(5) The term "State planning agencies" includes official State planning agencies and (in States where no such planning agency exists) agencies or instrumentalities of State government designated by the Governor of the State and acceptable to the Secretary.

(j) State, regional, and other multijurisdictional area planning.

In carrying out the provisions of this section relating to planning for States, regions, or other multijurisdictional areas whose development has significance for purposes of national growth and urban development objectives, the Secretary shall encourage the formulation of plans and programs which will include the studies, criteria, standards, and implementing procedures necessary for effectively guiding and controlling major decisions as to where growth should take place within such States, regions, or areas. Such plans and programs shall take account of the availability of and need for conserving land and other irreplaceable natural resources; of projected changes in size, movement, and composition of population; of the necessity for expanding housing and employment opportunities; of the opportunities, requirements, and possible locations for, new communities and large-scale projects for expanding or revitalizing existing communities; and of the need for methods of achieving modernization, simplification, and improvements in governmental structures, systems, and procedures related to growth objectives. If the Secretary determines that activities otherwise eligible for assistance under this sec-

tion are necessary to the development or implementation of such plans and programs, he may make grants in support of such activities to any governmental agency or organization of public officials which he determines is capable of carrying out the planning work involved in an effective and efficient manner and may make such grants in an amount equal to not more than 75 per centum of the cost of such activities. § 462. Reserve of planned public works.

(a) *Advances for feasibility studies, surveys, designs, plans, etc.*

In order (1) to encourage municipalities and other public agencies and Indian tribes to maintain at all times a current and adequate reserve of planned public works the construction of which can rapidly be commenced, particularly when the national or local economic situation makes such action desirable, and (2) to help attain maximum economy and efficiency in the planning and construction of public works, the Secretary is authorized to make advances to public agencies and Indian tribes (notwithstanding the provisions of section 529 of Title 31) to aid in financing the cost of feasibility studies, engineering and architectural surveys, designs, plans, working drawings, specifications, or other action preliminary to and in preparation for the construction of public works, including, in the case of public works to be constructed in connection with the development of a medical center, a general plan for the development of such center: *Provided*, That the making of advances hereunder shall not in any way commit the Congress to appropriate funds to assist in financing the construction of any public works so planned: *And provided further*, That advances outstanding to public agencies and Indian tribes in any one State shall at no time exceed 12½ per centum of the aggregate then authorized to be appropriated to the revolving fund established pursuant to subsection (e) of this section.

(b) *Requisites for advances.*

No advance shall be made hereunder with respect to any individual project, including a regional or metropolitan or other area-wide project, unless (1) it is planned to be constructed within or over a reasonable period of time considering the nature of the project, (2) it conforms to an overall State, local, or regional plan approved by a competent State, local, or regional authority, and (3) the public agency or Indian tribe formally contracts with the Federal Government to complete the plan preparation promptly and to repay such advance or part thereof when due.

(c) *Repayment of advances.*

Advances under this section to any public agency or Indian tribe shall be repaid without interest by such agency or tribe when the construction of the public works is undertaken or started: *Provided*, That in the event repayment is not made promptly such unpaid sum shall bear interest at the rate of 4 per centum per annum from the date of the Government's demand for repayment to the date of payment thereof by the public agency or Indian tribe.

(d) *Rules and regulations.*

The Secretary is authorized to prescribe rules and regulations to carry out the purpose of this section.

(e) *Revolving fund.*

In order to provide moneys for advances in accordance with this section, the Secretary is hereby authorized to establish a revolving fund which shall comprise (1) all moneys heretofore or hereafter appropriated pursuant to this section, together with all repayments and other receipts heretofore or hereafter received in connection with advances made under this section, and (2) all repayments and other receipts received after June 30, 1964, and all advances (and claims in connection with advances) outstanding as of such date, under title V of the War Mobilization and Reconversion Act of 1944 and the Act of October 13, 1949. There are authorized to be appropriated to such revolving fund, in addition to amounts authorized to be appropriated for the purposes of this section prior to September 2, 1964, such sums not to exceed \$70,000,000, as may be necessary to carry out the purposes of this section.

(f) *Surveys of public works planning.*

The Secretary is authorized to use during any fiscal year not to exceed \$100,000 of the moneys in the revolving fund (established under subsection (e) of this section) to conduct surveys of the status and current volume of State and local public works planning and surveys of estimated requirements for State and local public works: *Provided*, That the Secretary, in conducting any such survey, may utilize or act through any Federal department or agency with its consent.

(g) *Repayment of advances for projects initiated under Public Works Acceleration Act.*

Notwithstanding any other provision of this section, no advance made under this section for the planning of any public works project shall be required to be repaid if construction of such project is initiated as a result of a grant-in-aid made from an allocation made by the President under the Public Works Acceleration Act.

(h) *Repayment of advances where public agency or Indian tribe undertakes portion of a public work; termination of agreement for advance.*

(1) Notwithstanding any other provision of law, if a public agency or Indian tribe undertakes to construct only a portion of a public work planned with an advance under this section, under title V of the War Mobilization and Reconversion Act of 1944, or under the Act of October 13, 1949, it shall repay only such proportionate amount of the advance relating to the public work as the Secretary determines to be equitable.

(2) The Secretary is authorized to terminate, upon such terms and conditions as he shall deem equitable, all or a portion of the liability for repayment of any advance made under this section, title V of the War Mobilization and Reconversion Act of 1944, or the Act of October 13, 1949. Whenever the Secretary determines that there is no reasonable likelihood that the public work, or a portion of the public work, planned with such advance will be constructed, he may terminate the agreement for the advance. Such determination shall be conclusive and shall be based on standards prescribed by regulations to be issued by the Secretary. (Aug. 2, 1954, ch. 649, title VII, § 702, 68 Stat. 641; Aug. 11, 1955, ch. 783, § 112, 69 Stat. 641; Sept. 23, 1959, Pub. L. 86-372, title VIII, § 801, 73 Stat. 686; June 30, 1961, Pub. Title 42.—The Public Health and Welfare

CHAPTER 8.—LOW-RENT HOUSING

§ 1401. Declaration of policy.

It is declared to be the policy of the United States to promote the general welfare of the Nation by employing its funds and credit, as provided in this chapter, to assist the several States and their political subdivisions to alleviate present and recurring unemployment and to remedy the unsafe and insanitary housing conditions and the acute shortage of decent, safe, and sanitary dwellings for families of low income, in urban, rural nonfarm, and Indian areas, that are injurious to the health, safety, and morals of the citizens of the Nation. In the development of low-rent housing it shall be the policy of the United States to make adequate provision for larger families and for families consisting of elderly persons. It is the policy of the United States to vest in the local public housing agencies the maximum amount of responsibility in the administration of the low-rent housing program, including responsi-

bility for the establishment of rents and eligibility requirements (subject to the approval of the Authority), with due consideration to accomplishing the objectives of this chapter while effecting economies. It is the sense of the Congress that no person should be barred from serving on the board of directors or similar governing body of a local public housing agency because of his tenancy in a low-rent housing project. (Sept. 1, 1937, ch. 896, § 1, 50 Stat. 888; July 15, 1949, ch. 338, title III, § 307(a), 63 Stat. 429; Sept. 23, 1959, Pub. L. 86-372, title V, § 501, 73 Stat. 679; Aug. 1, 1968, Pub. L. 90-448, title II, § 206(a), 82 Stat. 504; Dec. 31, 1970, Pub. L. 91-609, title II, § 211, 84 Stat. 1779.)

§ 1402. Definitions.

When used in this chapter—

(1) *Low-rent housing; eligibility; continued occupancy; income-exclusions and deductions.* The term "low-rent housing" means decent,

safe, and sanitary dwellings within the financial reach of families of low income, and developed and administered to promote serviceability, efficiency, economy, and stability, and embraces all necessary appurtenances thereto. The dwellings in low-rent housing shall be available solely for families of low income. Except as otherwise provided in section 1421b of this title, income limits for occupancy and rents (which may not exceed one-fourth of the family's income, as defined by the Secretary) shall be fixed by the public housing agency and approved by the Authority after taking into consideration (A) the family size, composition, age, physical handicaps, and other factors which might affect the rent-paying ability of the family, and (B) the economic factors which affect the financial stability and solvency of the project.

In defining income for purposes of applying the one-fourth of family income limitation set forth above, the Secretary shall consider income from all sources of each member of the family residing in the household who is at least eighteen years of age; except that (A) nonrecurring income, as determined by the Secretary, and the income of full-time students shall be excluded; (B) an amount equal to the sum of (i) \$300 for each dependent, (ii) \$300 for each secondary wage earner, (iii) 5 per centum of the family's gross income (10 per centum in the case of elderly families), and (iv) those medical expenses of the family properly considered extraordinary shall be deducted; and (C) the Secretary may allow further deductions in recognition of unusual circumstances.

(2) *Families of low income, families, elderly families, displaced families, large families, and families of unusually low income.*

The term "families of low income" means families (including elderly and displaced families) who are in the lowest income group and who cannot afford to pay enough to cause private enterprise in their locality or metropolitan area to build an adequate supply of decent, safe, and sanitary dwellings for their use. The term "families" includes families consisting of a single person in the case of elderly families and displaced families, and includes the remaining member of a tenant family. The term "elderly families" means families whose heads (or their spouses), or whose sole members, have attained the age at which an individual may elect to receive an old-age benefit under title II of the Social Security Act, or are under a disability as defined in section 423 of this title, or are handicapped within the meaning of section 1701q of Title 12. The term "displaced families" means families displaced by urban renewal or other governmental action, or families whose present or former dwellings are situated in areas determined by the Small Business Administration, subsequent to April 1, 1965, to have been affected by a natural disaster, and which have been extensively damaged or destroyed as the result of such disaster. The term "large families" means families which include four or more minors. The term "families of unusually low income" means families with incomes below the income level established by the public housing agency, as approved by the Authority, who could not be housed without the additional subsidy authorized under section 1410(a) of this title.

(3) *Slum.*

The term "slum" means any area where dwellings predominate which, by reason of dilapidation, overcrowding, faulty arrangement or design, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health, or morals.

(4) *Slum clearance.*

The term "slum clearance" means the demolition and removal of buildings from any slum area.

(5) *Development; office space for renewal functions.*

The term "development" means any or all undertakings necessary for planning, land acquisition, demolition, construction, or equipment, in connection with a low-rent housing project. The term "development cost" shall comprise the costs incurred by a public housing agency in such undertakings and their necessary financing (including the payment of carrying charges, but not beyond the point of physical completion), and in otherwise carrying out the development of such project. Construction activity in connection with a low-rent housing project may be confined to the reconstruction, remodeling, or repair of existing buildings. In cases where the public housing agency is also the local public agency for the purposes of title I of the Housing Act of 1949, or in cases where the public housing agency and the local public agency for purposes of such sections operate under a combined central administrative office staff, an administration building included in a low-rent housing project to provide central administrative office facilities may also include sufficient facilities for the administration of the functions of such local public agency, and in such case, the Authority shall require that an economic rent shall be charged for the facilities in such building which are used for the administration of the functions of such local public agency and shall be paid from funds derived from sources other than the low-rent housing projects of such public housing agency.

(11) *Public housing agency.*

The term "public housing agency" means any State, county, municipality, or other governmental entity or public body (excluding the Authority), which is authorized to engage in the development or administration of low-rent housing or slum clearance. No officer or employee of the Department of Housing and Urban Development, in the performance of any such functions, powers, or duties, shall participate in any matter affecting his personal interest or the interest of any corporation, partnership, or association in which he is directly or indirectly interested. § 1410. Annual contributions in assistance of low rentals.

(a) *Authorization.*

The Authority may make annual contributions to public housing agencies to assist in achieving and maintaining the low-rent character of their housing projects. The annual contributions for any such project shall be fixed in uniform

amounts, and shall be paid in such amounts over a fixed period of years. The Authority shall embody the provisions for such annual contributions in a contract guaranteeing their payment over such fixed period: *Provided*, That the Authority may, in addition to the payments guaranteed under the contract, pay not to exceed \$120 per annum per dwelling unit occupied by an elderly family, or a large family, or a family of unusually low income, or a displaced family if such family was displaced by an urban renewal or low-rent housing project on or after January 27, 1964, on the last day of the project fiscal year where such amounts, in the determination of the Authority, was necessary to enable the public housing agency to operate the project on a solvent basis: *Provided further*, That the Authority is authorized to amend or supersede annual contributions contracts to provide payments annually (within the limitations prescribed by this chapter) which the Authority determines are required (1) to assure the low-rent character of the projects involved, and (2) to achieve and maintain adequate operating and maintenance services and reserve funds including payment of outstanding debts. The Authority shall not make any contract for loans (other than preliminary loans) or for annual contributions or for capital grants pursuant to this chapter with respect to any low-rent housing project initiated after March 1, 1949, unless the governing body of the locality involved has entered into an agreement with the public housing agency providing that, subsequent to the initiation of the low-rent housing project and within five years after the completion thereof, there has been or will be elimination, as certified by the local governing body, by demolition, condemnation, effective closing, or compulsory repair or improvement, of unsafe or insanitary dwelling units situated in the locality or metropolitan area substantially equal in number to the number of newly constructed dwelling units provided by such projects: *Provided, however*, That where more than one family is living in an unsafe or insanitary dwelling suit the elimination of such unit shall count as the elimination of units equal to the number of families accommodated therein: *Provided further*, That such elimination may, in the discretion of the Authority be deferred in any locality or metropolitan area where there is an acute shortage of decent, safe, or sanitary housing available to families of low income: *And provided further*, That this requirement shall not apply in the case of any low-rent housing project located in a rural nonfarm area, or to any low-rent housing project developed on the site of a slum cleared subsequent to July 15, 1949, and that the dwelling units which had been eliminated by the clearance of the site of such project shall not be counted as elimination for any other low-rent project.

(b) *Limitation on particular contribution and periods.*

Annual contributions shall be strictly limited to the amounts and periods necessary, in the determination of the Authority, to assure the low-rent character of the housing projects involved. Toward this end the Authority may prescribe regulations fixing the maximum contributions available under different circumstances, giving consideration to cost, location, size, rent-paying ability of prospective tenants, or other factors bearing upon the amounts and periods of assistance needed to achieve and maintain low rentals. Such regulations may provide for rates of contribution based upon development, acquisition or adminis-

tration cost, number of dwelling units, number of persons housed, or other appropriate factors: *Provided*, That the fixed contribution payable annually under any contract, although not limited to debt service requirements, shall in no case exceed a sum equal to the annual yield, at the applicable going Federal rate plus 1 per centum, upon the development or acquisition cost of the low-rent housing or slum-clearance project involved.

(c) *Reduction in annual contributions; duration of contracts.*

Every contract for annual contributions shall provide that whenever in any year the receipts of a public housing agency in connection with a low-rent housing project exceed its expenditures (including debt service, administration, maintenance, establishment of reserves, and other costs and charges), an amount equal to such excess shall be applied, or set aside for application, to purposes which, in the determination of the Authority, will effect a reduction in the amount of subsequent annual contributions. In no case shall any contract for annual contributions be made for a period exceeding sixty years: *Provided*, That, in the case of projects initiated after March 1, 1949, contracts for annual contributions shall not be made for a period exceeding forty years from the date the first annual contribution for the project is paid: *Provided further*, That, in the case of such projects or any other projects with respect to which the contracts for annual contributions (including contracts which amend or supersede contracts previously made) provide for annual contributions for a period not exceeding forty years from the date the first annual contribution for the project is paid, the fixed contribution may exceed the amount provided in the first proviso of subsection (b) of this section by 1 per centum of development or acquisition cost: *And provided further*, That the amount of the fixed annual contribution which would be established under this chapter for a newly constructed project by a public housing agency designed to accommodate a number of families of a given size and kind may be established, as a maximum annual contribution in lieu of any other guaranteed contribution authorized under this section, for a project by such public housing agency which would provide housing for the comparable number, sizes, and kinds of families through the acquisition, acquisition and rehabilitation, or use under lease of structures which are suitable for low-rent housing use and obtainable in the local market.

(d) *Availability of funds.*

All payments of annual contributions pursuant to this section shall be made out of any funds available to the Authority when such payments are due, except that its capital and its funds obtained through the issuance of obligations pursuant to section 1420 of this title (including repayments or other realizations of the principal of loans made out of such capital and funds) shall not be available for the payment of such annual contributions.

(e) *Limitation on aggregate contractual contributions.*

The Authority is authorized to enter into contracts for annual contributions aggregating not more than \$554,250,000 per annum, which limit shall be increased by \$100,000,000 on August 1, 1968, and by further amounts of \$225,000,000 on July 1, 1969, \$320,000,000 on July 1, 1970, and \$225,000,000 on July 1, 1971, but any such contracts for additional units for any one State shall not, after June 30, 1961, be entered into for more

than 15 per centum of the aggregate amount not already guaranteed under contracts for annual contributions on such date: *Provided*, That subject to any contractual obligation outstanding on August 10, 1965, any units under construction within five years from the date they were reserved to a public housing agency may be reserved, allocated, or placed under contract for annual contributions in any State without limitation as to the aggregate amount of units which may be placed under contract for annual contributions in any one State: *Provided further*, That at least 30 per centum of the total amount of contracts for annual contributions entered into in any fiscal year pursuant to the new authority granted under section 202 of the Housing and Urban Development Act of 1970 or under any law subsequently enacted shall be entered into with respect to units of low-rent housing in private accommodations provided under section 1421b of this title: *And provided further*, That the Authority shall enter into only such new contracts for preliminary loans as are consistent with the numbers of dwelling units for which contracts for annual contributions may be entered into. Without further authorization from Congress, no new contracts for annual contributions beyond those herein authorized shall be entered into by the Authority. The faith of the United States is solemnly pledged to the payment of all annual contributions contracted for pursuant to this section, and there is authorized to be appropriated in each fiscal year, out of any money in the Treasury not otherwise appropriated, the amounts necessary to provide for such payments.

(f) *Payments under contractual contributions to be pledged for loans.*

Payments under annual contributions contracts shall be pledged, if the Authority so requires, as security for any loans obtained by a public housing agency to assist the development or acquisition of the housing project to which the annual contributions relate.

(g) *Maximum income limits; admission policies; notice of admissibility.*

Every contract for annual contributions for any low-rent housing project shall provide that—

(1) the maximum income limits fixed by the public housing agency shall be subject to the prior approval of the Authority and the Authority may require the agency to review and revise such limits if the Authority determines that changed conditions in the locality make such revisions necessary in achieving the purposes of the chapter;

(2) the public housing agency shall adopt and promulgate regulations establishing admission policies which shall give full consideration to its responsibility for the rehousing of displaced families, to the applicant's status as a serviceman or veteran or relationship to a serviceman or veteran or to a disabled serviceman or veteran, and to the applicant's age or disability, housing conditions, urgency of housing need, and source of income: *Provided*, That in establishing such admission policies the public housing agency shall accord to families of low income such priority over single persons as it determines to be necessary to avoid undue hardship;

(3) the public housing agency shall determine, and so certify to the Authority, that each family in the project was admitted in accordance with duly adopted regulations and approved income limits; and the public housing agency

shall make periodic reexaminations of the incomes of families living in the project and shall require any family whose income has increased beyond the approved maximum income limits for continued occupancy to move from the project unless the public housing agency determines that, due to special circumstances, the family is unable to find decent, safe and sanitary housing within its financial reach although making every reasonable effort to do so, in which event such family may be permitted to remain for the duration of such a situation if it pays an increased rent consistent with such family's increased income; and

(4) the public housing agency shall promptly notify (i) any applicant determined to be ineligible for admission to the project of the basis for such determination and provide the applicant upon request, within a reasonable time after the determination is made, with an opportunity for an informal hearing on such determination, and (ii) any applicant determined to be eligible for admission to the project of the approximate date of occupancy insofar as such date can be reasonably determined.

(h) *Exemption of projects from taxes; contributions by States, city, county or other political subdivision.*

Every contract made pursuant to this chapter for annual contributions for any low-rent housing project initiated after March 1, 1949, shall provide that no annual contributions by the Authority shall be made available for such project unless such project (exclusive of any part thereof covered by a contract or conveyed pursuant to paragraph (9) of section 1415 of this title, and exclusive of any portion thereof which is not assisted by annual contributions under this chapter) is exempt from all real and personal property taxes levied or imposed by the State, city, county, or other political subdivisions, but such contract shall require the public housing agency to make payments in lieu of taxes equal to 10 per centum of the annual shelter rents charged in such project or such lesser amount as (i) is prescribed by State law, or (ii) is agreed to by the local governing body in its agreement for local cooperation with the public housing agency required under section 1415(7)(b)(i) of this title, or (iii) is due to failure of a local public body or bodies other than the public housing agency to perform any obligation under such agreement: *Provided*, That, with respect to any such project which is not exempt from all real and personal property taxes levied or imposed by the State, city, county, or other political subdivisions, such contract shall provide, in lieu of the requirement for tax exemption and payments in lieu of taxes, that no annual contributions by the Authority shall be made available for such project unless and until the State, city, county, or other political subdivisions in which such project is situated shall contribute, in the form of cash or tax remission, the amount by which the taxes paid with respect to the project exceed 10 per centum of the annual shelter rents charged in such project: *Provided further*, That, prior to execution of the contract for annual contributions the public housing agency shall, in the case of a tax-exempt project, notify the governing body of the locality of its estimate of the annual amount of such payments in lieu of taxes and of the amount of taxes which would be levied if the property were privately owned, or, in the case where the project is taxed, its estimate of the annual amount of the local cash contribution, and shall thereafter include the actual amounts of

such payments or contributions in its annual report. Contracts for annual contributions entered into prior to September 2, 1964 may be amended in accordance with the first sentence of this subsection.

(i) *Payment for services and facilities to municipalities or other local governmental agencies.*

Notwithstanding any other provision of law or any contract or other arrangement made pursuant thereto, any public housing agency which utilizes public services and facilities of a municipality or other local governmental agency making charges therefor separate from real and personal property taxes shall be authorized by the Authority (without any amendment to the contract for annual contributions or deductions from payments in lieu of taxes otherwise payable) to pay to such municipality or other local government agency the amount that would be charged private persons or dwellings similarly situated for such facilities and services.

(j) *Repealed, Pub. L. 87-70, title II, § 206(c), June 30, 1961, 75 Stat. 164.*

(k) *Audit and settlement of expenditures for payment of contributions.*

All expenditures of appropriations for the payment of annual contributions shall be subject to audit and final settlement by the Comptroller General of the United States under the provisions of the Budget and Accounting Act of 1921, as amended.

(l) *Sale of projects to private ownership; procedure; proceeds.*

In any community where it has been determined by resolution or ordinance, or by referendum, that a project shall be liquidated by sale thereof to private ownership, such community may negotiate with the Federal Government with respect to the sale of the project, and the Authority shall agree that sale of the project may be made, subject to any outstanding contracts made pursuant to paragraph (9) of section 1415 of this title, after public advertisement to the highest bidder upon (1) payment and retirement of all outstanding obligations (together with any interest payable thereon and any premiums prescribed for the redemption of any bonds, notes, or other obligations prior to maturity) in connection with the project, and (2) payment of any proceeds received from the sale of the project in excess of the amounts required to comply with the requirements of the preceding clause numbered (1) to the Authority and to local public bodies in proportion to the aggregate contribution which the Authority and such local public bodies have made to the project. § 1411. Capital grants in assistance of low rentals.

(a) *Authorization.*

As an alternative method of assistance to that provided in section 1410 of this title, when any public housing agency so requests and demonstrates to the satisfaction of the Authority that such alternative method is better suited to the purpose of achieving and maintaining low rentals and to the other purposes of this chapter, capital grants may be made to such agency for such purposes. The capital grants thus made for any low-rent-housing or slum-clearance project shall be paid in connection with its development or acquisition, and shall be strictly limited to the amounts necessary, in the determination of the Authority, to assure its low-rent character.

(b) *Limitation on amount of particular grant.*

Pursuant to subsection (a) of this section, the Authority may make a capital grant for any low-rent-housing or slum-clearance project, which shall in no case exceed 25 per centum of its development or acquisition cost.

(c) *Availability of funds.*

All payments of capital grants by the Authority pursuant to subsection (b) of this section shall be made out of any funds available to the Authority, except that its capital and its funds obtained through the issuance of obligations pursuant to section 1420 of this title (including repayments or other realizations of the principal of loans made out of such capital and funds) shall not be available for the payment of such capital grants.

(d) *Limitation on aggregate grants.*

The Authority is authorized, on or after September 1, 1937 to make capital grants (pursuant to subsection (b) of this section) aggregating not more than \$10,000,000, on or after July 1, 1938, to make additional capital grants aggregating not more than \$10,000,000, and on or after July 1, 1939, to make additional capital grants aggregating not more than \$10,000,000. Without further authorization from Congress, no capital grants beyond those herein authorized shall be made by the Authority.

(e) *Additional grants for labor costs.*

To supplement any capital grant made by the Authority in connection with the development of any low-rent-housing or slum-clearance project, the President may allocate to the Authority, from any funds available for the relief of unemployment, an additional capital grant to be expended for payment of labor used in such development: *Provided*, That such additional capital grant shall not exceed 15 per centum of the development cost of the low-rent-housing or slum-clearance project involved.

(f) *Contribution by State as condition.*

No capital grant pursuant to this section shall be made for any low-rent-housing or slum-clearance project unless the public housing agency receiving such capital grant shall also receive, from the State political subdivision thereof, or otherwise, a contribution for such project (in the form of cash, land, or the value, capitalized at the going Federal rate of interest, of community facilities or services for which a charge is usually made, or tax remissions or tax exemptions) in an amount not less than 20 per centum of its development or acquisition cost. (Sept. 1, 1937, ch. 896, § 11, 50 Stat. 893; July 15, 1949, ch. 388, title III, § 307(d), 63 Stat. 430.)

* * *

§ 1411d. Submission of specifications by applicants.

Every contract for a loan, grant, or contribution under this chapter, for the construction of a project shall require the submission of specifications with respect to such construction prior to the authorization for the award of the construction contract and the submission of data with respect to the acquisition of land prior to the authorization to acquire such land. (Aug. 2, 1954, ch. 649, title VIII, § 815, 68 Stat. 647.)

§ 1412. Disposal of Federal projects.

(a) *Purpose.*

It is declared to be the purpose of Congress to provide for the orderly disposal of any low-rent-housing projects hereafter transferred to or acquired by the Authority through the sale or leasing of such projects as hereinafter provided; and in order to continue the relief of Nation-wide unemployment and in order to avoid waste pending such sale or lease, to provide for the completion and temporary administration of such projects by the Authority.

(b) *Authorization.*

As soon as practicable the Authority shall sell its Federal projects or divest itself of their management through leases.

(c) *Sale.*

The Authority may sell a Federal project only to a public housing agency or to a nonprofit body for use as low-rent housing. Any such sale shall be for a consideration, in whatever form may be satisfactory to the Authority, equal at least to the amount which the Authority determines to be the fair value of the project for housing purposes of a low-rent character (making such adjustment as the Authority deems advisable for any annual contributions which may hereafter be given hereunder in aid of the project), less such allowance for depreciation as the Authority shall fix. Such project shall then become eligible for loans pursuant to section 1409 of this title, and either annual contributions pursuant to section 1410 of this title or a capital grant pursuant to section 1411 of this title. Any obligation of the purchaser accepted by the Authority as part of the consideration for the sale of such project shall be deemed a loan pursuant to section 1409 of this title.

(d) *Lease.*

The Authority may lease any Federal low-rent housing project, in whole or in part, to a public housing agency. The lessee of any project, pursuant to this subsection, shall assume and pay all management, operation, and maintenance costs, together with payments, if any, in lieu of taxes, and shall pay to the Authority such annual sums as the Authority shall determine are consistent with maintaining the low-rent character of such project. The provisions of section 303b of Title 40, shall not apply to any lease pursuant to this chapter.

(e) *Rentals pending sale or lease.*

In the administration of any Federal low-rent-housing project pending sale or lease, the Authority shall fix the rentals at the amounts necessary to pay all management, operation, and maintenance costs, together with payments, if any, in lieu of taxes, plus such additional amounts as the Authority shall determine are consistent with maintaining the low-rent character of such project.

(f) *Transfer of labor supply centers, camps, homes, and other facilities; operation; disposal; rentals pending sale or lease; transfer*

without monetary consideration; finding and certification; preferences; Florida camps; mineral rights reserved; undisposed property.

There is transferred to the Authority, effective not later than sixty days after April 20, 1950, all right, title, and interest, including contractual rights and reversionary interests, held by the Federal Government in and with respect to all labor supply centers, labor homes, labor camps, and facilities held in connection therewith and heretofore administered by the Secretary of Agriculture, for use as low-rent housing projects for families and persons of low income. Such projects when so transferred shall (notwithstanding any other provisions of law) be low rent housing projects subject to the provisions of this chapter, except as otherwise provided in this subsection. Such projects shall be operated for the principal purpose of housing persons engaged in agricultural work, and preference for occupancy in such projects shall be given to agricultural workers and their families; the rents in such projects shall not be higher than the rents which such tenants can afford; and the provisions of the second, third, and fourth sentences of section 1402(1) of this title shall not be applicable to such projects. The Authority is authorized to enter into contracts for disposal of said project by any of the methods provided in this chapter, including disposal of any such project to a public housing agency for a consideration consisting of the payment by the public housing agency to the Authority during a term not less than twenty years of all income therefrom after deduction of the amounts necessary for (i) reasonable and proper costs of management, operation, maintenance, and improvement of such project; (ii) payments in lieu of taxes not in excess of 10 per centum of shelter rents; (iii) establishment and maintenance of reasonable and proper reserves; and (iv) the payment of currently maturing installments of principal and interest on any indebtedness incurred in connection with such project by the public housing agency with the approval of the Authority. Pending sale or lease of said projects to public housing agencies, the Authority may continue present leases and permits, or may enter into new leases with public bodies or nonprofit organizations for the operation of such projects. Pending sale of such projects the Authority may make any necessary improvements thereto and may pay any deficits incurred in their improvement and administration out of any of the funds available to it under this chapter. Appropriations to reimburse the Authority for any amounts expended pursuant to this subsection, in excess of the funds transferred with such projects, are authorized. Notwithstanding any other provision of law, upon the filing of a request therefor within eighteen months after August 7, 1956, the Authority shall relinquish, transfer, and convey, without monetary consideration, all of its rights, title, and interest in and with respect to any such project or any part thereof (including such land as is determined by the Authority to be reasonably necessary to the operation of such project, and including contractual rights to revenues, reserves, and other proceeds therefrom), (1) in the case of any State other than Florida, to any public housing agency whose area of operation includes the project, upon a finding and certification by the public housing agency (which shall be conclusive upon the Authority) that the project is needed to house persons and families of low income and that preference for occupancy in the project will be given first to low-income agricultural workers and their families and second to

other low-income persons and their families; and (2) in the case of Florida, to any public housing agency in the State whenever, under the laws of the State, such agency (A) is authorized to acquire and operate such project, (B) is required to give preference for occupancy in such project, first, to low-income agricultural workers and their families, and second, to other low-income persons and their families, (C) is required, in the event of the disposition of such project for sale or otherwise, to use the proceeds thereof and any available accumulated earnings to construct facilities (which shall be subject to the same preference as those specified in clause (B)) for occupancy by low-income agricultural workers and their families in the same area, and (D) is required, so long as it continues to own or operate such project, to have on its managing board one or more members whose principal occupation is farming. Upon the relinquishment and transfer of any such project it shall cease to be a low-rent project within the meaning of this chapter, and the Authority shall have no further jurisdiction over it, except that in any conveyance under the preceding sentence the Authority may reserve to the United States any mineral rights of whatsoever nature upon, in, or under the property, including such rights of access to and the use of such parts of the surface of the property as may be necessary for mining and saving the minerals. Any project, or part thereof not relinquished and conveyed pursuant to this subsection or under a contract for disposal pursuant to this subsection within eighteen months after August 7, 1956, be disposed of by the Authority pursuant to subsection (e) of section 1413 of this title, notwithstanding the parenthetical clause in such subsection. (Sept. 1, 1937, ch. 896, § 12, 50 Stat. 894; Apr. 20, 1950, ch. 94, title II, § 205(b), 64 Stat. 73; Aug. 7, 1956, ch. 1029, title IV, § 405, 70 Stat. 1104; Aug. 10, 1965, Pub. L. 89-117, title V, § 505, 79 Stat. 487.)

§ 1413. Powers of Authority; miscellaneous.

(a) Foreclosure and other rights.

The Authority may foreclose on any property or commence any action to protect or enforce any right conferred upon it by any law, contract, or other agreement. The Authority may bid for and purchase at any foreclosure by any party or at any other sale, or (pursuant to section 1421a of this title or otherwise) acquire or take possession of any project which it previously owned or in connection with which it has made a loan, annual contribution, or capital grant; and in such event the Authority may complete, administer, pay the principal of and interest on any obligations issued in connection with such project, dispose of, and otherwise deal with, such projects or parts thereof, subject, however, to the limitations elsewhere in this chapter governing their administration and disposition.

(b) Civil and criminal jurisdiction of States.

The acquisition by the Authority of any real property pursuant to this chapter shall not deprive any State or political subdivision thereof of its civil rights under the State or local law of the inhabitants on such property; and, insofar as any such jurisdiction may have been taken away or any such rights impaired by reason of the acquisition of any property transferred to the Authority pursuant to section 1404(b) of this title, such jurisdiction and such rights are fully restored.

(c) Payments in lieu of taxes.

The Authority may enter into agreements to pay annual sums in lieu of taxes to any State or political subdivision thereof with respect to any

real property owned by the Authority. The amount so paid for any year upon any such property shall not exceed the taxes that would be paid to the State or subdivision, as the case may be, upon such property if it were not exempt from taxation thereby.

(d) *Insurance.*

The Authority may procure insurance against any loss in connection with its property and other assets (including mortgages), in such amounts, and from such insurers, as it deems desirable.

(e) *Sale or lease of non-project property.*

The Authority may sell or exchange at public or private sale, or lease, any real property (except low-rent-housing projects, the disposition of which is governed elsewhere in this chapter) or personal property, and sell or exchange any securities or obligations, upon such terms as it may fix. The Authority may borrow on the security of any real or personal property owned by it, or on the security of the revenues to be derived therefrom, and may use the proceeds of such loans for the purposes of this chapter. (Sept. 1, 1937, ch. 896, § 13, 50 Stat. 894; July 15, 1949, ch. 338, title III, § 307(e), 63 Stat. 430; May 25, 1967, Pub. L. 90-19, § 2(g), 81 Stat. 20.)

§ 1414. Modification, amendment, or superseding of contracts.

Subject to the specific limitations or standards in this chapter governing the terms of sales, rentals, leases, loans, contracts for annual contributions, contracts for capital grants, or other agreements, the Authority may, whenever it deems it necessary or desirable in the fulfillment of the purposes of this chapter, consent to the modification, with respect to rate of interest, time of payment of any installment of principal or interest, security, amount of annual contribution, or any other term, of any contract or agreement of any kind to which the Authority is a party or which has been transferred to it pursuant to this chapter. When the Authority finds that it would promote economy or be in the financial interest of the Federal Government, or is necessary to insure the low-rent character of the project involved, any contract heretofore or hereafter made for annual contributions, loans, or both, may, or hereafter made for annual contributions, loans, or both, may, with Presidential approval, be amended or superseded by a contract of the Authority so that the going Federal rate on the basis of which such annual contributions or interest rate on the loans, or both, respectively, are fixed shall mean the going Federal rate, as herein defined, on the date of Presidential approval of such amending or superseding contract: *Provided*, That contracts may not be amended or superseded in a manner which would impair the rights of the holders of any outstanding obligations of the public housing agency involved for which annual contributions have been pledged. Any rule of law contrary to this provision shall be deemed inapplicable. (Sept. 1, 1937, ch. 896, § 14, 50 Stat. 895; July 15, 1949, ch. 338, title III, § 304(g), 63 Stat. 426; Dec. 24, 1969, Pub. L. 91-152, title II, § 213(c), 83 Stat. 389.)

§ 1415. Preservation of low rents.

In order to insure that the low-rent character of housing projects will be preserved, and that the other purposes of this chapter will be achieved, it is provided that—

(1) *Low-rent-housing projects.*

When a loan is made pursuant to section 1409 of this title for a low-rent-housing project the Au-

thority may retain the right, in the event of a substantial breach of the condition (which shall be embodied in the loan agreement) providing for the maintenance of the low-rent character of the housing project involved or in the event of the acquisition (except pursuant to paragraph (9) of the section) of such project by a third party in any manner including a bona-fide foreclosure under a mortgage or other lien held by a third party, to increase the interest payable thereafter on the balance of said loan then held by the Authority to a rate not in excess of the going Federal rate (at the time of such breach or acquisition) plus 2 per centum per annum or to declare the unpaid principal on said loan due forthwith.

(2) *Slum-clearance projects.*

When a loan is made pursuant to section 1409 of this title for a slum-clearance project the Authority shall retain the right, in the event of the leasing or acquisition (except pursuant to paragraph (9) of this section) of such project by a third party in any manner including a bona-fide foreclosure under a mortgage or other lien held by a third party, to increase the interest payable thereafter on the balance of said loan then held by the Authority to a rate not in excess of the going Federal rate (at the time of such leasing or acquisition) plus 2 per centum per annum or to declare the unpaid principal on said loan due forthwith.

(3) *Annual contributions.*

When a contract for annual contributions is made pursuant to section 1410 of this title, the Authority shall retain the right, in the event of a substantial breach of the condition (which shall be embodied in such contract) providing for the maintenance of the low-rent character of the housing project involved, to reduce or terminate the annual contributions payable under such contract. In the event of the acquisition (except pursuant to paragraph (9) of this section) of such project by a third party in any manner including a bona-fide foreclosure under a mortgage or other lien held by a third party, such annual contributions shall terminate.

(4) *Contractual aids.*

The Authority may also insert in any contract for loans, annual contributions, capital grants, sale, lease, mortgage, or any other agreement or instrument made pursuant to this chapter, such other covenants, conditions, or provisions as¹ it may deem necessary in order to insure the low-rent character of the housing project involved: *Provided*, That any such contract for a substantial loan may contain a condition requiring the maintenance of an open space or playground in connection with the housing project involved if deemed necessary by the Authority for the safety or health of children.

(5) *Limitation on construction and equipment costs; prototype cost for area; percentage limitation, annual determination, considerations, publication in Federal Register; modular measure principal.*

Every contract made pursuant to this chapter for loans (other than preliminary loans), annual contributions, or capital grants for any low-rent housing project completed after January 1, 1948, shall provide that the cost for construction and equipment of such project (excluding land, demolition, and nondwelling facilities) on which the computation of any annual contributions under this chapter may be based shall not exceed by more than 10 per centum the appropriate prototype

¹ So in original.

cost for the area. Prototype costs shall be determined at least annually by the Secretary on the basis of his estimate of the construction and equipment costs of new dwelling units of various sizes and types in the area suitable for occupancy by persons assisted under this chapter. The Secretary in determining the area's prototype costs shall take into account the extra durability required for economical maintenance of assisted housing, and the provision of amenities designed to guarantee safe and healthy family life and neighborhood environment. Further, in developing such prototypes, emphasis should be given to encouraging good design as an essential component of such housing and to producing housing which will be of such quality as to reflect the architectural standards of the neighborhood and community. The prototype costs for any area shall become effective upon the date of publication in the Federal Register. Every contract made pursuant to this chapter for loans (other than preliminary loans), annual contributions, or capital grants with respect to any low-rent housing project initiated after March 1, 1949, shall provide that such project shall be undertaken in such a manner that it will not be of elaborate or extravagant design or materials, and economy will be promoted both in construction and administration. In order to attain the foregoing objective, every such contract shall provide that no award of the main construction contract for such project shall be made unless the Authority, taking into account the level of construction costs prevailing in the locality where such project is to be located, shall have specifically approved the amount of such main construction contract. Every contract made pursuant to this chapter for loans, annual contributions, or capital grants, with respect to a project for which the preparation of plans, drawings, and specifications has not been started or contracted for prior to July 12, 1957, shall require that such plans, drawings, and specifications follow the principle of modular measure in every case deemed feasible by the public housing agency, in order that the housing may be built by conventional construction, on-site fabrication, factory pre-cutting, factory fabrication, or any combination of these construction methods.

(6) *Contracts covering more than one project.*

Any contract for loans or annual contributions, or both, entered into by the Authority with a public housing agency, may cover one or more than one low-rent housing project owned by said public housing agency; in the event such contract covers two or more projects, such projects may, for any of the purposes of this chapter and of such contract (including, but not limited to, the determination of the amount of the loan, annual contributions, or payments in lieu of taxes, specified in such contract), be treated collectively as one project.

(7) *Local responsibilities and determinations.*

In recognition that there should be local determination of the need for low-rent housing to meet needs not being adequately met by private enterprise—

(a) The Authority shall not make any contract with a public housing agency for preliminary loans (all of which shall be repaid out of any moneys which become available to such agency for the development of the projects involved) for surveys and planning in respect to any low-rent housing projects initiated after March 1, 1949, (i) unless the governing body of the locality involved has by resolution approved the application of the public housing agency for such

preliminary loan; and (ii) unless the public housing agency has demonstrated to the satisfaction of the Authority that there is a need for such low-rent housing which is not being met by private enterprise; and

(b) the Authority shall not make any contract for loans (other than preliminary loans) or for annual contributions pursuant to this chapter with respect to any low-rent housing project initiated after March 1, 1949, (i) unless the governing body of the locality involved has entered into an agreement with the public housing agency providing for the local cooperation required by the Authority pursuant to this chapter; (ii) unless the public housing agency has demonstrated to the satisfaction of the Authority that a gap of at least 20 per centum (except in the case of a displaced family or an elderly family) has been left between the upper rental limits for admission to the proposed low-rent housing and the lowest rents at which private enterprise unaided by public subsidy is providing (through new construction and available existing structures) a substantial supply of decent, safe, and sanitary housing toward meeting the need of an adequate volume thereof; and (iii) unless the public housing agency has demonstrated to the satisfaction of the Authority that there is a feasible method for the temporary relocation of the individuals and families displaced from the project site, and that there are or are being provided, in the project area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of such individuals and families, decent, safe, and sanitary dwellings equal in number to the number of and available to such individuals and families and reasonably accessible to their places of employment.

(8) *Relocation payments; inclusion with development or acquisition cost for determination of loans and contributions; definition.*

The Authority may authorize the cost of relocation payments made by the public housing agencies to be included with the development of acquisition cost of any project for purposes of determining the amount of loans and annual contributions authorized to be made with respect to such project under section 1409 and 1410 of this title, but such costs shall be separately stated as relocation costs. For purposes of this paragraph, a "relocation payment" is a payment (i) which is made to an individual, family, business concern, or nonprofit organization displaced on or after January 27, 1964, from a low-rent housing project site as a result of the acquisition of real property by a public housing agency, (ii) which is not otherwise authorized under any Federal law, and (iii) which is made only on such terms and conditions, and subject to such limitations, as are authorized (as of the time such payment is approved) under section 1465(b), (c), and (d) of this title for relocation payments made to individuals, families, business concerns, or nonprofit organizations as the case may be.

(9) *Purchase of dwelling unit by member of tenant family in low-rent public housing project for occupancy by himself or members of his family; terms.*

Notwithstanding any other provision of this chapter, but subject to the provisions of any contract with the Authority, any public housing agency may permit any member of a tenant family to enter into a contract (either individually or

as a member of a group) for the acquisition of a dwelling unit in any project of the public housing agency, if the property to be acquired is sufficiently separable from other property retained by the public housing agency to make it suitable for sale and for occupancy by such purchaser or a member or members of his family, upon the following terms:

(A) The purchaser shall pay at least (i) a pro rata share cost of any services furnished him by the public agency, including but not limited to, administration, maintenance, repairs, utilities, insurance, provision of reserves, and other expenses, (ii) local taxes on his dwelling unit, and (iii) monthly payments of interest and principal sufficient to amortize a sales price, equal to the greater of the unamortized debt or the appraised value (at the time such purchase contract is entered into) of the dwelling unit, in not more than forty years: *Provided*, That the public housing agency may, under terms and conditions to be prescribed by it, permit a purchaser to apply an amount equal to the net rent paid for his dwelling unit, over a period not exceeding three years prior to the entering into of any such contract, toward the purchase price of such unit;

(B) The interest rate shall be fixed at not less than the average interest cost of loans outstanding on the project, except that in the case of a project on which bonds are not outstanding the interest rate shall be fixed at not less than the going Federal rate applicable to such project;

(C) The principal payments shall be not less than one-half of 1 per centum per annum of the sales price during the first five years after purchase, 1 per centum per annum during the next five years, 1½ per centum per annum during the third five years, and thereafter not less than the principal payments resulting from a level debt service of interest and principal over the balance of the payment period; and

(D) If at any time (i) a purchaser fails to carry out his contract with the public housing agency and if no member of his family who resides in the dwelling assumes such contract, or (ii) the purchaser or a member of his family who assumes the contract does not reside in the dwelling, the public housing agency shall have an option to acquire his interest under such contract upon payment to him or his estate of an amount equal to his aggregate principal payments plus the value to the public housing agency of any improvements made by him, less an amount equal to 2½ per centum of the sales price.

(10) *Repealed*. Pub. L. 91-609, title IX, § 903(d), Dec. 31, 1970, 84 Stat. 1809.

(11) *Limitation on high-rise elevator projects.*

Except in the case of housing predominantly for the elderly, upon enactment of this paragraph, the Secretary shall not approve high-rise elevator projects for families with children unless he makes a determination that there is no practical alternative.

(12) *Congregate housing for the displaced, elderly, and handicapped.*

The Secretary shall encourage public housing agencies, in providing housing predominantly for displaced, elderly, or handicapped families, to design, develop, or otherwise acquire such housing to meet the special needs of the occupants and, wherever practicable, for use in whole or in part as *congregate housing*: *Provided*, That not more than 10 per centum of the total amount of con-

tracts for annual contributions entered into in any fiscal year pursuant to the new authority granted under section 202 of the Housing and Urban Development Act of 1970 or under any law subsequently enacted shall be entered into with respect to units in *congregate housing*. As used in this paragraph, the term "*congregate housing*" means low-rent housing (A) in which some or all of the dwelling units do not have kitchen facilities, and (B) connected with which there is a central dining facility to provide wholesome and economical meals for elderly families under terms and conditions prescribed by the public housing agency to permit a generally self-supporting operation. Expenditures incurred by a public agency in the operation of a central dining facility in connection with *congregate housing* (other than the cost of providing food and service) shall be considered one of the costs of providing food and service) shall be considered one of the costs of administration of the project (Sept. 1, 1937, ch. 896, § 15, 50 Stat. 895; July 31, 1947, ch. 418, § 1, 61 Stat. 704; July 15, 1949, ch. 338, title III, §§ 301, 303, 304(g), 63 Stat. 427, Aug. 2, 1954, ch. 649, title IV, § 401(3), (4), 68 Stat. 631; Aug. 7, 1956, ch. 1029, title IV, § 404(c), 70 Stat. 1104; July 12, 1957, Pub. § 1416. Labor protection.

In order to protect labor standards—

(1) *Minimum wages; bonds of contractors.*

The provisions of sections 276a to 276a-5 and 270 to 270d of Title 40, shall apply to contracts in connection with the development or administration of Federal projects and the furnishing of materials and labor for such projects: *Provided*, That suits may be brought in the name of the Authority and that the Authority shall itself perform the duties prescribed by sections 276a-2(a) or 270c of Title 40.

(2) *Wages to conform to local rates; overtime compensation.*

Any contract for loans, annual contributions, capital grants, sale, or lease pursuant to this chapter shall contain a provision requiring that not less than the salaries or wages prevailing in the locality, as determined or adopted (subsequent to a determination under applicable State or local law) by the Authority, shall be paid to all architects, technical engineers, draftsmen, and technicians, employed in the development and to all maintenance laborers and mechanics employed in the administration of the low-rent housing or slum-clearance project involved; and shall also contain a provision that not less than the wages prevailing in the locality, as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act, shall be paid to all laborers and mechanics employed in the development of the project involved (including a project for the use of privately built housing in any case, other than under the authority of section 1421b of this title where the public housing agency and the builder or sponsor enter into an agreement for such use

before construction or rehabilitation is commenced), and that each such laborer or mechanic shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be; and the Authority shall require certification as to compliance with the provisions of this subsection prior to making any payment under such contract.

(3) *Applicability of "kick back" provisions.*

The provisions of sections 276b and 276c of Title 40 shall apply to any low-rent-housing or slum-clearance project financed in whole or in part with funds made available pursuant to this chapter. (Sept. 1, 1937, ch. 896, § 16, 50 Stat. 896; July 15, 1949, ch. 338, title III, § 307(f), 63 Stat. 430; Aug. 2, 1954, ch. 649, title IV, § 404, 68 Stat. 633; Nov. 3, 1966, Pub. § 1417a. Additional functions, powers, and duties of Secretary.

In the performance of, and with respect to, functions, powers, and duties under this chapter, the Secretary shall have (in addition to any authority otherwise vested in him) the functions, powers, and duties set forth in subsections (a), (b), and (c) of section 1749a of Title 12. (Sept. 1, 1937, ch. 896, § 17, as added Aug. 1, 1968, Pub. L. 90-448, title XVII, § 1710(c), 82 Stat. 610.)

The Authority may issue and have outstanding at any one time notes and other obligations for purchase by the Secretary of the Treasury in an amount which shall not, unless authorized by the President, exceed \$1,500,000,000. For the purpose of determining obligations incurred to make loans pursuant to this chapter against any limitation otherwise applicable with respect to such loans, the Secretary shall estimate the maximum amount to be loaned at any one time pursuant to loan agreement then outstanding with public housing agencies. Such notes or other obligations shall be in such forms and denominations, shall have such maturities, and shall be subject to such terms and conditions as may be prescribed by the Authority with the approval of the Secretary of the Treasury. Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average rate on outstanding marketable obligations of the United States as of the last day of the month preceding the issuance of the notes or other obligations by the Authority. The Secretary of the Treasury is authorized and directed to purchase any notes or other obligations of the Authority issued hereunder and for such purpose is authorized to use as a public debt transaction the proceeds from the sale of any

securities issued under the Second Liberty Bond Act, as amended, and the purposes for which securities may be issued under such Act, as amended, are extended to include any purchases of such obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this section. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public debt transactions of the United States. (a) *Idle moneys.*

Any money of the Authority not otherwise employed may be deposited, subject to check, with the Treasurer of the United States or in any Federal Reserve bank, or may be invested in obligations of the United States or used in the purchase or retirement or redemption of any obligations issued by the Authority.

(b) *Federal Reserve banks as financial agents.*

The Federal Reserve banks are authorized and directed to act as depositories, custodians, and fiscal agents for the Authority in the general exercise of its powers, and the Authority may reimburse any such bank for its services in such manner as may be agreed upon.

(c) *Authority as financial agent of Government.*

The Authority may be employed as a financial agent of the Government. When designated by the Secretary of the Treasury, and subject to such regulations as he may prescribe, the Authority shall be a depository of public money, except receipts from customs. (Sept. 1, 1937, ch. 896, § 21, 50 Stat. 898; July 15, 1949, ch. 338, title III, § 307(g), 63 Stat. 431; Aug. 7, 1956, ch. 1029, title IV, § 403, 70 Stat. 1103; June 30, 1961, Pub. § 1421a. Private financing—Sales of public housing agencies' bonds.

To facilitate the enlistment of private capital through the sale by public housing agencies of their bonds and other obligations to others than the Authority, in financing low-rent housing projects, and to maintain the low-rent housing projects—

(a) *Contracts for annual contributions; terms and conditions.*

Every contract for annual contributions (including contracts which amend or supersede contracts previously made) may provide that—

(1) upon the occurrence of a substantial default in respect to the covenants or conditions to which the public housing agency is subject (as such substantial default shall be defined in such contract), the public housing agency shall be obligated at the option of the Authority, either to convey title in any case where, in the determination of the Authority (which determination shall be final and conclusive), such conveyance of title is necessary to achieve the purposes of this chapter, or to deliver possession to the Authority of the project, as then constituted, to which such contract relates: *Provided*, That such conveyance or delivery of title shall be subject to the rights of third parties vested pursuant to paragraph (9) of section 1415 of this title;

(2) the Authority shall be obligated to reconvey or to redeliver possession of the project, as constituted at the time of reconveyance or redelivery, to such public housing agency or to its successor (if such public housing agency or a successor exists) upon such terms as shall be prescribed in such contract and as soon as practicable: (i) after the Authority shall be satisfied that all defaults with respect to the project have been cured, and that the project will, in order to fulfill the purposes of this chapter, thereafter be operated in accordance with the terms of such contract; or (ii) after the termination of the obligation to make annual contributions available unless there are any obligations or covenants of the public housing agency to the Authority which are then in default. Any prior conveyances and reconveyances, deliveries and redeliveries of possession shall not exhaust the right to require a conveyance or delivery of possession of the project to the Authority pursuant to paragraph (1) of this subsection, upon the subsequent occurrence of substantial default.

(b) *Same; fulfillment of conditions; maximum annual contributions.*

Whenever such contract for annual contributions shall include provisions which the Authority, in said contract, determines are in accordance with subsection (a) of this section, and the annual contributions, pursuant to such contract, have been pledged by the public housing agency as security for the payment of the principal and interest on any of its obligations, the Authority (notwithstanding any other provisions of this chapter) shall continue to make annual contributions available for the project so long as any such obligations remain outstanding, and may covenant in such contract (in lieu of the provision required by the first sentence of section 1415(3) of this title and notwithstanding any other provisions of law) that in any event such annual contributions shall in each year be at least equal to an amount which, together with such income or other funds as are actually available from the project for the purpose at the time such annual contribution is made, will suffice for the payment of all installments, falling due within the next succeeding twelve months, of principal and interest on the obligations for which the annual contributions provided for in the contract shall have been pledged as security: *Provided*, That such annual contributions shall not be in excess of the maximum sum determined pursuant to the proviso of section 1410(b) of this title, or, where applicable, the second proviso of section 1410(c) of this title; and in no case shall such annual contributions be in excess of the maximum sum specified in the contract involved, nor for longer than the remainder of the maximum period fixed by the contract.

(c) *Incontestability of obligations; pledge of full faith and credit.*

Obligations of a public housing agency which (1) are secured either (A) by a pledge of a loan under an agreement between such public housing agency and the Authority, or (B) by a pledge of annual contributions under an annual contributions contract between such public housing agency and the Authority, and (2) bear, or are accompanied by, a certificate of the Authority that such obligations are so secured, shall be incontestable in the hands of a bearer, and the full faith and credit of the United States is pledged to the payment of all amounts agreed to be paid by the Authority as security for such

obligations. (Sept. 1, 1937, ch. 896, § 22, as added July 15, 1949, ch. 338, title III, § 304(b), 63 Stat. 424, and amended June 30, 1961, Pub. L. 87-70, title III, § 302(b), 75 Stat. 166; Aug. 10, 1965, Pub. L. 89-117, title V, § 507(b)(4), 79 Stat. 489; May 25, 1967, Pub. L. 90-19, § 2(j), 81 Stat. 20.)

§ 1421b. Low-rent housing private accommodations.

(a) *Purpose; approval by local governing bodies; definitions.*

(1) For the purpose of providing a supplementary form of low-rent housing which will aid in assuring a decent place to live for every citizen and promote efficiency and economy in the program under this chapter by taking full advantage of vacancies or potential vacancies in the private housing market, each public housing agency shall, to the maximum extent consistent with the achievement of the objectives of this chapter, provide low-rent housing under this chapter in the form of low-rent housing in private accommodations in accordance with this section where such housing in private accommodations can be provided at a cost equal to or less than housing in projects assisted under other provisions of this chapter.

(2) The provisions of this section shall not apply to any locality unless the governing body of the locality has by resolution approved the application of such provisions to such locality.

(3) As used in this section, the term "low-rent housing in private accommodations" means dwelling units in a structure, leased from a private owner, which provide decent, safe, and sanitary dwelling accommodations and related facilities effectively supplementing the accommodations and facilities in low-rent housing assisted under the other provisions of this chapter in a manner calculated to meet the total housing needs of the community in which they are located; and the term "owner" means any person or entity having the legal right to lease or sublease property containing one or more dwelling units as described in this section.

(b) *Survey and listing of available dwelling units.*

Beginning as soon as practicable after August 10, 1965, each public housing agency shall conduct a continuing survey and listing of the available dwelling units within the community or communities under its jurisdiction which provide decent, safe, and sanitary dwelling accommodations and related facilities and are, or may be made, suitable for use as low-rent housing in private accommodations under this section.

(c) *Invitation to owners to make units available; inspection and approval of offered units; list of approved units.*

Each public housing agency, by notification to the owners of housing listed under subsection (b) of this section, or by publication or advertisement, or otherwise, shall from time to time make known to the public in the community or communities under its jurisdiction the anticipated need for dwelling units in such community or communities to be used as low-rent housing in private accommodations under this section, inviting the owners of such dwelling units to make available for purposes of this section one or more of such units (not exceeding 10 per centum of the units in any single structure except to the extent that the agency, because of the limited number of units in the structure or for any other reason, determines that such limit should not be applied). The public hous-

ing agency shall conduct appropriate inspections of the units offered to be made available in any residential structure by the owner thereof in response to such invitation, and if—

(1) it finds that such units are, or may be made, suitable for use as low-rent housing in private accommodations within the meaning of subsection (a) (3) of this section, and

(2) the rentals to be charged for such units, as negotiated and agreed to by the agency and the owner of the structure in a manner consistent with subsection (d) (2) of this section, are within the financial range of families of low income, such agency may approve such units for use as low-rent housing in private accommodations in accordance with (and subject to the applicable limitations contained in) this section. Each public housing agency shall maintain and keep current a list of units approved by it under this subsection, including such information with respect to each such unit as it may consider necessary or appropriate.

(d) *Contents and term of contracts for use of approved units.*

To the extent of contracts for annual contributions entered into by the Authority with a public housing agency under section 1410(e) of this title, such agency may enter into contracts with the owners of structures containing dwelling units approved under subsection (c) of this section for the use of such units in accordance with this section (and no limitation not specifically provided for in this section shall be imposed by regulations of the Authority on the types or categories of structures or dwelling units, qualifying under subsection (a) (3) of this section and approved under subsection (c) of this section, which may be so used in any community). Each such contract with an owner shall provide (with respect to any unit) that—

(1) the selection of tenants for such unit shall be the function of the owner, subject to the provisions of the contract between the Authority and the agency;

(2) the rental and other charges to be received by the owner shall be negotiated and agreed to by the agency and the owner, and the rental and other charges to be paid by the tenant shall be determined in accordance with the standards applicable to units in low-rent housing projects assisted under the other provisions of this chapter;

(3) the agency shall have the sole right to give notice to vacate, with the owner having the right to make representations to the agency for termination of a tenancy;

(4) maintenance and replacements (including redecoration) shall be in accordance with the standard practice for the building concerned, as established by the owner and agreed to by the agency; and

(5) the agency and the owner shall carry out such other appropriate terms and conditions as may be mutually agreed to by them.

Each contract between a public housing agency and an owner entered into under this subsection shall be for a term of not less than twelve months, and shall be renewable by such agency and owner at the expiration of such term: *Provided*, That no renewal of such a contract shall result in a total term exceeding two hundred and forty months (or one hundred and eighty months in the case of an existing structure).

(e) *Maximum amount of annual contributions; period and aggregate amount of payments; reimbursement of expenses.*

The annual contribution under this chapter for a project of a public housing agency for low-rent housing in private accommodations under this section in lieu of any other guaranteed contribution authorized by section 1410 of this title shall not exceed the amount of the fixed annual contribution which would be established under this chapter for a newly constructed project by such public housing agency designed to accommodate the comparable number, sizes, and kinds of families. The period over which payments will be made to a public housing agency for a project of low-rent housing in private accommodations under this section, and the aggregate amount of such payments, under a contract for annual contributions, shall be determined on the basis of the number of units in the community or communities under the jurisdiction of such agency which are in use (or can reasonably be expected to be placed in use) as low-rent housing in private accommodations under this section, taking into account the terms of the leases under which such units are (or will be) so used. In addition, contracts for financial assistance entered into by the Authority with a public housing agency pursuant to this section shall provide for reimbursement of reasonable and necessary expenses incurred by such agency in conducting surveys, listings, and inspections described in subsections (b) and (c) of this section.

(f) *Inapplicability of certain provisions of law.*

The provisions of sections 1410(h) and 1415(7) of this title shall not apply to low-rent housing assisted or to be assisted under this section.

(g) *Purchase of structures containing leased dwelling units for purpose of resale to tenants; terms and conditions.*

To the extent authorized in contracts entered into by the Authority with a public housing agency, such agency may purchase any structure containing one or more dwelling units leased to provide low-rent housing in private accommodations under this section for the purpose of reselling the structure to the tenant or tenants of the structure or to a group of such tenants occupying units aggregating in value at least 80 per centum of the structure's total value. Any such resale shall be made subject to such terms and conditions (including provision for deferment of the required downpayment and for elimination of or adjustments in the required interest payments during a temporary period) as may be necessary to enable the tenants involved to make the purchase without undue financial hardship. (Sept. 1, 1937, ch. 896, § 22, as added Aug. 10, 1965, Pub. L. 89-117, title I, § 103(a), 79 Stat. 455, and amended Nov. 3, 1966, Pub. L. 89-754, title X, § 1002, 80 Stat. 1284; Aug. 1, 1968, Pub. § 1422. Penalties; applicability of general penal statutes concerning moneys.

All general penal statutes relating to the larceny, embezzlement, or conversion or to the improper handling, retention, use, or disposal of public moneys or property of the United States shall apply to the moneys and property of the Administration and to moneys and properties of the United States entrusted to the Administration. Wherever the application of the provisions of this chapter conflicts with the application of the provisions of section 421 to 425 and 431 to 434 of Title 40 or any other Act of the United States dealing with housing or slum clearance, or any Executive order, regulation, or other order thereunder, the provisions of this chapter shall prevail. (Sept. 1, 1937, ch. 896, § 28, formerly § 27, 50 Stat. 899, renumbered July 15, 1949, ch. 338, title III, § 307(h), 63 Stat. 431.)

§ 1428. Availability of funds for District of Columbia.

The President is authorized to make available to the National Capital Housing Authority, from any funds appropriated or otherwise provided to carry out the purposes of this chapter, such sums as he deems necessary to carry out the purposes of the District of Columbia Alley Dwelling Act. Such sums shall be deposited in the Conversion of Inhabited Alleys Fund and thereafter shall remain immediately available for the purposes of the District of Columbia Alley Dwelling Act. (Sept. 1, 1937, ch. 896, § 29, formerly § 28, 50 Stat. 899, renumbered July 15, 1949, ch. 338, title III, § 307(h), 63 Stat. 431.)

§ 1429. Separability clause.

Notwithstanding any other evidences of the intention of Congress, it is declared to be the controlling intent of Congress that if any provision of this chapter, or the application thereof to any person or circumstance, is held invalid, the remainder of this chapter, or the application of such provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby. § 1431. Administration representation at non-Federal project sites; reimbursement of expenses.

Necessary expenses of providing representatives at the sites of non-Federal projects in connection with the construction of such projects by public housing agencies with aid under this chapter, shall be compensated by such agencies by the payment of fixed fees which in the aggregate will cover the costs of rendering such services, and expenditures for such purpose shall be considered nonadministrative expenses, and funds received from such payments may be used only for the payment of necessary expenses of providing such representatives. § 1451. Local programs.

(a) *Local responsibilities considered by Secretary in extending financial assistance.*

In entering into any contract for advances for surveys, plans, and other preliminary work for projects under this subchapter or for grants pursuant to section 1453(d) of this title, the Secretary shall give consideration to the extent to which appropriate local public bodies have undertaken positive programs (through the adoption, modernization, administration, and enforcement of housing, zoning, building and other local laws, codes and regulations relating to land use and adequate standards of health, sanitation, and safety for buildings, including the use and occupancy of dwellings) for (1) preventing the spread or recurrence in the community of slums and blighted areas, and (2) encouraging housing cost reductions through the use of appropriate new materials, techniques, and methods in land and residential planning, design, and construction, the increase of efficiency in residential construction, and the elimination of restrictive practices which unnecessarily increase housing costs.

(b) *Encouragement of operations of local public agencies.*

In the administration of this subchapter, the Secretary shall encourage the operations of such local public agencies as are established on a State, or regional (within a State), or unified metropolitan basis or as are established on such other basis as permits such agencies to contribute effectively toward the solution of community development or redevelopment problems on a State, or regional (within a State), or unified metropolitan basis. The Secretary shall particularly encourage the utilization of local public agencies established by the States to operate on a statewide basis in behalf of smaller communities within the State which are undertaking or propose to undertake urban renewal programs whenever that arrangement facilitates the undertaking of an urban renewal program by any such community, or provides an effective solution to community development or redevelopment problems in such communities, and is approved by resolution or ordinance of the governing bodies of the affected communities.

(c) *Requirements; exceptions; minimum standards housing code.*

No contract shall be entered into for any loan or capital grant under this subchapter, and no mortgage shall be insured, and no commitment to insure a mortgage shall be issued, under section 1715k of Title 12, unless (1) there is presented to the Secretary by the locality, a workable program for community improvement (which shall include an official plan of action, as it exists from time to time, for effectively dealing with the problem of urban slums and blight within the community and for the establishment and preservation of a well-planned community with well-organized residential neighborhoods of decent homes and suitable living environment for adequate family life) for utilizing appropriate private and public resources to eliminate, and prevent the development or spread of, slums and urban blight, to encourage needed urban rehabilitation, to provide for the redevelopment of blighted, deteriorated, or slum areas, or to undertake such of the aforesaid activities or other feasible community activities as may be suitably employed to achieve the objectives of such a program, and (2) on the basis of his review of such program, the Secretary determines that such program meets the requirements of this

subsection and certifies that the Federal assistance may be made available in such community: *Provided*, That this sentence shall not apply to the insurance of, or commitment to insure, a mortgage under section 1715k of Title 12, if the mortgaged property is in an area referred to in clause (A)(i) of paragraph (1) of subsection (d) of said section, except that no such mortgage shall be insured, and no commitment to insure such a mortgage shall be issued, with respect to property in any community for which a workable program for community improvement was required and in effect at the time a contract for a loan or capital grant was entered into under this subchapter, unless there is a workable program for community improvement which meets the requirements of this subsection in effect in such community at the time of such insurance or commitment: *Provided further*, That commencing three years after September 2, 1964 or, in the case of an Indian tribe, band, or nation, commencing January 1, 1970, no workable program shall be certified or re-certified unless (A) the locality has had in effect, for at least six months prior to such certification or re-certification, a minimum standards housing code, related but not limited to health, sanitation, and occupancy requirements, which is deemed adequate by the Secretary, and (B) the Secretary is satisfied that the locality is carrying out an effective program of enforcement to achieve compliance with such housing code. Notwithstanding any other provision of law, in the case of a contract with an Indian tribe, band, or nation (or a public housing or other public agency for such tribe, band, or nation established under State or tribal law), the workable program and minimum standards housing code, referred to in the preceding sentence, may be presented to the Secretary by such tribe, band, or nation, and it shall be subject to the requirements of law with respect to such program and code only to the extent that such tribe, band, or nation has the legal jurisdiction and power to carry out such requirements.

(d) *Facilities for furnishing urban renewal service and assembly of information.*

The Secretary is authorized to establish facilities (1) for furnishing to communities, at their request, an urban renewal service to assist them in the preparation of a workable program as referred to in the subsection (c) of this section and to provide them with technical and professional assistance for planning and developing local urban renewal programs (including rehabilitation projects requiring no additional assistance under this subchapter or self-liquidating redevelopment projects), and (2) for the assembly, analysis and reporting of information pertaining to such programs.

(e) *Workable program requirements.*

No loan or grant contract may be entered into by the Secretary for an urban renewal project unless he determines that (1) the workable program for community improvement presented by the locality pursuant to subsection (c) of this section is of sufficient scope and content to furnish a basis for evaluation of the need for the urban renewal project; and (2) such project is in accord with the program, (July 15, 1949, ch. 338, title I, § 101, 63 Stat. 414; Aug. 2, 1954, ch. 649, title III, § 303, 68 Stat. 623; Aug. 11, 1955, ch. 783, title I, § 108(a), 69 Stat. 638; Aug. 7, 1956, ch. 1029, title IV, § 402, 70 Stat. 1103; Sept. 23, 1959, Pub. L. 86-372, title I, § 110(a) (3), (4), title IV, §§ 401, 417(2), 73 Stat. 659, 670, 677; June 30, 1961, Pub. L.

L. 89-117, title I, § 101(f), title III, §§ 302(a)(1), (b), 305(b), 79 Stat. 453, 474, 476; Sept. 9, 1965, Pub. L. 89-174, § 7(d), 79 Stat. 670; May 25, 1967, Pub. L. 90-19, § 6(b), (c), 81 Stat. 21; Aug. 1, 1968, Pub. L. 90-448, title V, § 513, 82 Stat. 525; Dec. 24, 1969, Pub. L. 91-152, title II, § 217(a), 83 Stat. 390.)

§ 1452. Loans.

(a) *Temporary and definitive loans; amounts; interest rates; security; repayment.*

To assist local communities in the elimination of slums and blighted or deteriorated or deteriorating areas, in preventing the spread of slums, blight or deterioration, and in providing maximum opportunity for the redevelopment, rehabilitation, and conservation of such areas by private enterprise, the Secretary may make temporary and definitive loans to local public agencies in accordance with the provisions of this subchapter for the undertaking of urban renewal projects. Such loans (outstanding at any one time) shall be in such amounts not exceeding the estimated expenditures to be made by the local public agency for such purposes, bear interest at such rate (not less than the applicable going Federal rate), be secured in such manner, and be repaid within such period (not exceeding, in the case of definitive loans, forty years from the date of the bonds or other obligations evidencing such loans), as may be deemed advisable by the Secretary. In any case where, in connection with its undertaking and carrying out of an urban renewal project, a local public agency is authorized (under the circumstances in which the temporary loan herein provided is requested) to acquire real property in the urban renewal area, the Secretary, in addition to all other authority under this subchapter and notwithstanding any other provisions of this subchapter, regardless of the stage of development of the urban renewal plan and whether before or after the approval thereof, may make a temporary loan or loans to any such local public agency to finance the acquisition of such real property: *Provided*, That no loan for such purpose shall be made unless (1) the governing body of the locality involved shall have approved by resolution or ordinance the acquisition of real property in the urban renewal area, and (2) either (A) the Secretary shall have determined that such loan is reasonably secured by a first mortgage or other prior lien upon such real property or is otherwise reasonably secured, or (B) the governing body of the locality shall have assumed the responsibility to bear any loss that may arise as the result of such acquisition in the event that the property so acquired is not used for urban renewal purposes because the urban renewal plan for the project is not approved, or is amended to omit any of the acquired property, or is abandoned for any reason: *Provided further*, That the Secretary may, in his discretion and subject to such conditions as he may impose, permit any structure so acquired to be demolished and removed, and may include in any loan authorized by this section the cost of such demolition and removal, together with administrative, relocation, and other related costs and payments, if the approval of the local governing body extends to such demolition and removal: *And provided further*, That the loan contract shall provide that the local public agency shall not dispose of such real property (except in lieu of foreclosure) until the local governing body of the locality involved shall have either approved the

urban renewal plan for the project or consented to the disposal of such real property. Notwithstanding any other provision of this subchapter, the Secretary may make a temporary loan, as described in the first two sentences of this subsection, for two or more urban renewal projects being carried out by the same local public agency. The principal amount of any such loan which is outstanding at any one time shall not exceed the estimated expenditures to be made by the local public agency for such projects.

(b) *Projects on open or predominantly open land.*

In connection with any project on land which is open or predominantly open, the Secretary may make temporary loans to municipalities or other public bodies for the provision of public buildings or facilities necessary to serve or support the new uses of such land in the project area. Such temporary loans shall be in such amounts not exceeding the expenditures to be made for such purpose, bear interest at such rate (not less than the applicable going Federal rate), be secured in such manner, and be repaid within such period (not exceeding ten years from the date of the obligations evidencing such loans), as may be deemed advisable by the Secretary.

(c) *Renegotiation of loans; supplemental grants; pledge of loan contract; payment of principal and interest; construction of contracts and other obligations; incontestability; full faith and credit.*

Loans made pursuant to subsection (a) or (b) of this section may be made subject to the condition that, if at any time or times or for any period or periods during the life of the loan contract the local public agency can obtain loan funds from sources other than the Federal Government, it may do so with the consent of the Secretary at such times and for such periods without waiving or surrendering any rights to loan funds under the contract for the remainder of the life of such contract, and, in any such case, the Secretary is authorized to consent to a pledge by the local public agency of the loan contract, and any or all of its rights thereunder, as security for the repayment of the principal of and the interest on the loan funds so obtained from other sources: *Provided*, That at any time during the undertaking of the project the Secretary may make a supplemental grant to the local public agency in the amount of the difference between the interest cost from a source other than the Federal Government and the interest cost at the contract rate or a supplemental grant in an amount which he determines is necessary to enable a local public agency to obtain funds from a source other than the Federal Government, and no part of the amount of any such grant shall be required to be contributed as a part of the local grant-in-aid. In connection with any such pledge of a loan contract, including loan payments thereunder, as security for the repayment of obligations of the local public agency held by other than the Federal Government, the Secretary is authorized to agree to pay, through operations of a paying agent or agents, and to pay or cause to be paid when due, from funds obtained pursuant to subsection (e) of this section, to the holders of such obligations (or to their agents or designees) the principal of and the interest of such obligations, subject to such conditions as the Secretary may determine but without regard to any other condition or requirement. Notwithstanding any other provision of law, any contract or other instrument executed by the Secretary which by its terms, includes an obligation of the

Secretary to make payment pursuant to this subsection shall be construed by all officers of the United States separate and apart from the loan contract and shall be incontestable in the hands of a bearer and the full faith and credit of the United States is pledged to the payment of all amounts agreed to be paid by the Secretary pursuant to this subsection.

(d) *Advances for surveys and plans; repayment; interest rate; application; General Neighborhood Renewal Plans.*

The Secretary may make advances of funds to local public agencies for surveys of urban areas to determine whether the undertaking of urban renewal projects therein may be feasible and for surveys and plans for urban renewal projects which may be assisted under this subchapter, including, but not limited to, (i) plans for carrying out a program of voluntary repair and rehabilitation of buildings and improvements, (ii) plans for the enforcement of State and local laws, codes, and regulations relating to the use of land and the use and occupancy of buildings and improvements, and to the compulsory repair, rehabilitation, demolition, or removal of buildings and improvements, and (iii) appraisals, title searches, and other preliminary work necessary to prepare for the acquisition of land in connection with the undertaking of such projects. The contract for any such advance of funds shall be made upon the condition that such advance of funds shall be repaid, with interest at not less than the applicable going Federal rate, out of any moneys which become available to the local public agency for the undertaking of the project involved. No contract for any such advances of funds for surveys and plans for urban renewal projects which may be assisted under this subchapter shall be made unless the governing body of the locality involved has by resolution or ordinance approved the undertaking of such surveys and plans and the submission by the local public agency of an application for such advance of funds. Notwithstanding section 1460 (h) of this title or the use in any other provision of this subchapter of the term "local public agency" or "local public agencies" the Secretary may make advances of funds under this subsection for surveys and plans for an urban renewal project (including General Neighborhood Renewal Plans as hereinafter defined) to a single local public body which has the authority to undertake and carry out a substantial portion, as determined by the Secretary, of the surveys and plans or the project respecting which such surveys and plans are to be made: *Provided*, That the application for such advances shows, to the satisfaction of the Secretary, that the filing thereof has been approved by the public body or bodies authorized to undertake the other portions of the surveys and plans or of the project which the applicant is not authorized to undertake.

In order to facilitate proper preliminary planning for the attainment of the urban renewal objectives of this subchapter, the Secretary may also make advances of funds (in addition to those authorized above) to local public agencies for the preparation of General Neighborhood Renewal Plans (as herein defined). A General Neighborhood Renewal Plan may be prepared for an area consisting of an urban renewal area or areas, together with any adjoining areas having specially related problems, and which is of such size that the urban renewal activities in the urban renewal area or areas may have to be initiated in stages, consistent with the capacity and resources of the respective local public agency or agencies,

over an estimated period of not more than eight years. No contract for advances for the preparation of a General Neighborhood Renewal Plan may be made unless the Secretary has determined that:

(1) in the interest of sound community planning, it is desirable that the urban renewal activities proposed for the area be planned in their entirety;

(2) the local public agency proposes to undertake promptly an urban renewal project embracing at least 10 per centum of such area, upon completion of the General Neighborhood Renewal Plan and the preparation of an urban renewal plan for such project; and

(3) the governing body of the locality has by resolution or ordinance (i) approved the undertaking of the General Neighborhood Renewal Plan and the submission of an application for such advance and (ii) represented that such plan will be used to the fullest extent feasible as a guide for the provision of public improvements in such area and that the plan will be considered in formulating codes and other regulatory measures affecting property in the area and in undertaking other local governmental activities pertaining to the development, redevelopment, rehabilitation, and conservation of the area.

The contract for any such advance of funds for a General Neighborhood Renewal Plan shall be made upon the condition that such advance shall be repaid, with interest at not less than the applicable going Federal rate, out of any moneys which become available to the local public agency for the undertaking of the first urban renewal project in such area: *Provided*, That in the event of the undertaking of any other project or projects in such area an appropriate allocation of the amount of the advance, with interest, may be effected to the end that each such project may bear its proper allocable part, as determined by the Secretary, of the cost of the General Neighborhood Renewal Plan. As used herein, a General Neighborhood Renewal Plan means a preliminary plan (conforming, in the determination of the governing body of the locality, to the general plan of the locality as a whole and to the workable program of the community meeting the requirements of section 1451 of this title) which outlines the urban renewal activities proposed for the area involved, provides a framework for the preparation of urban renewal plans and indicates generally, to the extent feasible in preliminary planning, the land uses, population density, building coverage, prospective requirements for rehabilitation and improvement of property, and any portions of the area contemplated for clearance and redevelopment.

(e) *Amount of funds outstanding for loans.*

The total amount of loan contracts outstanding at any one time under this subchapter shall not exceed the aggregate of the estimated expenditures to be made by local public agencies as part of the gross project cost of the projects assisted by such contracts. To obtain funds for advance and loan disbursements under this subchapter, the Secretary may issue and have outstanding at any one time notes and obligations for purchase by the Secretary of the Treasury in an amount which shall not, unless authorized by the President exceed \$1,000,000,000. For the purpose of establishing unpaid obligations as of a given date against the authorization contained in the preceding sentence, the Secretary shall estimate the maximum amount to be required to be borrowed

from the Treasury and outstanding at any one time with respect to loan commitments in effect on such date.

(f) *Notes and obligations; form and denomination; maturity date; interest rate; purchase and sale by Treasury; public debt transaction.*

Notes or other obligations issued by the Secretary under this subchapter shall be in such forms and denominations, have such maturities, and be subject to such terms and conditions as may be prescribed by the Secretary, with the approval of the Secretary of the Treasury. Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average rate on outstanding marketable obligations of the United States as of the last day of the month preceding the issuance of such notes or other obligations. The Secretary of the Treasury is authorized and directed to purchase any notes and other obligations of the Secretary issued under this subchapter and for such purpose is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which securities may be issued under such Act, as amended, are extended to include any purchases of such notes and other obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this section. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public debt transactions of the United States.

(g) *Tax exemption.*

Obligations, including interest thereon, issued by local public agencies for projects assisted pursuant to this subchapter, and income derived by such agencies from such projects, shall be exempt from all taxation now or hereafter imposed by the United States. (July 15, 1949, ch. 338, title I, § 102, 63 Stat. 414; Aug. 2, 1954, ch. 649, title III, § 304, 68 Stat. 624; Aug. 7, 1956, ch. 1029, title III, §§ 301, 303, 70 Stat. 1097, 1099; Sept. 23, 1959, Pub. L. 86-372, title IV, §§ 402-404, 73 Stat. 671; June 30, 1961, Pub. L. 87-70, title III, §§ 302(a), 314(b), 75 Stat. 166, 172; 7; Sept. 2, 1964, Pub. L. 88-560, title III, § 303(a), 78 Stat. 785; Aug. 10, 1965, Pub. L. 89-117, title III, § 303, 79 Stat. 475; May 25, 1967, Pub. L. 90-19, § 6(b), 81 Stat. 21; Aug. 1, 1968, Pub. L. 90-448, title V, § 507(a), 82 Stat. 522; Dec. 24, 1969, Pub. L. 91-152, title II, § 208, 83 Stat. 387.)

§ 1452a. Grants for preventing and eliminating slums and urban blight; preferences; reports, summaries, and informational material; aggregate amount; advance or progress payments.

(a) The Secretary of Housing and Urban Development is authorized to make grants, subject to such terms and conditions as he shall prescribe, to public bodies (including cities and other political subdivisions) and nonprofit organizations, to assist them in developing, testing, and reporting methods and techniques, and carrying out demonstrations and other activities for the prevention and the elimination of slums and urban blight. In the case of any such grant to a nonprofit organization, the Secretary shall require that the assisted activities and undertakings are not inconsistent with the program of the local public agency. No such grant shall exceed 90 per centum of the cost, as determined or estimated by the

Secretary, of the assisted activities and undertakings, but such a grant may in addition cover the full cost of writing and publishing the reports on such activities and undertakings. In administering this section, said Secretary shall give preference to those activities and undertakings which in his judgment can reasonably be expected to (1) contribute most significantly to the improvement of methods and techniques for the elimination and prevention of slums and blight, and (2) best serve to guide renewal programs in other communities.

(b) The Secretary is further authorized to pay for the cost of (1) writing and publishing reports on activities and undertakings financed by grants made under this section, as well as reports on similar activities and undertakings, not so financed, which are of significant value in furthering the purposes of this section, and (2) writing and publishing summaries and other informational material on such reports.

(c) The aggregate amount of grants made under subsection (a) of this section, and other costs incurred pursuant to subsection (b) of this section, shall not exceed \$20,000,000 and shall be payable from the grant funds provided under and authorized by section 1453(b) of this title. The Secretary may make advance or progress payments on account of any contract entered into pursuant to this section, notwithstanding the provisions of section 529 of Title 31.

(Aug. 2, 1954, c. 649, Title III, § 314, 68 Stat. 629; Sept. 2, 1964, Pub. L. 88-560, Title III, § 313, 78 Stat. 792; May 25, 1967, Pub. L. 90-19, § 10(a), (c), 81 Stat. 22; Aug. 1, 1968, Pub. L. 90-448, Title XVII, § 1702, 82 Stat. 603.)

§ 1452b. Rehabilitation loans.

(a) *Considerations.*

The Secretary is authorized, through the utilization of local public and private agencies where feasible, to make loans as herein provided to the owners and tenants of property to finance the rehabilitation of such property. No loan shall be made under this section unless—

(1) (A) the property is situated in an urban renewal area or an area in which a program of concentrated code enforcement activity is being carried out pursuant to section 1468 of this title, and the rehabilitation is required to make the property conform to applicable code requirements or to carry out the objectives of the urban renewal plan for the area and, in addition, to generally improve the condition of the property; or

(B) (i) the property is in an area (other than an area described in subparagraph (A)) which the governing body of the locality has determined and so certifies to the Secretary, contains a substantial number of structures in need of rehabilitation, (ii) there is in effect for the locality a workable program meeting the requirements of section 1451(c) of this title; (iii) the property is residential and owner-occupied, (iv) the property is in need of rehabilitation and is in violation of the local minimum housing or similar code, and (v) the area is definitely planned for rehabilitation or concentrated code enforcement within a reasonable time, and the rehabilitation of such property is consistent with the plan for rehabilitation or code enforcement; or

(C) (i) the property has been determined to be uninsurable because of physical hazards after an inspection pursuant to a statewide property insurance plan approved by the Secretary under title XII of the National Housing Act, and (ii) the loan is made to the owner or tenant

of the property to finance rehabilitation which the Secretary determines to be necessary to make the property meet reasonable underwriting standards;

(2) the applicant is unable to secure the necessary funds from other sources upon comparable terms and conditions; and

(3) the loan is an acceptable risk taking into consideration the need for the rehabilitation, the security available for the loan, and the ability of the applicant to repay the loan.

In making loans with respect to residential property under this section, priority shall be given to applications made by persons whose annual income, as determined pursuant to criteria and procedures established by the Secretary, is within the limitations prescribed by the Secretary for occupants of projects financed with below-market interest rate mortgages insured (in the area involved) under section 1715(d)(3) of Title 12.

(b) *Definitions.*

For the purposes of this section—

(1) the term "rehabilitation" means the improvement or repair of a structure or facilities in connection with a structure, and may include the provision of such sanitary or other facilities as are required by applicable codes, the urban renewal plan, or a statewide property insurance plan to be provided by the owner or tenant of the property;

(2) the term "urban renewal area" means a slum area or a blighted, deteriorated, or deteriorating area as defined in section 1460(a) of this title;

(3) the term "tenant" means a person or organization who is occupying a structure under a lease having a period to run at the time a rehabilitation loan is made under this section of not less than the term of the loan; and

(4) the term "Secretary" means the Secretary of Housing and Urban Development.

(c) *Limitations.*

A rehabilitation loan made under this section shall be subject to the following limitations:

(1) The loan shall be subject to such terms and conditions as may be prescribed by the Secretary.

(2) The term of the loan may not exceed twenty years or three-fourths of the remaining economic life of the structure after rehabilitation, whichever is less.

(3) The loan shall bear interest at such rate as the Secretary determines to be appropriate but not to exceed 3 per centum per annum of the amount of the principal outstanding at any time, and the Secretary may prescribe such other charges as he finds necessary, including service charges and appraisal, inspection, and other fees.

(4) The amount of the loan may not exceed—

(A) in the case of residential property, the amount of a loan which could be insured by the Secretary of Housing and Urban Development under section 1715(k)(h) of Title 12. *Provided*, That, within the limitations otherwise applicable on the amount of a loan under such section, the loan may exceed the cost of rehabilitation in order to include an amount approved by the Secretary to refinance existing indebtedness secured by such property if such refinancing is necessary to enable the applicant to amortize, with a monthly payment of not more than 20 per centum of his average monthly income, such loan and any other indebtedness secured by his property; and

(B) in the case of nonresidential property, whichever of the following is the least: \$50,000, or the cost of rehabilitation, or an amount which when added to any outstanding indebtedness related to the property securing the loan creates a total outstanding indebtedness that the Secretary determines could be reasonably secured by a first mortgage on the property.

(5) A loan shall be secured as determined by the Secretary.

(d) *Authorization of appropriations; revolving fund.*

There is authorized to be appropriated not to exceed \$150,000,000 for each fiscal year which shall constitute a revolving fund to be used by the Secretary in carrying out this section. All moneys in such revolving fund shall be available for necessary expenses of servicing loans made pursuant to this section, including reimbursement or payment for services and facilities of the Government National Mortgage Association and of any public or private agency for the servicing of such loans.

(e) *Additional functions, powers and duties of Secretary.*

In the performance of, and with respect to, the functions, powers, and duties vested in him by this section, the Secretary shall have (in addition to any authority otherwise vested in him) the functions, powers, and duties set forth in section 1749a of Title 12 (except subsection (c)(2)).

(f) *Use of Federal or local public or private agency or organization as agent of Secretary.*

The Secretary is authorized to delegate to or use as his agent any Federal or local public or private agency or organization to the extent he determines appropriate and desirable to carry out the objectives of this section in the area involved.

(g) *Rules and regulations; requirements and conditions.*

The Secretary is authorized to issue such rules and regulations and impose such requirements and conditions (in addition to those specified in this section) as he determines to be desirable to carry out the objectives of this section, including limitations on the amount of a loan and restrictions on the use of the property involved.

(h) *Termination date.*

No loan shall be made under the authority of this section after June 30, 1973, except pursuant to a contract, commitment, or other obligation entered into pursuant to this section before that date. (Pub. L. 88-560, title III, § 312, Sept. 2, 1964, 78 Stat. 790; Aug. 10, 1965, Pub. L. 89-117, title III, §§ 311(e), 312, 79 Stat. 479; May 25, 1967, Pub. L. 90-19, § 21(b), 81 Stat. 25; Aug. 1, 1968, Pub. L. 90-448, title V, § 509, title VIII, § 807(b), 82 Stat. 523, 544; Dec. 24, 1969, Pub. L. 91-152, title II, § 207, 83 Stat. 387.)

§ 1453. Grants for urban renewal projects.

(a) *authorization; aggregate amount; limitation on grants for individual projects.*

(1) The Secretary may make capital grants to local public agencies in accordance with the provisions of this subchapter for urban renewal projects: *Provided*, That the Secretary shall not make any contract for capital grant with respect to a project which consists of open land (other than land within the purview of section 1460(c)(1)(v) of this title), except that he may contract for a grant in an amount not to exceed two-thirds of the difference between the proceeds from any land disposed of pursuant to

section 1457 of this title and the fair value of the land without regard to such section.

(2) The aggregate of such capital grants with respect to all of the projects of a local public agency (or of two or more local public agencies in the same municipality) on which contracts for capital grants have been made under this subchapter shall not exceed the total of—

(A) two-thirds of the aggregate net project costs of all such projects to which neither subparagraph (B) nor subparagraph (C) applies, and

(B) three-fourths of the aggregate net project costs of any such projects which are located in (i) a municipality having a population of fifty thousand or less according to the most recent decennial census, or (ii) a municipality situated in a labor market area which, at the time the contract or contracts involved are entered into or at such earlier time as the Secretary may specify in order to avoid hardship, or at any time after such contract or contracts are entered into and prior to the time the final grant payment has been made pursuant thereto, is designated as a redevelopment area under the second sentence of section 2504(a) of this title or any other legislation enacted after August 10, 1965, containing standards for designation as a redevelopment area generally comparable to those set forth in the second sentence of section 2504(a) of this title, and

(C) three-fourths of the aggregate net project costs of any of such projects (not falling within subparagraph (B)) which the Secretary, upon request, may approve on a three-fourths capital grant basis.

(3) A capital grant with respect to any individual project shall not exceed the difference between the net project cost and the local grants-in-aid actually made with respect to the project.

(b) *Limitation on aggregate amount of grants; authorization of appropriations; repayment of certain uncollectible loans.*

The Secretary may, with the approval of the President, contract to make grants under this subchapter aggregating not to exceed \$7,600,000,000, which amount shall be increased by \$1,400,000,000 on July 1, 1969, by \$1,700,000,000 on July 1, 1970, and by \$1,500,000,000 on July 1, 1971. Not less than 35 per centum of the amounts available to the Secretary for grants under this subchapter during each of the fiscal years commencing after June 30, 1969 and ending prior to July 1, 1974, shall be for grants under part B. In addition to the authority to make grants provided in the first sentence of this subsection, the Secretary may contract to make grants under this subchapter, on or after July 1, 1967, in an amount not to exceed \$600,000,000: *Provided*, That the authority to contract to make grants provided by this sentence shall be exercised only with respect to an urban renewal project which is identified and scheduled to be carried out as one of the projects or activities included within an approved comprehensive city demonstration program assisted under the provisions of section 3305(c) of this title. Such grants shall not be used for major long-term capital improvement; shall not exceed two-thirds of the cost, as determined or estimated by the Secretary, of the project for which the grant is made; and shall be subject to such other terms and conditions as he may prescribe. The Secretary is authorized, notwithstanding the provisions of section 529 of Title 31, to make advance or progress payments on account of any grant contracted to be made pursuant to this section.

The faith of the United States is solemnly pledged to the payment of all grants contracted for under this subchapter, and there are authorized to be appropriated out of any money in the Treasury not otherwise appropriated, the amounts necessary to provide for such payments: *Provided*, That any amounts so appropriated shall also be available for repaying to the Secretary of the Treasury, for application to notes of the Secretary, the principal amounts of any funds advanced to local public agencies under this subchapter which the Secretary determines to be uncollectible because of the termination of activities for which such advances were made, together with the interest paid or accrued to the Secretary of the Treasury (as determined by him) attributable to notes given by the Secretary in connection with such advances, but all such repayments shall constitute a charge against the authorization to make contracts for grants contained in this section: *Provided further*, That no such determination of the Secretary shall be construed to prejudice the rights of the United States with respect to any such advance.

(c) *Restriction on financial assistance to localities or local public agencies.*

Notwithstanding any other provision of this or any other Act, if financial assistance authorized by this subchapter to be made available to a locality or local public agency may be made available to any locality or local public agency within the limitations provided in subsection (b) of this section and sections 1452(e) and 1456(e) of this title, and the second paragraph following the paragraph numbered (6) of section 1460(c) of this title, the amount of such financial assistance made available to any locality or local public agency upon submission and processing of proper application therefor shall not otherwise be restricted except on the basis of (1) urgency of need, and (2) feasibility, as determined by the Secretary.

(d) *Grants for preparation or completion of community renewal programs; requirements; approval by governing body; submission of application; limitation on amount of grants.*

The Secretary may contract to make grants for the preparation or completion of community renewal programs, which may include, without being limited to, (1) the identification of slum areas or blighted, deteriorated, or deteriorating areas in the community, (2) the measurement of the nature and degree of blight and blighting factors within such areas, (3) determination of the financial, relocation, and other resources needed and available to renew such areas, (4) the identification of potential project areas and, where feasible, types of urban renewal action contemplated within such areas, and (5) scheduling or programming of urban renewal activities. Such programs shall conform, in the determination of the governing body of the locality, to the general plan of the locality as a whole. The Secretary may establish reasonable requirements respecting the scope and content of such programs. No contract for a grant pursuant to this subsection shall be made unless the governing body of the locality involved has approved the preparation or completion of the community renewal program and the submission by the local public agency of an application for such a grant. Notwithstanding section 1460(h) of this title or the use in any other provision of this subchapter of the term "local public agency" or "local public agencies", the Secretary may make grants pursuant to this subsection for the preparation or completion of a community renewal program to a single local public body authorized

to perform the planning work necessary to such preparation or completion. No grant made pursuant to this subsection shall exceed two-thirds of the cost (as such cost is determined or estimated by the Secretary) of the preparation or completion of the community renewal program for which such grant is made. § 1454. Requirements for local grants-in-aid.

Every contract for capital grants under this subchapter shall require local grants-in-aid in connection with the project involved. Such local grants-in-aid, together with the local grants-in-aid to be provided in connection with all other projects of the local public agency (or two or more local public agencies in the same municipality) on which contracts for capital grants have theretofore been made, shall be at least equal to the total of one-third of the aggregate net project costs of such projects undertaken on a two-thirds capital grant basis and one-fourth of the aggregate net project costs of such projects undertaken on a three-fourths capital grant basis. (July 15, 1949, ch. 338, title I, § 104, 63 Stat. 416; Aug. 2, 1954, ch. 649, title III, § 306, 68 Stat. 625; Aug. 7, 1956, ch. 1029, title III, § 306, 70 Stat. 1101; July 12, 1957, Pub. § 1455. Requirements for loan- or capital-grant contracts.

Contracts for loans or capital grants shall be made only with a duly authorized local public agency and shall require that—

(a) *Approval of urban renewal plan.*

The urban renewal plan for the urban renewal area be approved by the governing body of the locality in which the project is situated, and that such approval include findings by the governing body that (i) the financial aid to be provided in the contract is necessary to enable the project to be undertaken in accordance with the urban renewal plan; (ii) the urban renewal plan will afford maximum opportunity, consistent with the sound needs of the locality as a whole, for the rehabilitation or redevelopment of the urban renewal area by private enterprise; and (iii) the urban renewal plan conforms to a general plan for the development of the locality as a whole; and (iv) the urban renewal plan gives due consideration to the provision of adequate park and recreational areas and facilities, as may be desirable for neighborhood improvement, with special consideration for the health, safety, and welfare of children residing in the general vicinity of the site covered by the plan;

(b) *Obligations of purchasers, lessees, and assignees of property; and Federal agencies.*

When real property acquired or held by the local public agency in connection with the project is sold or leased, the purchasers or lessees and their assignees shall be obligated (i) to devote such property to the uses specified in the urban renewal plan for the project area; (ii) to begin within a reasonable time any improvements on such property required by the urban renewal plan; and (iii) to comply with such other conditions as the Secretary finds, prior to the execution of the contract for loan or capital grant pursuant to this subchapter, are necessary to carry out the purposes of this subchapter: *Provided*, That mortgagees and others who acquire an interest in such property as the result of the enforcement of any lien or claim thereon: *And provided further*, That, with respect to any improvements of a type which it is otherwise authorized to undertake, any Federal agency (as defined in section 472(b) of Title 40, and also including the District of Columbia or any agency thereof) is authorized to become obligated in accordance with this subsection, except that clause (ii) of this subsection shall apply to such Federal agency only to the extent that it is authorized (and funds have been made available) to make the improvements involved;

(c) *Temporary relocation of individuals and families displaced from urban renewal area; relocation assistance program; review of relocation plan.*

(1) There shall be a feasible method for the temporary relocation of individuals and families displaced from the urban renewal area, and there are or are being provided, in the urban renewal area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the individuals and families displaced from the urban renewal area, decent, safe, and sanitary dwellings equal in number to the number of and available to such displaced individuals and families and reasonably accessible to their places of employment. The Secretary shall issue rules and regulations to aid in implementing the requirements of this subsection and in otherwise achieving the objectives of this subchapter. Such rules and regulations shall require that there be established, at the earliest practicable time, for each urban renewal project involving the displacement of individuals, families, and business concerns occupying property in the urban renewal area, a relocation assistance program which shall include such measures, facilities, and services as may be necessary or appropriate in order (A) to determine the needs of such individuals, families, and business concerns for relocation assistance; (B) to provide information and assistance to aid in relocation and otherwise minimize the hardships of displacement, including information as to real estate agencies, brokers, and boards in or near the urban renewal area which deal in residential or business property that might be appropriate for the relocating of displaced individuals, families, and business concerns; and (C) to assure the necessary coordination of relocation activities with other project activities and other planned or proposed governmental actions in the community which may affect the carrying out of the relocation program, particularly planned or proposed low-rent housing projects to be constructed in or near the urban renewal area.

(2) As a condition to further assistance after August 10, 1965, with respect to each urban renewal project involving the displacement of individuals and families, the Secretary shall re-

quire, within a reasonable time prior to actual displacement, satisfactory assurance by the local public agency that decent, safe, and sanitary dwellings as required by the first sentence of this subsection are available for the relocation of each such individual or family.

(3) Within one year after December 24, 1969, and every two years thereafter, the Secretary shall review each locality's relocation plan under this subsection and its effectiveness in carrying out such plan.

(d) *Acquisition of land; public hearings.*

No land for any project to be assisted under this subchapter shall be acquired by the local public agency except after public hearing following notice of the date, time, place, and purpose of such hearing.

(e) *Public disclosure by redevelopers.*

No understanding with respect to, or contract for, the disposition of land within an urban renewal area shall be entered into by a local public agency unless the local public agency shall have first made public, in such form and manner as may be prescribed by the Secretary, (1) the name of the redeveloper, together with the names of its officers and principal members, shareholders and investors, and other interested parties, (2) the redeveloper's estimate of the cost of any residential redevelopment and rehabilitation, and (3) the redeveloper's estimate of rentals and sales prices of any proposed housing involved in such redevelopment and rehabilitation: *Provided*, That nothing in this subsection shall constitute a basis for contesting the conveyance of, or title to, such land.

(f) *Standard housing units for low and moderate income families or individuals; minimum number of units in projects; waiver of minimum number requirement; report to Congressional Committees.*

A majority of the housing units provided in each community's total of such approved urban renewal projects as will be redeveloped for predominantly residential uses and which receive Federal recognition after August 1, 1968, shall be standard housing units for low and moderate income families or individuals: *Provided*, That the units in each community's total of such approved urban renewal projects which are for low-income families or individuals shall constitute at least 20 per centum of the units in such projects, except that the Secretary may waive the requirement of this proviso in any community to the extent that units for low-income families and individuals are not needed. The Secretary shall promptly report any waiver under the proviso in the preceding sentence to the Committees on Banking and Currency of the Senate and the House of Representatives.

(g) *Sewer systems in urban renewal areas.*

Consideration has been given to development of a sewer system to serve the urban renewal area which will, to the maximum extent feasible, provide for effective control of storm and sanitary wastes.

(h) *Demolition or removal of residential structures in urban renewal projects; replacement with standard housing units; number of units; waiver of provisions.*

If any urban renewal project which receives Federal recognition after December 24, 1969 includes the demolition or removal of any residential structure or structures (whether or not it is a project taken into account for purposes of applying subsection (f) of this section), there shall be

provided in the area within which the local public agency has jurisdiction (by construction or rehabilitation) standard housing units for occupancy by low and moderate income families (including but not limited to units provided under Federal or State-assisted housing programs and including units of low-rent housing in private accommodations assisted under section 1421b of this title) at least equal in number to the number of units occupied by such families prior to the demolition or removal of such structure or structures: *Provided*, That the Secretary shall have authority where he deems it appropriate to take into account suitable housing outside such area for purposes of meeting the requirement of this subsection. If the Secretary finds that the percentage of vacancies for all existing housing units in the area within the local public agency has jurisdiction is 5 per centum or greater, he may waive the requirements of this subsection to the extent that he determines there are existing standard housing units in such area which will be available for occupancy by low and moderate income families who are being displaced by the urban renewal project. (July 15, 1949, ch. 338, title I, § 105, 63 Stat. 416; Aug. 2, 1954, ch. 649, title III, § 307, 68 Stat. 625; Aug. 7, 1956, ch. 1029, title III, § 302(a)(1), 70 Stat. 1097; Sept. 23, 1959, Pub. Every contract for a loan, grant, or contribution under this subchapter, for the construction of a project shall require the submission of specifications with respect to such construction prior to the authorization for the award of the construction contract and the submission of data with respect to the acquisition of land prior to the authorization to acquire such land. (Aug. 2, 1954, ch. 649, title VIII, § 815, 68 Stat. 647.)

§ 1456. *Secretary's powers and duties.*

(a) *Preparation and submission of annual budget; maintenance and audit of accounts.*

In the performance of, and with respect to, the functions, powers, and duties vested in him by this subchapter, the Secretary, notwithstanding the provisions of any other law, shall—

(1) prepare annually and submit a budget program as provided for wholly owned Government corporations by the Government Corporation Control Act, as amended;

(2) maintain an integral set of accounts which shall be audited annually by the General Accounting Office in accordance with the principles and procedures applicable to commercial transactions as provided by the Government Corporation Control Act, as amended, and no other audit shall be required: *Provided*, That such financial transactions of the Secretary as the making of advances of funds, loans, or grants and vouchers approved by the Secretary in connection with such financial transactions shall be final and conclusive upon all officers of the Government.

(b) *Deposit of funds; use of assets and receipts.*

Funds made available to the Secretary pursuant to the provisions of this subchapter shall be deposited in a checking account or accounts with the Treasurer of the United States. Receipts and assets obtained or held by the Secretary in connection with the performance of his functions under this subchapter shall be available for any of the purposes of this subchapter (except for grants pursuant to section 1453 of this title), and all funds available for carrying out the functions of the Secretary under this subchapter (including appropriations therefor, which are authorized), shall be available, in such amounts as may from year to year be authorized by the Congress, for the administrative expenses of the Secretary in connection with the performance of such functions: *Provided*, That necessary expenses of inspections and audits, and of providing representatives at the site, of projects being planned or undertaken by local public agencies pursuant to this subchapter shall be compensated by such agencies by the payment of fixed fees which in the aggregate will cover the costs of rendering such services, and such expenses shall be considered nonadministrative; and for the purpose of providing such inspections and audits and of providing representatives at the sites, the Secretary may utilize any agency and such agency may accept reimbursement or payment for such services from such local public agencies or the Secretary, and credit such amounts to the appropriations or funds against which such charges have been made.

(c) *Specific powers, duties, and liabilities.*

In the performance of, and with respect to, the functions, powers, and duties vested in him by this subchapter, the Secretary, notwithstanding the provisions of any other law, may—

- (1) sue and be sued;
- (2) foreclose on any property or commence any action to protect or enforce any right conferred upon him by any law, contract, or other agreement, and bid for and purchase at any foreclosure or any other sale any project or part thereof in connection with which he has made a loan or capital grant pursuant to this subchapter. In the event of any such acquisition, the Secretary may, notwithstanding any other provision of law relating to the acquisition, handling, or disposal of real property by the United States, complete, administer, dispose of, and otherwise deal with, such project or part thereof: *Provided*, That any such acquisition of real property shall not deprive any State or political subdivision thereof of its civil jurisdiction in and over such property or impair the civil rights under the State or local laws of the inhabitants on such property;
- (3) enter into agreements to pay annual sums in lieu of taxes to any State or local taxing authority with respect to any real property so acquired or owned, and such sums shall approximate the taxes which would be paid upon such property to the State or local taxing authority, as the case may be, if such property were not exempt from taxation;
- (4) sell or exchange at public or private sale, or lease, real or personal property, and sell or exchange any securities or obligations, upon such terms as he may fix;
- (5) obtain insurance against loss in connection with property and other assets held;
- (6) subject to the specific limitations in this subchapter, consent to the modification, with respect to rate of interest, time of payment of any installment of principal or interest, secu-

(7) include in any contract or instrument made pursuant to this subchapter such other covenants, conditions, or provisions (including such covenants, conditions, or provisions as, in the determination of the Secretary, are necessary or desirable to prevent the payment of excessive prices for the acquisition of land in connection with projects assisted under this subchapter) as he may deem necessary to assure that the purposes of this subchapter will be achieved. No provision of this subchapter shall be construed or administered to permit speculation in land holding; and

(8) make advance or progress payments on account of any grant contracted to be made pursuant to this subchapter, notwithstanding the provisions of section 529 of Title 31, or any other provisions of this subchapter.

(d) *Repealed. Pub. L. 89-754, title X, § 1020(a), Nov. 3, 1966, 80 Stat. 1295.*

(e) *Limitation on expenditures within one State.*

Not more than 12½ per centum of the grant funds provided for in this subchapter shall be expended in any one State: *Provided*, That the Secretary, without regard to such limitation, may enter into contracts for grants aggregating not to exceed \$100,000,000 (subject to the total authorization provided in section 1453(b) of this title) with local public agencies in States where more than two-thirds of the maximum grants permitted in the respective State under this subsection has been obligated.

(f) *Repealed. Pub. L. 88-560, title III, § 310(c), Sept. 2, 1964, 78 Stat. 790.*

(g) *Construction of hotels and other transient housing.*

No provision permitting the new construction of hotels or other housing for transient use in the redevelopment of any urban renewal area under this subchapter shall be included in the urban renewal plan unless the community in which the project is located, under regulations prescribed by the Secretary, has caused to be made a competent independent analysis of the local supply of transient housing and as a result thereof has determined that there exists in the area a need for additional units of such housing.

(h) *Redevelopment in accordance with urban renewal plan.*

Notwithstanding any other provision of this subchapter, no contract shall be entered into for any loan or capital grant under this subchapter with any local public agency establishes, by evidence satisfactory to the Secretary, that any urban renewal project with respect to which such local public agency has received a loan or capital grant under this subchapter has been, or will be, undertaken and carried out in substantial accordance with the urban renewal plan, and any amendments thereto, approved with respect to such project, and the terms of the contract for loan or capital grant covering such project.

(i) *Early closeout of urban renewal projects; project completion prior to disposition of certain property; additional grant based on estimated disposition proceeds; approval of disposition; payment of net proceeds to Secretary.*

Upon determination of the Secretary that the local public agency does not expect to be able in the reasonably near future, due to circumstances

beyond its control, to dispose of urban renewal project land acquired in accordance with the urban renewal plan and that all other project activities are completed except local grant-in-aid activities designated in the third proviso to section 1460(d) of this title under the conditions specified therein, and that a closeout of the urban renewal project pursuant to this subsection would be in the financial interest of the Federal Government, the urban renewal project may be deemed completed, net project cost may be computed, and the capital grant paid. To facilitate these actions, the Secretary may pay to the local public agency a grant, in addition to the capital grant otherwise payable, equal to one-third (or one-fourth in the case of projects funded on the three-fourths capital grant basis) of the estimated disposition proceeds of such land as accepted by the Secretary. No local grant-in-aid shall be required on account of this additional grant. The approval of the Secretary shall be obtained prior to the disposition of such land by the local public agency and net proceeds realized from the disposition of such land after project closeout shall be paid to the Secretary by the local public agency (July 15, 1949, ch. 338, title I, § 106, 63 Stat. 417; June 3, 1952, ch. 362, 66 Stat. 98; June 30, 1953, ch. 170, § 22, 67 Stat. 127; Aug. 2, 1954, ch. 649, title III, § 308, title VIII, § 802(e), 68 Stat. 625, 643; Aug. 11, 1955, ch. 783, title I, § 106(b), 69 Stat. 637; Aug. 7, 1956, ch. 1029, title III, § 304, 305, 70 Stat. 1100; July 12, 1957, Pub. L. 87-70, title III, § 304, 75 Stat. 167; Sept. 2, 1964, Pub. L. 88-560, title III, § 310(c), 78 Stat. 790; Aug. 10, 1965, Pub. L. 89-117, title III, § 306, 79 Stat. 476; Nov. 3, 1966, Pub. § 1457. Property to be used for public housing or housing for low or moderate income families or individuals.

(a) Upon approval of the Secretary and subject to such conditions as he may determine to be in the public interest, any real property held as part of an urban renewal project may be made available to (1) a limited dividend corporation, nonprofit corporation or association, cooperative, or public body or agency or other approved purchaser or lessee, or (2) a purchaser or lessee who would be eligible for a mortgage insured under section 1715 (d) (3) or (d) (4), section 1715(h)(1), section 1715(j) (1), or section 1715z-1 of Title 12, for purchase or lease at fair value for use by such purchaser or lessee in the provision of new or rehabilitated housing for occupancy by families or individuals of low or moderate income: *Provided*, That when property is made available under clause (1) to an approved purchaser or lessee other than a limited dividend corporation, nonprofit corporation or association, cooperative, or public body or agency, the Secretary shall assure that the benefits of this subsection will go to the occupant of the property rather than to such purchaser or lessee.

(b) When it appears in the public interest that real property acquired as part of an urban renewal project should be used in whole or in part for a low-rent housing project assisted under the United States Housing Act of 1937, or under a State or local program found by the Secretary to have the same general purposes as the Federal

program under such Act, the property shall be made available to the public housing agency undertaking the low-rent housing project at a price equal to its fair value, as determined in accordance with subsection (a) of this section, and such amount shall be included as part of the development cost of such low-rent housing project: *Provided*, That the local contribution in the form of tax exemption or tax remission required by section 1410(h) of this title, or by analogous provisions in legislation authorizing such State or local program, with respect to the low-rent housing project into which such property was incorporated on or after September 23, 1959, shall (if covered by a contract which, in the determination of the Secretary of Housing and Urban Development, will assure that such local contribution will be made during the entire period that the project is used as low-rent housing within the meaning of such Act, or by provisions found by the Secretary to give equivalent assurance in the case of State or local programs) be accepted as a local grant-in-aid equal in amount, as determined by the Secretary, to one-half (or one-third in the case of an urban renewal project on a three-fourths capital grant basis) of the difference between the cost of such property (including costs of land, clearance, site improvements, and a share, prorated on an area basis, of administrative interest, and other project costs) and its sales price, and shall be considered a local grant-in-aid furnished in a form other than cash within the meaning of section 1460(d) of this title. (July 15, 1949, ch. 338, title I, § 107, 63 Stat. 419; Aug. 2, 1954, ch. 649, title III, § 309, 68 Stat. 626; Sept. 23, 1959, Pub. L. 86-372, title IV, § 411, 73 Stat. 674; June 30, 1961, Pub. § 1458. Disposition of surplus Federal real property: sale at fair market value; disposition of net proceeds.

The President may at any time in his discretion, transfer, or cause to be transferred, to the Secretary any right, title, or interest held by the Federal Government or any department or agency thereof in any land (including buildings thereon) which is surplus to the needs of the Government and which a local public agency certifies will be within the area of a project being planned by it. When such land is sold to the local public agency by the Secretary, it shall be sold at a price equal to its fair market value, and the net proceeds from such sale shall be covered into the Treasury as miscellaneous receipts. (July 15, 1949, ch. 338, title I, § 108, 63 Stat. 419; May 25, 1967, Pub. L. 90-19, § 6(b), 81 Stat. 21; Dec. 31, 1970, Pub. L. 91-609, title II, § 206, 84 Stat. 1777.)

§ 1459. Protection of labor standards.

In order to protect labor standards—

(a) any contract for loan or capital grant pursuant to this subchapter shall contain a provision requiring that not less than the salaries prevailing in the locality, as determined or adopted (subsequent to a determination under applicable State or local law) by the Secretary, shall be paid to all architects, technical engineers, draftsmen, and technicians employed in the development of the project involved and shall also contain a provision that not less than the wages prevailing in the locality, as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act, shall be paid to all laborers and mechanics, except such

laborers or mechanics who are employees of municipalities or other local public bodies, employed in the development of the project involved for work financed in whole or in part with funds made available pursuant to this subchapter; and the Secretary shall require certification as to compliance with the provisions of this paragraph prior to making any payment under such contract; and

(b) the provisions of section 874 of Title 18, and of section 276c of Title 40, shall apply to work financed in whole or in part with funds made available for the development of a project pursuant to this subchapter. § 1460. Definitions.

The following terms shall have the meanings, respectively, ascribed to them below, and, unless the context clearly indicates otherwise, shall include the plural as well as the singular number:

(a) "Urban renewal area" means a slum area or a blighted, deteriorated, or deteriorating area in the locality involved which the Secretary approves as appropriate for an urban renewal project.

(b) "Urban renewal plan" means a plan, as it exists from time to time, for an urban renewal project, which plan (1) shall conform to the general plan of the locality as a whole and to the workable program referred to in section 1451 of this title and shall be consistent with definite local objective respecting appropriate land uses, improved traffic, public transportation, public utilities, recreational and community facilities, and other public improvements; and (2) shall be sufficiently complete to indicate, to the extent required by the Secretary for the making of loans and grants under this subchapter, such lands acquisition, historic and architectural preservation, demolition, and removal of structures, redevelopment, improvements, and rehabilitation as may be proposed to be carried out in the urban renewal area, zoning and planning changes, if any, land uses, maximum densities, and building requirements.

(c) "Urban renewal project" or "project" may include undertakings and activities of a local public agency in an urban renewal area for the elimination and for the prevention of the development or spread of slums and blight, and may involve slum clearance and redevelopment in an urban renewal area, or rehabilitation or conservation in an urban renewal area, or any combination or part thereof, in accordance with such urban renewal plan. Such undertakings and activities may include—

(1) acquisition of (i) a slum area of a deteriorated or deteriorating area, or (ii) land which is predominantly open and which because of obsolete platting, diversity of ownership, deterioration of structures or of site improvements, or otherwise, substantially impairs or arrests the sound growth of the community, or (iii) open land necessary for sound community growth which is to be developed for predominantly residential uses, or (iv) air rights in an area consisting principally of land in highways, railway or subway tracks, bridge or tunnel entrances, or other similar facilities which have a blighting influence on the surrounding area and over which air rights sites are to be developed for the elimination of such blighting influences and for the provision of housing (and related facilities and uses) designed

specifically for, and limited to, families and individuals of low or moderate income or, if the area is found by the local public agency to be unsuitable for use for low or moderate income housing, for use for the development of industrial or educational facilities, or (v) land or space which is vacant, unused, underused, or inappropriately used (including infrequently used rail yards and rail storage facilities, and excessive or vacated railroad rights-of-ways; air rights over streets, expressways, railroads, waterways, and similar locations; land which is occupied by functionally obsolete nonresidential buildings or is used for low-utility purposes or is covered by shallow water or is subject to periodic flooding or consists of unused or underused slips or dock areas or other waterfront property; which land or space the Secretary determines may be developed (at a cost reasonably related to the public purpose to be served) without major residential clearance activities, and with full consideration to the preservation of beneficial aspects of the urban and natural environment, for such uses as are consistent with income families, including the provision of schools, hospitals, parks, and other essential public facilities, and, where appropriate, all uses associated with new communities in town or similar large scale undertakings related to inner city needs, including concentrated sources of employment: *Provided*, That the requirement in paragraph (a) of this section that the area be a slum area or a blighted, deteriorated or deteriorating area shall not be applicable in the case of projects under clauses (iii), (iv), and (v) hereof: *Provided further*, That the aggregate amount of capital grants for projects under clause (iv) shall not exceed 5 per centum of the aggregate amount of grants authorized by this subchapter to be contracted for after September 2, 1964;

(2) demolition and removal of buildings and improvements;

(3) installation, construction, or reconstruction of streets, utilities, parks, playgrounds, pedestrian malls and walkways (including in the case of an enclosed mall or walkway any necessary roofs, walls, columns, lighting, and climate control facilities), and other improvements necessary for carrying out in the urban renewal area the urban renewal objectives of this subchapter in accordance with the urban renewal plan;

(4) disposition of any property acquired in the urban renewal area (including sale, leasing or retention by the local public agency itself) at its fair value for uses in accordance with the urban renewal plan or as provided in section 1457 of the title;

(5) carrying out plans for programs of code enforcement or voluntary repair and rehabilitation of buildings or other improvements in accordance with the urban renewal plan;

(6) acquisition of any other real property in the urban renewal area where necessary to eliminate unhealthful, insanitary or unsafe conditions, lessen density, eliminate obsolete or other uses detrimental to the public welfare, or otherwise to remove or prevent the spread of blight or deterioration, to promote historic and architectural preservation, or to provide land for needed public facilities;

(7) construction of foundations and platforms necessary for the development of air rights sites in accordance with the provisions of clause (iv) or (v) of paragraph (1) of this subsection.

(8) acquisition and repair or rehabilitation for resale by the local public agency, of structures which are located in the urban renewal area and

which, under the urban renewal plan, are to be repaired or rehabilitated for dwelling use or related facilities;

(9) relocation within or outside the project area of structures which will be restored and maintained for architectural or historic purposes; and

(10) restoration of acquired properties of historic or architectural value.

Notwithstanding any other provision of this subchapter, (A) no contract shall be entered into for any loan or capital grant under this subchapter for any project which provides for demolition and removal of buildings and improvements unless the Secretary determines that the objectives of the urban renewal plan could not be achieved through rehabilitation of the project area, and (B) not less than 10 per centum of the aggregate amount of (i) grants authorized to be contracted for under this subchapter by the Housing and Urban Development Act of 1965 and subsequent Acts, and (ii) loans authorized to be made under section 1452b of this title, shall be available for projects assisted with such grants or loans which involve primarily code enforcement and rehabilitation.

For the purposes of this subchapter, the term "project" shall not include (except as provided in paragraph (3) with respect to enclosed pedestrian malls and walkways and as provided in paragraphs (7), (8), (9), and (10) above) the construction or improvement of any building, and the term "redevelopment" and derivatives thereof shall mean development as well as redevelopment. For any of the purposes of section 1459 of this title, the term "project" shall not include any donations or provisions made as local grants-in-aid and eligible as such pursuant to clauses (2) and (3) of subsection 1460(d) of this title.

Financial assistance shall not be extended under this subchapter with respect to any urban renewal area which is not predominantly residential in character and which, under the urban renewal plan therefor, is not to be redeveloped for predominantly residential uses: *Provided*, That, if the governing body of the local public agency determines that the redevelopment of such an area for predominantly nonresidential uses is necessary for the proper development of the community, the Secretary may extend financial assistance under this subchapter for such a project: *Provided further*, That the aggregate amount of capital grants contracted to be made pursuant to this subchapter with respect to such projects after September 23, 1959 shall not exceed 30 per centum of the aggregate amount of grants authorized by this subchapter to be contracted for after such date: *And provided further*, That the aggregate amount of capital grants made available under this subchapter with respect to such projects after August 10, 1965, may be in an amount not to exceed (in addition to amounts previously available for such projects) 35 per centum of the amount of additional capital grants authorized under this subchapter by the Housing and Urban Development Act of 1965.

In addition to all other powers hereunder vested, where land within the purview of clause (1)(ii) or (1)(iii) of the first paragraph of this subsection (whether it be predominantly residential or nonresidential in character) is to be redeveloped for predominantly nonresidential uses, loans and advances under this subchapter may be extended therefor if the governing body of the local public agency determines that such redevelopment for predominantly nonresidential uses is necessary and appropriate to facilitate the proper growth

and development of the community in accordance with sound planning standards and local community objectives and to afford maximum opportunity for the redevelopment of the project area by private enterprise: *Provided*, That loans and outstanding advances to any local public agency pursuant to the authorization of this sentence shall not exceed 2½ per centum of the estimated gross project costs of the projects undertaken under other contracts with such local public agency pursuant to this subchapter.

(d) "Local grants-in-aid" shall mean assistance by a State, municipality, or other public body, or (in the case of cash grants or donations of land or other real property) any other entity, in connection with any project on which a contract for capital grant has been made under this subchapter, in the form of (1) cash grants to defray expenditures within the purview of subsection (e)(1) of this section; (2) donations, at cash value, of land or other real property (exclusive of land in streets, alleys, and other public rights-of-way which may be vacated in connection with the project, or of air rights over streets, alleys, and other public rights-of-way) in the urban renewal area, and demolition, removal, or other work or improvements in the urban renewal area, at the cost thereof, of the types described in clauses (2), (3), (7), (9), and (10) of the second sentence of subsection (c) of this section; and (3) the provision, at their cost, of public buildings or other public facilities (other than publicly owned housing and revenue producing public utilities the capital cost of which is wholly financed with local bonds or obligations payable solely out of revenues derived from service charges) which are necessary for carrying out in the area the urban renewal objectives of this subchapter in accordance with the urban renewal plan: *Provided*, That in any case where, in the determination of the Secretary, any park, playground, public building, or other public facility is of direct benefit both to the urban renewal area and to other areas, and the approximate degree of the benefit to such other areas is estimated by the Secretary at 20 per centum or more of the total benefits, the Secretary shall provide that, for the purpose of computing the amount of the local grants-in-aid for the project, there shall be included only such portion of the cost of such facility as the Secretary estimates to be proportionate to the approximate degree of the benefit of such facility to the urban renewal area: *Provided further*, That any publicly owned facility, the construction of which was begun not earlier than three years prior to November 3, 1966, shall be deemed to benefit an urban renewal project or projects to the extent of 25 per centum of the total benefits of such facility, or \$3,500,000, whichever is less, if such facility (A) (i) is used, or is to be used, by the public predominantly for cultural, exhibition, or civic purposes, or is a city hall or a public safety building, or (ii) is a facility, constructed or rehabilitated by or on behalf of a public university, which is or will be devoted to the treatment of physical or mental disabilities and illness or to medical research; (B) is located within, adjacent to, or in the immediate vicinity of such urban renewal project or projects; (C) is found to contribute materially to the objectives of the urban renewal plan or plans for such project or projects; and (D) is not otherwise eligible as a local grant-in-aid: *And provided further*, That for the purpose of computing the amount of local grants-in-aid under this subsection with respect to any project covered by a Federal-aid contract under this subchapter, the estimated cost (as

determined by the Secretary) of parks, playgrounds, public buildings, or other public facilities may be deemed to be the actual cost thereof if (i) the construction or provision thereof is not completed at the time of final disposition of land in the project to be acquired and disposed of under the urban renewal plan, and (ii) the Secretary has received assurances satisfactory to him that such park, playground, public building, or other public facility will be constructed or completed when needed and within a time prescribed by him: *And provided further*, That in any case where a public facility furnished as a local grant-in-aid is financed in whole or in part by special assessments against real property in the project area acquired by the local public agency as part of the project, an amount equal to the total special assessments against such real property (or, in the case of a computation pursuant to the proviso immediately preceding, the estimated amount of such total special assessments) shall be deducted from the cost of such facility for the purpose of computing the amount of the local grants-in-aid for the project. With respect to any demolition or removal work, improvement or facility for which a State, municipality, or other public body has received or has contracted to receive any grant or subsidy from the United States, or any agency or instrumentality thereof, the portion of the cost thereof defrayed or estimated by the Secretary to be defrayed with such subsidy or grant shall not be eligible for inclusion as a local grant-in-aid.

Notwithstanding any other provision of this subsection (except the second sentence of this paragraph), no donation or provision of a public improvement or public facility of a type falling within the purview of this subsection shall be deemed to be ineligible as a local grant-in-aid for any project solely on the basis that the construction of such improvement or facility was commenced without notification to the Secretary or prior to Federal recognition of such project, if such construction was commenced not more than three years prior to the authorization by the Secretary of a contract for loan or capital grant for the project. In connection with any project for which an application is filed not later than December 24, 1969 and which has not received Federal recognition (other than a project to which clause (2) of the second sentence of section 1469b(a) of this title applies), the three-year period referred to above shall be extended to a period of four years prior to the authorization by the Secretary of a contract for loan or capital grant for the project.

Where a project in any municipality includes an area affected by an underground mine fire or by a coal mine subsidence and where it is necessary in such project to remove any underlying coal deposits in order to stabilize the soil or to control the underground mine fire, then any royalties received by the project from the removal and sale of such coal deposits shall be credited to the project as a local grant-in-aid made by such municipality.

(e) "Gross project cost" shall comprise (1) the amount of the expenditures by the local public agency with respect to any and all undertakings necessary to carry out the project (including the payment of carrying charges, but not beyond the point where the project is completed), and (2) the amount of such local grants-in-aid as are furnished in forms other than cash. There may be included as part of the gross project cost, under any contract for loan or grant heretofore or hereafter executed under this subchapter with respect to moneys of the local public agency which are

actually expended and outstanding for undertakings (other than in the form of local grants-in-aid) necessary to carry out the project, in the absence of carrying charges on such moneys, an amount in lieu of carrying charges which might otherwise have been payable thereon for the period such moneys are expended and outstanding but not beyond the point where the project is completed, computed for each six-month period or portion thereof, at an interest rate to be determined by the Secretary after taking into consideration for each preceding six-month period the average interest rate borne by any obligations of local public agencies for short-term funds obtained from sources other than the Federal Government in the manner provided in section 1452(c) of this title: *Provided*, That such amount may be computed on the net total of all such moneys of the local public agency remaining expended and outstanding, less other moneys received from the project undertaken in excess of project expenditures, in all projects of the local public agency under this subchapter, and allocated, as the Secretary may determine, to each of such projects. With respect to a project for which a contract for capital grant has been executed on a three-fourths basis pursuant to section 1453(a)(2)(C) of this title, gross project cost shall include, in lieu of the amount specified in clause (1) above, the amount of the expenditures by the local public agency with respect to the following undertakings and activities necessary to carry out such project:

(i) acquisition of land (but only to the extent of the consideration paid to the owner and not title, appraisal, negotiating, legal, or any other expenditures of the local public agency incidental to acquiring land), disposition of land, staff services in connection with programs of code enforcement and voluntary rehabilitation and repair (including community organization), demolition and removal of buildings and improvements, and site preparation and improvements, all as provided in paragraphs (1), (2), (3), (4), (6), (7), (8), (9), and (10) of subsection (c) of this section; and

(ii) the payment of carrying charges related to the undertakings in clause (i) (including amounts in lieu of carrying charges as determined above), exclusive of taxes and payments in lieu of taxes, but not beyond the point where such project is completed;

but not the cost of any other undertaking and activities (including, but without being limited to, the cost of surveys and plans, legal services of any kind, and all administrative and overhead expenses of the local public agency) with respect to such project. Where real property in the project area is acquired and is owned as part of the project by the local public agency and such property is not subject to ad valorem taxes by reason of its ownership by the local public agency and payments in lieu of taxes are not made on account of such property, there may (with respect to any project for which a contract of Federal assistance under this subchapter is in force or is hereafter executed, other than a project on which a contract for capital grant is made on a three-fourths basis pursuant to section 1453(a)(2)(C) of this title) be included, at the discretion of the Secretary, in gross project cost an amount equal to the ad valorem taxes which would have been levied upon such property if it had been subject to ad valorem taxes, but in all cases prorated for the period during which such property is owned by the local public agency as part of the project, and such amount shall also be considered a cash local

grant-in-aid within the purview of subsection (d) of this section. Such amount, and the amount of taxes or payments in lieu of taxes included in gross project cost, shall be subject to the approval of the Secretary and such rules, regulations, limitations, and conditions as he may prescribe.

Where a project includes the acquisition of property which has been damaged because of the collapse or subsidence of underlying coal mines, or underground mine fires, and the property is to be acquired from an individual, family, business concern, or nonprofit organization, which was the owner of such property at the time the damage first occurred, the amount otherwise allowable as the acquisition price of such property may be increased by an amount equal to so much of any diminution in the value of such property as is determined to be reasonably attributable to such damage and to represent an otherwise uncompensated and (but for such acquisition) uncompensable loss actually sustained by such owner.

(f) "Net project cost" shall mean the difference between the gross project cost and the aggregate of (1) the total sales prices of all land or other property sold, and (2) the total capital values (i) imputed, on a basis approved by the Secretary, to all land or other property leased, and (ii) used as a basis for determining the amounts to be transferred to the project from other funds of the local public agency to compensate for any land or other property retained by it for use in accordance with the urban renewal plan.

(g) "Going Federal rate" means (with respect to any contract for a loan or advance entered into after the first annual rate has been specified as provided in this sentence) the annual rate of interest which the Secretary of the Treasury shall specify as applicable to the six-month period (beginning with the six-month period ending December 31, 1953) during which the contract for loan or advance under this subchapter is authorized by the Secretary, which applicable rate for each six-month period shall be determined by the Secretary of the Treasury by estimating the average yield to maturity, on the basis of daily closing market bid quotations or prices during the month of May or the month of November, as the case may be, next preceding such six-month period, on all outstanding marketable obligations of the United States having a maturity date of fifteen or more years from the first day of such month of May or November, and by adjusting such estimated average annual yield to the nearest one-eighth of 1 per centum. Any contract for a loan or advance, authorized by the Secretary after September 2, 1964, shall provide for a single interest rate which shall be applicable also to future amendments of the contract which provide additional funds thereunder, and shall further provide for a periodic revision of the interest rate on the balance outstanding or to be outstanding of such loan or advance based on the going Federal rate on the date of such revision: *Provided*, That any contract for a loan or advance authorized prior to September 2, 1964 shall be amended (with the first amendment to such contract authorized after September 2, 1964) to provide for such a single interest rate (based on the going Federal rate at the time such amendment is authorized) and for periodic revision thereof.

(h) "Local public agency" means any State, county, municipality, or other governmental entity or public body, or two or more such entities or bodies, authorized to undertake the project for which assistance is sought. The term "State" includes the several States, the District of Columbia,

the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, the territories and possessions of the United States, and Indian tribes, bands, groups, and nations, including Alaska Indians, Aleuts, and Eskimos, of the United States.

(i) "Land" means any real property, including improved or unimproved land, structures, improvements, easements, incorporeal hereditaments, estates, and other rights in land, legal or equitable.

(j) "Secretary" means the Secretary of Housing and Urban Development.

(k) "Federal recognition" means execution of any contract for financial assistance under this subchapter or concurrence by the Secretary in the commencement, without such assistance of surveys and plans: (June 30, 1949, ch. 288, title I, § 103, 63 Stat. 380; July 15, 1949, ch. 338, title I, § 110, 63 Stat. 420; June 30, 1953, ch. 170, § 24(a), 67 Stat. 127; Aug. 2, 1954, ch. 649, title III, § 311, 68 Stat. 626; Aug. 11, 1955, ch. 783, title I, § 196(c), 69 Stat. 637; Aug. 7, 1956, ch. 1029, title III, 302(a)(2), (b)—(d), 70 Stat. 1097; July 12, 1957, Pub. § 1462. Disaster areas: urban renewal assistance: nonapplicability of certain requirements.

Where the local governing body certifies, and the Secretary finds, that an urban area is in need of redevelopment or rehabilitation as a result of a flood, fire, hurricane, earthquake, storm, or other catastrophe which the President, pursuant to section 1855(a) of this title, has determined to be a major disaster, or which the Secretary has determined is in need of such redevelopment or rehabilitation as a result of a riot or civil disorder, he is authorized to extend financial assistance under this subchapter for an urban renewal project with respect to such area without regard to the following:

(1) the "workable program" requirement in section 1451(c) of this title, except that any contract for temporary loan or capital grant pursuant to this section shall obligate the local public agency to comply with the "workable program" requirement in section 1451(c) of this title by a future date determined to be reasonable by the Secretary and specified in such contract;

(2) the requirements in section 1455 (a) (iii) and section 1460 (b) (1) of this title that the urban renewal plan conform to a general plan of the locality as a whole and to the workable program referred to in section 1451 (c) of this title;

(3) the "relocation" requirements in section 1455 (c) of this title: *Provided*, That the Secretary finds that the local public agency has presented a plan for the encouragement to the

maximum extent feasible, of the provision of dwellings suitable for the needs of families displaced by the catastrophe or by redevelopment or rehabilitation activities;

(4) the "public hearing" requirement in section 1455 (d) of this title;

(5) the requirements in sections 1452 and 1460 of this title that the urban renewal area be a slum area or a blighted, deteriorated, or deteriorating area; and

(6) the requirements in section 1460 of this title with respect to the predominantly residential character or predominantly residential reuse of urban renewal areas.

In the preparation of the urban renewal plan with respect to a project aided under this section, the local public agency shall give due regard to the removal or relocation of dwellings from the site of recurring floods or other recurring catastrophes in the project area. (July 15, 1949, ch. 338, title I, § 111, as added Aug. 7, 1956, ch. 1029, title III, § 307(a), 70 Stat. 1101, and amended May 25, 1967, Pub. L. 90-19, § 6(b), 81 Stat. 21; Aug. 1, 1968, Pub. § 1463. Financial assistance for urban renewal projects in areas involving colleges, universities, or hospitals.

(a) *Authorization; local grant-in-aid.*

In any case where an educational institution or a hospital is located in or near an urban renewal project area and the governing body of the locality determines that, in addition to the elimination of slums and blight from such area, the undertaking of an urban renewal project in such area will further promote the public welfare and the proper development of the community (1) by making land in such area available for disposition, for uses in accordance with the urban renewal plan, to such educational institution or hospital for redevelopment in accordance with the use or uses specified in the urban renewal plan, (2) by providing, through the redevelopment of the area in accordance with the urban renewal plan, a cohesive neighborhood environment compatible with the functions and needs of such educational institution or hospital, or (3) by any combination of the foregoing, the Secretary is authorized to extend financial assistance under this subchapter for an urban renewal project in such area without regard to the requirements in section 1460 of this title with respect to the predominantly residential character or predominantly residential reuse of urban renewal areas. The aggregate expenditures made by any such institution or hospital (directly or through a private redevelopment corporation or municipal or other public corporation) for the acquisition within, adjacent to, or in the immediate vicinity of the project area, of land, buildings, and structures to be redeveloped or rehabilitated by such institution for educational uses or by such hospital for hospital uses in accordance with the urban renewal plan (or with a development plan proposed by such institution, hospital, or corporation, found acceptable by the Secretary after considering the standards specified in section 1460 (b) of this title, and approved under State or local law after public hearing) and for the demolition of such buildings and structures if, pursuant to such urban renewal or development plan, the land is to be cleared and redeveloped, and for the relocation of occupants from buildings and structures to be demolished or rehabilitated, as certified by such institution or hospital to the local public agency and approved by the Secretary, shall be a local grant-in-aid in connection with such urban re-

newal project: *Provided*, That no such expenditure shall be eligible as a local grant-in-aid in any case where the property involved is acquired by such educational institution or hospital from a local public agency which, in connection with its acquisition or disposition of such property, has received, or contracted to receive, a capital grant pursuant to this subchapter: *Provided further*, That no such expenditure shall be deemed ineligible as a local grant-in-aid in connection with an urban renewal project, to the extent that the expenditure is otherwise eligible, if the facilities, land, buildings, or structures with respect to which the expenditure is made are located within one mile of the project.

(b) *Expenditures by educational institutions and hospitals; eligibility as a local grant-in-aid; extension of eligibility.*

Subject to the second sentence of this subsection, no expenditure made by any educational institution or hospital, as provided in subsection (a) of this section shall be deemed ineligible as a local grant-in-aid (1) in connection with any urban renewal project if made not more than seven years prior to the authorization by the Secretary of a contract for a loan or capital grant for such project, or (2) in connection with any such project for which the Secretary, prior to September 25, 1963, has authorized a loan or capital grant contract if made not more than five years prior to the submission of an application for financial assistance under this subchapter for such urban renewal project. In connection with any project for which an application is filed not later than December 24, 1969 and which has not received Federal recognition (other than a project to which clause (2) of the second sentence of section 1469b(a) of this title applies), the seven-year period referred to in clause (1) of the preceding sentence shall be extended to a period of eight years prior to the authorization by the Secretary of a contract for a loan or capital grant for the project.

(c) *Aggregate expenditures by public authority deemed a local grant-in-aid.*

The aggregate expenditures made by any public authority, established by any State, for acquisition, demolition, and relocation in connection with land, buildings, and structures acquired by such public authority and leased to an educational institution for educational uses or to a hospital for hospital uses shall be deemed a local grant-in-aid to the same extent as if such expenditures had been made directly by such educational institution or hospital.

(d) *Definitions.*

As used in this section—

(1) The term "educational institution" means any educational institution of higher learning, including any public educational institution or any private educational institution, no part of the net earnings of which inures to the benefit of any private shareholder or individual; and

(2) the term "hospital" means any hospital licensed by the State in which such hospital is located, including any public hospital or any nonprofit hospital, no part of the net earnings of which inures to the benefit of any private shareholder or individual.

§ 1464. Redevelopment areas.**(a) Urban renewal assistance.**

Whenever the Secretary of Commerce certifies to the Secretary (1) that any county, city, or other municipality (in this section referred to as a "municipality") is situated in an area designated under section 5 of the Area Redevelopment Act as a redevelopment area, and (2) that there is a reasonable probability that with assistance provided under such Act and other undertakings the area will be able to achieve more than temporary improvement in its economy, the Secretary is authorized to provide financial assistance to a local public agency in any such municipality under this subchapter and the provisions of this section.

(b) Nonapplicability of certain requirements.

Subject to the provisions of subsection (e) of this section, the Secretary may provide such financial assistance under this section without regard to the requirement or limitations of section 1460(c) of this title that the project area be predominantly residential in character or be redeveloped for predominantly residential uses under the urban renewal plan, and without regard to any of the limitations of that section on the undertaking of projects for predominantly nonresidential uses.

(c) Disposition of lands for industrial or commercial uses; fair value; obligations of purchasers, lessees, and assignees of property.

Notwithstanding any other provision of this subchapter, a contract for financial assistance under this section may include provisions permitting the disposition of any land in the project area designated under the urban renewal plan for industrial or commercial uses to any public agency or nonprofit corporation for subsequent disposition as promptly as practicable by such public agency or corporation for the redevelopment of the land in accordance with the urban renewal plan: *Provided*, That any disposition of such land to such public agency or corporation under this section shall be made at its fair value for uses in accordance with the urban renewal plan: *And provided further*, That only the purchaser from or lessees of such public agency or corporation, and their assignees, shall be required to assume the obligations relating to the commencement of improvements imposed under section 1455(b) of this title.

(d) Completion of projects notwithstanding termination of area status.

Following the execution of any contract for financial assistance under this section with respect to any project, the Secretary may exercise the authority vested in him under this section as well as other provisions of this subchapter for the completion of such projects, notwithstanding any determination made after the execution of such contract that the area in which the project is located is no longer a redevelopment area under the Area Redevelopment Act.

(e) Limitation on expenditures; exclusion of expenditures from aggregate amount of capital grants for urban renewal projects.

Not more than 10 per centum of the funds authorized for capital grants under section 1453 of this title after May 1, 1961, shall be used for the purpose of providing financial assistance under this section. Amounts used for such purpose shall not be taken into account for the purpose of the limitation contained in the second proviso of the fifth sentence of section 1460(c) of this title. (July 15, 1949, ch. 338, title 1, § 113, as added May 1,

1961, Pub. L. 87-27, § 14, 75 Stat. 57, and amended May 25, 1967, Pub. L. 90-19, § 6(b), 81 Stat. 21.)

§ 1465. Relocation.**(a) Financial assistance to displaced individuals, families, businesses, and nonprofit organizations.**

Notwithstanding any other provision of this subchapter, an urban renewal project may include the making of payments as prescribed in this section to displaced individuals, families, business concerns, and nonprofit organizations; and any contract for financial assistance under this subchapter shall provide that the capital grant otherwise payable for the project shall be increased by an amount equal to such payments and that no part of the amount of such payments shall be required to be contributed as part of the local grant-in-aid. As used in this section, "displaced" refers to displacement from an urban renewal area made necessary by (1) the acquisition of real property by a local public agency or by any other public body, (2) code enforcement activities undertaken in connection with an urban renewal project, or (3) a program of voluntary rehabilitation of buildings or other improvements in accordance with an urban renewal plan.

(b) Payments to business concerns or nonprofit organizations; considerations; maximum amounts.

A local public agency may pay to any displaced business concern or nonprofit organization—

(1) its reasonable and necessary moving expenses and any actual direct losses of property except goodwill or profit (which are incurred on and after August 7, 1956, and for which reimbursement or compensation is not otherwise made): *Provided*, That such payment shall not exceed \$3,000 (or, if greater, the total certified actual moving expenses): *Provided further*, That the Secretary may authorize payment to displaced business concerns of fixed amounts in lieu of their total certified actual moving expenses where he determines that it is impractical for a displaced business concern to calculate the amount of such expenses; and

(2) an additional \$2,500 in the case of a private business concern with average annual net earnings of less than \$10,000 per year which (A) was doing business in a location in the urban renewal area on the date of local approval of the urban renewal plan (or of acquisition of real property under the third sentence of section 1452(a) of this title), (B) is displaced on or after January 27, 1964, and (C) is not part of an enterprise having establishments outside the urban renewal area.

Notwithstanding the provisions of clause (1) of the preceding sentence, a business concern which is not being displaced from an urban renewal area shall be eligible for payments under such clause (1) of its moving expenses with respect to its outdoor advertising displays being removed from the urban renewal area in the same manner as though such business concern were being displaced.

(c) Payments to individuals and families; considerations; computation of amount; maximum amounts; restrictions.

(1) A local public agency may pay to any displaced individual or family his or its reasonable and necessary moving expenses and any actual direct losses of property (which are incurred on and after August 7, 1956, and for which reimbursement or compensation is not otherwise made): *Provided*, That such payment shall not

exceed \$200: *And provided further*, That the Secretary may authorize payment to individuals and families of fixed amounts (not to exceed \$200 in any case) in lieu of their respective reasonable and necessary moving expenses and actual direct losses of property.

(2) In addition to any amount under paragraph (1), a local public agency may pay to or on behalf of any displaced family, displaced individual sixty-two years of age or over, or displaced handicapped individual, monthly payments over a period not to exceed twenty-four months in an amount not to exceed \$500 in the first twelve months and \$500 in the second twelve months to assist such displaced family or individual to secure a decent, safe, and sanitary dwelling. The additional payment shall be an amount which, when added to 20 percentum of the annual income of the displaced individual or family at the time of displacement, equals the average rental required, for a 12-month period, for such a decent, safe, and sanitary dwelling of modest standards adequate in size to accommodate the displaced individual or family (in the urban renewal area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities): *Provided*, That such payment shall be made only to an individual or family who is unable to secure a dwelling unit in a low-rent housing project assisted under the United States Housing Act of 1937, or under a State or local program found by the Secretary to have the same general purposes as the Federal program under such Act or a dwelling assisted under section 1701s of Title 12: *Provided further*, That additional payments under this paragraph may be paid on a lump sum or other than monthly basis in cases in which the small size of the payments that would otherwise be required do not warrant a number of separate payments or in other cases in which other than monthly payments are determined warranted by the Secretary: *And provided further*, That no payment received under this paragraph shall be considered as income for the purpose of determining the eligibility or the extent of eligibility of any person for assistance under the Social Security Act or any other Federal Act.

(3) In addition to any amount under paragraph (1), a local public agency may make a payment to a displaced family or individual, who does not receive the additional payment authorized under paragraph (2) and who is the owner of real property which is acquired for a project assisted under this subchapter and which is improved by a single- or two-family dwelling occupied by the owner for a period of not less than one year prior to the initiation of negotiations for the acquisition of such property. Such payment, not to exceed \$5,000, shall be an amount which, when added to the acquisition payment, equals the average price required for a decent, safe, and sanitary dwelling of modest standards adequate in size to accommodate the displaced owner, reasonably accessible to public services and places of employment and available on the private market: *Provided*, That such payment may be made only to a displaced owner who purchases and occupies a dwelling within one year subsequent to the date on which he is required to move from the dwelling acquired for the project: *Provided further*, That no such payment may be made if the owner-occupant receives a payment required by the State law of eminent domain which is determined by the Secretary to have substantially the same purpose and effect as this

paragraph and to be part of the cost of the project for which Federal financial assistance is available.

(d) *Payments to individuals, families, business concerns, and nonprofit organizations for recording fees, transfer taxes, incidental expenses, penalty costs, and pro rata taxes.*

In addition to payments authorized to be made under subsections (b) and (c) of this section, a local public agency may pay to any displaced individual, family, business concern, or nonprofit organization reasonable and necessary expenses incurred for (1) recording fees, transfer taxes, and similar expenses incidental to conveying real property to a project assisted under this subchapter, (2) penalty costs for prepayment of any mortgage encumbering such real property, and (3) the pro rata portion of real property taxes allocable to a period subsequent to the date of vesting of title or the effective date of the acquisition of such real property by such agency, whichever is earlier.

(e) *Rules and regulations; finality of administrative decisions; promptness of payments.*

The Secretary is authorized to establish such rules and regulations as he may deem appropriate in carrying out the provisions of this section and may provide in any contract with a local public agency, or in regulations promulgated by the Secretary, that determinations of any duly designated officer or agency as to eligibility for and the amount of relocation assistance authorized by this section shall be final and conclusive for any purposes and not subject to redetermination by any court or any other officer. Such regulations shall include provisions to assure that relocation payments, as authorized by this section, shall be made as promptly as possible to all families, individuals, business concerns, and nonprofit organizations found to be eligible for such payments by reason of their having been displaced from property in the urban renewal area, without regard to any subsequent proceedings, determinations, or events relating to such property which do not bear upon whether such displacement in fact occurred. (July 15, 1949, ch. 338, title I, § 114, as added Sept. 2, 1964, Pub. L. 88-560, title III, § 310 (a), 78 Stat. 788, and amended Aug. 10, 1965, Pub. L. 89-117, title I, § 101(i), title IV, § 404 (b), (c) (1), 79 Stat. 453, 486; May 25, 1967, Pub. L. 90-19, § 6(b), 81 Stat. 21; Aug. 1, 1968, Pub. L. 90-448, title V, § 516, 82 Stat. 526; Dec. 31, 1970, Pub. L. 91-609, title II, § 212, 84 Stat. 1779.)

§ 1466. Rehabilitation grants.

(a)(1) Notwithstanding any other provision of this subchapter, the Secretary may authorize a local public agency to make grants (and the urban renewal project may include the making of such grants) as prescribed in this section. Any such grant may be made only to an individual or family, as described in subsection (c) of this section, who owns and occupies real property in an urban renewal area, and only for the purpose of covering the cost of repairs and improvements necessary to make such real property conform to public standards for decent, safe, and sanitary housing as required by applicable codes or other requirements of the urban renewal plan for the area. Any contract for financial assistance under this subchapter shall provide that the capital grant otherwise payable for the project shall be increased by an amount equal to the total amount of the grants under this section and that no part of the total amount of such grants shall be required to be contributed as part of the local grant-in-aid.

(2) In addition to the authority conferred by paragraph (1), and notwithstanding any other provision of this subchapter, the Secretary is authorized, through the utilization of local public agencies where feasible, to make grants (payable from any grant funds provided under section 1453(b) of this title) to an individual or family, as described in subsection (b) of this section, to cover the cost of repairs and improvements necessary to make real property owned and occupied by such individual or family conform to public standards for decent, safe, and sanitary housing. No grants shall be made under this paragraph in the case of any property, unless (A) such property is in an area within a locality other than an urban renewal or code enforcement area which the governing body of the locality has determined, and so certifies to the Secretary, contains a substantial number of structures in need of such repairs and improvements, (B) there is in effect for the locality a workable program meeting the requirements of section 1451(c) of this title, and (C) the area is definitely planned for rehabilitation or concentrated code enforcement within a reasonable time, and such repairs and improvements to such property are consistent with the plan for rehabilitation or concentrated code enforcement.

(b) The Secretary is authorized to make grants (payable from any grant funds provided under section 1453(b) of this title), through the utilization of local public and private agencies where feasible, to an individual or family, as described in subsection (c) of this section, who owns and occupies real property which has been determined to be uninsurable because of physical hazards after an inspection pursuant to a statewide property insurance plan approved by the Secretary under title XII of the National Housing Act. Such grants may only be made to rehabilitate such property to the extent which the Secretary determines to be necessary to make it meet reasonable underwriting standards imposed by such plan.

(c) A grant authorized by this section may be made to an individual or family whose income does not exceed \$3,000 a year, and such grant may be in the amount which does not exceed the lesser of (1) the actual (and approved) cost of the repairs and improvements involved, or (2) \$3,500. In case the income of the individual or family exceeds \$3,000 a year, a grant may be made under this section, subject to the limitations specified in clauses (1) and (2) of the preceding sentence, but only in an amount not to exceed that portion of the cost of the repairs and improvements which cannot be paid for with any available loan that can be amortized as part of such individual's or family's monthly housing expense without requiring such monthly housing expense to exceed 25 per centum of such individual's or family's monthly income. (July 15, 1949, ch. 338, title I, § 115, as added Aug. 10, 1965, Pub. L. 89-117, title I, § 106(a), 79 Stat. 457, and amended May 25, 1967, Pub. L. 90-19, § 6(b), 81 Stat. 21; Aug. 1, 1968, Pub. L. 90-448, title V, § 503, 82 Stat. 521; Dec. 24, 1969, Pub. L. 91-152, title II, § 205, 83 Stat. 387.)

§ 1467. Grants to cities, other municipalities, counties, and Indian tribes, etc., for demolition of unsafe structures; authorization; maximum amount; conditions precedent.

(a) Notwithstanding any other provision of this subchapter, the Secretary is authorized to enter into contracts to make, and to make, grants as provided in this section (payable from any grant funds provided under section 1453(b) of this title) to cities, other municipalities, counties, and In-

dian tribes, bands, groups, and nations, including Alaska Indians, Aleuts, and Eskimos, of the United States to assist in financing the cost of demolishing structures which under State or local law have been determined to be structurally unsound, a harborage or potential harborage of rats, or unfit for human habitation, and which such city, municipality, or county has authority to demolish. The amount of any grant under this section shall not exceed two-thirds of the cost of the demolition of such structures.

(b) No grant shall be made under this section unless the structures to be demolished are located in an urban renewal area, or, in the case of structures outside an urban renewal area, (1) the locality involved has an approved workable program for community improvement in accordance with the requirements of section 1451(c) of this title, as determined by the Secretary, (2) the demolition to be assisted will be on a planned neighborhood basis and will further the over-all renewal objectives of such locality, or will be consistent with a systematic rodent control program being undertaken in the neighborhood, (3) there is in such locality a program of enforcement of existing local housing and related codes, (4) the structures to be demolished constitute a public nuisance and a serious hazard to the public health or welfare, and (5) the governing body of such locality has determined that other available legal procedures have been exhausted to secure remedial action by the owner of the structures involved and that demolition by governmental action is required. (July 15, 1949, ch. 388, title I, § 116, as added Aug. 10, 1965, Pub. L. 89-117, title III, § 311(a), 79 Stat. 477, and amended May 25, 1967, Pub. L. 90-19, § 6(b), 81 Stat. 21; Aug. 1, 1968, Pub. L. 90-448, title V, § 510, 82 Stat. 524; Dec. 24, 1969, Pub. L. 91-152, title II, § 202(b), 83 Stat. 386.)

§ 1468. Grants to cities, other municipalities, counties, and Indian tribes, etc., for code enforcement; authorization; maximum amount; conditions precedent.

Notwithstanding any other provision of this subchapter, the Secretary is authorized to enter into contracts to make, and to make, grants as provided in this section (payable from any grant funds provided under section 1453(b) of this title) to cities, other municipalities, counties, and Indian tribes, bands, groups, and nations, including Alaska Indians, Aleuts, and Eskimos, of the United States for the purpose of assisting such localities in carrying out programs of concentrated code enforcement in deteriorated or deteriorating areas in which such enforcement, together with those public improvements to be provided by the locality, may be expected to arrest the decline of the area. Such grants shall not exceed two-thirds (or three-fourths in the case of any city, other municipality, or county having a population of 50,000 or less according to the most recent decennial census) of the cost of planning and carrying out such programs which may include the provision and repair of necessary streets, curbs, sidewalks, street lighting, tree planting, and similar improvements within such areas. The Secretary shall not make any grant under this section unless he has obtained adequate assurances (1) that the locality will maintain during the period of the contract, in addition to its expenditures for planning and carrying out any program assisted under this section, a level of expenditures for code enforcement activities at not less than its normal expenditures for such activities prior to the execution of such contract,

and (2) that the locality has a satisfactory program for the provision of all necessary public improvements for such areas. The provisions of sections 1451(c), 1456, 1465, and 1466 of this title, shall be applicable to activities and undertakings assisted under this section to the same extent as if such activities and undertakings were being carried out in an urban renewal area as part of an urban renewal project: *Provided*, That the Secretary may, in addition to authorizing a local public agency to make grants as prescribed in section 1466 of this title, make such grants through the utilization of local private nonprofit agencies. (July 15, 1949, ch. 338, title I, § 117, as added Aug. 10, 1968, Pub. L. 90-448, title V, § 514, 82 Stat. 525, and amended May 25, 1967, Pub. L. 90-19, § 6(b), 81 Stat. 21; Aug. 1, 1968, Pub. L. 90-448, title V, § 515, 82 Stat. 525; Dec. 24, 1969, Pub. L. 91-152, title II, § 202(c), 83 Stat. 386.)

§ 1468a. Interim assistance for blighted areas; grants to cities, other municipalities, counties, and Indian tribes, etc.; encouragement of employment of unemployed or underemployed residents.

Notwithstanding any other provision of this subchapter, the Secretary is authorized to enter into contracts (in an aggregate amount not to exceed \$15,000,000 in any fiscal year) to make, and to make grants as provided in this section (payable from any grant funds provided under section 1453(b) of this title) to cities, other municipalities, counties, and Indian tribes, bands, groups, and nations, including Alaska Indians, Aleuts, and Eskimos, of the United States for the purpose of assisting such localities in carrying out¹ programs to alleviate harmful conditions in slum and blighted areas which are planned for substantial clearance, rehabilitation, or federally assisted code enforcement in the near future but in which some immediate public action is needed until clearance, rehabilitation, or code enforcement activities can be undertaken. Such grants shall not exceed two-thirds (or three-fourths in the case of any city, other municipality, or county having a population of fifty thousand or less according to the most recent decennial census) of the cost of planning and carrying out programs which may include (1) the repair of streets, sidewalks, parks, playgrounds, publicly owned utilities, and public buildings to meet needs consistent with the short-term continued use of the area prior to the undertaking of the contemplated clearance or upgrading activities, (2) the improvement of private properties to the extent needed to eliminate the most immediate dangers to public health and safety, (3) the demolition of structures determined to be structurally unsound or unfit for human habitation and which constitute a public nuisance and serious hazard to the public health and safety, (4) the establishment of temporary public playgrounds on vacant land within the area, and (5) the improvement of garbage and trash collection, street cleaning, and similar activities. The Secretary shall encourage, wherever feasible, the employment of otherwise unemployed or underemployed residents of the area in carrying out the activities and undertakings assisted under this section. The provisions of sections 1451(c), 1456, and 1465 of this title shall be applicable to activities and undertakings assisted under this section to the same extent as if such activities and undertakings were being carried out in an urban re-

newal area as part of an urban renewal project. (July 15, 1959, ch. 338, title I, § 118, as added Aug. 1, 1968, Pub. L. 90-448, title V, § 514, 82 Stat. 525, and amended Dec. 24, 1969, Pub. L. 91-152, title II, § 202(d), 83 Stat. 386.)

PART B.—NEIGHBORHOOD DEVELOPMENT PROGRAMS

§ 1469. Declaration of purpose.

(a) *Authorization for financial assistance to local public agencies.*

To facilitate more rapid renewal and development of urban areas on an effective scale, and to encourage more efficient and flexible utilization of public and private development opportunities by local communities in such areas, the Secretary is authorized to make financial assistance available under this subchapter to local public agencies for undertakings and activities which are carried out under a neighborhood development program approved by him pursuant to this part.

(b) *Extent of neighborhood development program.*

A neighborhood development program shall consist of urban renewal project undertakings and activities in one or more urban renewal areas which are planned and carried out on the basis of annual increments in accordance with the provisions of this subchapter for planning and carrying out urban renewal projects, except as modified by the provisions of this part.

(c) *Conditions for approval of applications for financial assistance.*

No application for financial assistance in planning and carrying out a neighborhood development program shall be approved by the Secretary unless—

(1) the governing body of the locality has, by resolution or ordinance, approved the proposed program and the annual increment covered by the application and authorized the filing of the application for financial assistance; and

(2) the Secretary has concluded that there is the necessary capacity to carry out the undertakings and activities included under the program.

(July 15, 1949, ch. 338, title I, § 131, as added Aug. 1, 1968, Pub. L. 90-448, title V, § 501(b), 82 Stat. 518.)

§ 1469a. Financing of undertakings and activities: payment of excess of sale price and imputed capital value of land or other property leased or retained over gross project cost.

(a) Upon the approval of a neighborhood development program by the Secretary, the cost of any undertakings and activities authorized as part of the program shall be financed in accordance with the loan, capital grant, and project cost provisions of part A, except that—

(1) net project cost may be calculated on the basis of costs incurred and proceeds derived for the account of the program during a specified twelve-month period, and may be recalculated for succeeding periods of twelve months to reflect additional costs and additional proceeds since the date of the last computation or recomputation; and

(2) if property has been acquired but not disposed of prior to the computation or recomputation of net project cost, temporary loans made or secured under this subchapter to finance undertakings or activities included in the

¹ So in original. Probably should be "out."

program may remain outstanding until the property has been disposed of and the proceeds thereof together with additional funds becoming available to the program, are sufficient to permit repayment of the loans.

(b) In the event that gross project cost as computed for a specified twelve-month period is exceeded, with respect to that period, by the sum of (1) the sales price of land or other property sold, and (2) the imputed capital value of land or other property leased or retained by the local public agency in accordance with the provisions of the urban renewal plan, the local public agency shall pay to the Secretary two-thirds of the excess (or three-fourths in the case of a program on a three-fourths grant basis), which amount shall be available to the Secretary for grant payments under section 1453 of this title. (July 15, 1949, ch. 338, title I, § 132, as added Aug. 1, 1968, Pub. L. 90-448, title V, § 501(b), 82 Stat. 519.)

§ 1469b. Local grants-in-aid.

(a) *Determination of eligibility; extension of eligibility.*

Except as otherwise provided in this subsection, for the purpose of determining the eligibility of local grants-in-aid in connection with undertakings and activities carried out under a neighborhood development program, the three-year period referred to in the first sentence of the second paragraph of section 1460(d) of this title shall be deemed to be a period of three years prior to the authorization by the Secretary of the first contract for financial assistance under the program which includes the urban renewal area which is benefited by the public improvement or facility for which credit is claimed; and the seven-year period referred to in clause (1) of section 1463(b) of this title shall be deemed to be a period of seven years prior to the date of authorization by the Secretary of the first contract for financial assistance under the program which includes the urban renewal area which is benefited by the expenditures for which credit is claimed. In connection with any neighborhood development program for which an application is filed not later than December 24, 1969 and for which no contract for financial assistance under the program has been authorized by the Secretary, the three-year and seven-year periods referred to above shall be extended to periods of four and eight years, respectively, prior to authorization of (1) the first contract for financial assistance under the program which includes the urban renewal area benefited by the public improvement or facility (or the expenditures) for which credit is claimed, or (2) a contract for a loan or capital grant for an urban renewal project authorized after December 24, 1969 in an area which is benefited by the public improvement or facility (or the expenditures) for which credit is claimed and which was included in the neighborhood development program application.

(b) *Cost of public improvement or facility.*

No portion of the cost of a public improvement or public facility (to the extent otherwise eligible) may be included as a local grant-in-aid in computing the gross project cost of an approved program for any twelve-month period—

(1) prior to commencement of construction of the improvement or facility, or

(2) in excess of the amount actually expended or obligated by contract.

(c) *Excess local grants-in-aid; inapplicability of pooling provisions.*

The provisions of section 1454 of this title with respect to the pooling of local grants-in-aid among the various projects undertaken by a local public agency shall not be applicable with respect to any excess local grants-in-aid resulting from the urban renewal projects contained in a neighborhood development program. (July 15, 1949, ch. 338, title I, § 133, as added Aug. 1, 1968, Pub. L. 90-448, title V, § 501(b), 82 Stat. 519, and amended Dec. 24, 1969, Pub. L. 91-152, title 11, § 203(c), 83 Stat. 386.)

§ 1469c. General provisions.

(a) *Workable program requirement; capital grants; relocation requirements; transient housing; demolition and removal of buildings and improvements.*

For purposes of this part—

(1) the workable program requirement in section 1451(c) of this title shall apply to the authorization, rather than the execution, of any contract for loans or capital grants;

(2) capital grants on a three-fourths basis may only be made under section 1453(a)(2)(B) of this title;

(3) the relocation requirements specified in section 1455(c) of this title shall apply to each annual increment of an approved program;

(4) section 1456(g) of this title (relating to transient housing) shall apply to activities undertaken under approved programs, except that the determination as to need for transient housing shall be made with respect to any sale or lease of land for construction of such housing prior to such sale or lease; and

(5) the requirements concerning demolition and removal of buildings and improvements stated in clause (A) of the sentence following paragraph (10) of section 1460(c) of this title shall apply to each annual increment of an approved program.

(b) *Obligation to provide financial assistance for subsequent annual increments.*

The approval by the Secretary of financial assistance for one or more annual increments of a neighborhood development program shall not be considered as obligating him to provide financial assistance for any subsequent annual increments.

(c) *Extent of urban renewal plan; modification; establishment of requirements prescribing scope and content of plan.*

The urban renewal plan referred to in section 1460(b) of this title may cover one or more of the urban renewal areas covered by a neighborhood development program and such plan may be modified from time to time to cover additional urban renewal areas added to the program. The Secretary may establish such requirements as he deems appropriate prescribing the scope and content of such plan, taking into consideration, among other matters, the degree of detail needed in the plan to properly and expeditiously carry out the activities and undertakings proposed in any annual increment of a neighborhood development program. (July 15, 1949, ch. 338, title I, § 134, as added Aug. 1, 1968, Pub. L. 90-448, title V, § 501(b), 82 Stat. 520.)

CHAPTER 8B.—PUBLIC WORKS OR FACILITIES

§ 1491. Declaration of policy.

It has been the policy of the Congress to assist wherever possible the States and their political subdivisions, and Indian tribes to provide the

services and facilities essential to the health and welfare of the people of the United States.

The Congress finds that in many instances municipalities, or other political subdivisions of States, and Indian tribes, which seek to provide essential public works or facilities (including mass transportation facilities and equipment), are unable to raise the necessary funds at reasonable interest rates.

It is the purpose of this chapter (subject to the limitations contained herein) to authorize the extension of credit to assist in the provision of certain essential public works or facilities by States, municipalities, or other political subdivisions of States, and Indian tribes, where such credit is not otherwise available on reasonable terms and conditions. (Aug. 11, 1955, ch. 783, title II, § 201, 69 Stat. 642; June 30, 1961, Pub. L. 87-70, title V, § 501(a), 75 Stat. 173; Oct. 15, 1962, Pub. L. 87-808, § 1, 76 Stat. 920.)

§ 1492. Public projects.

(a) *Purchase of securities or obligations; loans; payment of operating expenses.*

The Secretary of Housing and Urban Development is authorized (1) to purchase the securities and obligations of, or make loans to, municipalities and other political subdivisions and instrumentalities of one or more States (including public agencies and instrumentalities of one or more municipalities or other political subdivisions of one or more States), and Indian tribes to finance specific projects for public works or facilities under State, municipal, or other applicable law, and (2) to purchase the securities and obligations of, or make loans to, States, municipalities and other political subdivisions of States, public agencies and instrumentalities of one or more States, municipalities and political subdivisions of States, and public corporations, boards, and commissions established under the laws of any State, to finance the acquisition, construction, reconstruction, and improvement of facilities and equipment for use, by operation or lease or otherwise, in mass transportation service in urban areas, and for use in coordinating highway, bus, surface-rail, underground, parking and other transportation facilities in such areas. The facilities and equipment referred to in clause (2) may include land, but not public highways, and any other real or personal property needed for an economic, efficient, and coordinated mass transportation system. No such purchase or loan shall be made for payment of ordinary governmental or non-project operating expenses.

(b) *Restrictions and limitations; interest.*

The powers granted in subsection (a) of this section shall be subject to the following restrictions and limitations:

(1) No financial assistance shall be extended under this section unless the financial assistance applied for is not otherwise available on reasonable terms, and all securities and obligations purchased and all loans made under this section shall be of such sound value or so secured as reasonably to assure retirement or repayment, and such loans may be made either directly or in cooperation with banks or other lending institutions through agreements to participate or by the purchase of participations or otherwise.

(2) No securities or obligations shall be purchased, and no loans shall be made, including renewals or extensions thereof, which have maturity dates in excess of forty years. Subject to

such maximum maturity, the Secretary in his discretion may provide for the postponement of the payment of interest on not more than 50 per centum of any financial assistance extended to an applicant under this section for a period up to ten years where (A) such assistance does not exceed 50 per centum of the development cost of the project involved, and (B) it is determined by the Secretary that such applicant will experience above-average population growth and the project would contribute to orderly community development, economy, and efficiency; and any amounts so postponed shall be payable with interest in annual installments during the remaining maturity of such assistance.

(3) Financial assistance extended under this section shall bear interest at a rate determined by the Secretary which shall be not more than the higher of (A) 3 per centum per annum, or (B) the total of one-half of 1 per centum per annum added to the rate of interest paid by the Secretary on funds obtained from the Secretary of the Treasury as provided in section 1493(a) of this title.

(4) (A) No financial assistance shall be extended under clause (1) of subsection (a) of this section to any municipality or other political subdivision having a population of fifty thousand or more (one hundred fifty thousand or more in the case of a community situated in an area designated as a redevelopment area under the Area Redevelopment Act or any Act supplementary thereto) according to the most recent decennial census, or; (B) to any public agency or instrumentality serving one or more municipalities, political subdivisions, or unincorporated areas in one or more States, unless each municipality, political subdivision, or unincorporated area to be served by the specific public work or facility for which assistance is sought under this section has a population less than the applicable figure under clause (A) according to such census. This paragraph shall not apply to any financial assistance to be extended under subsection (a) of this section for the purpose of financing any project for public works or facilities (i) in a community in or near which is located a research or development installation of the National Aeronautics and Space Administration, or (ii) to be initiated or accelerated as the result of a grant-in-aid from an allocation made by the President under section 2642 of this title, or (iii) to be provided in connection with the establishment of a new community approved under section 1749cc-1 of Title 12 or under sections 3901 to 3914 of this title or under part B of the Urban Growth and New Community Development Act of 1970.

(c) *Priority to applications of smaller municipalities.*

In the processing of applications for financial assistance under clause (1) of subsection (a) of this section the Secretary shall give priority to applications of smaller municipalities for assistance in the construction of basic public works (including works for the storage, treatment, purification, or distribution of water; sewage, sewage treatment, and sewer facilities; and gas distribution systems) for which there is an urgent and vital public need. As used in this section, a "smaller municipality" means an incorporated or unincorporated town, or other political subdivision of a State, which had a population of less than ten thousand inhabitants at the time of the last Federal census, or an Indian tribe. Notwithstanding any other provi-

sion of this chapter, the Secretary may extend financial assistance, as otherwise authorized by clause (1) of subsection (a) of this section, to any private nonprofit corporation to finance the construction of works for the storage, treatment, purification, or distribution of water or the construction of sewage, sewage treatment, and sewer facilities, if such works or facilities are needed to serve a smaller municipality or rural area, and there is no existing public body able to construct and operate such works or facilities.

(d) *Loans for transportation facilities or equipment; termination date.*

No loans may be made for transportation facilities or equipment, pursuant to clause (2) of subsection (a) of this section, unless the Secretary determines (1) that there is being actively developed (or has been developed) for the urban or other metropolitan area served by the applicant a program, meeting criteria established by him, for the development of a comprehensive and coordinated mass transportation system; (2) that the proposed facilities or equipment can reasonably be expected to be required for such a system; and (3) if such program has not been completed, that there is an urgent need for the provision of the facilities or equipment to be commenced prior to the time that the program could reasonably be expected to be completed; *Provided*, That no such loan shall be made, except under a prior commitment, after June 30, 1963.

(e) *Grants-in-aid to public entities to accelerate public works; restrictions and limitations.*

The Secretary is authorized to make a grant-in-aid from any allocation made for such purpose by the President under section 2642 of this title to any public entity described in clause (1) of subsection (a) of this section of not to exceed 50 per centum of the cost of construction of any project for public works or facilities, if such project would be eligible (without regard to the restrictions and limitations of subsections (b) and (c) of this section) for financial assistance under clause (1) of subsection (a) of this section in accordance with the rules and regulations of the Secretary (as in effect on September 14, 1962) relating to the types of public works and facilities to which such assistance may be extended.

(f) *Assistance for cultural centers; restrictions and limitations.*

The restrictions and limitations set forth in subsection (c) of this section shall not apply to assistance to municipalities, other political subdivisions and instrumentalities of one or more States, and Indian tribes, for specific projects for cultural centers, including but not limited to, museums, art centers and galleries, and theaters and other physical facilities for the performing arts, which would be of cultural, educational, and informational value to the communities and areas where the centers would be located. (Aug. 11, 1955, ch. 783, title II, § 202, 69 Stat. 643; June 30, 1961, Pub. L. 87-70, title V, § 501(b), (c), (d)(1), (e)-(g), 75 Stat. 173, 174; Sept. 5, 1962, Pub. § 1493. Notes and obligations; forms and denominations; maturities; terms and conditions; interest rate; revolving fund.

(a) In order to finance activities under this chapter, the Secretary is authorized and empowered to issue to the Secretary of the Treasury, from time to time and to have outstanding at any one time, notes and other obligations in an amount not to exceed \$650,000,000; *Provided*, That, of the funds obtained through the issuance of such notes and other obligations, \$600,000,000 shall be available only for purchases and loans pursuant to clause (1) of section 1492(a) of this title and \$50,000,000 shall be available only for purchases and loans pursuant to clause (2) of such section. Such obligations shall be in such forms and denominations, have such maturities and be subject to such terms and conditions as may be prescribed by the Secretary, with the approval of the Secretary of the Treasury. Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury which shall be not more than the higher of (1) 2½ per centum per annum, or (2) the average annual interest rate on all interest-bearing obligations of the United States then forming a part of the public debt as computed at the end of the fiscal year next preceding the issuance by the Secretary and adjusted to the nearest one-eighth of 1 per centum. The Secretary of the Treasury is authorized and directed to purchase any notes and other obligations of the Secretary to be issued hereunder and for such purpose the Secretary of the Treasury is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which securities may be issued under such Act, as amended, are extended to include any purchases of such notes and obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this section. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public debt transactions of the United States.

(b) Funds borrowed under this section and any proceeds shall constitute a revolving fund which may be used by the Secretary in the exercise of his functions under this chapter. (Aug. 11, 1955, ch. 783, title II, § 203, 69 Stat. 643; Sept. 14, 1960, Pub. L. 86-788, § 2(c), 74 Stat. 1028; June 30, 1961, Pub. § 1494. Functions, powers and duties of Secretary; administrative expenses.

In the performance of, and with respect to, the functions, powers, and duties vested in him by this chapter the Secretary shall (in addition to any authority otherwise vested in him) have the functions, powers, and duties set forth in section 1749a of Title 12, except subsection (c) (2) of such section. Funds obtained or held by the Secretary in connection with the performance of his functions under this chapter shall be available for the administrative expenses of the Secretary in connection with the performance of such functions. (Aug. 11, 1955, ch. 783, title II, § 204, 69 Stat. 644; May 25, 1967, Pub. L. 90-19, § 12(b), 81 Stat. 23.)

§ 1496. Definition of "States."

As used in this chapter, the term "States" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, and the Territories and possessions of the United States. (Aug. 11, 1955, ch. 783, title II, § 206, as added Aug. 7, 1956, ch. 1029, title VI, § 603, 70 Stat. 1114, and amended Dec. 24, 1969, Pub. L. 91-152, title IV, § 403(b), 83 Stat. 395.)

§ 1497. Technical advisory services in budgeting, financing, planning and construction of community facilities; appropriations.

The Secretary is authorized to establish technical advisory services to assist municipalities and other political subdivisions and instrumentalities, and Indian tribes in the budgeting, financing, planning, and construction of community facilities. There are authorized to be appropriated such sums as may be necessary, together with any fees that may be charged, to cover the cost of such services. CHAPTER 8C.—OPEN-SPACE LAND, URBAN BEAUTIFICATION, AND HISTORIC PRESERVATION

§ 1500. Congressional declaration of findings and purpose.

(a) The Congress finds that the rapid expansion of the Nation's urban areas and the rapid growth of the population within such areas has resulted in severe problems of urban and suburban living for the preponderant majority of the Nation's present and future population, including the lack of valuable open-space land for recreational and other purposes.

(b) The Congress further finds that there is a need for the additional provision of parks and other open space in the built-up portions of urban areas especially in low income neighborhoods and communities and a need for greater and better coordinated State and local efforts to make available and improve open-space land throughout entire urban areas.

(c) The Congress further finds that there is a need for timely action to preserve and restore areas, sites, and structures of historic or architectural value in order that these remaining evidences of our history and heritage shall not be lost or destroyed through the expansion and development of the Nation's urban areas.

(d) It is the purpose of this chapter to help curb urban sprawl and prevent the spread of urban blight and deterioration, to encourage more economic and desirable urban development, to assist in preserving areas and properties of historic or architectural value, and to help provide necessary recreational, conservation, and scenic areas by assisting State and local public bodies in taking prompt action to (1) provide, preserve, and develop open-space land in a manner consistent with the planned long-range development of the Nation's urban areas, (2) acquire, improve, and restore areas, sites, and structures of historic or architectural value, and (3) develop and improve open space and other public urban land, in accordance with programs to encourage and coordinate

local public and private efforts toward this end. (Pub. L. 87-70, title VII, § 701, June 30, 1961, 75 Stat. 183; Pub. L. 89-117, title IX, § 901 (b), (c), Aug. 10, 1965, 79 Stat. 494; Pub. L. 89-754, title VI, § 605 (b), (c), Nov. 3, 1966, 80 Stat. 1279; Pub. L. 91-609, title IV, § 401, Dec. 31, 1970, 84 Stat. 1781.)

§ 1500a. Grants to States and local public bodies for acquisition and for development of open-space land.

(a) *Authorization; limitation on amount of grant; limitation on donations for non-Federal share.*

The Secretary is authorized to make grants to States and local public bodies to help finance (1) the acquisition of title to, or other interest in, open-space land in urban areas and (2) the development of open-space or other land in urban areas for open-space uses. The amount of any such grant shall not exceed 50 per centum of the eligible project cost, as approved by the Secretary, of such acquisition or development. Not more than 50 per centum of the non-Federal share of such eligible project cost may, to the extent authorized in regulations established by the Secretary, be made up by donations of land or materials.

(b) *Restrictions on use of grants.*

No grants under this chapter shall be made to (1) defray ordinary State or local governmental expenses, (2) help finance the acquisition by a public body of land located outside the urban area for which it exercises (or participates in the exercise of) responsibilities consistent with the purpose of this chapter, (3) acquire and clear developed land in built-up urban areas unless the local governing body determines that adequate open-space land cannot be effectively provided through the use of existing undeveloped land, or (4) provide assistance for historic and architectural preservation purposes, except for districts, sites, buildings, structures, and objects which the Secretary of the Interior determines meet the criteria used in establishing the National Register.

(c) *Determination of further terms and conditions for assistance.*

The Secretary may set such further terms and conditions for assistance under this chapter as he determines to be desirable.

(d) *Review of applications; consultation with Secretary of the Interior; exchange of information.*

The Secretary shall consult with the Secretary of the Interior on the general policies to be followed in reviewing applications for grants under this chapter. To assist the Secretary in such review, the Secretary of the Interior shall furnish him (1) appropriate information on the status of national and statewide recreation and historic preservation planning as it affects the areas to be assisted with such grants, and (2) the current listing of any districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, and culture which may be contained on a National Register maintained by the Secretary of the Interior pursuant to other provisions of law. The Secretary shall provide current information to the Secretary of the Interior from time to time on significant program developments.

(e) *Technical assistance.*

The Secretary may provide such technical assistance to States and local public bodies as may be required to effectively carry out activities under this section. (Pub. L. 87-70, title VII, § 702.

§ 1500b. Planning requirements.

The Secretary shall make grants under section 1500a of this title only if he finds that such assistance is needed for carrying out a unified, or officially coordinated program, meeting criteria established by him, for the provision and development of open-space land which is a part of, or is consistent with, the comprehensively planned development of the urban area. (Pub. L. 87-70, title VII, § 703, June 30, 1961, 75 Stat. 184; Pub. L. 89-117, title IX, § 905, Aug. 10, 1965, 79 Stat. 495; Pub. L. 90-19, § 18(c), May 25, 1967, 81 Stat. 25; Pub. L. 91-609, title IV, § 401, Dec. 31, 1970, 84 Stat. 1782.)

§ 1500c. Conversions to other uses.

No open-space land for the acquisition of which a grant has been made under section 1500a of this title shall be converted to uses not originally approved by the Secretary without his prior approval. Prior approval will be granted only upon satisfactory compliance with regulations established by the Secretary. Such regulations shall require findings that (1) there is adequate assurance of the substitution of other open-space land of as nearly as feasible equivalent usefulness, location, and fair market value at the time of the conversion; (2) the conversion and substitution are needed for orderly growth and development; and (3) the proposed uses of the converted and substituted land are in accord with the then applicable comprehensive plan for the urban area, meeting criteria established by the Secretary. (Pub. L. 87-70, title VII, § 704, June 30, 1961, 75 Stat. 185; Pub. L. 89-117, title IX, § 909(d), Aug. 10, 1965, 79 Stat. 497; Pub. L. 90-19, § 18(c), May 25, 1967, 81 Stat. 25; Pub. L. 91-609, title IV, § 401, Dec. 31, 1970, 84 Stat. 1782.)

§ 1500c-1. Conversions of land involving historic or architectural purposes.

No open-space land involving historic or architectural purposes for which assistance has been granted under this chapter shall be converted to use for any other purpose without the prior approval of the Secretary of the Interior. (Pub. L. 87-70, title VII, § 705, as added Pub. L. 89-117, title IX, § 906, Aug. 10, 1965, 79 Stat. 496, and amended Pub. L. 90-19, § 18(c), May 25, 1967, 81 Stat. 25; Pub. L. 91-609, title IV, § 401, Dec. 31, 1970, 84 Stat. 1782.)

§ 1500c-2. Acquisition of interests to guide urban development.

In order to encourage the acquisition of interests in undeveloped or predominantly undeveloped land which, if withheld from commercial, industrial, and residential development, would have special significance in helping to shape economic and desirable patterns of urban growth (including growth outside of existing urban areas which is directly related to the development of new communities or the expansion and revitalization of existing communities), the Secretary may

make grants to State and local public bodies for the acquisition of such interests in an amount not to exceed 75 per centum of the cost of such acquisition. In the case of any interests acquired pursuant to this section, the Secretary may approve the subsequent conversion or disposition of the land involved without regard to other requirements of this chapter but subject to such terms and conditions as he determines equitable and appropriate with respect to the control of future use and the application or sharing of the proceeds or value realized upon sale or disposition. (Pub. L. 87-70, title VII, § 706, as added Pub. L. 89-117, title IX, § 906, Aug. 10, 1965, 79 Stat. 496, and amended Pub. L. 89-754, title VI, § 605(e), Nov. 3, 1966, 80 Stat. 1280; Pub. L. 90-19, § 18(c), May 25, 1967, 81 Stat. 25; Pub. L. 91-609, title IV, § 401, Dec. 31, 1970, 84 Stat. 1783.)

§ 1500-3. Labor standards.

(a) The Secretary shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors or subcontractors in the performance of construction work financed with the assistance of grants under this chapter shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended. The Secretary shall not approve any such grant without first obtaining adequate assurance that these labor standards will be maintained upon the construction work.

(b) The Secretary of Labor shall have, with respect to the labor standards specified in subsection (a) of this section, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267, and section 276c of Title 40 (Pub. (1) to cooperate with and, with their consent, utilize regional, State, local, and other agencies, both public and private, and individuals;

(2) to pay to witnesses whose depositions are taken or who are summoned before the Commission or any of its agents the same witness and mileage fees as are paid to witnesses in the courts of the United States;

(3) to furnish to persons subject to this subchapter such technical assistance as they may request to further their compliance with this subchapter or an order issued thereunder;

(4) upon the request of (i) any employer, whose employees or some of them, or (ii) any labor organization, whose members or some of them, refuse or threaten to refuse to cooperate in effectuating the provisions of this subchapter, to assist in such effectuation by conciliation or such other remedial action as is provided by this subchapter;

Whenever it is charged in writing under oath by a person claiming to be aggrieved, or a written charge has been filed by a member of the Commission where he has reasonable cause to believe a violation of this subchapter has occurred (and such charge sets forth the facts upon which it is based) that an employer, employment agency, or labor organization has engaged in an unlawful employment practice, the Commission shall furnish such employer, employment agency, or labor organization (hereinafter referred to as the "respondent") with a copy of such charge and shall make an investigation of such charge, provided that such charge shall not be made public by the Commission. If the Commission shall determine, after such investigation, that there is reasonable cause to believe that the charge is true, the Commission shall endeavor to eliminate any such alleged unlawful employment practice by informal methods of conference, conciliation, and persuasion. Nothing said or done during and as a part of such endeavors may be made public by the Commission without the written consent of the parties, or used as evidence in a subsequent proceeding. Any officer or employee of the Commission, who shall make public in any manner whatever any information in violation of this subsection shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined not more than \$1,000 or imprisoned not more than one year.

(b) *State or local enforcement proceedings; notification of State or local authority; time for filing charges with Commission; commencement of proceedings.*

In the case of an alleged unlawful employment practice occurring in a State, or political subdivision of a State, which has a State or local law prohibiting the unlawful employment practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, no charge may be filed under subsection (a) of this section by the person aggrieved before the expiration of sixty days after proceedings have been commenced under the State or local law, unless such proceedings have been earlier terminated, provided that such sixty-day period shall be extended to one hundred and twenty days during the first year after the effective date of such State or local law. If any requirement for the commencement of such proceedings is imposed by a State or local authority other than a requirement of the filing of a written and signed statement of the facts upon which the proceeding is based, the proceeding shall be deemed to have been commenced for the purposes of this subsection at the time such statement is sent by registered mail to the appropriate State or local authority.

(c) *Same; notification of State or local authority; time for action on charges by Commission.*

In the case of any charge filed by a member of the Commission alleging an unlawful employment practice occurring in a State or political subdivision of a State, which has a State or local law prohibiting the practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, the Commission shall, before taking any action with respect to such charge, notify the appropriate State or local officials and, upon request, afford them a reasonable time, but not less than sixty days (provided

that such sixty-day period shall be extended to one hundred and twenty days during the first year after the effective day of such State or local law), unless a shorter period is requested, to act under such State or local law to remedy the practice alleged.

(d) *Time for filing charges after occurrence of unlawful practices or termination of State or local enforcement proceedings; filing of charges by Commission with State or local agency.*

A charge under subsection (a) of this section shall be filed within ninety days after the alleged unlawful employment practice occurred, except that in the case of an unlawful employment practice with respect to which the person aggrieved has followed the procedure set out in subsection (b) of this section, such charge shall be filed by the person aggrieved within two hundred and ten days after the alleged unlawful employment practice occurred, or within thirty days after receiving notice that the State or local agency has terminated the proceedings under the State or local law, whichever is earlier, and a copy of such charge shall be filed by the Commission with the State or local agency.

(e) *Civil actions for prevention of unlawful practices; legal representation; commencement of action without payment of fees, costs, or security; intervention by Attorney General; stay of Federal proceedings.*

If within thirty days after a charge is filed with the Commission or within thirty days after expiration of any period of reference under subsection (c) of this section (except that in either case such period may be extended to not more than sixty days upon a determination by the Commission that further efforts to secure voluntary compliance are warranted), the Commission has been unable to obtain voluntary compliance with this subchapter, the Commission shall so notify the person aggrieved and a civil action may, within thirty days thereafter, be brought against the respondent named in the charge (1) by the person claiming to be aggrieved, or (2) if such charge was filed by a member of the Commission, by any person whom the charge alleges was aggrieved by the alleged unlawful employment practice. Upon application by the complainant and in such circumstances as the court may deem just, the court may appoint an attorney for such complainant and may authorize the commencement of the action without the payment of fees, costs, or security. Upon timely application, the court may, in its discretion, permit the Attorney General to intervene in such civil action if he certifies that the case is of general public importance. Upon request, the court may, in its discretion, stay further proceedings for not more than sixty days pending the termination of State or local proceedings described in subsection (b) of this section or the efforts of the Commission to obtain voluntary compliance.

(f) *Jurisdiction and venue of United States courts.*

Each United States district court and each United States court of a place subject to the jurisdiction of the United States shall have jurisdiction of actions brought under this subchapter. Such an action may be brought in any judicial district in the State in which the unlawful employment practice is alleged to have been committed, in the judicial district in which the employment records relevant to such practice are maintained and administered, or in the judicial district

in which the plaintiff would have worked but for the alleged unlawful employment practice, but if the respondent is not found within any such district, such an action may be brought within the judicial district in which the respondent has his principal office. For purposes of sections 1404 and 1406 of Title 28, the judicial district in which the respondent has his principal office shall in all cases be considered a district in which the action might have been brought.

(g) *Injunctions; appropriate affirmative action; reinstatement; hiring; back pay; reduction of back pay by interim earnings or amount earnable; limitations on judicial orders.*

If the court finds that the respondent has intentionally engaged in or is intentionally engaging in an unlawful employment practice charged in the complaint, the court may enjoin the respondent from engaging in such unlawful employment practice, and order such affirmative action as may be appropriate, which may include reinstatement or hiring of employees, with or without back pay (payable by the employer, employment agency, or labor organization, as the case may be, responsible for the unlawful employment practice). Interim earnings or amounts earnable with reasonable diligence by the person or persons discriminated against shall operate to reduce the back pay otherwise allowable. No order of the court shall require the admission or reinstatement of an individual as a member of a union or the hiring, reinstatement, or promotion of an individual as an employee, or the payment to him of any back pay, if such individual was refused admission, suspended, or expelled or was refused employment or advancement or was suspended or discharged for any reason other than discrimination on account of race, color, religion, sex or national origin or in violation of section 2000e-3(a) of this title.

(h) *Provisions of sections 101 to 115 of Title 29 not applicable to civil actions for prevention of unlawful practices.*

The provisions of sections 101 to 115 of Title 29 shall not apply with respect to civil actions brought under this section.

(i) *Proceedings by Commission to compel compliance with judicial orders.*

In any case in which an employer, employment agency, or labor organization fails to comply with an order of a court issued in a civil action brought under subsection (e) of this section, the Commission may commence proceedings to compel compliance with such order.

(j) *Appeals.*

Any civil action brought under subsection (e) of this section and any proceedings brought under subsection (i) of this section shall be subject to appeal as provided in sections 1291 and 1292, Title 28.

(k) *Attorney's fee; liability of Commission and United States for costs.*

In any action or proceeding under this subchapter the court, in its discretion, may allow the prevailing party, other than the Commission or the United States, a reasonable attorney's fee as part of the costs, and the Commission and the United States shall be liable for costs the same as a private person. (Pub. L. 88-352, title VII, § 706, July 2, 1964, 78 Stat. 259.)

§ 2000e-6. Civil actions by the Attorney General.

(a) *Complaint.*

Whenever the Attorney General has reasonable

cause to believe that any person or group of persons is engaged in a pattern or practice of resistance to the full enjoyment of any of the rights secured by this subchapter, and that the pattern or practice is of such a nature and intended to deny the full exercise of the rights herein described, the Attorney General may bring a civil action in the appropriate district court of the United States by filing with it a complaint (1) signed by him (or in his absence the Acting Attorney General), (2) setting forth facts pertaining to such patterns or practice, and (3) requesting such relief, including an application for a permanent or temporary injunction, restraining order or other order against the person or persons responsible for such pattern or practice, as he deems necessary to insure the full enjoyment of the rights herein described.

(b) *Jurisdiction; three-judge district court for cases of general public importance; hearing, determination, expedition of action, review by Supreme Court; single-judge district court; hearing, determination, expedition of action.*

The district courts of the United States shall have and shall exercise jurisdiction of proceedings instituted pursuant to this section, and in any such proceeding the Attorney General may file with the clerk of such court a request that a court of three judges be convened to hear and determine the case. Such request by the Attorney General shall be accompanied by a certificate that, in his opinion, the case is of general public importance. A copy of the certificate and request for a three-judge court shall be immediately furnished by such clerk to the chief judge of the circuit (on in his absence, the presiding circuit judge of the circuit) in which the case is pending. Upon receipt of such request it shall be the duty of the chief judge of the circuit or the presiding circuit judge, as the case may be, to designate immediately three judges in such circuit, of whom at least one shall be a circuit judge and another of whom shall be a district judge of the court in which the proceeding was instituted, to hear and determine such case, and it shall be the duty of the judges so designated to assign the case for hearing at the earliest practicable date, to participate in the hearing and determination thereof, and to cause the case to be in every way expedited. An appeal from the final judgment of such court will lie to the Supreme Court.

In the event the Attorney General fails to file such a request in any such proceeding, it shall be the duty of the chief judge of the district (or in his absence, the acting chief judge) in which the case is pending immediately to designate a judge in such district to hear and determine the case. In the event that no judge in the district is available to hear and determine the case, the chief judge of the district, or the acting chief judge, as the case may be, shall certify this fact to the chief judge of the circuit (or in his absence, the acting chief judge) who shall then designate a district or circuit judge of the circuit to hear and determine the case.

It shall be the duty of the judge designated pursuant to this section to assign the case for hearing at the earliest practicable date and to cause the case to be in every way expedited. (Pub. L. 88-352, title VII, § 707, July 2, 1964, 78 Stat. 261.)

§ 2000e-7. Effect on State laws.

Nothing in this subchapter shall be deemed to exempt or relieve any person from any liability,

duty, penalty, or punishment provided by any present or future law of any State or political subdivision of a State, other than any such law which purports to require or permit the doing of any act which would be an unlawful employment practice under this subchapter. (Pub. L. 88-352, title VII, § 708, July 2, 1964, 78 Stat. 262.)

§ 2000e-8. Investigations.

(a) *Examination and copying of evidence related to unlawful employment practices.*

In connection with any investigation of a charge filed under section 2000e-5 of this title, the Commission or its designated representative shall at all reasonable times have access to, for the purposes of examination, and the right to copy any evidence of any person being investigated or proceeded against that relates to unlawful employment practices covered by this subchapter and is relevant to the charge under investigation.

(b) *Cooperation with State and local agencies administering State fair employment practices laws; utilization of services; reimbursement; agreements and rescission of agreements.*

The Commission may cooperate with State and local agencies charged with the administration of State fair employment practices laws and, with the consent of such agencies, may for the purpose of carrying out its functions and duties under this subchapter and within the limitation of funds appropriated specifically for such purpose, utilize the services of such agencies and their employees and notwithstanding any other provision of law, may reimburse such agencies and their employees for services rendered to assist the Commission in carrying out this subchapter. In furtherance of such cooperative efforts, the Commission may enter into written agreements with such State or local agencies and such agreements may include provisions under which the Commission shall refrain from processing a charge in any cases or class of cases specified in such agreements and under which no person may bring a civil action under section 2000e-5 of this title in any cases or class of cases so specified, or under which the Commission shall relieve any person or class of persons in such State or locality from requirements imposed under this section. The Commission shall rescind any such agreement whenever it determines that the agreement no longer serves the interest of effective enforcement of this subchapter.

(c) *Execution, retention, and preservation of records; reports to Commission; training program records; appropriate relief from regulation or order for undue hardship.*

Except as provided in subsection (d) of this section, every employer, employment agency, and labor organization subject to this subchapter shall (1) make and keep such records relevant to the determinations of whether unlawful employment practices have been or are being committed, (2) preserve such records for such periods, and (3) make such reports therefrom, as the Commission shall prescribe by regulation or order, after public hearing, as reasonable, necessary, or appropriate for the enforcement of this subchapter or the regulations or orders thereunder. The Commission shall, by regulation, require each employer, labor organization, and joint labor-management committee subject to this subchapter which controls an apprenticeship or other training program to maintain such records as are reasonably necessary to carry out the purpose of this subchapter,

including, but not limited to, a list of applicants who wish to participate in such program, including the chronological order in which such applications were received, and shall furnish to the Commission, upon request, a detailed description of the manner in which persons are selected to participate in the apprenticeship or other training program. Any employer, employment agency, labor organization, or joint labor-management committee which believes that the application to it of any regulation or order issued under this section would result in undue hardship may (1) apply to the Commission for an exemption from the application of such regulation or order, or (2) bring a civil action in the United States district court for the district where such records are kept. If the Commission or the court, as the case may be, finds that the application of the regulation or order to the employer, employment agency, or labor organization in question would impose an undue hardship, the Commission or the court, as the case may be, may grant appropriate relief.

(d) *Records under State fair employment practice laws; notations to reflect differences in coverage or enforcement between State and Federal law; reports to Federal agencies under executive orders as dispensing with reports to Commission.*

The provisions of subsection (c) of this section shall not apply to any employer, employment agency, labor organization, or joint labor-management committee with respect to matters occurring in any State or political subdivision thereof which has a fair employment practice law during any period in which such employer, employment agency, labor organization, or joint labor-management committee is subject to such law, except that the Commission may require such notations on records which such employer, employment agency, labor organization, or joint labor-management committee keeps or is required to keep as are necessary because of differences in coverage or methods of enforcement between the State or local law and the provisions of this subchapter. Where an employer is required by Executive Order 10925, issued March 6, 1961, or by any other Executive order prescribing fair employment practices for Government contractors and subcontractors, or by rules or regulations issued thereunder, to file reports relating to his employment practices with any Federal agency or committee, and he is substantially in compliance with such requirements, the Commission shall not require him to file additional reports pursuant to subsection (c) of this section.

(e) *Prohibited disclosures; penalties.*

It shall be unlawful for any officer or employee of the Commission to make public in any manner whatever any information obtained by the Commission pursuant to its authority under this section prior to the institution of any proceeding under this subchapter involving such information. Any officer or employee of the Commission who shall make public in any manner whatever any information in violation of this subsection shall be guilty of a misdemeanor and upon conviction thereof, shall be fined not more than \$1,000, or imprisoned not more than one year. (Pub. L. 88-352, title VII, § 709, July 2, 1964, 78 Stat. 262.)

§ 2000e-9. Investigatory powers.

(a) *Examination of witnesses; production of evidence.*

For the purposes of any investigation of a charge filed under the authority contained in

section 2000e-5 of this title, the Commission shall have authority to examine witnesses under oath and to require the production of documentary evidence relevant or material to the charge under investigation.

(b) *Jurisdiction for issuance of compliance orders; attendance of witnesses or production of evidence out of State.*

If the respondent named in a charge filed under section 2000e-5 of this title fails or refuses to comply with a demand of the Commission for permission to examine or to copy evidence in conformity with the provisions of section 2000e-8(a) of this title, or if any person required to comply with the provisions of section 2000e-8 (c) or (d) of this title fails or refuses to do so, or if any person fails or refuses to comply with a demand by the Commission to give testimony under oath, the United States district court for the district in which such person is found, resides, or transacts business, shall, upon application of the Commission, have jurisdiction to issue to such person an order requiring him to comply with the provisions of section 2000e-8 (c) or (d) of this title or to comply with the demand of the Commission, but the attendance of a witness may not be required outside the State where he is found, resides, or transacts business and the production of evidence may not be required outside the State where such evidence is kept.

(c) *Petition for order to modify or set aside demand; specification of grounds; waiver of objections.*

Within twenty days after the service upon any person charged under section 2000e-5 of this title of a demand by the Commission for the production of documentary evidence or for permission to examine or to copy evidence in conformity with the provisions of section 2000e-8(a) of this title, such person may file in the district court of the United States for the judicial district in which he resides, is found, or transacts business, and serve upon the Commission a petition for an order of such court modifying or setting aside such demand. The time allowed for compliance with the demand in whole or in part as deemed proper and ordered by the court shall not run during the pendency of such petition in the court. Such petition shall specify each ground upon which the petitioner relies in seeking such relief, and may be based upon any failure of such demand to comply with the provisions of this subchapter or with the limitations generally applicable to compulsory process or upon any constitutional or other legal right or privilege of such person. No objection which is not raised by such a petition may be urged in the defense to a proceeding initiated by the Commission under subsection (b) of this section for enforcement of such a demand unless such proceeding is commenced by the Commission prior to the expiration of the twenty-day period, or unless the court determines that the defendant could not reasonably have been aware of the availability of such ground of objection.

(d) *Petition, in proceedings by Commission, for order to modify or set aside demand.*

In any proceeding brought by the Commission under subsection (b) of this section, except as provided in subsection (c) of this section, the defendant may petition the court for an order modifying or setting aside the demand of the Commission. (Pub. L. 88-352, title VII, § 710, July 2, 1964, 78 Stat. 264.)

§ 2000e-10. Posting of notices; penalties.

(a) Every employer, employment agency, and labor organization, as the case may be, shall post and keep posted in conspicuous places upon its premises where notices to employees, applicants for employment, and members are customarily posted a notice to be prepared or approved by the Commission setting forth excerpts from, or summaries of, the pertinent provisions of this subchapter and information pertinent to the filing of a complaint.

(b) A willful violation of this section shall be punishable by a fine of not more than \$100 for each separate offense. (Pub. L. 88-352, title VII, § 711, July 2, 1964, 78 Stat. 265.)

§ 2000e-11. Veterans' special rights or preference.

Nothing contained in this subchapter shall be construed to repeal or modify any Federal, State, territorial, or local law creating special rights or preference for veterans. (Pub. L. 88-352, title VII, § 712, July 2, 1964, 78 Stat. 265.)

§ 2000e-12. Regulations; conformity of regulations with Administrative Procedure Act; reliance on interpretations and instructions of Commission.

(a) The Commission shall have authority from time to time to issue, amend, or rescind suitable procedural regulations to carry out the provisions of this subchapter. Regulations issued under this section shall be in conformity with the standards and limitations of the Administrative Procedure Act.

(b) In any action or proceeding based on any alleged unlawful employment practice, no person shall be subject to any liability or punishment for or on account of (1) the commission by such person of an unlawful employment practice if he pleads and proves that the act or omission complained of was in good faith, in conformity with, and in reliance on any written interpretation or opinion of the Commission, or (2) the failure of such person to publish and file any information required by any provision of this subchapter if he pleads and proves that he failed to publish and file such information in good faith, in conformity with the instructions of the Commission issued under this subchapter regarding the filing of such information. Such a defense, if established, shall be a bar to the action or proceeding, notwithstanding that (A) after such act or omission, such interpretation or opinion is modified or rescinded or is determined by judicial authority to be invalid or of no legal effect, or (B) after publishing or filing the description and annual reports, such publication or filing is determined by judicial authority not to be in conformity with the requirements of this subchapter. (Pub. L. 88-352, title VII, § 713, July 2, 1964, 78 Stat. 265.)

CHAPTER 34.—ECONOMIC OPPORTUNITY PROGRAM

§ 2701. Congressional findings and declaration of purpose.

Although the economic well-being and prosperity of the United States have progressed to a level surpassing any achieved in world history, and although these benefits are widely shared throughout the Nation, poverty continues to be

the lot of a substantial number of our people. The United States can achieve its full economic and social potential as a nation only if every individual has the opportunity to contribute to the full extent of his capabilities and to participate in the workings of our society. It is, therefore, the policy of the United States to eliminate the paradox of poverty in the midst of plenty in this Nation by opening to everyone the opportunity for education and training, the opportunity to work, and the opportunity to live in decency and dignity. It is the purpose of this chapter to strengthen, supplement, and coordinate efforts in furtherance of that policy.

It is the sense of the Congress that it is highly desirable to employ the resources of the private sector of the economy of the United States in all such efforts to further the policy of this chapter. (Pub. L. 88-452, § 2, Aug. 20, 1964, 78 Stat. 508; Pub. L. 89-794, title VI, § 614(b), Nov. 8, 1966, 80 Stat. 1472.)

The purpose of this part is to provide useful work and training opportunities, together with related services and assistance, that will assist low-income youths to continue or resume their education, and to help unemployed or low-income persons, both young and adult, to obtain and hold regular competitive employment, with maximum opportunities for local initiative in developing programs which respond to local needs and problems, and with emphasis upon a comprehensive approach which includes programs using both public and private resources to overcome the complex problems of the most severely disadvantaged in urban and rural areas having high concentrations or proportions of unemployment, underemployment, and low income. (Pub. L. 88-452, title I, § 120, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 683.)

§ 2738. Community program areas and comprehensive work and training programs.

(a) The Director shall designate or recognize community program areas for the purpose of planning and conducting comprehensive community work and training programs.

(b) For the purpose of this part, a community may be a city, county, multicounty, or multicounty unit, an Indian reservation, or a neighborhood or other area (irrespective of boundaries or political subdivisions) which provides a suitable organizational base and possesses the commonality of interest needed for a comprehensive work and training program. The Director shall consult with the heads of other Federal agencies responsible for programs relating to community action, manpower services, physical and economic development, housing, education, health, and other community services to encourage the establishment of coterminous or complementary boundaries for planning purposes among those programs and comprehensive work and training programs assisted under this part.

(c) A comprehensive work and training program must seek to provide participants an unbroken sequence of services which will enable them to obtain and hold employment. It shall provide a systematic approach to planning and implementation including the linkage of relevant component programs authorized by this chapter with one another and with other appropriate public and private programs and activities. It shall also provide for evaluation. (Pub. L. 88-452, title I, § 121, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 683.)

§ 2739. Prime sponsors and delegate agencies.

(a) *Receipt of funds.*

For each community program area, the Director shall recognize a public or private nonprofit agency which shall serve as the prime sponsor to receive funds under section 2740 of this title (except as otherwise provided in section 2740(c) of this title). This agency must be capable of planning, administering, coordinating, and evaluating a comprehensive work and training program.

The prime sponsor shall provide for participation of employers and labor organizations in the planning and conduct of the comprehensive work and training programs.

(c) *Delegate agencies.*

the earnings to permit them to resume or maintain attendance in school;

(2) programs to provide unemployed, underemployed, or low-income persons (aged sixteen and over) with useful work and training (which must include sufficient basic education and institutional or on-the-job training) designed to assist those persons to develop their maximum occupational potential and to obtain regular competitive employment;

(4) special programs which provide unemployed or low-income persons with jobs leading to career opportunities, including new types of careers, in programs designed to improve the physical, social, economic, or cultural condition of the community or area served in fields including without limitation health, education, welfare, neighborhood redevelopment, and public safety, which provide maximum prospects for advancement and continued employment without Federal assistance, which give promise of contributing to the broader adoption of new methods of structuring jobs and new methods of providing job ladder opportunities, and which provide opportunities for further occupational training to facilitate career advancement;

(5) special programs which concentrate work and training resources in urban and rural areas having large concentrations or proportions of low-income, unemployed persons, and within those rural areas having substantial outmigration to urban areas, which are appropriately focused to assure that work and training opportunities are extended to the most severely disadvantaged persons who can reasonably be expected to benefit from such opportunities, and which are supported by specific commitments of cooperation from private and public employers;

(6) supportive and follow-up services to supplement work and training programs under this or other Acts including health services, counseling, day care for children, transportation assistance, and other special services necessary to assist individuals to achieve success in work and training programs and in employment;

(9) means of planning, administering, coordinating, and evaluating a comprehensive work and training program.

(b) *Consolidation under prime sponsor.*

Commencing July 1, 1968, all work and training component programs conducted in a community under this section shall be consolidated into the comprehensive work and training program and financial assistance for such components shall be provided to the prime sponsor unless the Director determines there is a good cause for providing an extension of time, except as otherwise provided by subsection (c). After that date, the work and training components of programs authorized by section 2922 of this title and by section 2610c of this title shall to the maximum extent feasible be linked to the comprehensive work and training program, including funding through the prime sponsor where appropriate.

(c) *Financial assistance to other than prime sponsors.*

The Director may provide financial assistance to a public agency or private organization other than a prime sponsor to carry out one or more component programs described in subsection (a) when he determines, after soliciting and considering comments of the prime sponsor, if any, that such assistance would enhance program effectiveness or acceptance on the part of persons served and would serve the purposes of this part. In the case of programs under subsection (a)(1) of this section, financial assistance may be provided directly to local or State educational agencies pursuant to agreements between the Director and the Secretary of Labor providing for the operation of such programs under direct grants or contracts. (Pub. L. 88-452, title I, § 123, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 684.)

(2) the program will not result in the displacement of employed workers or impair existing contracts for services, or result in the substitution of Federal for other funds in connection with work that would otherwise be performed;

(3) the rates of pay for time spent in work-training and education, and other conditions of employment, will be appropriate and reasona-

ble in the light of such factors as the type of work, geographical region, and proficiency of the participant; and

(Pub. L. 88-452, title I, § 124, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 686, and amended Pub. L. 90-575, title V, § 503, Oct. 16, 1968, 82 Stat. 1062.)

§ 2742. Program participants.

(a) Participants in programs under this part must be unemployed or low-income persons. The Director, in consultation with the Social Security Administrator, shall establish criteria for low income, taking into consideration family size, urban-rural and farm-nonfarm differences, and other relevant factors. Any individual shall be deemed to be from a low-income family if the family receives cash welfare payments.

(b) Participants must be permanent residents of the United States or of the Trust Territory of the Pacific Islands.

(c) Participants shall not be deemed Federal employees and shall not be subject to the provisions of law relating to Federal employment, including those relating to hours of work, rates of compensation, leave, unemployment compensation, and Federal employment benefits. (Pub. L. 88-452, title I, § 125, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 686.)

§ 2743. Elderly persons; programs; staff.

The Director shall provide that programs under this part shall be designed to deal with the incidence of long-term unemployment among persons fifty-five years and older. In the conduct of such programs, the Director shall encourage the em-

ployment of such persons as regular, part-time, and short-time staff in component programs. (Pub. L. 88-452, title I, § 126, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 686.)

§ 2744. Pilot projects.

(a) The Director may provide financial assistance to public or private organizations for pilot projects which are designed to develop new approaches to further the objectives of this part. Such projects may be conducted by public agencies or private organizations.

(b) The Director shall undertake pilot projects designed to encourage the maximum participation of private employers, other than nonprofit organizations, in work and training programs under this part.

(c) Before the Director may approve a pilot project, he shall solicit and consider comments on such project from the prime sponsor, if any, in the community where the project will be undertaken. (Pub. L. 88-452, title I, § 127, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 687.)

§ 2745. Technical assistance and training.

The Director may provide (directly or through contracts or other appropriate arrangements) technical assistance to assist in the initiation or effective operation of programs under this part. He may also make arrangements for the training of instructors and other personnel needed to carry out work and training programs under this part and part D of this subchapter. He shall give special consideration to the problems of rural areas. (Pub. L. 88-452, title I, § 128, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 687.)

§ 2746. Role of the States.

The Director may provide financial assistance to appropriate State agencies to—

(1) provide technical assistance and training, as authorized by section 2745 of this title, with particular emphasis upon service to rural areas and for this purpose preference shall be given to the State agency which administers programs assisted by section 2824 of this title;

(2) assist in coordinating State activities related to this part;

(3) operate work and training programs in communities which have not yet established an acceptable prime sponsor; and

(4) provide work and training opportunities on State projects and in State agencies: *Provided*, That these opportunities shall be made available to participants in community work and training programs.

(Pub. L. 88-452, title I, § 129, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 687.)

§ 2747. Equitable distribution of assistance.

Of the sums appropriated or allocated for any fiscal year for programs authorized under this subchapter, the Director shall reserve not to exceed 20 per centum for the purpose of carrying out section 2740(a)(5) of this title but not more than 12½ per centum of the funds so reserved for any fiscal year shall be used within any one State. With respect to the remaining funds appropriated or allocated to carry out the provisions of section 2740 of this title, the Director shall establish criteria designed to achieve an equitable distribution of assistance among the States. In developing those criteria, he shall consider, among other relevant factors, the ratios of population, unem-

ployment, and family income levels. (Pub. L. 88-452, title I, § 130, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 687.)

§ 2748. Limitation on Federal assistance.

Federal financial assistance to any program or activity carried out pursuant to section 2740 of this title shall not exceed 90 per centum of the cost of such program or activity, including costs of administration. The Director may, however, approve assistance in excess of that percentage if he determines, pursuant to regulations establishing objective criteria for such determinations, that this is necessary in furtherance of the purposes of this part. Non-Federal contributions may be in cash or in kind, fairly evaluated, including but not limited to plant, equipment, and services. If in any fiscal year, a community provides non-Federal contributions under this part exceeding its requirements under this section, such excess may be used to meet its requirements for such contributions under section 2812(c) of this title. (Pub. L. 88-452, title I, § 131, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 687.)

§ 2749. Program data and evaluation.

(a) The Director shall provide for the development and implementation of a program data system consistent with similar data systems for other relevant Federal programs. Such data shall be published periodically.

(b) The Director shall provide for the continuing evaluation of the programs under this part, including their effectiveness in achieving stated goals, their impact on related programs, and their structure and mechanisms for the delivery of services, and he shall arrange for obtaining the opinions of participants about the strengths and weaknesses of the programs. This evaluation shall include comparisons with proper control groups composed of persons who have not participated in such programs, and shall seek to develop comparative data on the costs and benefits of work and training programs authorized by this chapter and by other Acts, including the Manpower Development and Training Act of 1962. He may, for this purpose, contract for independent evaluations of such programs or individual projects. The results of such evaluations shall be included in the report required by section 2948 of this title.

(c) The Director shall develop and publish standards for evaluation of program effectiveness in achieving the objectives of this part. Such standards shall be considered in deciding whether to renew or supplement financial assistance provided by sections 2740, 2745 and 2746 of this title. (Pub. L. 88-452, title I, § 132, as added Pub. L. 90-222, title I, § 102, Dec. 23, 1967, 81 Stat. 688.)

Subchapter II.—Urban and Rural Community Action Programs

§ 2781. Congressional statement of purpose.

(a) This subchapter provides for community action agencies and programs, prescribes the structure and describes the functions of community action agencies and authorizes financial assistance to community action programs and related projects and activities. Its basic purpose is to stimulate a better focusing of all available local, State, private, and Federal resources upon the goal of enabling low-income families, and low-income individuals of all ages, in rural and urban areas, to attain the skills, knowledge, and motiva-

tions and secure the opportunities needed for them to become fully self-sufficient. Its specific purposes are to promote, as methods of achieving a better focusing of resources on the goal of individual and family self-sufficiency—

(1) the strengthening of community capabilities for planning and coordinating Federal, State, and other assistance related to the elimination of poverty, so that this assistance, through the efforts of local officials, organizations, and interested and affected citizens, can be made more responsive to local needs and conditions;

(2) the better organization of a range of services related to the needs of the poor, so that these services may be made more effective and efficient in helping families and individuals to overcome particular problems in a way that takes account of, and supports their progress in overcoming, related problems;

(3) the greater use, subject to adequate evaluation, of new types of services and innovative approaches in attacking causes of poverty, so as to develop increasingly effective methods of employing available resources;

(4) the development and implementation of all programs and projects designed to serve the poor or low-income areas with the maximum feasible participation of residents of the areas and members of the groups served, so as to best stimulate and take full advantage of capabilities for self-advancement and assure that those programs and projects are otherwise meaningful to and widely utilized by their intended beneficiaries; and

(5) the broadening of the resource base of programs directed to the elimination of poverty, so as to secure, in addition to the services and assistance of public officials, private religious, charitable, and neighborhood organizations, and individual citizens, a more active role for business, labor, and professional groups able to provide employment opportunities or otherwise influence the quantity and quality of services of concern to the poor.

(b) It is further declared to be the purpose of this subchapter and the policy of the Office of Economic Opportunity to provide for basic education, health care, vocational training, and employment opportunities in rural America to enable the poor living in rural areas to remain in such areas and become self-sufficient therein. It shall not be the purpose of this subchapter or the policy of the Office of Economic Opportunity to encourage the rural poor to migrate to urban areas, inasmuch as it is the finding of Congress that continuation of such migration is frequently not in the best interests of the poor and tends to further congest the already overcrowded slums and ghettos of our Nation's cities. (Pub. L. 88-452, title II, § 201, Aug. 20, 1964, 78 Stat. 516; Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 690.)

PART A.—COMMUNITY ACTION AGENCIES AND PROGRAMS

§ 2790. Designation of community action agencies.

(a) *Political subdivisions, public and private nonprofit agencies and organizations.*

A community action agency shall be a State or political subdivision of a State (having elected or duly appointed governing officials), or a combination of such political subdivisions, or a public or private nonprofit agency or organization which

has been designated by a State or such a political subdivision or combination of such subdivisions, which—

(1) has the power and authority and will perform the functions set forth in section 2795 of this title, including the power to enter into contracts with public and private nonprofit agencies and organizations to assist in fulfilling the purposes of this subchapter, and

(2) is determined to be capable of planning, conducting, administering and evaluating a community action program and is currently designated as a community action agency by the Director.

A community action program is a community based and operated program—

(1) which includes or is designed to include a sufficient number of projects or components to provide, in sum, a range of services and activities having a measurable and potentially major impact on causes of poverty in the community or those areas of the community where poverty is a particularly acute problem;

(2) which has been developed, and which organizes and combines its component projects and activities, in a manner appropriate to carry out all the purposes of this subchapter; and

(3) which conforms to such other supplementary criteria as the Director may prescribe consistent with the purposes and provisions of this subchapter.

(b) *Administration.*

Components of a community action program may be administered by the community action agency, where consistent with sound and efficient management and applicable law, or by other agencies. They may be projects eligible for assistance under this subchapter, or projects assisted from other public or private sources; and they may be either specially designed to meet local needs, or designed pursuant to the eligibility standards of a State or Federal program providing assistance to a particular kind of activity which will help in meeting those needs.

(c) *Organizational base and commonality of interests.*

For the purpose of this subchapter, a community may be a city, county, multicounty, or multicounty unit, an Indian reservation, or a neighborhood or other area (irrespective of boundaries or political subdivisions) which provides a suitable organizational base and possesses the commonality of interest needed for a community action program. The Director shall consult with the heads of other Federal agencies responsible for programs relating to work and training programs, physical and economic development, housing, education, health, and other community services to encourage the establishment of coterminous or complementary boundaries for planning purposes among those programs and community action programs assisted under this subchapter.

(d) *Designation of substitute community action agency.*

The Director may designate and provide financial assistance to a public or private nonprofit agency as a community action agency in lieu of a community action agency designated under subsection (a) of this section for activities of the kind described in this subchapter where he determines (1) that the community action agency serving the community has failed, after having a reasonable opportunity to do so, to submit a satisfactory plan for a community action program which meets the criteria for approval set forth in this subchapter,

or to carry out such plan in a satisfactory manner, or (2) that neither the State nor any qualified political subdivision or combination of such subdivisions is willing to be designated as the community action agency for such community or to designate a public or private nonprofit agency or organization to be so designated by the Director.

(e) *Self-exclusion of political subdivisions.*

No political subdivision of a State shall be included in the community action program of a community action agency designated under section 2790(a) of this title if the elected or duly appointed governing officials of such political subdivision do not wish to be so included. Such political subdivision, and any public or private nonprofit organization or agency designated by it, shall be eligible for designation as a community action agency on the same basis as other political subdivisions and their designees.

(f) *Indian reservations.*

For the purposes of this subchapter, a tribal government of an Indian reservation shall be deemed to be a political subdivision of a State. (Pub. L. 88-452, title II, § 210, Aug. 20, 1964, 78 Stat. 519; Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 691.)

§ 2791. Community action agencies and boards.

(a) *Administration by community action boards.*

Each community action agency which is a State or a political subdivision of a State, or a combination of political subdivisions, shall administer its program through a community action board which shall meet the requirements of subsection (b) of this section. Each community action agency which is a public or private nonprofit agency or organization designated by a State or political subdivision of a State, or combination of political subdivisions, or is an agency designated by the Director under section 2790(d) of this title, shall have a governing board which shall meet the requirements of subsection (b) of this section.

(b) *Make-up of boards; membership; term of service.*

Each board to which this subsection applies shall consist of not more than fifty-one members and shall be so constituted that (1) one-third of the members of the board are public officials, including the chief elected official or officials, or their representatives, unless the number of such officials reasonably available or willing to serve is less than one-third of the members are persons chosen in accordance with democratic selection procedures adequate to assure that they are representative of the poor in the area served, and (3) the remainder of the members are officials or members of business, industry, labor, religious, welfare, education, or other major groups and interests in the community. Each member of the board selected to represent a specific geographic area within a community must reside in the area he represents. No person selected under clause (2) or (3) of this subsection as a member of a board shall serve on such board for more than three consecutive years, or more than a total of six years.

(c) *Neighborhood based organizations.*

Where a community action agency places responsibility for major policy determinations with respect to the character, funding, extent, and administration of and budgeting for programs to be carried on in a particular geographic area within the community in a subsidiary board, council, or similar agency, such board, council, or agency shall be broadly representative of such

area, subject to regulations of the director which assure adequate opportunity for membership of elected public officials on such board, council, or agency. Each community action agency shall be encouraged to make use of neighborhood-based organizations composed of residents of the area or members of the groups served to assist such agency in the planning, conduct, and evaluation of components of the community action program.

(d) *Administrative standards and rules; quorum.*

(1) The Director shall promulgate such standards or rules relating to the scheduling and notice of meetings, quorums (which shall be not less than 50 per centum of the total membership), procedures, establishment of committees, and similar matters as he may deem necessary to assure that boards which are subject to subsection (b) of this section provide a continuing and effective mechanism for securing broad, community involvement in programs assisted under this subchapter and that all groups or elements represented on those boards have a full and fair opportunity to participate in decisions affecting those programs. Such standards or rules shall not preclude any such board from appointing an executive committee or similar group, which fairly reflects the composition of the board, to transact the board's business between its meetings. The quorum requirements for any such committee or group, which shall not be less than 50 per cent of the membership, shall be established by the board.

(2) The Director shall require community action agencies to establish procedures under which community agencies and representative groups of the poor which feel themselves inadequately represented on the community action board or governing board may petition for adequate representation.

(e) *Power of appointment; staff; determination of policies; program plans; priorities.*

The powers of every community action agency governing board shall include the power to appoint persons to senior staff positions, to determine major personnel, fiscal, and program policies, to approve overall program plans and priorities, and to assure compliance with conditions of and approve proposals for financial assistance under this subchapter.

(f) *Participation in program development and implementation; democratic selection procedures; participation of the poor; community involvement.*

Each community action board referred to in the first sentence of subsection (a) of this section shall—

(1) have a full opportunity to participate in the development and implementation of all programs and projects designed to serve the poor or low-income areas with maximum feasible participation of residents of the areas and members of the groups served, so as to best stimulate and take full advantage of capabilities for self-advancement and assure that those programs and projects are otherwise meaningful to and widely utilized by their intended beneficiaries;

(2) have at least one-third of its members chosen in accordance with democratic selection procedures adequate to assure that they are representative of the poor in the area served;

(3) be so established and organized that the poor and residents of the area concerned will be enabled to influence the character of programs

affecting their interests and regularly participate in the planning and implementation of those programs; and

(4) be a continuing and effective mechanism for securing broad community involvement in the programs assisted under this subchapter.

(Pub. L. 88-452, title II, § 211, Aug. 20, 1964, 78 Stat. 519; Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 693.)

§ 2795. Specific powers and functions of community action agencies.

(a) In order to carry out its overall responsibility for planning, coordinating, evaluating, and administering a community action program, a community action agency must have authority under its charter or applicable law to receive and administer funds under this subchapter, funds and contributions from private or local public sources which may be used in support of a community action program, and funds under any Federal or State assistance program pursuant to which a public or private nonprofit agency (as the case may be) organized in accordance with this part could act as grantee, contractor, or sponsor of projects appropriate for inclusion in a community action program. A community action agency must also be empowered to transfer funds so received, and to delegate powers to other agencies, subject to the powers of its governing board and its overall program responsibilities. This power to transfer funds and delegate powers must include the power to make transfers and delegations covering component projects in all cases where this will contribute to efficiency and effectiveness or otherwise further program objectives.

(b) In exercising its powers and carrying out its overall responsibility for a community action program, a community action agency shall have, subject to the purposes of this subchapter, at least the following functions:

(1) Planning systematically for and evaluating the program, including actions to develop information as to the problems and causes of poverty in the community, determine how much and how effectively assistance is being provided to deal with those problems and causes, and establish priorities among projects, activities and areas as needed for the best and most efficient use of resources.

(2) Encouraging agencies engaged in activities related to the community action program to plan for, secure and administer assistance available under this subchapter or from other sources on a common or cooperative basis; providing planning or technical assistance to those agencies; and generally, in cooperation with community agencies and officials, undertaking actions to improve existing efforts to attack poverty, such as improving day-to-day communication, closing service gaps, focusing resources on the most needy, and providing additional opportunities to low-income individuals for regular employment or participation in the programs or activities for which those community agencies and officials are responsible.

(3) Initiating and sponsoring projects responsive to needs of the poor which are not otherwise being met, with particular emphasis on providing central or common services that can be drawn upon by a variety of related programs, developing new approaches or new types of services that can be incorporated into other programs, and filling gaps pending the expansion or modification of those programs.

(4) Establishing effective procedures by which

the poor and area residents concerned will be enabled to influence the character of programs affecting their interests, providing for their regular participation in the implementation of those programs, and providing technical and other support needed to enable the poor and neighborhood groups to secure on their own behalf available assistances from public and private sources.

(5) Joining with and encouraging business, labor, and other private groups and organizations to undertake, together with public officials and agencies, activities in support of the community action program which will result in the additional use of private resources and capabilities, with a view to such things as developing new employment opportunities, stimulating investment that will have a measurable impact in reducing poverty among residents of areas of concentrated poverty, and providing methods by which residents of those areas can work with private groups, firms, and institutions in seeking solutions to problems of common concern.

(Pub. L. 88-452, title II, § 212, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 694.)

§ 2796. Administrative standards; rules and regulations.

(a) Each community action agency shall observe, and shall (as appropriate) require or encourage other agencies participating in a community action program to observe, standards of organization, management and administration which will assure, so far as reasonably possible, that all program activities are conducted in a manner consistent with the purposes of this subchapter and the objective of providing assistance effectively, efficiently, and free of any taint of partisan political bias or personal or family favoritism. Each community action agency shall establish or adopt rules to carry out this section, which shall include rules to assure full staff accountability in matters governed by law, regulations, or agency policy. Each community action agency shall also provide for reasonable public access to information, including but not limited to public hearings at the request of appropriate community groups and reasonable public access to books and records of the agency or other agencies engaged in program activities or operations involving the use of authority or funds for which it is responsible. And each community action agency shall adopt for itself and other agencies using funds or exercising authority for which it is responsible, rules designed to establish specific standards governing salaries, salary increases, travel and per diem allowances, and other employee benefits; to assure that only persons capable of discharging their duties with competence and integrity are employed and that employees are promoted or advanced under impartial procedures calculated to improve agency performance and effectiveness; to guard against personal or financial conflicts of interests; and to define employee duties of advocacy on behalf of the poor in an appropriate manner which will in any case preclude employees from participating, in connection with the performance of their duties, in any form of picketing, protest, or other direct action which is in violation of law.

(b) The Director shall prescribe rules or regulations to supplement subsection (a) of this section, which shall be binding on all agencies carrying on community action program activities with financial assistance under this subchapter. He may,

where appropriate, establish special or simplified requirements for smaller agencies or agencies operating in rural areas. These special requirements shall not, however, affect the applicability of rules governing conflicts of interest, use of position or authority for partisan or nonpartisan political purposes or participation in direct action, regardless of customary practices or rules among agencies in the community. The Director shall consult with the heads of other Federal agencies responsible for programs providing assistance to activities which may be included in community action programs for the purpose of securing maximum consistency between rules or regulations prescribed or followed by those agencies and those prescribed under this section. (Pub. L. 88-452, title II, § 213, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 695.)

§ 2797. Housing development and service organizations.

Each community action agency shall encourage the establishment of housing development and services organizations designed to focus on the housing needs of low-income families and individuals. Such organizations shall provide the technical, administrative, and financial assistance which is required to help low-income families and individuals more effectively to utilize existing programs, and which is required to enable nonprofit, cooperative, and public sponsors more effectively to take advantage of existing Federal, State, and local mortgage insurance and housing assistance programs. Where appropriate, such organizations may be nonprofit housing development corporations. Such corporations may themselves become sponsors of housing under existing programs of specialized housing agencies, but under no circumstances shall such corporations insure mortgages or duplicate the long-term capital financing functions of programs now administered by the specialized housing agencies. Housing development and service organizations shall coordinate their efforts with other community action agency efforts so that any programs undertaken under authority of this section shall be closely related to other community action programs. (Pub. L. 88-452, title II, § 214, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 696.)

PART B.—FINANCIAL ASSISTANCE TO COMMUNITY ACTION PROGRAMS AND RELATED ACTIVITIES

§ 2808. General provisions for financial assistance.

(a) Component activities.

The Director may provide financial assistance to community action agencies for the planning, conduct, administration and evaluation of community action programs and components. Those components may involve, without limitation, other activities and supporting facilities designed to assist participants including the elderly poor—

- (1) to secure and retain meaningful employment;
- (2) to attain an adequate education;
- (3) to make better use of available income;
- (4) to provide and maintain adequate housing and a suitable living environment;
- (5) to undertake family planning, consistent with personal and family goals, religious and moral convictions;
- (6) to obtain services for the prevention of narcotics addiction, alcoholism, and the rehabilitation of narcotic addicts and alcoholics;

(7) to obtain emergency assistance through loans or grants to meet immediate and urgent individual and family needs, including the need for health services, nutritious food, housing, and employment-related assistance;

(8) to remove obstacles and solve personal and family problems which block the achievement of self-sufficiency;

(9) to achieve greater participation in the affairs of the community; and

(10) to make more frequent and effective use of other programs related to the purposes of this subchapter.

He may also provide financial assistance to other public or private nonprofit agencies to aid them in planning for the establishment of a community action agency.

(b) Use of agencies outside designated community action agencies.

If the Director determines that a limited purpose project or program involving activities otherwise eligible under this section is needed to serve needs of low-income families and individuals in a community and no community action agency has been designated for that community pursuant to section 2790 of this title, or where a community action agency gives its approval for such a program to be funded directly through a public or private nonprofit agency or organization, he may extend financial assistance for that project or program to a public or private nonprofit agency which he finds is capable of carrying out the project in an efficient and effective manner consistent with the purpose of this subchapter.

(c) Rules and regulations.

The Director shall prescribe necessary rules or regulations governing applications for assistance under this section to assure that every reasonable effort is made by each applicant to secure the views of local public officials and agencies in the community having a direct or substantial interest in the application and to resolve all issues of cooperation and possible duplication prior to its submission.

(d) Systematic planning and implementation processes.

After July 1, 1968, the Director shall require, as a condition of assistance, that each community action agency has adopted a systematic approach to the achievement of the purposes of this subchapter and to the utilization of funds provided under this part. Such systematic approach shall encompass a planning and implementation process which seeks to identify the problems and causes of poverty in the community, seeks to mobilize and coordinate relevant public and private resources, establishes relevant program priorities, links program components with one another and with other relevant programs, and provides for evaluation. The Director may, however, extend the time for such requirement to take into account the length of time a program has been in operation. He shall also take necessary steps to assure the participation of other Federal agencies in support of the development and implementation of plans under this subsection.

(e) Establishment of binding national priorities prohibited.

In order to promote local responsibility and initiative, the Director shall not establish binding national priorities on funds authorized by this section, but he shall review each application for financial assistance on its merits. Before extending financial assistance to a new community action agency under this section, and in determin-

ing the amount of and conditions on which such assistance shall be extended, the Director shall consider the extent and nature of poverty in the community and the probable capacity of the agency to carry out an effective program. In reviewing or supplementing financial assistance to a previously existing community action agency, he shall consider the progress made in carrying on programs by such agency. (Pub. L. 88-452, title II, § 221, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 696.)

§ 2809. Special programs and assistance: Project Headstart; Follow Through; Legal Services; Comprehensive Health Services; Upward Bound; Emergency Food and Medical Services; Family Planning, Senior Opportunities and Services; Alcohollic Counseling and Recovery; Drug Rehabilitation.

(a) In order to stimulate actions to meet or deal with particularly critical needs or problems of the poor which are common to a number of communities, the Director may develop and carry on special programs under this section. This authority shall be used only where the Director determines that the objectives sought could not be effectively achieved through the use of authorities under section 2808 of this title, including assistance to components or projects based on models developed and promulgated by him. It shall also be used only with respect to programs which (A) involve activities which can be incorporated into or be closely coordinated with community action programs, (B) involve significant new combinations of resources of new and innovative approaches, or (C) are structured in a way that will, within the limits of the type of assistance or activities contemplated, most fully and effectively promote the purposes of this subchapter. Subject to such conditions as may be appropriate to assure effective and efficient administration, the Director may provide financial assistance to public or private nonprofit agencies to carry on local projects initiated under such special programs; but he shall do so in a manner that will encourage, where feasible, the inclusion of the assisted projects in community action programs, with a view to minimizing possible duplication and promoting efficiencies in the use of common facilities and services, better assisting persons or families having a variety of needs, and otherwise securing from the funds committed the greatest possible impact in promoting family and individual self-sufficiency. Programs under this section shall include those described in the following paragraphs:

(1) A program to be known as "Project Headstart" focused upon children who have not reached the age of compulsory school attendance which (A) will provide such comprehensive health, nutritional, education, social, and other services as the Director finds will aid the children to attain their full potential, and (B) will provide for direct participation of the parents of such children in the development, conduct, and overall program direction at the local level. Pursuant to such regulations as the Director may prescribe, persons who are not members of low-income families may be permitted to receive services in projects assisted under this paragraph. A family which is not low income shall be required to make payment, or have payment made in its behalf, in whole or in part for such service where the family's income is, or becomes through employment or otherwise, such as to make such payment appropriate.

(2) A program to be known as "Follow

Through" focused primarily upon children in kindergarten or elementary school who were previously enrolled in Headstart or similar programs and designed to provide comprehensive services and parent participation activities as described in paragraph (1), which the Director finds will aid in the continued development of children to the full potential. Funds for such program shall be transferred directly from the Director to the Secretary of Health, Education, and Welfare. Financial assistance for such projects shall be provided by the Secretary on the basis of agreements reached with the Director directly to local educational agencies except as otherwise provided by such agreements.

(3) A "Legal Services" program to further the cause of justice among persons living in poverty by mobilizing the assistance of lawyers and legal institutions and by providing legal advice, legal representation, legal counseling, education in legal matters, and other appropriate legal services. Projects involving legal advice and representation shall be carried on in a way that assures maintenance of a lawyer-client relationship consistent with the best standards of the legal profession. The Director shall make arrangements under which the State bar association and the principal local bar associations in the community to be served by any proposed project authorized by this paragraph shall be consulted and afforded an adequate opportunity to submit, to the Director, comments and recommendations on the proposed project before such project is approved or funded, and to submit, to the Director, comments and recommendations on the operations of such project, if approved and funded. No funds or personnel made available for such program (whether conducted pursuant to this section or any other section in this part) shall be utilized for the defense of any person indicted (or proceeded against by information) for the commission of a crime, except in extraordinary circumstances where, after consultation with the court having jurisdiction, the Director has determined that adequate legal assistance will not be available for an indigent defendant unless such services are made available. Members of the Armed Forces, and members of their immediate families, shall be eligible to obtain legal services under such programs in cases of extreme hardship (determined in accordance with regulations of the Director issued after consultation with the Secretary of Defense): *Provided*, That nothing in this sentence shall be so construed as to require the Director to expand or enlarge existing programs or to initiate new programs in order to carry out the provisions of this sentence unless and until the Secretary of Defense assumes the cost of such services and has reached agreement with the Director on reimbursement for all such additional costs as may be incurred in carrying out the provisions of this sentence.

(4) A "Comprehensive Health Services" program which shall include—

(A) programs to aid in developing and carrying out comprehensive health services projects focused upon the needs of urban and rural areas having high concentrations or proportions of poverty and marked inadequacy of health services for the poor. These projects shall be designed—

(i) to make possible, with maximum feasible use of existing agencies and resources, the provision of comprehensive health

services, such as preventive medical, diagnostic, treatment, rehabilitation, family planning, narcotic addiction and alcoholism prevention and rehabilitation, mental health, dental, and followup services, together with necessary related facilities and services, except in rural areas where the lack of even elemental health services and personnel may require simpler, less comprehensive services to be established first; and

(ii) to assure that these services are made readily accessible to low-income residents of such areas, are furnished in a manner most responsive to their needs and with their participation and wherever possible are combined with, or included within, arrangements for providing employment, education, social, or other assistance needed by the families and individuals served: *Provided, however*, That such services may be made available on an emergency basis or pending a determination of eligibility to all residents of such areas.

Funds for financial assistance under this paragraph shall be allotted according to need, and capacity of applicants to make rapid and effective use of that assistance, and may be used, as necessary, to pay the full costs of projects. Before approving any project, the Director shall solicit and consider the comments and recommendations of the local medical associations in the area and shall consult with appropriate Federal, State, and local health agencies and take such steps as may be required to assure that the program will be carried on under competent professional supervision and that existing agencies providing related services are furnished all assistance needed to permit them to plan for participation in the program and for the necessary continuation of those related services; and

(B) Programs to provide financial assistance to public or private agencies for projects designed to develop knowledge or enhance skills in the field of health services for the poor. Such projects shall encourage both prospective and practicing health professionals to direct their talents and energies toward providing health services for the poor. In carrying out the provisions of this paragraph, the Director is authorized to provide or arrange for training and study in the field of health services for the poor. Pursuant to regulations prescribed by him, the Director may arrange for the payment of stipends and allowances (including travel and subsistence expenses) for persons undergoing such training and study and for their dependents. The Director and the Secretary of Health, Education, and Welfare shall achieve effective coordination of programs and projects authorized under this section with other related activities.

(5) A program to be known as "Emergency Food and Medical Services" designed to provide on an emergency basis, directly or by delegation of authority pursuant to the provisions of subchapter VI of this chapter, financial assistance for the provisions of such medical supplies and services, nutritional foodstuffs, and related services, as may be necessary to counteract conditions of starvation or malnutrition among the poor. Such assistance may be provided by way of supplement to such other assistance as

may be extended under the provisions of other Federal programs, and may be used to extend and broaden such programs to serve economically disadvantaged individuals and families where such services are not now provided and without regard to the requirements of such laws for local or State administration or financial participation. In extending such assistance, the Director may make grants to community action agencies or local public or private non-profit organizations or agencies to carry out the purposes of this paragraph. The director is authorized to carry out the functions under this paragraph through the Secretary of Agriculture and the Secretary of Health, Education, and Welfare in a manner that will insure the availability of such medical supplies and services, nutritional foodstuffs, and related services through a community action agency where feasible, or other agencies or organizations if no such agency exists or is able to administer programs to provide such foodstuffs, medical services, and supplies to needy individuals and families.

(6) A "Family Planning" program to provide assistance and services to low-income persons in the field of voluntary family planning, including the provision of information, medical assistance, and supplies. The Director and the Secretary of Health, Education, and Welfare shall coordinate, and assure a full exchange of information concerning, family planning projects within their respective jurisdictions in order to assure the maximum availability of services and in order best to meet the varying needs of different communities. The Secretary of Health, Education, and Welfare shall make the services of Public Health Service officers available to the Director in carrying out this program.

(7) A program to be known as "Senior Opportunities and Services" designed to identify and meet the needs of older, poor persons above the age of 60 in one or more of the following areas: development and provision of new employment and volunteer services; effective referral to existing health, welfare, employment, housing, legal, consumer, transportation, education, and recreational and other services; stimulation and creation of additional services and programs to remedy gaps and deficiencies in presently existing services and programs; modification of existing procedures, eligibility requirements and program structures to facilitate the greater use of, and participation in, public services by the older poor; development of all-season recreation and service centers controlled by older persons themselves; and such other activities and services as the Director may determine are necessary or specially appropriate to meet the needs of the older poor and to assure them greater self-sufficiency. In administering this program the Director shall utilize to the maximum extent feasible the services of the Administration of Aging in accordance with agreements with the Secretary of Health, Education, and Welfare.

(8) An "Alcoholic Counseling and Recovery" program designed to discover and treat the disease of alcoholism. Such program should be community based, serve the objective of the maintenance of the family structure as well as the recovery of the individual alcoholic, encourage the use of neighborhood facilities and the services of recovered alcoholics as counselors, and emphasize the reentry of the alcoholic into society rather than the institutionalization of

the alcoholic. Of the sums appropriated or allocated for programs authorized under this subchapter, the Director shall reserve and make available not less than \$10,000,000 for the fiscal year ending June 30, 1970, and not less than \$15,000,000 for the fiscal year ending June 30, 1971, for the purpose of carrying out this program.

(9) A "Drug Rehabilitation" program designed to discover the causes of drug abuse and addiction, to treat narcotic and drug addiction and the dependence associated with drug abuse, and to rehabilitate the drug abuser and drug addict. Such program should deal with the abuse or addiction resulting from the use of narcotic drugs such as heroin, opium, and cocaine, stimulants such as amphetamines, depressants, marihuana, hallucinogens, and tranquilizers. Such program should be community based, serve the objective of the maintenance of the family structure as well as the recovery of the individual drug abuser or addict, encourage the use of neighborhood facilities and the services of recovered drug abusers and addicts as counselors, and emphasize the reentry of the drug abuser and addict into society rather than his institutionalization. Of the sums appropriated or allocated for programs authorized under this subchapter, the Director shall reserve and make available not less than \$5,000,000 for the fiscal year ending June 30, 1970, and not less than \$15,000,000 for the fiscal year ending June 30, 1971, for the purpose of carrying out this program.

(b) Consistent with, and subject to, the provisions of sections 2823 and 2825(a), (b), and (c) of this title, programs under this section may include related training, research, and technical assistance, and funds allocated for this purpose may be allotted and used in the manner otherwise provided under this subchapter with respect to training, research, and technical assistance activities. (Pub. L. 88-452, title II, § 222, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 698, and amended Pub. L. 90-575, title I, § 105(b), Oct. 16, 1968, 82 Stat. 1019; Pub. L. 91-177, title I, §§ 103-106, Dec. 30, 1969, 83 Stat. 828, 829.)

§ 2810. Resident employment.

In the conduct of all component programs under this part, residents of the area and members of the groups served shall be provided maximum employment opportunity, including opportunity for further occupational training and career advancement. The Director shall encourage the employment of persons fifty-five years and older as regular, part-time and short-term staff in component programs. (Pub. L. 88-452, title II, § 223, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 701.)

§ 2811. Neighborhood centers.

The Director shall encourage the development of neighborhood centers, designed to promote the effectiveness of needed services in such fields as health, education, manpower, consumer protection, child and economic development, housing, legal, recreation, and social services, and so organized (through a corporate or other appropriate framework) as to promote maximum participation of neighborhood residents in center planning, policymaking, administration, and operation. In addition to providing such services as may not otherwise be conveniently or readily available, such centers shall be responsive to such neighborhood needs, such as counseling, referral, follow-through, and community development activities,

as may be necessary or appropriate to best assure a system under which existing programs are extended to the most disadvantaged, are linked to one another, are responsive and relevant to the range of community, family, and individual problems and are fully adapted to neighborhood needs and conditions. (Pub. L. 88-452, title II, § 224, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 701.)

§ 2812. Allotment of funds; limitations on assistance.

(a) Of the sums which are appropriated or allocated for assistance in the development and implementation of community action programs pursuant to section 2808 of this title, and for special program projects referred to in section 2809(a) of this title, and which are not subject to any other provision governing allotment or distribution, the Director shall allot not more than 2 per centum among Puerto Rico, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Virgin Islands, according to their respective needs. He shall also reserve not more than 20 per centum of those sums for allotment in accordance with such criteria and procedures as he may prescribe. The remainder shall be allotted among the States, in accordance with the latest available data, so that equal proportions are distributed on the basis of (1) the relative number of public assistance recipients in each State as compared to all States, (2) the average number of unemployed persons in each State as compared to all States, and (3) the relative number of related children living with families with incomes of less than \$1,000 in each State as compared to all States. That part of any State's allotment which the Director determines will not be needed may be reallocated, at such dates during the fiscal year as the Director may fix, in proportion to the original allotments, but with appropriate adjustments to assure that any amount so made available to any State in excess of its needs is similarly reallocated among the other States.

(b) The Director may provide for the separate allotment of funds for any special program referred to in section 2809(a) of this title. This allotment may be made in accordance with the criteria prescribed in subsection (a) of this section, or it may be made in accordance with other criteria which he determines will assure an equitable distribution of funds reflecting the relative incidence in each State of the needs or problems at which the program is directed, except that in no event may more than 12½ per centum of the funds for any one program be used in any one State.

(c) Unless otherwise provided in this part, financial assistance extended to a community action agency or other agency pursuant to sections 2808 and 2809(a) of this title, for the period ending June 30, 1967, shall not exceed 90 per centum of the approved cost of the assisted programs or activities, and thereafter shall not exceed 80 per centum of such costs. The Director may, however, approve assistance in excess of such percentages if he determines, in accordance with regulations establishing objective criteria, that such action is required in furtherance of the purposes of this subchapter. Non-Federal contributions may be in cash or in kind, fairly evaluated, including but not limited to plant equipment, or services. If in any fiscal year, a community provides non-Federal contributions under this subchapter exceeding its requirements under this section, such excess may be used to meet its requirements for such contributions under section 2748 of this title.

(d) No program shall be approved for assistance under sections 2808 and 2809(a) of this title unless the Director satisfies himself (1) that the services to be provided under such program will be in addition to, and not in substitution for, services previously provided without Federal assistance, and (2) that funds or other resources devoted to programs designed to meet the needs of the poor within the community will not be diminished in order to provide any contributions required under subsection (c) of this section. The requirement imposed by the preceding sentence shall be subject to such regulations as the Director may adopt and promulgate establishing objective criteria for determinations covering situations where a strict application of that requirement would result in unnecessary hardship or otherwise be inconsistent with the purposes sought to be achieved. (Pub. L. 88-452, title II, § 225, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 702.)

PART C.—SUPPLEMENTAL PROGRAMS AND ACTIVITIES

§ 2823. Technical assistance and training.

The Director may provide, directly or through grants or other arrangements, (1) technical assistance to communities in developing, conducting, and administering programs under this subchapter, and (2) training for specialized or other personnel which is needed in connection with those programs or which otherwise pertains to the purposes of this subchapter. Upon request of an agency receiving financial assistance under this subchapter, the Director may make special assignments of personnel to the agency to assist and advise it in the performance of functions related to the assisted activity; but no such special assignment shall be for a period of more than two years in the case of any agency. (Pub. L. 88-452, title II, § 230, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 703.)

§ 2824. State agency assistance.

(a) The Director may provide financial assistance to State agencies designated in accordance with State law, to enable those agencies—

(1) to provide technical assistance to communities and local agencies in developing and carrying out programs under this subchapter;

(2) to assist in coordinating State activities related to this subchapter;

(3) to advise and assist the Director in developing procedures and programs to promote the participation of States and State agencies in programs under this subchapter; and

(4) to advise and assist the Director, the Economic Opportunity Council established by section 2973 of this title, and the heads of other Federal agencies, in identifying problems posed by Federal statutory or administrative requirements that operate to impede State level coordination of programs related to this subchapter, and in developing methods of recommendations for overcoming those problems.

(b) In any grants or contracts with State agencies, the Director shall give preference to programs or activities which are administered or coordinated by the agencies designated pursuant to subsection (a) of this section, or which have been developed and will be carried on with the assistance of those agencies.

(c) In order to promote coordination in the use of funds under this chapter and funds provided or

granted by State agencies, the Director may enter into agreements with States or State agencies pursuant to which they will act as agents of the United States for purposes of providing financial assistance to community action agencies or other local agencies in connection with specific projects or programs involving the common or joint use of State funds and funds under this subchapter. (Pub. L. 88-452, title II, § 231, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 703.)

§ 2825. Research and pilot programs.

(a) *Development of new approaches and methods.*

The Director may contract or provide financial assistance for pilot or demonstration projects conducted by public or private agencies which are designed to test or assist in the development of new approaches or methods that will aid in overcoming special problems or otherwise in furthering the purposes of this subchapter. He may also contract or provide financial assistance for research pertaining to the purposes of this subchapter.

(b) *Development of overall plan.*

The Director shall establish an overall plan to govern the approval of pilot or demonstration projects and the use of all research authority under this subchapter. The plan shall set forth specific objectives to be achieved and priorities among such objectives. In formulating the plan, the Director shall consult with other Federal agencies for the purpose of minimizing duplication among similar activities or projects and determining whether the findings resulting from any research or pilot projects may be incorporated into one or more programs for which those agencies are responsible. As part of the annual report required by section 2948 of this title, or in a separate annual report, the Director shall submit a description for each fiscal year of the current plan required by this section, of activities subject to the plan, and of the findings derived from those activities, together with a statement indicating the time and, to the extent feasible, the manner in which the benefits of those activities and findings are expected to be realized.

(c) *Limitation and allocation of funds.*

Not more than 15 per centum of the sums appropriated or allocated in any fiscal year for this subchapter shall be used for the purposes of this section. One-third of the sums so appropriated or allocated shall be available only for projects authorized under subsection (f) of this section.

(d) *Approval of project by local government or community action agency.*

No pilot or demonstration project under this section shall be commenced in any city, county, or other major political subdivision, unless a plan setting forth such proposed pilot or demonstration project has been submitted to the appropriate community action agency, or, if there is no such agency, to the local governing officials of the political subdivision, and such plan has not been disapproved by the community action agency or governing body, as the case may be, within thirty days of such submission, or, if so disapproved, has been reconsidered by the Director and found by him to be fully consistent with the provisions and in furtherance of the purposes of this subchapter.

(e) *Particular pilot projects.*

The Director shall develop and carry out pilot projects which (1) aid elderly persons to achieve greater self-sufficiency, (2) focus upon the prob-

lems of rural poverty, (3) are designed to develop new techniques and community-based efforts to prevent narcotics addiction or to rehabilitate narcotic addicts, or (4) are designed to encourage the participation of private organizations, other than nonprofit organizations, in programs under this subchapter.

(f) *Migration from rural to urban areas.*

The Director shall conduct, either directly or through grants or other arrangements, research and pilot projects designed to assure a more effective use of human and natural resources of rural America and to slow the migration from rural areas due to lack of economic opportunity, thereby reducing population pressures in urban centers. Such projects may be operated jointly or in cooperation with other federally assisted programs, particularly programs authorized under the Public Works and Economic Development Act of 1965, in the area to be served by the project. (Pub. L. 88-452, title II, § 232, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 703.)

§ 2826. Evaluation; reports; independent studies.

(a) The Director shall provide for the continuing evaluation of programs under this subchapter, including their effectiveness in achieving stated goals, their impact on related programs, and their structure and mechanisms for the delivery of services and including, where appropriate, comparisons with proper control groups composed of persons who have not participated in such programs. He may, for this purpose, contract for independent evaluations of those programs or individual projects. He may require community action agencies to provide for independent evaluations, and where appropriate, he may also require a community action agency to establish an independent group or committee to provide evaluation and advisory services on either a short-term or continuing basis. He shall consult with other Federal agencies, or where appropriate with State agencies, in order to provide wherever feasible for jointly sponsored objective evaluation studies on a National or State basis. He shall also arrange for obtaining the opinions of participants about the strengths and weaknesses of the programs. The reports of studies undertaken under this section, together with the comments of the Director and other agencies, if any, shall be public records, and the results shall be summarized in the report required by section 2948 of this title.

(b) The Director shall develop and publish standards for evaluation of program effectiveness in achieving the objectives of this subchapter. Such standards shall be considered in deciding whether to renew or supplemental¹ financial assistance provided by sections 2808, 2809, 2823, and 2824 of this title.

(c) The Director shall provide by contract for the conduct of an independent study and evaluation of the action taken under sections 2790 and 2791 of this title and the effects thereof, with particular reference to (1) the exercise of their authorities under the provisions of subchapter II of this chapter by States and political subdivisions, (2) the participation of residents of the areas and members of the groups served, public officials and others and (3) the administrative and program advantages and disadvantages, if any, encountered or foreseen in implementing such sections. He shall transmit such study and evaluation to

the Congress before April 1, 1969. (Pub. L. 88-452, title II, § 233, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 704.)

PART D.—GENERAL AND TECHNICAL PROVISIONS

§ 2832. Assistant Directors for Community Action.

The Director shall appoint two assistant directors for the purpose of assisting the Director in the administration of the provisions of this subchapter. One such assistant director, to be known as the Assistant Director for Community Action in Rural Areas, shall be responsible for assuring that funds allotted for assistance to programs or projects designed to assist the rural poor are so expended. The other assistant director, to be known as the Assistant Director for Community Action in Urban Areas, shall be responsible for assuring that funds allotted for assistance to programs or projects designed to assist the urban poor are so expended. Each assistant director shall have such additional responsibilities consistent with the foregoing responsibilities as the Director may hereafter assign. (Pub. L. 88-452, title II, § 240, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 705.)

§ 2833. Rural areas.

(a) *Steps to extend benefits to rural residents.*

In exercising authority under this subchapter, the Director shall take necessary steps to further the extension of benefits to residents of rural areas, consistent with the extent and severity of poverty among rural residents, and to encourage high levels of managerial and technical competence in programs undertaken in rural areas. These steps shall include, to the maximum extent practicable, (1) the development under section 2809(a) of this title of programs particularly responsive to special needs of rural areas; (2) the establishment, pursuant to section 2825 of this title, of a program of research and pilot project activities specifically focused upon the problems of rural poverty; (3) the provision of technical assistance so as to afford a priority to agencies in rural communities and to aid those agencies, through such arrangements as may be appropriate, in securing assistance under Federal programs which are related to this subchapter but which are not generally utilized in rural areas; and (4) the development of special or simplified procedures, forms, guidelines, model components, and model programs for use in rural areas.

(b) *Criteria for equitable distribution of assistance between urban and rural areas.*

The Director shall establish criteria designed to achieve an equitable distribution of assistance under this subchapter within the States between urban and rural areas. In developing such criteria, he shall consider the relative number in the States or areas therein of: (1) low-income families, particularly those with children; (2) unemployed persons; (3) persons receiving cash or other assistance on a needs basis from public agencies or private organizations; (4) school dropouts; (5) adults with less than an eighth-grade education; (6) persons rejected for military service; and (7) poor persons living in urban places compared to the number living in rural places as determined by the latest reports of the Bureau of the Census.

(c) *Assistance to public and private nonprofit agencies.*

Notwithstanding any other provision of this

¹ So in original.

subchapter, the Director is authorized to provide financial assistance in rural areas to public or private nonprofit agencies for any project for which assistance to community action agencies is authorized, if he determines that it is not feasible to establish a community action agency within a reasonable period of time. The assistance so granted shall be subject to such conditions as the Director deems appropriate to promote adherence to the purposes of this subchapter and the early establishment of a community action agency in the area.

(d) *Urban-rural cooperation.*

The Director shall encourage the development of programs for the interchange of personnel, for the undertaking of common or related projects, and other methods of cooperation between urban and rural communities, with particular emphasis on fostering cooperation in situations where it may contribute to new employment opportunities, and between larger urban communities with concentrations of low-income persons and families and rural areas in which substantial numbers of those persons and families have recently resided. (Pub. L. 88-452, title II, § 241, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 705.)

§ 2834. Submission of plans to governors.

In carrying out the provisions of this subchapter, no contract, agreement, grant, loan, or other assistance shall be made with, or provided to, any State or local public agency or any private institution or organization for the purpose of carrying out any program, project, or other activity within a State unless a plan setting forth such proposed contract, agreement, grant, loan, or other assistance has been submitted to the Governor of the State, and such plan has not been disapproved by the Governor within thirty days of such submission, or, if so disapproved, has been reconsidered by the Director and found by him to be fully consistent with the provisions and in furtherance of the purposes of this subchapter. Funds to cover the costs of the proposed contract, agreement, grant, loan, or other assistance shall be obligated from the appropriation which is current at the time the plan is submitted to the Governor. This section shall not, however, apply to contracts, agreements, grants, loans, or other assistance to any institution of higher education in existence on the date of the approval of this chapter. (Pub. L. 88-452, title II, § 242, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 706, and amended Pub. L. 91-177, title I, § 107(a), Dec. 30, 1969, 83 Stat. 830.)

§ 2835. Fiscal responsibility and audit.

(a) *Accounting system.*

No funds shall be released to any agency receiving financial assistance under this subchapter until it has submitted to the Director a statement certifying that the assisted agency and its delegate agencies (or subcontractors for performance of any major portion of the assisted program) have established an accounting system with internal controls adequate to safeguard their assets, check the accuracy and reliability of the accounting data, promote operating efficiency and encourage compliance with prescribed management policies and such additional fiscal responsibility and accounting requirements as the Director may establish. The statement may be furnished by a certified public accountant, a duly licensed public accountant or, in the case of a public agency, the appropriate public financial officer who accepts

responsibility for providing required financial services to that agency.

(b) *Preliminary audit survey.*

Within three months after the effective date of a grant to or contract of assistance with an organization or agency, the Director shall make or cause to be made a preliminary audit survey to review and evaluate the adequacy of the accounting system and internal controls established thereunder to meet the standards set forth in the statement referred to in subsection (a) of this section. Promptly after the completion of the survey, the Director shall determine on the basis of findings and conclusions resulting from the survey whether the accounting systems and internal controls meet those standards and, if not, whether to suspend the grant or contract. In the event of suspension, the assisted agency shall be given not more than six months within which to establish the necessary systems and controls, and, in the event of failure to do so within such time period, the assistance shall be terminated by the Director.

(c) *Annual audit.*

At least once annually the Director shall make or cause to be made an audit of each grant or contract of assistance under this subchapter. Promptly after the completion of such audit, he shall determine on the basis of resulting findings and conclusions whether any of the costs of expenditures incurred shall be disallowed. In the event of disallowance, the Director may seek recovery of the sums involved by appropriate means, including court action or a commensurate increase in the required non-Federal share of the costs of any grant or contract with the same agency or organization which is then in effect or which is entered into within twelve months after the date of disallowance.

(d) *Other requirements and actions by Director.*

The Director shall establish such other requirements and take such actions as he may deem necessary and appropriate to carry out the provisions of this section and to insure fiscal responsibility and accountability, and the effective and efficient handling of funds in connection with programs assisted under this subchapter. These requirements and actions shall include (1) necessary action to assure that the rate of expenditure of any agency receiving financial assistance does not exceed the rate contemplated under its approved program; and (2) appropriate requirements to promote the continuity and coordination of all projects or components of programs receiving financial assistance under this subchapter, including provision for the periodic reprogramming and supplementation of assistance previously provided. (Pub. L. 88-452, title II, § 243, as added Pub. L. 90-222, title I, § 104, Dec. 23, 1967, 81 Stat. 706.)

§ 2836. Special limitations.

The following special limitations shall apply, as indicated, to programs under this subchapter.

(1) Financial assistance under this subchapter may include funds to provide a reasonable allowance for attendance at meetings of any community action agency governing board, neighborhood council or committee, as appropriate to assure and encourage the maximum feasible participation of members of groups and residents of areas served in accordance with the purposes of this subchapter, and to provide reimbursement of actual expenses connected with those meetings; but those funds (or matching non-Federal funds) may not be used to pay allowances in the case of any individual who is

a Federal, State, or local government employee, or an employee of a community action agency, or for payment of an allowance to any individual for attendance at more than two meetings a month.

(2) The Director shall issue necessary rules or regulations to assure that no employee engaged in carrying out community action program activities receiving financial assistance under this subchapter is compensated from funds so provided at a rate in excess of \$15,000 per annum, and that any amount paid to such an employee at a rate in excess of \$15,000 per annum shall not be considered in determining whether the non-Federal contributions requirements of section 2812(c) of this title have been complied with; the Director may, however, provide in those rules or regulations for exceptions covering cases (particularly in large metropolitan areas) where, because of the need for specialized or professional skills or prevailing local salary levels, application of the foregoing restriction would greatly impair program effectiveness or otherwise be inconsistent with the purposes sought to be achieved.

(3) No officer or employee of the Office of Economic Opportunity shall serve as member of a board, council, or committee of any agency serving as grantee, contractor, or delegate agency in connection with a program receiving financial assistance under this subchapter; but this shall not prohibit an officer or employee from serving on a board, council, or committee which does not have any authority or powers in connection with a program assisted under this subchapter.

(4) In granting financial assistance for projects or activities in the field of family planning, the Director shall assure that family planning services, including the dissemination of family planning information and medical assistance and supplies, are made available to all low-income individuals who meet the criteria for eligibility for assistance under this subchapter which have been established by the assisted agency and who desire such information, assistance, or supplies. The Director shall require, in connection with any such financial assistance, that—

(A) no individual will be provided with any information, medical supervision, or supplies which that individual indicates are inconsistent with his or her moral, philosophical, or religious beliefs; and

(5) No financial assistance shall be extended under this subchapter to provide general aid to elementary or secondary education in any school or school system; but this shall not prohibit the provision of special, remedial, and other noncurricular educational assistance.

(6) In extending assistance under this subchapter the Director shall give special consideration to programs which make maximum use of existing schools, community centers, settlement houses, and other facilities during times they are not in use for their primary purpose.

(7) No financial assistance shall be extended under this subchapter in any case in which the

Director determines that the costs of developing and administering all of the programs assisted under this subchapter carried on by or under the supervision of any community action agency exceed 15 per centum of the total costs, including non-Federal contributions to such costs, of such programs. The Director, after consultation with the Director of the Office of Management and Budget, shall establish by regulation, criteria for determining (i) the costs of developing and administering such programs, and (ii) the total costs of such programs. In any case in which the Director determines that the cost of administering such total costs but is, in his judgment, excessive, he shall forthwith require such community action agency to take such steps prescribed by him as will eliminate such excessive administrative cost, including the sharing by one or more such community action agencies of a common director and other administrative personnel. The Director may waive the limitation prescribed by this paragraph for specific periods of time not to exceed six months whenever he determines that such a waiver is necessary in order to carry out the purposes of this subchapter.

This subchapter provides for a program of full-time volunteer service, for programs of part-time or short-term community volunteer service, and for special volunteer programs, together with other powers and responsibilities designed to assist in the development and coordination of volunteer programs. Its purpose is to strengthen and supplement efforts to eliminate poverty by encouraging and enabling persons from all walks of life and all age groups, including elderly and retired Americans, to perform meaningful and constructive service as volunteers in part-time or short-term programs in their home or nearby communities, and as full-time volunteers serving in rural areas and urban communities, on Indian reservations, among migrant workers, in Job Corps centers, and in other agencies, institutions, and situations where the application of human talent and dedication may help the poor to overcome the handicaps of poverty and to secure and exploit opportunities for self-advancement. The assignment of such a volunteer in any State shall be terminated by the Director when so requested by the Governor of such State not later than thirty days or at a time thereafter agreed upon by the Governor and Director after such requests has been made by the Governor to the Director. (Pub. L. 88-452, title VIII, § 810, as added Pub. L. 90-222, title I, § 110, Dec. 23, 1967, 81 Stat. 722.)

(a) *Commitment to full-time service.*

Volunteers under this part shall be required to

make a full-time personal commitment to combating poverty. To the extent practicable, this shall include a commitment to live among and at the economic level of the people served, and to remain available for service without regard to regular working hours, at all times during their term of service, except for authorized periods of leave.

(b) *One-year enrollment; shorter enrollment for volunteer associates.*

Volunteers under this part shall be enrolled for one-year periods of service, excluding time devoted to training. The Director may, however, allow persons who are unable to make a full one-year commitment to enroll as volunteer associates for periods of service of not less than two months where he determines that this more limited service will effectively promote the purposes of this subchapter.

(c) *Oath or affirmation.*

All volunteers under this part shall take and subscribe to an oath or affirmation in the form prescribed by section 2716 of this title, and the provisions of section 1001 of Title 18, shall be applicable with respect to that oath or affirmation. (Pub. L. 88-452, title VIII, § 811, as added Pub. L. 90-222, title I, § 110, Dec. 23, 1967, 81 Stat. 723.)

The Director may also provide volunteers such living, travel (including travel to and from the place of training), and leave allowances, and such housing, supplies, equipment, subsistence, clothing, health and dental care, or such other support, as he may deem necessary or appropriate for their needs.

(b) *Payment upon completion of term; advancement of accrued stipend.*

Stipends shall be payable only upon completion of a term of service; except that in extraordinary circumstances the Director may from time to time advance accrued stipend, or any portion thereof, to or on behalf of a volunteer. In the event of the death of a volunteer during service, the amount of any unpaid stipend shall be paid in accordance with the provisions of section 5582 of Title 5.

(c) *Counseling.*

The Director may provide or arrange for educational and vocational counseling of volunteers and recent volunteers to encourage them to use the skills and experience which they have derived from their training and service in the national interest, and particularly in combating poverty as members of the helping professions. (Pub. L. 88-452, title VIII, § 812, as added Pub. L. 90-222, title I, § 110, Dec. 23, 1967, 81 Stat. 723.)

in a direct and personal way, on a part-time basis or for shorter periods of service than are required for enrollment under section 2992 of this title, and in their home or nearby communities, in volunteer activities contributing to the elimination of poverty. Pursuant to appropriate plans, agreements, or arrangements the Director may provide financial, technical, or other assistance needed to carry on projects that are undertaken in connection with these programs. These projects may include, without limitation, activities designed (1) to encourage greater numbers of persons to participate, as volunteers, in local programs and projects assisted under this chapter, with particular emphasis upon programs designed to aid youth or promote child development; (2) to encourage persons with needed managerial, professional, or technical skills to contribute those skills to programs for the development or betterment of urban and rural neighborhoods or areas having especially large concentrations or proportions of the poor, with particular emphasis upon helping residents of those neighborhoods or areas to develop the competence necessary to take advantage of public and private resources which would not otherwise be available or used for those programs; and (3) to assist existing national and local agencies relying upon or in need of volunteers to obtain volunteer services more readily, or to provide specialized short-term training, with particular emphasis on agencies serving the most seriously disadvantaged, operating in areas of the most concentrated poverty, or having similar critical needs.

(b) *Support and allowances.*

Persons serving as volunteers under this section shall receive no living allowance or stipend and only such other support or allowances as the Director determines, pursuant to regulations, are required because of unusual or special circumstances affecting the project.

(c) *Allowance of service as non-Federal contribution.*

The services of any person, if otherwise allowable as a non-Federal contribution toward the cost of any program or project assisted under this chapter or any other Federal Act, shall not be disallowed merely by reason of actions of the Director under this section in providing for or assisting in the recruitment, referral, or pre-service training of such person. (Pub. L. 88-452, title VIII, § 820, as added Pub. L. 90-222, title I, § 110, Dec. 23, 1967, 81 Stat. 724.)

Not to exceed 10 per centum of the sums appropriated or allocated from any appropriation to carry out this subchapter for any fiscal year may be used for programs under this section. (Pub. L. 88-452, title VIII, § 821, as added Pub. L. 90-222, title I, § 110, Dec. 23, 1967, 81 Stat. 724.)

Assignment of members of the Teacher Corps pursuant to this section shall be without regard to the provisions of section 1103(c) of Title 20. (Pub. L. 88-452, title VIII, § 822, as added Pub. L. 90-222, title I, § 110, Dec. 23, 1967, 81 Stat. 724.)

§ 3101. Congressional declaration of purpose.

The purpose of this chapter is to assist and encourage the communities of the Nation fully to meet the needs of their citizens by making it possible, with Federal grant assistance, for their governmental bodies (1) to construct adequate basic water and sewer facilities needed to promote the efficient and orderly growth and development of our communities, (2) to construct neighborhood facilities needed to enable them to carry on programs of necessary social services, and (3) to acquire, in a planned and orderly fashion, land to be utilized in the future for public purposes. (Pub. L. 89-117, title VII, § 701, Aug. 10, 1965, 79 Stat. 489; Pub. L. 90-448, title VI, § 603(a), Aug. 1, 1968, 82 Stat. 533.)

§ 3102. Grants for basic water and sewer facilities.

(a) *Authority to make grants for specific projects.*

The Secretary of Housing and Urban Development (hereinafter in this chapter referred to as the "Secretary") is authorized to make grants to local public bodies and agencies to finance specific projects for basic public water facilities (including works for the storage, treatment, purification, and distribution of water), and for basic public sewer facilities (other than "treatment works" as defined in the Federal Water Pollution Control Act): *Provided*, That no grant shall be made under this section for any sewer facilities unless the Administrator of the Environmental Protection Agency certifies to the Secretary that any waste material carried by such facilities will be adequately treated before it is discharged into any public waterway so as to meet applicable Federal, State, interstate, or local water quality standards.

(b) *Maximum amount of grants.*

The amount of any grant made under the authority of this section shall not exceed 50 per centum of the development cost of the project: *Provided*, That in the case of a community having

a population of less than ten thousand, according to the most recent decennial census, which is situated within a metropolitan area, the Secretary may increase the amount of a grant for a basic public water or sewer facility assisted under this section to not more than 90 per centum of the development cost of such facility, if the community is unable to finance the construction of such facility without the increased grant authorized under this subsection, and if in such community (1) there does not exist a public or other adequate water or sewer facility which serves a substantial portion of the inhabitants of the community, and (2) the rate of unemployment is, and has been continuously for the preceding calendar year, 100 per centum above the national average: *And provided further*, That the limitations and restrictions contained in subsection (c) of this section shall not be applicable to any community applying for an increased grant under this subsection.

(c) *Project requirements; need for facilities; growth needs of area; coordination of area-wide development.*

No grant shall be made under this section in connection with any project unless the Secretary determines that the project is necessary to provide adequate water or sewer facilities for, and will contribute to the improvement of the health or living standards of, the people in the community to be served, and that the project is (1) designed so that an adequate capacity will be available to serve the reasonably foreseeable growth needs of the area; (2) consistent with a program meeting criteria, established by the Secretary, for a unified or officially coordinated area-wide water or sewer facilities system as part of the comprehensively planned development of the area, except that prior to October 1, 1971, grants may, in the discretion of the Secretary, be made under this section when such a program for an area-wide water and sewer facilities system is under active preparation, although not yet completed, if the facility or facilities for which assistance is sought can reasonably be expected to be required as a part of such program, and there is urgent need for the facility or facilities; and (3) necessary to orderly community development.

(d) *Job opportunities for unemployed or underemployed persons.*

In the administration of this section the Secretary shall require that, to the greatest extent practicable, new job opportunities be provided for unemployed or underemployed persons in connection with projects the financing of which is assisted under this section. (Pub. L. 89-117, title VII, § 702, Aug. 10, 1965, 79 Stat. 490; 1966 Reorg. Plan No. 2, eff. May 10, 1966, 31 F.R. 6857, 80 Stat. 1608; Pub. L. 90-19, § 22(b), (g), May 25, 1967, 81 Stat. 26, 27; Pub. L. 90-448, title VI, § 604, Aug. 1, 1968, 82 Stat. 534; Pub. L. 91-152, title III, § 305(a), Dec. 24, 1969, 83 Stat. 391; Pub. L. 91-431, § 3(c), Oct. 6, 1970, 84 Stat. 886; 1970 Reorg. Plan No. 3, § 2(a)(1), eff. Dec. 2, 1970, 35 F.R. 15623, 84 Stat. —.)

§ 3103. Grants for neighborhood facilities.

(a) *Authority to make grants for specific projects; qualifications of approved nonprofit organizations.*

In accordance with the provisions of this section, the Secretary is authorized to make grants to any local public body or agency to assist in financing specific projects for neighborhood facilities. Any such project may be undertaken by such body or agency directly or through a nonprofit organization approved by it: *Provided*, That no

grant shall be provided under this section for any project to be undertaken through a nonprofit organization unless the Secretary determines (1) that such organization has or will have the legal, financial, and technical capacity to carry out the project, and (2) that the public body or agency to which the grant is made will have satisfactory continuing control over the use of the proposed facilities.

(b) *Maximum amount of grants.*

The amount of any grant made under the authority of this section shall not exceed 66⅔ per centum of the development cost of the project for which the grant is made or 75 per centum of such cost in the case of a project located in an area which at the time the grant is made is designated as a redevelopment area under the Area Redevelopment Act or any Act supplementary thereto).

(c) *Project requirements; need for facilities; comprehensive planning; accessibility to low- or moderate-income residents.*

No grant shall be made under this section for any project unless the Secretary determines that the project will provide a neighborhood facility which is (1) necessary for carrying out a program of health, recreational, social, or similar community service (including a community action program approved under subchapter II of chapter 34 of this title) in the area, (2) consistent with comprehensive planning for the development of the community, and (3) so located as to be available for use by a significant portion (or number in the case of large urban places) of the area's low- or moderate-income residents.

(d) *Conversion of facility to other uses.*

For a period of twenty years after a grant has been made under this section for a neighborhood facility, such facility shall not, without the approval of the Secretary, be converted to uses other than those proposed by the applicant in its application for a grant. The Secretary shall not approve any conversion in the use of such a neighborhood facility during such twenty-year period unless he finds that such conversion is in accordance with the then applicable program of health, recreational, social, or similar community services in the area and consistent with comprehensive planning for the development of the community in which the facility is located. In approving any such conversion, the Secretary may impose such additional conditions and requirements as he deems necessary.

(e) *Priority of projects designed primarily to benefit low-income families or further objectives of community action programs.*

The Secretary shall give priority to applications for projects designed primarily to benefit members of low-income families or otherwise substantially further the objectives of a community action program approved under subchapter II of chapter 34 of this title. (Pub. L. 89-117, title VII, § 703, Aug. 10, 1965, 79 Stat. 491; Pub. L. 90-19, § 22(b), May 25, 1967, 81 Stat. 26.)

§ 3104. Advance acquisition of land for public purposes.

(a) *Authority to make grants.*

In order to encourage and assist the timely acquisition of land planned to be utilized in the future for public purposes, the Secretary is authorized to make grants to States and local public bodies and agencies to assist in financing the acquisition of a fee simple estate or other interest in such land.

(b) *Maximum amount of grants.*

The amount of any grant made under this section shall not exceed the aggregate amount of reasonable interest charges on the loans or other financial obligations incurred to finance the acquisition of such land for a period not in excess of the lesser of (1) five years from the date of acquisition of such land or (2) the period of time between the date on which the land was acquired and the date its use began for the purpose for which it was acquired: *Provided*, That where all or any portion of the cost of such land is not financed through borrowings, the amount of the grant shall be computed on the basis of the aggregate amount of reasonable interest charges that the Secretary determines would have been required.

(c) *Utilization of land for public purpose within reasonable period of time.*

No grant shall be made under this section unless the Secretary determines that the land will be utilized for a public purpose within a reasonable period of time and that such utilization will contribute to economy, efficiency, and the comprehensively planned development of the area. The Secretary shall in all cases require that land acquired with the assistance of a grant under this section be utilized for a public purpose within five years after the date on which a contract to make such grant is entered into, unless the Secretary (1) determines that due to unusual circumstances a longer period of time is necessary and in the public interest, and (2) reports such determination promptly to the Committees on Banking and Currency of the Senate and House of Representatives.

(d) *Diversion of land; repayment; interim use.*

No land acquired with assistance under this section shall, without approval of the Secretary, be diverted from the purpose originally approved. The Secretary shall approve no such diversion unless he finds that the diversion is in accord with the then applicable comprehensive plan for the area. In cases of a diversion of land to other than a public purpose, the Secretary may require repayment of the grant, or substitution of land of approximately equal fair market value, whichever he deems appropriate. An interim use of the land for a public or private purpose in accordance with standards prescribed by the Secretary, or approved by him, shall not constitute a diversion within the meaning of this subsection.

(e) *Eligibility for other Federal loans or grant programs.*

Notwithstanding any other provision of law, no project for which land is acquired with assistance under this section shall, solely as a result of such advance acquisition, be considered ineligible for the purpose of any other Federal loan or grant program, and the amount of the purchase price paid for the land by the recipient of a grant under this section may be considered an eligible cost for the purpose of such other Federal loan or grant program. (Pub. L. 89-117, title VII, § 704, Aug. 10, 1965, 79 Stat. 491; Pub. L. 90-19, § 22(b), May 25, 1967, 81 Stat. 26; Pub. L. 90-448, title VI, § 603(b), Aug. 1, 1968, 82 Stat. 533.)

§ 3105. Powers and duties of Secretary.

(a) In the performance of, and with respect to, the functions, powers, and duties vested in him by this chapter, the Secretary shall (in addition to any authority otherwise vested in him) have the functions, powers, and duties set forth in section 1749a of Title 12, except subsections (a), (c)(2), and (f) thereof.

(b) The Secretary is authorized, notwithstanding the provisions of section 529 of Title 31, to make advance or progress payments on account of any grant made pursuant to this chapter. No part of any grant authorized to be made by the provisions of this chapter shall be used for the payment of ordinary governmental operating expenses. (Pub. L. 89-117, title VII, § 705, Aug. 10, 1965, 79 Stat. 492; Pub. L. 90-19, § 22(b), May 25, 1967, 81 Stat. 26.)

No such project shall be approved without first obtaining adequate assurance that these labor standards will be maintained upon the construction work. CHAPTER 38.—PUBLIC WORKS AND ECONOMIC DEVELOPMENT

§ 3121. Congressional findings and statement of purpose.

The Congress declares that the maintenance of the national economy at a high level is vital to the best interests of the United States, but that some of our regions, counties, and communities are suffering substantial and persistent unemployment and underemployment; that such unemployment and underemployment cause hardship to many individuals and their families, and waste invaluable human resources; that to overcome this problem the Federal Government, in cooperation with the States, should help areas and regions of substantial and persistent unemployment and underemployment to take effective steps in planning and financing their public works and economic development; that Federal financial assistance, including grants for public works and development facilities to communities, industries, enterprises, and individuals in areas needing development should enable such areas to help themselves achieve lasting improvement and enhance the domestic prosperity by the establishment of stable and diversified local economies and improved local conditions, provided that such assistance is preceded by and consistent with sound, long-range economic planning; and that under the provisions of this chapter new employment opportunities should be created by developing and expanding new and existing public works and other facilities and resources rather than by merely transferring jobs from one area of the United States to another. (Pub. L. 89-136, § 2, Aug. 26, 1965, 79 Stat. 552.)

§ 3122. Rural development.

(a) *Congressional commitment.*

The Congress commits itself to a sound balance between rural and urban America. The Congress considers this balance so essential to the peace, prosperity, and welfare of all our citizens that the highest priority must be given to the revitalization and development of rural areas.

(b) *Location of federal facilities; annual report to Congress.*

Congress hereby directs the heads of all executive departments and agencies of the Government to establish and maintain, insofar as practicable, departmental policies and procedures with respect to the location of new offices and other facilities in areas or communities of lower population density in preference to areas or communities of high population densities. The President is hereby requested to submit to the Congress not later than September 1 of each fiscal year a report

reflecting the efforts during the immediately preceding fiscal year of all executive departments and agencies in carrying out the provisions of this section, citing the location of all new facilities, and including a statement covering the basic reasons for the selection of all new locations.

(c) *Planning assistance; annual report to Congress.*

The Secretary of the Department of Housing and Urban Development and the Secretary of Agriculture shall submit to the Congress a joint progress report as to their efforts during the immediately preceding fiscal year to provide assistance to States planning for the development of rural multicounty areas not included in economically depressed areas under authority of the Housing and Urban Development Act of 1968. The first such annual report shall be submitted not later than December 1, 1970, and shall cover the period beginning August 1, 1968, the date of enactment of the Housing and Urban Development Act of 1968, and ending June 30, 1970.

(d) *Information and technical assistance; annual report to Congress.*

The Secretary of Agriculture shall submit to the Congress a report not later than September 1 of each fiscal year reflecting the efforts of the Department of Agriculture to provide information and technical assistance to small communities and less populated areas in regard to rural redevelopment during the immediately preceding fiscal year. The first such annual report shall be submitted not later than December 1, 1970, covering the period beginning July 1, 1969, and ending June 30, 1970. The Secretary shall include in such reports to what extent technical assistance has been provided through land-grant colleges and universities, through the Extension Service, and other programs of the Department of Agriculture.

(e) *Government services; annual report to Congress.*

The President shall submit to the Congress a report not later than September 1 of each fiscal year stating the availability of telephone, electrical, water, sewer, medical, educational, and other government or government assisted services to rural areas and outlining efforts of the executive branch to improve these services during the immediately preceding fiscal year. The President is requested to submit the first such annual report, covering the fiscal year ending June 30, 1970, on or before December 1, 1970.

(f) *Financial assistance; report to Congress by July 1, 1971.*

The President shall report to Congress on the possible utilization of the Farm Credit Administration and agencies in the Department of Agriculture to fulfill rural financial assistance requirements not filled by other agencies. The President is requested to submit the report requested by this section on or before July 1, 1971, together with such recommendations for legislation as he deems appropriate. (Pub. L. 91-524, title IX, § 901, Nov. 30, 1970, 84 Stat. 1383.)

Subchapter I.—Grants for Public Works and Development Facilities

§ 3131. Direct and supplementary grants.

(a) *Acquisition or development of public works and development facilities; required findings precedent to making of direct grants; supplementary grants to provide matching share funds.*

mentary grants to provide matching share funds.

Upon the application of any State, or political subdivision thereof, Indian tribe, or private or public nonprofit organization or association representing any redevelopment area or part thereof, the Secretary of Commerce (hereinafter referred to as the Secretary) is authorized—

(1) to make direct grants for the acquisition or development of land and improvements for public works, public service, or development facility usage, and the acquisition, construction, rehabilitation, alteration, expansion, or improvement of such facilities, including related machinery and equipment, within a redevelopment area, if he finds that—

(A) the project for which financial assistance is sought will directly or indirectly (i) tend to improve the opportunities, in the area where such project is or will be located, for the successful establishment or expansion of industrial or commercial plants or facilities, (ii) otherwise assist in the creation of additional long-term employment opportunities for such area, or (iii) primarily benefit the long-term unemployed and members of low-income families or otherwise substantially further the objectives of the Economic Opportunity Act of 1964;

(B) the project for which a grant is requested will fulfill a pressing need of the area, or part thereof, in which it is, or will be, located; and

(C) the area for which a project is to be undertaken has an approved overall economic development program as provided in section 3142 (b)(10) of this title and such project is consistent with such program;

(2) to make supplementary grants in order to enable the States and other entities within redevelopment areas to take maximum advantage of designated Federal grant-in-aid programs (as hereinafter defined), direct grants-in-aid authorized under this section, and Federal grant-in-aid programs authorized by the Watershed Protection and Flood Prevention Act (68 Stat. 666, as amended), and the eleven watersheds authorized by the Flood Control Act of December 22, 1944, as amended and supplemented (58 Stat. 887), for which they are eligible but for which, because of their economic situation, they cannot supply the required matching share.

(b) *Maximum proportion of direct grant funds to total project cost.*

Subject to subsection (c) hereof, the amount of any direct grant under this section for any project shall not exceed 50 per centum of the cost of such project.

(c) *Proportion of supplementary grant funds to total project cost; rules and regulations; maximum grants; required non-Federal share.*

The amount of any supplementary grant under this section for any project shall not exceed the applicable percentage established by regulations promulgated by the Secretary, but in no event shall the non-Federal share of the aggregate cost of any such project (including assumptions of debt) be less than 20 per centum of such cost, except that in the case of a grant to an Indian tribe, the Secretary may reduce the non-Federal share below such per centum or may waive the non-Federal share. Supplementary grants shall be made by the Secretary, in accordance with

such regulations as he shall prescribe, by increasing the amounts of direct grants authorized under this section or by the payment of funds appropriated under this chapter to the heads of the departments, agencies, and instrumentalities of the Federal Government responsible for the administration of the applicable Federal programs. Notwithstanding any requirement as to the amount or sources of non-Federal funds that may otherwise be applicable to the Federal program involved, funds provided under this subsection shall be used for the sole purpose of increasing the Federal contribution to specific projects in redevelopment areas under such programs above the fixed maximum portion of the cost of such project otherwise authorized by the applicable law. The term "designed Federal grant-in-aid programs," as used in this subsection, means such existing or future Federal grant-in-aid programs assisting in the construction or equipping of facilities as the Secretary may, in furtherance of the purposes of this chapter, designate as eligible for allocation of funds under this section. In determining the amount of any supplementary grant available to any project under this section, the Secretary shall take into consideration the relative needs of the area, the nature of the project to be assisted, and the amount of such fair user charges or other revenues as the project may reasonably be expected to generate in excess of those which would amortize the local share of initial costs and provide for its successful operation and maintenance (including depreciation).

(d) *Rules and regulations; consideration of unemployment and underemployment in determining rules.*

The Secretary shall prescribe rules, regulations, and procedures to carry out this section which will assure that adequate consideration is given to the relative needs of eligible areas. In prescribing such rules, regulations, and procedures the Secretary shall consider among other relevant factors (1) the severity of the rates of unemployment in the eligible areas and the duration of such unemployment and (2) the income levels of families and the extent of underemployment in eligible areas.

(e) *Competition with regulated public utilities.*

Except for projects specifically authorized by Congress, no financial assistance shall be extended under this section with respect to any public service or development facility which would compete with an existing privately owned public utility rendering a service to the public at rates or charges subject to regulation by a State or Federal regulatory body, unless the State or Federal regulatory body determines that in the area to be served by the facility for which the financial assistance is to be extended there is a need for an increase in such service (taking into consideration reasonably foreseeable future needs) which the existing public utility is not able to meet through its existing facilities or through an expansion which it agrees to undertake.

(f) *Review and comment upon projects by local governmental authorities.*

The Secretary shall prescribe regulations which will assure that appropriate local governmental authorities have been given a reasonable opportunity to review and comment upon proposed projects under this section. (Pub. L. 89-136, title I, § 101, Aug. 26, 1965, 79 Stat. 522; Pub. L. 91-123, title III, § 301(1), Nov. 25, 1969, 83 Stat. 219.)

§ 3132. Additional grants to areas of substantial unemployment during preceding calendar year; annual review of eligibility.

(a) In addition to the assistance otherwise authorized, the Secretary is authorized to make grants in accordance with the provisions of this subchapter to those areas which the Secretary of Labor determines, on the basis of average annual available unemployment statistics, were areas of substantial unemployment during the preceding calendar year.

(b) Areas designated under the authority of this section shall be subject to an annual review of eligibility in accordance with section 3162 of this title, and to all of the rules, regulations, and procedures applicable to redevelopment areas except as the Secretary may otherwise prescribe by regulation. (Pub. L. 89-136, title I, § 102, Aug. 26, 1965, 79 Stat. 554.)

§ 3133. Limitation of funds expended in any one State.

Not more than 15 per centum of the appropriations made pursuant to this subchapter may be expended in any one State. (Pub. L. 89-136, title I, § 103, Aug. 26, 1965, 79 Stat. 554.)

§ 3134. Ineligibility of Appalachian Region for projects.

No part of any appropriations made pursuant to this subchapter may be expended for any project in any area which is within the "Appalachian region" (as that term is defined in section 403 of the Appalachian Regional Development Act of 1965) which is approved for assistance under the Appalachian Regional Development Act of 1965. (Pub. L. 89-136, title I, § 104, Aug. 26, 1965, 79 Stat. 554.)

§ 3135. Authorization of appropriations.

There is hereby authorized to be appropriated to carry out this subchapter not to exceed \$500,000,000 for the fiscal year ending June 30, 1966, and for each fiscal year thereafter through the fiscal year ending June 30, 1971. (Pub. L. 89-136, title I, § 105, Aug. 26, 1965, 79 Stat. 544; Pub. L. 91-123, title III, § 301(2), Nov. 25, 1969, 83 Stat. 219; Pub. L. 91-304, § 1(a), July 6, 1970, 84 Stat. 375.)

Subchapter II.—Loans, Loan Guarantees, and Economic Development Revolving Fund

§ 3141. Public works and development facility loans.

(a) *Required findings precedent.*

Upon the application of any State, or political subdivision thereof, Indian tribe, or private or public nonprofit organization or association representing any redevelopment area or part thereof, the Secretary is authorized to purchase evidence of indebtedness and to make loans to assist in financing the purchase or development of land and improvements for public works, public service, or development facility usage, including public works, public service, and development facility usage, to be provided by agencies of the Federal Government pursuant to legislation requiring that non-Federal entities bear some part of the cost thereof, and the acquisition, construction, rehabilitation, alteration, expansion, or improvement of such facilities, including related machinery and equipment, within a redevelopment area, if he finds that—

(1) the project for which financial assistance is sought will directly or indirectly—

(A) tend to improve the opportunities, in the area where such project is or will be located, for the successful establishment or expansion of industrial or commercial plants or facilities,

(B) otherwise assist in the creation of additional long-term employment opportunities for such area, or

(C) primarily benefit the long-term unemployed and members of low-income families or otherwise substantially further the objectives of the Economic Opportunity Act of 1964;

(2) the funds requested for such project are not otherwise available from private lenders or from other Federal agencies on terms which in the opinion of the Secretary will permit the accomplishment of the project;

(3) the amount of the loan plus the amount of other available funds for such project are adequate to insure the completion thereof;

(4) there is a reasonable expectation of repayment; and

(5) such area has an approved overall economic development program as provided in section 3142(b)(10) of this title and the project for which financial assistance is sought is consistent with such program.

(b) *Loan terms; interest rates.*

Subject to section 3211(5) of this title, no loan, including renewals or extensions thereof, shall be made under this section for a period exceeding forty years, and no evidence of indebtedness maturing more than forty years from the date of purchase shall be purchased under this section. Such loans shall bear interest at a rate not less than a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, less not to exceed one-half of 1 per centum per annum.

(c) *Authorization of appropriations.*

There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of this section and section 3142 of this title: *Provided*, That annual appropriations for the purpose of purchasing evidences of indebtedness, making and participating in loans, and guaranteeing loans shall not exceed \$170,000,000, for the fiscal year ending June 30, 1966, and for each fiscal year thereafter through the fiscal year ending June 30, 1971.

(d) *Competition with regulated public utilities.*

Except for projects specifically authorized by Congress, no financial assistance shall be extended under this section with respect to any public service or development facility which would compete with an existing privately owned public utility rendering a service to the public at rates or charges subject to regulation by a State or Federal regulatory body, unless the State or Federal regulatory body determines that in the area to be served by the facility for which the financial assistance is to be extended there is a need for an increase in such service (taking into consideration reasonably foreseeable future needs) which the existing public utility is not able to meet through its existing facilities or through an expansion which it agrees to undertake.

(e) *Rules and regulations.*

The Secretary shall prescribe regulations which will assure that appropriate local governmental authorities have been given a reasonable opportunity to review and comment upon proposed projects under this section. (Pub. L. 89-136, title II, § 201, Aug. 26, 1965, 79 Stat. 554; Pub. L. 91-304, § 1(b), July 6, 1970, 84 Stat. 375.)

§ 3142. Business loans and loan guarantees.

(a) *Permissible guarantees; guarantee maximums.*

The Secretary is authorized (1) to purchase evidences of indebtedness and to make loans (which for purposes of this section shall include participations in loans) to aid in financing any project within a redevelopment area for the purchase or development of land and facilities (including machinery and equipment) for industrial or commercial usage, including the construction of new buildings, the rehabilitation of abandoned or unoccupied buildings, and the alteration, conversion, or enlargement of existing buildings; and (2) to guarantee loans for working capital made to private borrowers by private lending institutions in connection with projects in redevelopment areas assisted under subsection (a)(1) hereof, upon application of such institution and upon such terms and conditions as the Secretary may prescribe: *Provided, however*, That no such guarantee shall at any time exceed 90 per centum of the amount of the outstanding unpaid balance of such loan.

(b) *Terms and conditions.*

Financial assistance under this section shall be on such terms and conditions as the Secretary determines, subject, however, to the following restrictions and limitations.

(1) Such financial assistance shall not be extended to assist establishments relocating from one area to another or to assist subcontractors whose purpose is to divest, or whose economic success is dependent upon divesting, other contractors or subcontractors of contracts theretofore customarily performed by them: *Provided, however*, That such limitation shall not be construed to prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary of such entity if the Secretary finds that the establishment of such branch, affiliate, or subsidiary will not result in an increase in unemployment of the area of original location or in any other area where such entity conducts business operations, unless the Secretary has reason to believe that such branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where it conducts such operations.

(2) Such assistance shall be extended only to applicants, both private and public (including Indian tribes), which have been approved for such assistance by an agency or instrumentality of the State or political subdivision thereof in which the project to be financed is located, and which agency or instrumentality is directly concerned with problems of economic development in such State or subdivision.

(3) The project for which financial assistance is sought must be reasonably calculated to provide more than a temporary alleviation of unemployment or underemployment within the redevelopment area wherein it is or will be located.

(4) No loan or guarantee shall be extended hereunder unless the financial assistance applied for is not otherwise available from private lenders or from other Federal agencies on terms which in the opinion of the Secretary will permit the accomplishment of the project.

(5) The Secretary shall not make any loan without a participation unless he determines that the loan cannot be made on a participation basis.

(6) No evidences of indebtedness shall be purchased and no loans shall be made or guaranteed unless it is determined that there is reasonable assurance of repayment.

(7) Subject to section 3211(5) of this title, no loan, including renewals or extension thereof, may be made hereunder for a period exceeding twenty-five years and no evidences of indebtedness maturing more than twenty-five years from date of purchase may be purchased hereunder: *Provided*, That the foregoing restrictions on maturities shall not apply to securities or obligations received by the Secretary as a claimant in bankruptcy or equitable reorganization or as a creditor in other proceedings attendant upon insolvency of the obligor.

(8) Loans made and evidences of indebtedness purchased under this section shall bear interest at a rate not less than a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, plus additional charge, if any, toward covering other costs of the program as the Secretary may determine to be consistent with its purpose.

(9) Loan assistance shall not exceed 65 per centum of the aggregate cost to the applicant (excluding all other Federal aid in connection with the undertaking) of acquiring or developing land and facilities (including machinery and equipment), and of constructing, altering, converting, rehabilitating, or enlarging the building or buildings of the particular project, and shall, among others, be on the condition that—

(A) other funds are available in an amount which, together with the assistance provided hereunder, shall be sufficient to pay such aggregate cost;

(B) not less than 15 per centum of such aggregate cost be supplied as equity capital or as a loan repayable in no shorter period of time and at no faster an amortization rate than the Federal financial assistance extended under this section is being repaid, and if such a loan is secured, its security shall be subordinate and inferior to the lien or liens securing such Federal financial assistance: *Provided, however*, That, except in projects involving financial participation by Indian tribes, not less than 5 per centum of such aggregate cost shall be supplied by the State or any agency, instrumentality, or political subdivision thereof, or by a community or area organization which is nongovernmental in character, unless the Secretary shall determine in accordance with objective standards promulgated by regulation that all or part of such funds are not reasonably available to the project because of the economic distress of the area or for other good cause, in which case he may waive the requirement of this provision to the extent of such unavaila-

bility, and allow the funds required by this subsection to be supplied by the applicant or by such other non-Federal source as may reasonably be available to the project;

(C) to the extent the Secretary finds such action necessary to encourage financial participation in a particular project by other lenders and investors, and except as otherwise provided in subparagraph (B), any Federal financial assistance extended under this section may be repayable only after other loans made in connection with such project have been repaid in full, and the security, if any, for such Federal financial assistance may be subordinate and inferior to the lien or liens securing other loans made in connection with the same project.

(10) No such assistance shall be extended unless there shall be submitted to and approved by the Secretary an overall program for the economic development of the area and a finding by the State, or any agency, instrumentality, or local political subdivision thereof, that the project for which financial assistance is sought is consistent with such program: *Provided*, That nothing in this chapter shall authorize financial assistance for any project prohibited by laws of the State or local political subdivision in which the project would be located, nor prevent the Secretary from requiring such periodic revisions of previously approved overall economic development programs as he may deem appropriate.

(Pub. L. 89-136, title II, § 202, Aug. 26, 1965, 79 Stat. 556.)

§ 3142-1. Loans for additions or alterations to equipment, facilities, or operating methods for compliance of small business concern with applicable occupational safety and health standards.

Loans may also be made or guaranteed for the purposes set forth in section 636(b)(6) of Title 15, pursuant to the provisions of section 3142 of this title. (Pub. L. 91-596, § 28(d), Dec. 29, 1970, 84 Stat. 1618.)

§ 3142a. Rivers and harbors and other waterways projects for benefit of navigation, flood control, hurricane protection, beach erosion control, and other purposes.

(a) *Congressional declaration of policy; purchase of indebtedness and loans to local interests to meet contribution requirements.*

In the prosecution of projects for rivers and harbors and other waterways for the benefit of navigation, the control of destructive flood waters, hurricane protection, beach erosion control, and for other purposes, authorized to be prosecuted under the direction of the Secretary of the Army under the supervision of the Chief of Engineers in accordance with plans adopted and authorized by the Congress, it is hereby declared to be the policy of the Congress, that whenever such projects are located wholly or partially within an area which is eligible for financial assistance under the Public Works and Economic Development Act of 1965, the Secretary of Commerce is authorized to purchase evidences of indebtedness and to make loans for a period not exceeding fifty years to enable responsible local interests to meet the requirements of local cooperation pertaining to contributions toward the cost of construction of such projects within such areas.

(b) *Authorization of appropriations.*

There is hereby authorized to be appropriated to carry out this section, not to exceed \$10,000,000 per fiscal year for the fiscal year ending June 30, 1966, and for each fiscal year thereafter through and including the fiscal year ending June 30, 1970. (Pub. L. 89-298, title II, § 217, Oct. 27, 1965, 79 Stat. 1088.)

§ 3143. Economic Development Revolving Fund.

Funds obtained by the Secretary under section 3141 of this title, loan funds obtained under section 3171 of this title, and collections and repayments received under this chapter, shall be deposited in an economic development revolving fund (hereinafter referred to as the "fund"), which is hereby established in the Treasury of the United States, and which shall be available to the Secretary for the purpose of extending financial assistance under sections 3141, 3142, and 3171 of this title, and for the payment of all obligations and expenditures arising in connection therewith. There shall also be credited to the fund such funds as have been paid into the area redevelopment fund or may be received from obligations outstanding under the Area Redevelopment Act. The fund shall pay into miscellaneous receipts of the Treasury, following the close of each fiscal year, interest on the amount of loans outstanding under this chapter computed in such manner and at such rate as may be determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, during the month of June preceding the fiscal year in which the loans were made. (Pub. L. 89-136, title II, § 203, Aug. 26, 1965, 79 Stat. 558.)

Subchapter IV.—Area and District Eligibility**PART A.—REDEVELOPMENT AREAS****§ 3161. Area eligibility.**

(a) *Criteria for determining eligible areas; unemployment; median family income; Indian lands; loss of major source of employment.*

The Secretary shall designate as "redevelopment areas"—

(1) those areas in which he determines, upon the basis of standards generally comparable with those set forth in paragraphs (A) and (B), that there has existed substantial and persistent unemployment for an extended period of time and those areas in which he determines there has been a substantial loss of population due to lack of employment opportunity. There shall be included among the areas so designated any area—

(A) where the Secretary of Labor finds that the current rate of unemployment, as determined by appropriate annual statistics for the most recent available calendar year, is 6 per centum or more and has averaged at least 6 per centum for the qualifying time periods specified in paragraph (B); and

(B) where the Secretary of Labor finds that the annual average rate of unemployment has been at least—

(i) 50 per centum above the national av-

erage for three of the preceding four calendar years, or

(ii) 75 per centum above the national average for two of the preceding three calendar years, or

(iii) 100 per centum above the national average for one of the preceding two calendar years.

The Secretary of Labor shall find the facts and provide the data to be used by the Secretary in making the determinations required by this subsection;

(2) those additional areas which have a median family income not in excess of 40 per centum of the national median, as determined by the most recent available statistics for such areas;

(3) those additional Federal or State Indian reservations or trust or restricted Indian-owned land areas which the Secretary, after consultation with the Secretary of the Interior or an appropriate State agency, determines manifest the greatest degree of economic distress on the basis of unemployment and income statistics and other appropriate evidence of economic underdevelopment;

(4) upon request of such areas, those additional areas in which the Secretary determines that the loss, removal, curtailment, or closing of a major source of employment has caused within three years prior to, or threatens to cause within three years after, the date of the request an unusual and abrupt rise in unemployment rate for the area at the time of the request exceeds the national average, or can reasonably be expected to exceed the national average, by 50 per centum or more unless assistance is provided. Notwithstanding any provision of subsection (b) of this section to the contrary, an area designated under the authority of this paragraph may be given a reasonable time after designation in which to submit the overall economic development program required by section 3142(b)(10) of this title;

(5) notwithstanding any provision of this section to the contrary, those additional areas which were designated redevelopment areas under the Area Redevelopment Act on or after March 1, 1965: *Provided, however,* That the continued eligibility of such areas after the first annual review of eligibility conducted in accordance with section 3162 of this title shall be dependent on their qualification for designation under the standards of economic need set forth in subsections (a)(1) through (a)(4) of this section;

(6) those areas selected for assistance under part D of title I of the Economic Opportunity Act of 1964, and those areas which the Secretary determines meet the purposes of section 150 of part D of title I of the Economic Opportunity Act of 1964, and which otherwise meet the requirements of this chapter, except that no redevelopment area established under this paragraph shall be eligible to meet the requirement of section 3171(a)(1)(B) of this title.

(b) *Size and boundaries of redevelopment areas.* The size and boundaries of redevelopment areas shall be as determined by the Secretary: *Provided, however,* That—

(1) no area shall be designated until it has an approved overall economic development program in accordance with section 3142(b)(10) of this title;

(2) any area which does not submit an accept-

able overall economic development program in accordance with section 3142(b)(10) of this title within a reasonable time after notification of eligibility for designation, shall not thereafter be designated prior to the next annual review of eligibility in accordance with section 3162 of this title;

(3) no area shall be designated which does not have a population of at least one thousand five hundred persons, except that this limitation shall not apply to any area designated under subsection (a)(3) or (a)(6) of this section; and

(4) except for areas designated under subsections (a)(3), (a)(4) and (a)(6) hereof, no area shall be designated which is smaller than a "labor area" (as defined by the Secretary of Labor), a county, or a municipality with a population of over two hundred and fifty thousand, whichever in the opinion of the Secretary is appropriate.

(c) *Use of data compiled by other Secretaries in making determination of redevelopment areas.*

Upon the request of the Secretary, the Secretary of Labor, the Secretary of Agriculture, the Secretary of the Interior, and such other heads of agencies as may be appropriate are authorized to conduct such special studies, obtain such information, and compile and furnish to the Secretary such data as the Secretary may deem necessary or proper to enable him to make the determinations provided for in this section. The Secretary shall reimburse when appropriate, out of any funds appropriated to carry out the purposes of this chapter, the foregoing officers for any expenditures incurred by them under this section.

(d) *Designation of areas most nearly qualifying as redevelopment areas in event of failure of any area in State to qualify under preceding subsections.*

If a State has no area designated under the preceding subsections of this section as a redevelopment area, the Secretary shall designate as a redevelopment area that area in such State which in his opinion most nearly qualifies under such preceding subsections. An area so designated shall have its eligibility terminated in accordance with the provisions of section 3162 of this title if any other area within the same State subsequently has become qualified or been designated under any other subsection of this section other than subsection (a)(6) as of the time of the annual review prescribed by section 3162 of this title: *Provided*, That the Secretary shall not terminate any designation of an area in a State as a redevelopment area if to do so would result in such State having no redevelopment area.

(e) *Definitions.*

As used in this chapter, the term "redevelopment area" refers to any area within the United States which has been designated by the Secretary as a redevelopment area. (Pub. L. 89-136, title IV, § 401, Aug. 26, 1965, 79 Stat. 560; Pub. L. 89-794, title XI, § 1102, Nov. 8, 1966, 80 Stat. 1477; Pub. L. 91-123, title III, § 304, Nov. 25, 1969, 83 Stat. 219.)

§ 3162. Annual review of area eligibility; termination of eligibility; notification of change of classification.

The Secretary shall conduct an annual review of all areas designated in accordance with section 3161 of this title, and on the basis thereof shall terminate or modify the designations of such areas in accordance with objective standards which he shall prescribe by regulation. No area

previously designated shall retain its designated status unless it maintains a currently approved overall economic development program in accordance with section 3142(b)(10) of this title. No termination of eligibility shall (1) be made without thirty days' prior notification to the area concerned, (2) affect the validity of any application filed, or contract or undertaking entered into, with respect to such area pursuant to this chapter prior to such termination, (3) prevent any such area from again being designated a redevelopment area under section 3161 of this title if the Secretary determines it to be eligible under such section, or (4) be made in the case of any designated area where the Secretary determines that an improvement in the unemployment rate of a designated area is primarily the result of increased employment in occupations not likely to be permanent. The Secretary shall keep the departments and agencies of the Federal Government, and interested State or local agencies, advised at all times of any changes made hereunder with respect to the classification of any area. (Pub. L. 89-136, title IV, § 402, Aug. 26, 1965, 79 Stat. 561.)

PART B.—ECONOMIC DEVELOPMENT DISTRICTS

§ 3171. District eligibility.

(a) *Authority to designate economic development districts; criteria; economic development centers; increases of grants.*

In order that economic development projects of broader geographical significance may be planned and carried out, the Secretary is authorized—

(1) to designate appropriate "economic development districts" within the United States with the concurrence of the States in which such districts will be wholly or partially located, if—

(A) the proposed district is of sufficient size or population, and contains sufficient resources, to foster economic development on a scale involving more than a single redevelopment area;

(B) the proposed district contains two or more redevelopment areas;

(C) the proposed district contains one or more redevelopment areas or economic development centers identified in an approved district overall economic development program as having sufficient size and potential to foster the economic growth activities necessary to alleviate the distress of the redevelopment areas within the district; and

(D) the proposed district has a district overall economic development program which includes adequate land use and transportation planning and contains a specific program for district cooperation, self-help, and public investment and is approved by the State or States affected and by the Secretary;

(2) to designate as "economic development centers," in accordance with such regulations as he shall prescribe, such areas as he may deem appropriate, if—

(A) the proposed center has been identified and included in an approved district overall economic development program and recommended by the State or States affected for such special designation;

(B) the proposed center is geographically and economically so related to the district that its economic growth may reasonably be expected to contribute significantly to the alleviation of distress in the redevelopment areas of the district; and

(C) the proposed center does not have a population in excess of two hundred and fifty thousand according to the last preceding Federal census.

(3) to provide financial assistance in accordance with the criteria of sections 3131, 3141, and 3142 of this title, except as may be herein otherwise provided, for projects in economic development centers designated under subsection (a)(2) above, if—

(A) the project will further the objectives of the overall economic development program of the district in which it is to be located;

(B) the project will enhance the economic growth potential of the district or result in additional long-term employment opportunities commensurate with the amount of Federal financial assistance requested; and

(C) the amount of Federal financial assistance requested is reasonably related to the size, population, and economic needs of the district;

(4) subject to the 20 per centum non-Federal share required for any project by section 3131(c) of this title, to increase the amount of grant assistance authorized by section 3131 of this title for projects within redevelopment areas (designated under section 3161 of this title), by an amount not to exceed 10 per centum of the aggregate cost of any such project, in accordance with such regulations as he shall prescribe if—

(A) the redevelopment area is situated within a designated economic development district and is actively participating in the economic development activities of the district; and

(B) the project is consistent with an approved district overall economic development program.

(b) *State proposals; state and local participation.*

In designating economic development districts and approving district overall economic development programs under subsection (a) of this section, the Secretary is authorized, under regulations prescribed by him—

(1) to invite the several States to draw up proposed district boundaries and to identify potential economic development centers;

(2) to cooperate with the several States—

(A) in sponsoring and assisting district economic planning and development groups, and

(B) in assisting such district groups to formulate district overall economic development programs;

(3) to encourage participation by appropriate local governmental authorities in such economic development districts.

(c) *Termination and modification of districts and centers.*

The Secretary shall by regulation prescribe standards for the termination or modification of economic development districts and economic development centers designated under the authority of this section.

(d) *Definition of economic development district.*

As used in this chapter, the term "economic development district" refers to any area within the United States composed of cooperating redevelopment areas and, where appropriate, designated economic development centers and neighboring counties or communities, which has been designated by the Secretary as an economic development district.

(e) *Definition of economic development center.*

As used in this chapter, the term "economic development center" refers to any area within the United States which has been identified as an economic development center in an approved district overall economic development program and which has been designated by the Secretary as eligible for financial assistance under sections 3131, 3141, and 3142 of this title in accordance with the provisions of this section.

(f) *Definition of local government.*

For the purpose of this chapter the term "local government" means any city, county, town, parish, village, or other general-purpose political subdivision of a State.

(g) *Authorization of appropriations.*

There is hereby authorized to be appropriated not to exceed \$50,000,000 for the fiscal year ending June 30, 1967, and for each fiscal year thereafter through the fiscal year ending June 30, 1971, for financial assistance extended under the provisions of subsection (a)(3) and (a)(4) hereof. (Pub. L. 89-136, title IV, § 403 (a)—(g), Aug. 26, 1965, 79 Stat. 562; Pub. L. 91-304, § 1(d), July 6, 1970, 84 Stat. 375.)

CHAPTER 46.—LAW ENFORCEMENT ASSISTANCE AND CRIMINAL JUSTICE

General Provisions

§ 3701. Congressional findings, declarations of policy, and statement of purpose.

Congress finds that the high incidence of crime in the United States threatens the peace, security, and general welfare of the Nation and its citizens. To prevent crime and to insure the greater safety of the people, law enforcement efforts must be better coordinated, intensified, and made more effective at all levels of government.

Congress finds further that crime is essentially a local problem that must be dealt with by State and local governments if it is to be controlled effectively.

It is therefore the declared policy of the Congress to assist State and local governments in strengthening and improving law enforcement at every level by national assistance. It is the purpose of this chapter to (1) encourage States and units of general local government to prepare and adopt comprehensive plans based upon their evaluation of State and local problems of law enforcement; (2) authorize grants to States and units of local government in order to improve and strengthen law enforcement; and (3) encourage research and development directed toward the improvement of law enforcement and the development of new methods for the prevention and reduction of crime and the detection and apprehension of criminals. (Pub. L. 90-351, title 1, § 100, June 19, 1968, 82 Stat. 197.)

Subchapter I.—Law Enforcement Assistance Administration

§ 3711. Law Enforcement Assistance Administration.

(a) *Establishment; general authority of Attorney General over Administration; membership; appointment; political representation.*

There is hereby established within the Department of Justice under the general authority of the Attorney General, a Law Enforcement Assistance Administration (hereinafter referred to in this

chapter as "Administration") composed of an Administrator of Law Enforcement Assistance and two Associate Administrators of Law Enforcement Assistance, who shall be appointed by the President, by and with the advice and consent of the Senate. Beginning after the end of the term of either of the present incumbents, one of the Associate Administrators shall be a member of a political party other than that of the President.

(b) *Executive status and powers of Administrator; functions, powers, and duties of Administration.*

The Administrator shall be the executive head of the agency and shall exercise all administrative powers, including the appointment and supervision of Administration personnel. All of the other functions, powers, and duties created and established by this chapter shall be exercised by the Administrator with the concurrence of either one or both of the two Associate Administrators. (Pub. L. 90-351, title I, § 101, June 19, 1968, 82 Stat. 198; Pub. L. 91-644, title I, § 2, Jan. 2, 1971, 84 Stat. 1881.)

Subchapter II.—Planning Grants

§ 3721. Statement of purpose.

It is the purpose of this subchapter to encourage States and units of general local government to prepare and adopt comprehensive law enforcement plans based on their evaluation of State and local problems of law enforcement. (Pub. L. 90-351, title I, § 201, June 19, 1968, 82 Stat. 198.)

§ 3722. State planning agencies; establishment and operation; time of applications for grants.

The Administration shall make grants to the States for the establishment and operation of State law enforcement planning agencies (hereinafter referred to in this chapter as "State planning agencies") for the preparation, development, and revision of the State plans required under section 3733 of this title. Any State may make application to the Administration for such grants within six months of June 19, 1968. (Pub. L. 90-351, title I, § 202, June 19, 1968, 82 Stat. 198.)

§ 3723. Same; general provisions.

(a) *Establishment and maintenance; creation or designation by chief executive; representative capacity.*

A grant made under this subchapter to a State shall be utilized by the State to establish and maintain a State planning agency. Such agency shall be created or designated by the chief executive of the State and shall be subject to his jurisdiction. The State planning agency and any regional planning units within the State shall, within their respective jurisdictions, be representative of the law enforcement agencies, units of general local government, and public agencies maintaining programs to reduce and control crime.

(b) *Function, powers, and duties of State planning agencies.*

The State planning agency shall—

(1) develop, in accordance with subchapter III of this chapter, a comprehensive statewide plan for the improvement of law enforcement throughout the State;

(2) define, develop, and correlate programs and projects for the State and the units of general local government in the State or combinations of States or units for improvement in law enforcement; and

(3) establish priorities for the improvement in law enforcement throughout the State.

(c) *Availability of Federal funds to local government units for formulation and development of State plan; waiver of requirement; funds for major cities and counties.*

The State planning agency shall make such arrangements as such agency deems necessary to provide that at least 40 per centum of all Federal funds granted to such agency under this subchapter for any fiscal year will be available to units of general local government or combinations of such units to enable such units and combinations of such units to participate in the formulation of the comprehensive State plan required under this subchapter. The Administration may waive this requirement, in whole or in part, upon a finding that the requirement is inappropriate in view of the respective law enforcement planning responsibilities exercised by the State and its units of general local government and that adherence to the requirement would not contribute to the efficient development of the State plan required under this subchapter. In allocating funds under this subsection, the State planning agency shall assure that major cities and counties within the State receive planning funds to develop comprehensive plans and coordinate functions at the local level. Any portion of such 40 per centum in any State for any fiscal year not required for the purpose set forth in this subsection shall be available for expenditure by such State agency from time to time on dates during such year as the Administration may fix, for the development by it of the State plan required under this subchapter. (Pub. L. 90-351, title I, § 203, June 19, 1968, 82 Stat. 199; Pub. L. 91-644, title I, § 3(a)—(c), Jan. 2, 1971, 84 Stat. 1881.)

§ 3724. Amount of grant; limitation.

A Federal grant authorized under this subchapter shall not exceed 90 per centum of the expenses of the establishment and operation of the State planning agency, including the preparation, development, and revision of the plans required by subchapter III of this chapter. (Pub. L. 90-351, title I, § 204, June 19, 1968, 82 Stat. 199; Pub. L. 91-644, title I, § 3(d), Jan. 2, 1971, 84 Stat. 1881.)

§ 3725. Allocation of funds.

Funds appropriated to make grants under this subchapter for a fiscal year shall be allocated by the Administration among the States for use therein by the State planning agency or units of general local government, as the case may be. The Administration shall allocate \$100,000 to each of the States; and it shall then allocate the remainder of such funds available among the States according to their relative populations. (Pub. L. 90-351, title I, § 205, June 19, 1968, 82 Stat. 199.)

Subchapter III.—Grants for Law Enforcement Purposes

§ 3731. General provisions.

(a) *Statement of purpose.*

It is the purpose of this subchapter to encourage States and units of general local government to carry out programs and projects to improve and strengthen law enforcement.

(b) *Categories of programs and projects.*

The Administration is authorized to make grants to States having comprehensive State plans approved by it under this subchapter, for—

(1) Public protection, including the development, demonstration, evaluation, implementation, and purchase of methods, devices, facilities, and equipment designed to improve and strengthen law enforcement and reduce crime in public and private places.

(3) Public education relating to crime prevention and encouraging respect for law and order, including education programs in schools and programs to improve public understanding of and cooperation with law enforcement agencies.

(4) Constructing buildings or other physical facilities which would fulfill or implement the purpose of this section, including local correctional facilities, centers for the treatment of narcotic addicts and temporary courtroom facilities in areas of high crime incidence.

(5) The organization, education, and training of special law enforcement units to combat organized crime, including the establishment and development of State organized crime prevention councils, the recruiting and training of special investigative and prosecuting personnel, and the development of systems for collecting, storing, and disseminating information relating to the control of organized crime.

(6) The organization, education, and training of regular law enforcement officers, special law enforcement units, and law enforcement reserve units for the prevention, detection, and control of riots and other violent civil disorders, including the acquisition of riot control equipment.

(7) The recruiting, organization, training and education of community service officers to serve with and assist local and State law enforcement agencies in the discharge of their duties through such activities as recruiting; improvement of police-community relations and grievance resolution mechanisms; community patrol activities; encouragement of neighborhood participation in crime prevention and public safety efforts; and other activities designed to improve police capabilities, public safety and the objectives of this section: *Provided*, That in no case shall a grant be made under this subcategory without the approval of the local government or local law enforcement agency.

(8) The establishment of a Criminal Justice Coordinating Council for any unit of general local government or any combination of such units within the State, having a population of two hundred and fifty thousand or more, to assure improved planning and coordination of all law enforcement activities.

(9) The development and operation of community based delinquent prevention and correctional programs, emphasizing halfway houses and other community based rehabilitation centers for initial preconviction or postconviction referral of offenders; expanded probationary programs, including paraprofessional and volunteer participation; and community service centers for the guidance and supervision of potential repeat youthful offenders.

(c) *Percentage of grant; limitation; land acquisition prohibition; Federal share for grants to Indian tribes or other aboriginal groups; State appropriation of moneys for State share of non-Federal funding of program costs.*

The portion of any Federal grant made under this section for the purposes of paragraph (5) or

(6) of subsection (b) of this section may be up to 75 per centum of the cost of the program or project specified in the application for such grant. No part of any grant made under this section for the purpose of renting, leasing, or constructing buildings or other physical facilities shall be used for land acquisition. In the case of a grant under this section to an Indian tribe or other aboriginal group, if the Administration determines that the tribe or group does not have sufficient funds available to meet the local share of the cost of any program or project to be funded under the grant, the Administration may increase the Federal share of the cost thereof to the extent it deems necessary. Effective July 1, 1972, at least 40 per centum of the non-Federal funding of the cost of any program or project to be funded by a grant under this section shall be of money appropriated in the aggregate, by State or individual unit of government, for the purpose of the shared funding of such programs or projects.

(d) *Compensation of personnel; limitations.*

Not more than one-third of any grant made under this section may be expended for the compensation of police and other regular law enforcement personnel. The amount of any such grant expanded¹ for the compensation of such personnel shall not exceed the amount of State or local funds made available to increase such compensation. The limitations contained in this subsection shall not apply to the compensation of personnel for time engaged in conducting or undergoing training programs or to the compensation of personnel engaged in research, development, demonstration or other short-term programs. (Pub. L. 90-351, title I, § 301, June 19, 1968, 82 Stat. 199; Pub. L. 91-644, title I, § 4(1)-(4), Jan. 2, 1971, 84 Stat. 1882.)

§ 3732. State planning agency, establishment; comprehensive State plan, submission.

Any State desiring to participate in the grant program under this subchapter shall establish a State planning agency as described in subchapter II of this chapter and shall within six months after approval of a planning grant under subchapter II of this chapter submit to the Administration through such State planning agency a comprehensive State plan formulated pursuant to subchapter II of this chapter. (Pub. L. 90-351, title I, § 302, June 19, 1968, 82 Stat. 200.)

§ 3733. State plans; comprehensive requirements.

The Administration shall make grants under this chapter to a State planning agency if such agency has on file with the Administration an approved comprehensive State plan (not more than one year in age) which conforms with the purposes and requirements of this chapter. (1) provide for the administration of such grants by the State planning agency;

(2) provide that at least 75 per centum of all Federal funds granted to the State planning agency under this subchapter for any fiscal year will be available to units of general local government or combinations of such units for the development and implementation of programs and projects for the improvement of law enforcement, except that each such plan shall provide that beginning July 1, 1972, at least the per centum of Federal assistance granted to the State planning agency under this subchapter for any fiscal year which corresponds to the per centum of the State and local law enforcement expenditures funded and expended in the immediately preceding fiscal year by units of general local government will be made available to such units or combinations of such units in the immediately following fiscal year for the development and implementation of programs and projects, and that with respect to such programs or projects, the State will provide in the aggregate not less than one-fourth of the non-Federal funding. Per centum determinations under this paragraph for law enforcement funding and expenditures for such immediately preceding fiscal year shall be based upon the most accurate and complete data available for such fiscal year or for the last fiscal year for which such data are available. The Administration shall have the authority to approve such determinations and to review the accuracy and completeness of such data;

(3) adequately take into account the needs and requests of the units of general local government in the State and encourage local initiative in the development of programs and projects for improvements in law enforcement, and provide for an appropriately balanced allocation of funds between the State and the units of general local government in the State and among such units;

(4) incorporate innovations and advanced techniques and contain a comprehensive outline of priorities for the improvement and coordination of all aspects of law enforcement dealt with in the plan, including descriptions of: (A) general needs and problems; (B) existing systems; (C) available resources; (D) organizational systems and administrative machinery for implementing the plan; (E) the direction, scope, and general types of improvements to be made in the future; and (F) to the extent appropriate, the relationship of the plan to other relevant State or local law enforcement plans and systems;

(5) provide for effective utilization of existing facilities and permit and encourage units of general local government to combine or provide for cooperative arrangements with respect to services, facilities, and equipment;

(6) provide for research and development;

(7) provide for appropriate review of procedures of actions taken by the State planning agency disapproving an application for which funds are available or terminating or refusing to continue financial assistance to units of general local government or combinations of such units;

(8) demonstrate the willingness of the State

and units of general local government to assume the costs of improvements funded under this subchapter after a reasonable period of Federal assistance;

(9) demonstrate the willingness of the State to contribute technical assistance or services for programs and projects contemplated by the statewide comprehensive plan and the programs and projects contemplated by units of general local government;

(10) set forth policies and procedures designed to assure that Federal funds made available under this chapter will be so used as not to supplant State or local funds, but to increase the amounts of such funds that would in the absence of such Federal funds be made available for law enforcement;

(11) provide for such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of and accounting of funds received under this subchapter; and

(12) provide for the submission of such reports in such form and containing such information as the administration may reasonably require.

Any portion of the 75 per centum to be made available pursuant to paragraph (2) of this section in any State in any fiscal year not required for the purposes set forth in such paragraph (2) shall be available for expenditure by such State agency from time to time on dates during such year as the Administration may fix, for the development and implementation of programs and projects for the improvement of law enforcement and in conformity with the State plan. (Pub. L. 90-351, title I, § 303, June 19, 1968, 82 Stat. 201; Pub. L. 91-644, title I, § 4(5), (6), Jan. 2, 1971, 84 Stat. 1883.)

§ 3734. Applications for financial assistance from local government units; disbursements by State planning agencies.

State planning agencies shall receive applications for financial assistance from units of general local government and combinations of such units. When a State planning agency determines that such an application is in accordance with the purposes stated in section 3731 of this title and is in conformance with any existing statewide comprehensive law enforcement plan, the State planning agency is authorized to disburse funds to the applicant. (Pub. L. 90-351, title I, § 304, June 19, 1968, 82 Stat. 202.)

§ 3735. Reallocation of funds.

Where a State has failed to have a comprehensive State plan approved under this chapter within the period specified by the Administration for such purpose, the funds allocated for such State under paragraph (1) of section 3736(a) of this title shall be available for reallocation by the Administration under paragraph (2) of section 3736(a) of this title. (Pub. L. 90-351, title I, § 305, June 19, 1968, 82 Stat. 202; Pub. L. 91-644, title I, § 4(7), Jan. 2, 1971, 84 Stat. 1883.)

§ 3736. Allocation of funds.

(a) *Percentage limitation; land acquisition prohibition; Federal share for grants to Indian tribes or other aboriginal groups; State appropriation of moneys for State share of non-Federal funding of program costs.*

The funds appropriated each fiscal year to make grants under this subchapter shall be allocated by the Administration as follows:

(1) Eighty-five per centum of such funds shall be allocated among the States according to their respective populations for grants to State planning agencies.

(2) Fifteen per centum for such funds, plus any additional amounts made available by virtue of the application of the provisions of sections 3735 and 3757 of this title to the grant of any State, may, in the discretion of the Administration, be allocated among the States for grants to State planning agencies, units of general local government, or combinations of such units, according to the criteria and on the terms and conditions the Administration determines consistent with this chapter.

Any grant made from funds available under paragraph (2) of this subsection may be up to 75 per centum of the cost of the program or project for which such grant is made. No part of any grant under such paragraph for the purpose of renting, leasing, or constructing buildings or other physical facilities shall be used for land acquisition. In the case of a grant under such paragraph to an Indian tribe or other aboriginal group, if the Administration determines that the tribe or group does not have sufficient funds available to meet the local share of the costs of any program or project to be funded under the grant, the Administration may increase the Federal share of the cost thereof to the extent it deems necessary. The limitations on the expenditure of portions of grants for the compensation of personnel in subsection (d) of section 3731 of this title shall apply to a grant under such paragraph. Effective July 1, 1972, at least 40 per centum of the non-Federal fundings of the cost of any program or project to be funded by a grant under such paragraph shall be of money appropriated in the aggregate, by State or individual unit of government, for the purpose of the shared funding of such programs or projects.

(b) *Reallocation of funds.*

If the Administration determines, on the basis of information available to it during any fiscal year, that a portion of the funds allocated to a State for that fiscal year for grants to the State planning agency of the State will not be required by the State, or that the State will be unable to qualify to receive any portion of the funds under the requirements of this subchapter, that portion shall be available for reallocation to other States under paragraph (1) of subsection (a) of this section. (Pub. L. 90-351, title I, § 306, June 19, 1968, 82 Stat. 202; Pub. L. 91-644, § 4(8), Jan. 2, 1971, 84 Stat. 1883.)

§ 3737. **Priority programs and projects.**

(a) In making grants under this subchapter, the Administration and each State planning agency, as the case may be, shall give special emphasis, where appropriate or feasible, to programs and projects dealing with the prevention, detection, and control of organized crime and of riots and other violent civil disorders.

(b) Notwithstanding the provisions of section 3733 of this title, until August 31, 1968, the Administration is authorized to make grants for programs and projects dealing with the prevention, detection, and control of riots and other violent civil disorders on the basis of applications describing in detail the programs, projects, and costs of the items for which the grants will be used, and the relationship of the programs and projects to the applicant's general program for the improvement of law enforcement. (Pub. L. 90-351, title I, § 307, June 19, 1968, 82 Stat. 202.)

§ 3750a. **Applications for grants; incorporation in comprehensive State plan.**

A State desiring to receive a grant under this subchapter for any fiscal year shall, consistent with the basic criteria which the Administration establishes under section 3750c of this title, incorporate its application for such grant in the comprehensive State plan submitted to the Administration for that fiscal year in accordance with section 3732 of this title. (2) provides satisfactory assurances that the control of the funds and title to property derived therefrom shall be in a public agency for the uses and purposes provided in this subchapter and that a public agency will administer those funds and that property;

(3) provides satisfactory assurances that the availability of funds under this subchapter shall not reduce the amount of funds under subchapter III of this chapter which a State would, in the absence of funds under this subchapter, allocate for purposes of this part;

(4) provides satisfactory emphasis on the development and operation of community-based correctional facilities and programs, including diagnostic services, halfway houses, probation, and other supervisory release programs for preadjudication and postadjudication referral of delinquents, youthful offenders, and first offenders, and community-oriented programs for the supervision of parolees;

Any grant made from funds available under this subchapter may be up to 75 per centum of the cost of the program or project for which such grant is made. No funds awarded under this subchapter may be used for land acquisition.

If the application has been rejected or an applicant has been denied a grant or has had a grant, or any portion of a grant, discontinued, or has been given a grant in a lesser amount than such applicant believes appropriate under the provisions of this chapter, the Administration shall notify the applicant or grantee of its action and set forth the reason for the action taken. Whenever an applicant or grantee requests a hearing on action taken by the Administration on an application or a grant the Administration, or any authorized officer thereof, is authorized and directed to hold such hearings or investigations at such times and places as the Administration deems necessary, following appropriate and adequate notice to such applicant; and the findings of fact and determinations made by the Administration with respect thereto shall be final and conclusive, except as otherwise provided herein.

PART D.—GENERAL PROVISIONS

§ 3841. State plan.

(a) *Comprehensiveness and detail of plan.*

Any State which desires to receive a grant under part B or C of this subchapter in order to make program or project grants within such State shall, through a single State agency designated for the purposes of this subchapter, submit to the Secretary a comprehensive juvenile delinquency plan in such detail as the Secretary deems necessary.

(b) *Specific requirements of plan.*

The Secretary shall approve a State plan or modification thereof for any fiscal year for purposes of this section if he determines that the plan for that fiscal year—

(1) provides that the grant to the State will be used solely (A) for projects and programs which are submitted to the State agency by a community, municipal, or other local public agency or local nonprofit private agency or organization, or combination thereof, which meet the requirements of section 3823 or section 3833 of this title, and which are approved by such State agency, and (B) for paying up to 75 per centum of the cost of administering the plan approved under this section;

(2) (A) sets forth, on the basis of an analysis and survey of the needs in the State for assistance under part B or C, a method of distribu-

tion of funds under the plan, including establishment of priorities for locations and types of projects and programs, which gives emphasis to community based alternatives to programs of institutionalization and which conforms to criteria of the Secretary, and (B) provides for distribution of such funds, insofar as financial resources make possible, in accordance with such method;

(3) provides for an appropriate balance of rehabilitation and preventive projects and programs;

(4) provides for (A) effective coordination of plans and programs developed and conducted by the State in fields related to juvenile delinquency, including programs under the Elementary and Secondary Education Act of 1965, the Social Security Act, the Manpower Development and Training Act of 1962, and programs for the prevention and detection of crime, with plans, projects, and programs developed and conducted by the State under this subchapter, and (B) appropriate application of resources under such other plans and programs to support and reinforce plans, projects, and programs under this subchapter;

(5) provides for the effective participation of persons representative of local and areawide public and private groups and organizations familiar with the field of juvenile delinquency and with associated fields in the development and implementation of the State plan;

(6) demonstrates the capability of the State agency in the areas of planning, project and program development, technical assistance, and evaluation, and sets forth the administrative organization and procedures in such detail as the Secretary may prescribe by regulation;

(7) provides for the maximum use of other Federal, State, and local resources, including resources available through the programs referred to in paragraph (4), in carrying out the State plan and projects and programs under it;

(8) sets forth policies and procedures which give assurance that the Federal grant for any fiscal year will be used to supplement and, to the extent practical, increase the fiscal effort (determined in accordance with criteria prescribed by the Secretary by regulation) that would, in the absence of such Federal grant, be made by the State, and subdivisions thereof, in the field of juvenile delinquency;

(9) provides for adoption of effective procedures (A) for the evaluation at least annually of the effectiveness of the programs and projects supported under the State plan, and (B) for dissemination of information secured thereby and other useful information to local public or nonprofit private agencies and organizations in the State operating in the field of juvenile delinquency or a related field;

(10) provides for adoption of procedures to assure that funds paid to local public or nonprofit private agencies and organizations with respect to projects and programs under the plan will be used in accordance with applications therefor approved under the plan;

(11) provides for making an annual report and such other reports, in such form and containing such information and evaluations, as the Secretary may reasonably require;

(12) provides that final action by the State agency denying (in whole or in part), or withholding funds with respect to, any application (or amendment thereof) made to it for a grant under part B or C shall not be taken without

first affording the applicant reasonable notice and opportunity for a hearing;

(13) provides, in the case of an application for a program or a project which is in the nature of an amendment to the State plan or a clear departure from the purview of the State plan, that final approval by the State agency of such application shall not be given unless such application has been submitted to the Secretary together with a brief statement describing the proposed program or project, and the Secretary has not, within thirty days after such submission, disapproved such application; and

(14) provides assurance that the State will furnish at least one-half of the non-Federal share of funds required to meet the cost of programs and projects aided under the State plan.

(c) *Partial approval.*

Depending upon the availability of funds, and the other applications under part B or C, the Secretary may approve all or part of the assistance requested by a State agency pursuant to an approved State plan, but all assistance requested by such agency, pursuant to an approved State plan, may be disapproved only if he determines that the provision of such assistance would so disperse available funds that the effectiveness of other projects or programs under part B or C which would more effectively carry out the purposes of part B or C, would be impaired.

(d) *Substantial compliance.*

The Secretary may, if he finds that a State plan for a fiscal year is in substantial (but not complete) compliance with the requirements set forth in subsection (b) of this section, approve that part of the plan which is in compliance with such requirements and make available to that State only those funds which he determines to be necessary to carry out that part of the plan so approved.

(e) *Hearing; halt in payments for noncompliance with requirements.*

(1) The Secretary shall not finally disapprove any plan submitted under subsection (a) of this section, or any modification thereof, without first affording the State agency submitting the plan reasonable notice and opportunity for a hearing.

(2) Whenever the Secretary, after reasonable notice and opportunity for hearing to any State agency, finds that there has been a failure to comply substantially with any requirement set forth in the plan of that State approved under this section, the Secretary shall notify the agency that further payments will not be made to the State under parts B and C (or, in his discretion, that the State agency shall not make further payments thereunder to specified public agencies or nonprofit private agencies or organizations affected by the failure) until he is satisfied that there is no longer any such failure to comply. Until he is so satisfied, no further payments shall be made to the State under such parts or payments by the State agency under such parts shall be limited to public agencies or nonprofit private agencies and organizations not affected by the failure, as the case may be. (Pub. L. 90-445, title I, § 131, July 31, 1968, 82 Stat. 466.)

§ 3842. *Direct grants.*

Until a State has submitted a State comprehensive juvenile delinquency plan under this subchapter, and the Secretary has approved such plan, or upon failure of the State to carry out such

plan according to the terms and conditions specified in such plan as approved, the Secretary may make grants directly to public agencies or nonprofit private agencies and organizations in accordance with the provisions of parts B and C of this subchapter. No grant under this section shall be for an amount in excess of 60 per centum in the case of part B or 75 per centum in the case of part C of the cost of the project or program with respect to which it is made. (Pub. L. 90-445, title I, § 132, July 31, 1968, 82 Stat. 468.)

§ 3843. *Use of funds; labor standards.*

Funds paid to any agency or organization (whether directly or through a State agency) under part B or C of this subchapter may be used for—

(1) meeting the cost of securing or providing services designed to carry out the purposes of such part, but only to the extent and for the period reasonably necessary for the community to provide such services; and

(2) in the case of part B, meeting not to exceed 50 per centum of the cost of construction of community-based, unusual, and special purpose or innovative types of facilities which, in the judgment of the Secretary, are necessary for carrying out the purposes of part B, including community-based, unusual, and special purpose or innovative (A) combination detention and diagnostic facilities, (B) halfway houses for youth who because of special behavioral problems have a high risk of becoming delinquent or who have been determined to be delinquent and are not yet ready for full return to society; (C) small, special-purpose, residential, community-based facilities for diagnosis, treatment, and rehabilitation of youths; (D) training schools for the rehabilitation and education of youths who are in custody of any public agency charged with the care of delinquent youths; but, in developing plans for such facilities, due consideration shall be given to excellence of architecture and design: *Provided, however*, That not to exceed 25 per centum of the funds appropriated for any fiscal year under this chapter may be used to meet such costs of construction.

It shall be a condition of any grant under part B which is wholly or partially for construction that all laborers and mechanics employed by contractors or subcontractors on such construction shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended. The Secretary of Labor shall have with respect to these labor standards the authority and functions set forth in Reorganization Plan Numbered 14 of 1950, and section 276c of Title 40. (Pub. L. 90-445, title I, § 133, July 31, 1968, 82 Stat. 468.)

§ 3844. *Notification.*

The Secretary shall not approve an application for a grant under part A or section 3842 of this title until a copy of the application has been submitted—

(1) to the Governor of the State, or an officer designated by him or by State law, and a reasonable opportunity has been afforded the Governor or such officer to prepare and submit to the Secretary his evaluation of the planning, program, or project, which shall include comments on the relationship of the application to other applications then pending and to existing or proposed plans in the State for the development of new or additional programs for the

diagnosis, treatment, or rehabilitation of preventive services for youths who are delinquent or in danger of becoming delinquent; and

(2) to the governing bodies of the political units principally affected, and a reasonable opportunity afforded such governing bodies, acting through such officers as they may designate, to prepare and submit to the Secretary an evaluation of the planning, program, or project.

(Pub. L. 90-445, title I, § 134, July 31, 1968, 82 Stat. 469.)

§ 3845. Considerations for approval of applications.

In determining whether or not to approve applications for grants under part B or C of this subchapter, the State agency or, in the case of grants under section 3842 of this title, the Secretary shall consider, among other relevant factors in the State or community of the applicant—

(a) The Secretary shall provide for the continuing evaluation of the programs, projects, and other activities under this chapter, including their effectiveness in achieving stated goals and their relationship to and impact on related Federal, State, and local activities. This evaluation shall include comparisons with proper control groups composed of persons who have not participated in programs under this chapter. The results of such evaluations shall be included in the report required by section 3888 of this title.

(b) In addition to funds otherwise available for evaluation, such portion of any appropriation under section 3882 of this title as the Secretary may determine, but not exceeding 1 per centum thereof, shall be available for evaluation by the Secretary (directly or by grants or contracts) of the activities for which such appropriation is made. (Pub. L. 90-445, title IV, § 404, July 31, 1968, 82 Stat. 472.)

§ 3886. Joint funding.

Pursuant to regulations prescribed by the President, where funds are advanced for a single project by more than one Federal agency to an agency or organization assisted under this chapter, any one Federal agency may be designated to act for all in administering the funds advanced. In such cases, a single non-Federal share requirement may be established according to the proportion of funds advanced by each Federal agency, and any such agency may waive any technical grant or contract requirement (as defined by such regulations) which is inconsistent with the similar requirements of the administering agency or which the administering agency does not impose. (Pub. L. 90-445, title IV, § 406, July 31, 1968, 82 Stat. 472.)

§ 3887. Coordination.

To avoid duplication of efforts, it shall be the responsibility of the Secretary to consult and coordinate with the Attorney General and such other Federal officers as are charged with responsibilities in the area of combating juvenile delinquency or crime in general. (Pub. L. 90-445, title IV, § 407, July 31, 1968, 82 Stat. 472.)

§ 3888. Annual report to Congress.

Not later than one hundred and twenty days after the close of each fiscal year, the Secretary, with the appropriate assistance and concurrence of the heads of other Federal agencies who are consulted and whose activities are coordinated under section 3887 of this title, shall prepare and submit to the President for transmittal to the Congress a full and complete report on all Federal activities in the fields of juvenile delinquency, youth development, and related fields. Such report shall include, but not be limited to—

(1) planning, program, and project activities conducted under this chapter;

(2) the nature and results of model programs and technical assistance conducted under subchapter III of this chapter;

(3) the number and types of training projects, number of persons trained and in training, and job placement and other follow-up information on trainees and former trainees assisted under subchapter II of this chapter; and

(4) steps taken and mechanisms and methods used to coordinate and avoid duplication of Federal activities in the fields of juvenile delinquency, youth development, and related fields and the effectiveness of such steps, mechanisms, and methods.

(Pub. L. 90-445, title IV, § 408, July 31, 1968, 82 Stat. 472.)

§ 3889. Advisory committees.

(a) The Secretary is authorized to appoint an advisory committee to advise him with respect to matters of general policy involved in the administration of this chapter, and particularly with respect to the coordination of activities under this chapter and related activities under other Federal, State, or local laws and on such other matters relating to this chapter as the Secretary may request.

(b) (1) The Secretary is also authorized to appoint such other technical or advisory committees to advise him in connection with activities under this chapter as he deems necessary.

(2) Members of any committee appointed under this section who are not otherwise in the regular full-time employ of the United States, while attending meetings of their respective committees, shall be entitled to receive compensation at a rate to be fixed by the Secretary, but not exceeding \$100 per diem (or, if higher, the rate specified at the time of such service for grade GS-18 in Table 5, section 5332), including travel time, and while away from their homes or regular places of business they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law (section 5703 of Title 5) for persons in the Government service employed intermittently. In the case of a grant under part A of subchapter I of this chapter or section 3842 of this title, if the Secretary is satisfied that an Indian tribe does not have sufficient funds available to meet the non-Federal share of the cost of any planning, project, or program, he may increase the Federal share of the cost thereof payable under this chapter to the extent necessary, notwithstanding the maximum otherwise imposed by this chapter on the portion of such cost which may be so payable.

(4) The term "nonprofit private agency or organization" means any accredited institution of higher education and any other agency, organization, or institution which is owned and operated by one or more nonprofit corporations or organizations no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual, but only if such agency, organization, or institution was in existence at least two years before the date of an application under this chapter. Such term shall not be construed to include the Office of Economic Opportunity. Participation by the Office of Economic Opportunity is expressly prohibited in administering this chapter.

CHAPTER 12.—RECLAMATION AND IRRIGATION OF LANDS BY FEDERAL GOVERNMENT

* * *

Construction of Small Projects**§ 422a. Declaration of purpose.**

The purpose of sections 422a to 422k of this title is to encourage State and local participation in the development of projects under the Federal reclamation laws and to provide for Federal assistance in the development of similar projects in the seventeen western reclamation States by non-Federal organizations. (Aug. 6, 1956, ch. 972, § 1, 70 Stat. 1044.)

§ 422b. Definitions.

As used in sections 422a to 422k of this title—

(a) The term "construction" shall include rehabilitation and betterment.

(b) The term "Federal reclamation laws" shall mean the Act of June 17, 1902 (32 Stat. 388), and Acts amendatory thereof or supplementary thereto.

(c) The term "organization" shall mean a State or a department, agency, or political subdivision thereof or a conservancy district, irrigation district, water users' association, an agency created by interstate compact, or similar organization which has capacity to contract with the United States under the Federal reclamation laws.

(d) The term "project" shall mean (i) any complete irrigation undertaking, including incidental features thereof, or distinct unit of such an undertaking or a rehabilitation and betterment program for an existing irrigation project, authorized to be constructed pursuant to the Federal reclamation laws and (ii) any similar undertaking proposed to be constructed by an organization. The term "project" shall not include any such undertaking unit, or program the cost of which exceeds \$10,000,000, and no loan, grant, or combination thereof for any project shall be in excess of \$6,500,000: *Provided*, That nothing contained in sections 422a to 422k of this title shall preclude the making of more than one loan or grant, or combined loan and grant, to an organization so long as no two such loans or grants or combinations thereof, are for the same project, as herein defined.

(e) The term "Secretary" shall mean the Secretary of the Interior. (Aug. 6, 1956, ch. 972, § 2, 70 Stat. 1044; Sept. 2, 1966, Pub. L. 89-553, § 1(1), 80 Stat. 376.)

§ 422c. Proposals; submission; payment for cost of examination.

Any organization desiring to avail itself of the benefits provided in sections 422a to 422k of this title shall submit a proposal therefor to the Secretary in such form and manner as he shall prescribe. Each such proposal shall be accompanied by a payment of \$1,000 to defray, in part, the cost of examining the proposal. (Aug. 6, 1956, ch. 972, § 3, 70 Stat. 1044.)

§ 422d. Contents of proposals.

(a) *Plans and estimates; review by States; allocation of capital costs.*

Any proposal with respect to the construction of a project which has not theretofore been authorized for construction under the Federal reclamation laws shall set forth, among other things, a

plan and estimated cost in detail comparable to those included in preauthorization reports required for a Federal reclamation project: shall have been submitted for review by the States of the drainage basin in which the project is located in like manner as provided in section 701-1(c) of Title 33, except that the review may be limited to the State or States in which the project is located if the proposal is one solely for rehabilitation and betterment of an existing project; and shall include a proposed allocation of capital costs to functions such that costs for facilities used for a single purpose shall be allocated to that purpose and costs for facilities used for more than one purpose shall be so allocated among the purposes served that each purpose will share equitably in the costs of such joint facilities. The costs of means and measures to prevent loss of and damage to fish and wildlife resources shall be considered as project costs and allocated as may be appropriate among project functions.

(b) *Lands and water rights; ownership; financing.*

Every such proposal shall include a showing that the organization already holds or can acquire all lands and interests in land (except public and other lands and interests in land owned by the United States which are within the administrative jurisdiction of the Secretary and subject to disposition by him) and rights, pursuant to applicable State law, to the use of water necessary for the successful construction, operation, and maintenance of the project and that it is ready, able, and willing to finance otherwise than by loan and grant under sections 422a-422k of this title such portion of the cost of the project (which portion shall include all costs of acquiring lands, interests in land, and rights to the use of water), except as provided in section 422(e)(2) of this title as the Secretary shall have advised is proper in the circumstances.

(c) *Transmittal of findings and approval to Congress; reservation of land.*

At such times as a project is found by the Secretary and the Governor of the State in which it is located (or an appropriate State agency designated by him) to be financially feasible, is determined by the Secretary to constitute a reasonable risk under the provisions of sections 422a to 422k of this title, and is approved by the Secretary, such findings and approval shall be transmitted to the Congress. The Secretary, at the time of submitting the project proposal to Congress or at the time of his determination that the requested project constitutes a reasonable risk under the provisions of sections 422a to 422k of this title, may reserve from use or disposition inimical to the project any lands and interests in land owned by the United States which are within his administrative jurisdiction and subject to disposition by him and which are required for use by the project. Any such reservation shall expire at the end of two years unless the contract provided for in section 422a of this title shall have been executed.

(d) *Appropriation; nonapplicability.*

No appropriation shall be made for financial participation in any such project prior to sixty calendar days (which sixty days, however, shall not include days on which either the House of Representatives or the Senate is not in session because of an adjournment of more than three calendar days to a day certain) from the date on which the Secretary's findings and approval are submitted to the Congress and then only if, within said sixty days, neither the House nor the Senate Interior and Insular Affairs Committee disap-

proves the project proposal by committee resolution. The provisions of this subsection (d) shall not be applicable to proposals made under section 422f of this title.

(e) *Consideration of financial feasibility, emergency, or urgent need; jurisdiction and control of project works and facilities.*

The Secretary shall give due consideration to financial feasibility emergency, or urgent need for the project, whether the proposal involves furnishing supplemental irrigation water for an existing irrigation project, whether the proposal involves rehabilitation of existing irrigation project works, and whether the proposed project is primarily for irrigation. All project works and facilities constructed under section 422a to 422k of this title shall remain under the jurisdiction and control of the local contracting organization subject to the terms of the repayment contract. (Aug. 6, 1956, ch. 972, § 4, 70 Stat. 1044; June 5, 1957, Pub. L. 85-47, § 1(a), (b), 71 Stat. 48; Sept. 2, 1966, Pub. L. 89-553, § 1(2), (3), 80 Stat. 376.)

§ 422e. *Contract requirements.*

Upon approval of any project proposal by the Secretary under the provisions of section 422d of this title, he may negotiate a contract which shall set out, among other things—

(a) the maximum amount of any loan to be made to the organization and the time and method of making the same available to the organization. Said loan shall not exceed the lesser of (1) \$6,500,000 or (2) the estimated total cost of the project minus the contribution of the local organization as provided in section 422d(b) of this title and the amount of the grant approved;

(b) the maximum amount of any grant to be accorded the organization. Said grant shall not exceed the sum of the following: (1) the costs of investigations, surveys, and engineering and other services necessary to the preparation of proposals and plans for the project allocable to fish and wildlife enhancement or public recreation; (2) one-half the costs of acquiring lands or interests therein for a reservoir or other area to be operated for fish and wildlife enhancement or public recreation purposes; (3) one-half the costs of basic public outdoor recreation facilities or facilities serving fish and wildlife enhancement purposes exclusively; (4) one-half the costs of construction of joint use facilities properly allocable to fish and wildlife enhancement or public recreation; and (5) that portion of the estimated cost of constructing the project which, if it were constructed as a Federal reclamation project, would be properly allocable to functions, other than recreation and fish and wildlife enhancement, which are nonreimbursable under general provisions of law applicable to such projects;

(c) a plan of repayment by the organization of (1) the sums lent to it in not more than fifty years from the date when the principal benefits of the project first become available; (2) interest, as determined by the Secretary of the Treasury, as of the beginning of the fiscal year in which the contract is executed, on the basis of the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations, which are neither due nor callable for redemption for fifteen years from date of issue, and by adjusting such average rate to the nearest one-eighth of 1 per centum, on that portion of the loan which is attributable to furnishing irrigation benefits in each particular year to land held in private ownership by any one owner in excess of one hundred and sixty irrigable acres; and (3) in

the case of any project involving an allocation to domestic, industrial, or municipal water supply, or commercial power, interest on the unamortized balance of an appropriate portion of the loan at a rate as determined in (2) above;

(d) provision for operation of the project, if a grant predicated upon its performance of non-reimbursable functions is made, in accordance with regulations with respect thereto prescribed by the head of the Federal department or agency primarily concerned with those functions and, in the event of noncompliance with such regulations, for operation by the United States of the amount of any such grant;

(e) such provisions as the Secretary shall deem necessary or proper to provide assurance of an security for prompt repayment of the loan and interest as aforesaid. The liability of the United States under any contract entered into pursuant to sections 422a to 422k of this title shall be contingent upon the availability of appropriations to carry out the same, and every such contract shall so recite; and

(f) provisions conforming to the preference requirements contained in the proviso to section 485h (c) of this title, if the project produces electric power for sale. (Aug. 6, 1956, ch. 972, § 5, 70 Stat. 1046; June 5, 1957, Pub. L. 85-47, § 1 (c), 71 Stat. 49; Sept. 2, 1966, Pub. L. 89-553, § 1(4), 80 Stat. 376.)

§ 422f. Proposals for projects previously authorized: waiver of requirements; approval; negotiation of contract.

Any proposal with respect to the construction of a project which has theretofore been authorized for construction under the Federal reclamation laws shall be made in like manner as a proposal under section 422d of this title, but the Secretary may waive such requirements of subsections (a) and (b) of section 422d of this title as he finds to be duplicative of, or rendered unnecessary or impossible by, action already taken by the United States. Upon approval of any such proposal by the Secretary he may negotiate and execute a contract which conforms, as nearly as may be, to the provisions of section 422 of this title. (Aug. 6, 1956, ch. 972, § 6, 70 Stat. 1046.)

§ 422g. Information from Federal agencies; costs.

Upon request of an organization which has made or intends to make a proposal under sections 422a to 422k of this title, the head of any Federal department or agency may make available to the organization any existing engineering, economic, or hydrologic information and printed material that it may have and that will be useful in connection with the planning, design, construction, or operation and maintenance of the project concerned. The reasonable cost of any plans, specifications, and other unpublished material furnished by the Secretary pursuant to this section and the cost of making and administering any loan under sections 422a to 422k of this title shall, to the extent that they would not be nonreimbursable in the case of a project, constructed under the Federal reclamation laws, be treated as a loan and covered in the provisions of the contract entered into under section 422e of this title unless they are otherwise paid for by the organization. (Aug. 6, 1956, ch. 972, § 7, 70 Stat. 1047.)

§ 422i. Rules and regulations.

The Secretary is authorized to perform any and all acts and to make such rules and regulations as

may be necessary or proper in carrying out the provisions of sections 422a to 422k of this title. (Aug. 6, 1956, ch. 972, § 9, 70 Stat. 1047.)

§ 422j. Appropriations; notice to Congress of receipt of proposal; funds to initiate proposal; availability of appropriations; reimbursement.

There are authorized to be appropriated, such sums as may be necessary, but not to exceed \$200,000,000, to carry out the provisions of sections 422a to 422k of this title: *Provided*, That the Secretary shall advise the Congress promptly on the receipt of each proposal referred to in section 422b of this title, and no contract shall become effective until appropriated funds are available to initiate the specific proposal covered by each contract. All such appropriations shall remain available until expended and shall, insofar as they are used to finance loans made under sections 422a to 422k of this title, be reimbursable in the manner hereinabove provided. (Aug. 6, 1956, ch. 972, § 10, 70 Stat. 1047; Sept. 2, 1966, Pub. L. 89-553, § 1(6), 80 Stat. 377.)

§ 422k. Supplement to Federal reclamation laws; short title.

Sections 422a to 422k of this title shall be a supplement to the Federal reclamation laws and may be cited as the Small Reclamation Projects Act of 1956. (Aug. 6, 1956, ch. 972, § 11, 70 Stat. 1047.)

Payment of Construction Charges

§ 485. Declaration of policy.

For the purpose of providing for United States reclamation projects a feasible and comprehensive plan for an economical and equitable treatment of repayment problems and for variable payments of construction charges which can be met regularly and fully from year to year during periods of decline in agricultural income and unsatisfactory conditions of agriculture as well as during periods of prosperity and good prices for agricultural products, and which will protect adequately the financial interest of the United States in said projects, obligations to pay construction charges may be revised or undertaken pursuant to the provisions of sections 375a, 387 to 389 and 485 to 485b-1, 485d to 485h, 485i to 485k of this title. (Aug. 4, 1939, ch. 418, § 1, 53 Stat. 1187.)

§ 485a. Definitions.

As used in sections 375a, 387 to 389 and 485 to 485b-1, 485d to 485h, 485i to 485k of this title—

(a) The term "Federal reclamation laws" shall mean the Act of June 17, 1902 (32 Stat. 388), and all acts amendatory thereof supplementary thereto.

(b) The term "Secretary" shall mean the Secretary of the Interior.

(c) The term "project" shall mean any reclamation or irrigation project, including incidental features thereof, authorized by the Federal reclamation laws, or constructed by the United States pursuant to said laws, or in connection with which there is a repayment contract executed by the United States, pursuant to said laws, or any project constructed or operated and maintained by the Secretary through the Bureau of Reclamation for the reclamation of arid lands or other purposes.

(d) The term "construction charges" shall mean the amounts of principal obligations payable to the United States under water-right applications, repayment contracts, orders of the Secretary, or other forms of obligation entered into pursuant to the Federal reclamation laws, excepting amounts payable for water rental or power charges, operation and maintenance and other yearly service charges, and excepting also any other operation and maintenance, interest, or other charges which are not covered into the principal sums of the construction accounts of the Bureau of Reclamation.

(e) The term "repayment contract" shall mean any contract providing for payment of construction charges to the United States.

(f) The term "project contract unit" shall mean a project or any substantial area of a project which is covered or is proposed to be covered by a repayment contract. On any project where two or more repayment contracts in part cover the same area and in part different areas, the area covered by each such repayment contract shall be a separate project contract unit. On any project where there are either two or more repayment contracts on a single project contract unit or two or more project contract units, the repayment contracts or project contract units may be merged by agreements in form satisfactory to the Secretary.

(g) The term "organization" shall mean any conservancy district irrigation district, water users' association, or other organization, which is organized under State law and which has capacity to enter into contracts with the United States pursuant to the Federal reclamation laws.

(h) The term "division of a project" shall mean any part of a project designated as a division by order of the Secretary or any phase or feature of project operations given a separate designation as a division by order of the Secretary for the purposes of orderly and efficient administration.

(i) The term "development unit" shall mean a part of a project which, for purposes of orderly engineering or reclamation development, is designated as a development unit by order of the Secretary.

(j) The term "irrigation block" shall mean an area of arid or semiarid lands in a project in which, in the judgment of the Secretary, the irrigable lands should be reclaimed and put under irrigation at substantially the same time, and which is designated as an irrigation block by order of the Secretary. (Aug. 4, 1939, ch. 418, § 2, 53 Stat. 1187; Aug. 8, 1958, Pub. L. 85-611, § 3, 72 Stat. 543.)

§ 485b. Amendment of existing repayment contracts.

In connection with any repayment contract or other form of obligation, existing on August 4, 1939, to pay construction charges, providing for repayment on the basis of a definite period, the Secretary is authorized, upon request by the water users involved or their duly authorized representatives for amendment under this section of said contract or other form of obligation, and if in the Secretary's judgment such amendment is both practicable and in keeping with the general purpose of sections 375a, 387 to 389 and 485 to 485d to 485i to 485k of this title, to amend said contract or other form of obligation so as to provide that the construction charges remaining unaccrued on the date of the amendment, or any later date agreed upon, shall be spread in definite annual installments on the basis of a longer definite period fixed in each case by the Secretary:

Provided, That for any construction charges said longer period shall not exceed forty years, exclusive of 1931 and subsequent years to the extent of moratoria or deferments of construction charges due and payable for such years effected pursuant to Acts of Congress, from the date when the first installment of said construction charges becomes due and payable under the original obligation to pay said construction charges and in no event shall the unexpired part of said longer period exceed double the number of remaining years, as of the date of the amendment made pursuant to sections 375a, 387 to 389 and 485 to 485b-1, 485d to 485h, 485i to 485k of this title, in which installments of said construction charges would become due and payable under said existing repayment contract or other form of obligation to pay construction charges. (Aug. 4, 1939, ch. 418, § 3, 53 Stat. 1188.)

§ 485b-1. Deferment of installments under repayment contracts; determination of undue burden; conditions; supplemental contract; report to Congress.

(a) The authority granted in section 485b of this title for modification of existing repayment contracts or other forms of obligations to pay construction charges shall continue through December 31, 1960.

(b) The Secretary is authorized, subject to the provisions of this subsection to defer the time for the payment of such part of any installments of construction charges under any repayment contract or other form of obligation as he deems necessary to adjust such installments to amounts within the probable ability of the water users to pay. Any such deferment shall be effected only after findings by the Secretary that the installments under consideration probably cannot be paid on their due date without undue burden on the water users, considering the various factors which in the Secretary's judgment bear on the ability of the water users so to pay.

The Secretary may effect the deferments hereunder subject to such conditions and provisions relating to the operation and maintenance of the project involved as he deems to be in the interest of the United States. If, however, any deferments would affect installments to accrue more than twelve months after the action of deferment, they shall be effected only by a formal supplemental contract. Such a contract shall provide by its terms that, it being only an interim solution of the repayment problems dealt with therein, its terms are not, in themselves, to be construed as a criterion of the terms of any amendatory contract that may be negotiated and that any such amendatory contract must be approved by the Congress unless it does not lengthen the repayment period for the project in question beyond that permitted by the laws applicable to that project, involves no reduction in the total amount payable by the water users, and is not in other respects less advantageous to the Government than the existing contract arrangements. The Secretary shall report to the Congress all deferments granted under this subsection. (Aug. 4, 1939, ch. 418, § 17, 53 Stat. 1198; Apr. 24, 1945, ch. 94, § 3, 59 Stat. 76; Aug. 8, 1958, Pub. L. 85-611, § 3, 72 Stat. 543; Sept. 21, 1959, Pub. L. 86-308, § 1, 73 Stat. 584.)

* * *

§ 485d. Time of payments to the United States.

The Secretary in his discretion may require, in connection with any contract entered into pursuant to the authority of sections 375a, 387 to 389

and 485 to 485b-1, 485d to 485h, 485i to 485k of this title, that the contract provide (1) that the payments for each year to be made to the United States shall become due and payable on such date or dates, not exceeding two, in each year as the Secretary determines will be substantially contemporaneous with the time or times in each year when water users receive crop returns and (2) if the contract be with an organization, that assessments or levies for the purpose of obtaining moneys sufficient to meet the organization's payments under said contract shall be made and shall become due and payable within a certain period or periods of time prior to the date or dates on which the organization's payments to the United States are due and payable, said period or periods of time to be agreed upon in each said contract.

The Secretary may provide such deferments of construction charges as in his judgment are necessary to prevent said requirements from resulting in inequitable pyramiding of payments of said charges. (Aug. 4, 1939, ch. 418, § 5, 53 Stat. 1191.)

§ 485e. Maintenance and operation of project works; delinquency penalties.

In connection with any contract, relating to construction charges, entered into pursuant to the authority of sections 375a, 387 to 389 and 485 to 485k of this title, the Secretary is authorized to require such provisions as he deems proper to secure the adoption of proper accounting, to protect the condition of project works and to provide for the proper use thereof, and to protect project lands against deterioration due to improper use of water. Any such contract shall require advance payment of adequate operation and maintenance charges. The Secretary is further authorized, in his discretion, to require such provisions as he deems proper to penalize delinquencies in payments of construction charges or operation and maintenance charges: *Provided*, That in any event there shall be penalties imposed on account of delinquencies of not less than one-half of 1 per centum per month of the delinquent charge from and after the date when such charge becomes due and payable: *Provided further*, That any such contract shall require that no water shall be delivered to lands or parties which are in arrears in the advance payment of operation and maintenance or toll charges, or to lands or parties which are in arrears for more than twelve months in the payment of construction charges due from such lands or parties to the United States or to the organization in which the lands or parties are included, or to any lands or parties included in an organization which is in arrears in the advance payment of operation and maintenance or toll charges or in arrears more than twelve months in the payment of construction charges due from such organization to the United States. (Aug. 4, 1939, ch. 418, § 6, 53 Stat. 1191.)

§ 485f. Negotiation of equitable contracts by Secretary.

(a) Existing project contract unit.

The Secretary is authorized and directed to investigate the repayment problems of any existing project contract unit in connection with which, in his judgment, a contract under section 485b or 485e of this title would not be practicable nor provide an economically sound adjustment, and to negotiate a contract which, in his judgment, both would provide fair and equitable treatment of the repayment problems involved and would be in keeping with the general purpose of sections 375a, 387 to 389 and 485 to 485b-1, 485d to 485h, 485i to 485k of this title.

(b) New projects or projects under construction; public lands; development periods.

For any project, division of a project, development unit of a project, or supplemental works on a project, under construction on August 4, 1939, or for which appropriations had been made, and in connection with which a repayment contract had not been executed, allocations of costs may be made in accordance with the provisions of section 485h of this title and a repayment contract may be negotiated, in the discretion of the Secretary, (1) pursuant to the authority of subsection (a) of this section or (2) in accordance, as near as may be, with the provisions in section 485h (d) or 485h (e) of this title. In connection with any such project, division, or development unit, on which the majority of the lands involved are public lands of the United States, the Secretary, prior to entering into a repayment contract, may fix a development period for each irrigation block, if any, of not to exceed ten years from and including the first year in which water is delivered for the lands in said block: *Provided*, That in the event a development period is fixed prior to execution of a repayment contract, execution thereof shall be a condition precedent to delivery of water after the close of the development period. During any such development period water shall be delivered to the lands in the irrigation block involved only on a toll-charge basis, at a charge per annum per acre-foot to be fixed by the Secretary each year and to be collected in advance of delivery of water. Pending negotiation and execution of a repayment contract for any other such project, division, or development unit, water may be delivered for a period of not more than five years from August 4, 1939, on the same toll-charge basis. Any such toll charges collected and which the Secretary determines to be in excess of the cost of operation and maintenance during the toll-charge period shall be credited to the construction cost of the project in the manner determined by the Secretary.

(c) Report of proposed contracts to Congress; approval; amendment after approval.

The Secretary from time to time shall report to the Congress on any proposed contracts negotiated pursuant to the authority of subsection (a) or (b) (1) of this section, and he may execute any such contract on behalf of the United States only after approval thereof has been given by Act of Congress. Contracts, so approved, however, may be amended from time to time by mutual agreement and without further approval by Congress if such amendments are within the scope of authority granted prior to or after April 24, 1945, to the Secretary under any Act, except that amendments providing for repayment of construction charges in a period of years longer than authorized by sections 375a, 387 to 389, and 485 to 485b-1, 485d to 485h, 485i to 485k of this title, shall be effective only when approved by Congress. (Aug. 4, 1939, ch. 418, § 7, 53 Stat. 1192; Apr. 24, 1945, ch. 94, § 2, 59 Stat. 76.)

§ 485g. Classification of lands.

(a) Generally.

The Secretary is authorized and directed in the manner hereinafter provided to classify or to reclassify, from time to time but not more often than at five-year intervals, as to irrigability and productivity those lands which have been, are, or may be included within any project.

(b) Necessity for request.

No classification or reclassification pursuant to the authority of sections 375a, 387 to 389 and 485 to 485b-1, 485d to 485h, 485i to 485k of this title

shall be undertaken unless a request therefor, by an organization or duly authorized representatives of the water users, in the form required by subsection (c) of this section has been made of the Secretary. The Secretary shall plan the classification work, undertaken pursuant to the authority of this section, in such manner as in his judgment will result in the most expeditious completion of the work.

(c) *Furnishing data.*

In any request made to the Secretary for a land classification or reclassification under this section, the organization or representatives of the water users shall furnish a list of those lands which are considered to be of comparatively low productivity or to be nonproductive, and of those lands which are considered to be of greater or lesser productivity than indicated by existing classifications, if any, made pursuant to the Federal reclamation laws, and shall furnish also such data relating thereto as the Secretary by regulation may require.

(d) *Primary determination.*

Upon receipt of any such request the Secretary shall make a preliminary determination whether the requested land classification or reclassification probably is justified by reason of the conditions of the lands involved and other pertinent conditions of the project, including its contractual relations with the United States.

(e) *Probable justification.*

If the Secretary finds probable justification and if the advance to the United States hereinafter required is made, he shall undertake as soon as practicable the classification or reclassification of the lands listed in the request, and of any other lands which have been, are, or may be included within the project involved and which in his judgment should be classified or reclassified.

(f) *Report to Congress.*

As soon as practicable after completion of the classification work undertaken pursuant to this section, or from time to time, the Secretary shall report to Congress on the classifications and reclassifications made and shall include in his report, as to each project involved, his recommendations, if any, for remedial legislation.

(g) *Expenses.*

One-half of the expense involved in any classification work undertaken pursuant to this section shall be charged to operation and maintenance administration nonreimbursable; and one-half shall be paid in advance by the organization involved. On determining probable justification for the requested classification or reclassification as provided in this section, the Secretary shall estimate the cost of the work involved and shall submit a statement of the estimated cost to said organization. Said organization, before commencement of the work, shall advance to the United States one-half of the amount set forth in said statement and also shall advance one-half of the amount of supplementary estimates of costs which the Secretary may find it necessary to make from time to time during the progress of the work; and said amounts shall be and remain available for expenditure by the Secretary for the purposes for which they are advanced, until the work is completed or abandoned. After completion or abandonment of the work, the Secretary shall determine the actual costs thereof; and said organization shall pay any additional amount required to make its total payments hereunder equal to one-half of the actual cost or shall be credited with any amount by which advances made by it

exceed one-half of said actual cost, as the case may be.

(h) *Classification as prerequisite to contract.*

If in the judgment of the Secretary a classification or reclassification pursuant to the provisions of this section is a necessary preliminary to entering into a contract under section 485b or 485c of this title, he may require the same as a condition precedent to entering into such a contract.

(i) *Modification of existing obligations.*

No modification of any existing obligation to pay construction charges on any project shall be made by reason of any classification or reclassification undertaken pursuant to this section without express authority therefor granted by Congress upon recommendations of the Secretary made in a report under subsection (f) of this section. (Aug. 4, 1939, ch. 418, § 8, 53 Stat. 1192.)

§ 485h. New projects; sale of water and electric power; lease of power privileges.

(a) *Findings of Secretary.*

No expenditures for the construction of any new project, new division of a project, or new supplemental works on a project shall be made, nor shall estimates be submitted therefor, by the Secretary until after he has made an investigation thereof and has submitted to the President and to the Congress his report and findings on—

(1) the engineering feasibility of the proposed construction;

(2) the estimated cost of the proposed construction;

(3) the part of the estimated cost which can properly be allocated to irrigation and probably be repaid by the water users;

(4) the part of the estimated cost which can properly be allocated to power and probably be returned to the United States in net power revenues;

(5) the part of the estimated cost which can properly be allocated to municipal water supply or other miscellaneous purposes and probably be returned to the United States.

If the proposed construction is found by the Secretary to have engineering feasibility and if the repayable and returnable allocations to irrigation, power, and municipal water supply or other miscellaneous purposes found by the Secretary to be proper, together with any allocation to flood control or navigation made under subsection (b) of this section, equal the total estimated cost of construction as determined by the Secretary, then the new project, new division of a project, or supplemental works on a project, covered by his findings, shall be deemed authorized and may be undertaken by the Secretary. If all such allocations do not equal said total estimated cost, then said new project, new division, or new supplemental works may be undertaken by the Secretary only after provision therefor has been made by Act of Congress enacted after the Secretary has submitted to the President and the Congress the report and findings involved.

(b) *Allocation of part of cost to flood control or navigation.*

In connection with any new project, new division of a project, or supplemental works on a project there may be allocated to flood control or navigation the part of said total estimated cost which the Secretary may find to be proper. Items for any such allocations made in connection with projects which may be undertaken pursuant to subsection (a) of this section shall be included in

the estimates of appropriations submitted by the Secretary for said projects, and funds for such portions of the projects shall not become available except as directly appropriated or allotted to the Department of the Interior. In connection with the making of such an allocation, the Secretary shall consult with the Chief of Engineers and the Secretary of the Army, and may perform any of the necessary investigations or studies under a cooperative agreement with the Secretary of the Army. In the event of such an allocation the Secretary of the Interior shall operate the project for purposes of flood control or navigation, to the extent justified by said allocation therefor.

(c) *Furnishing water to municipalities; sale of electric power; lease of power privileges.*

The Secretary is authorized to enter into contracts to furnish water for municipal water supply or miscellaneous purposes: *Provided*, That any such contract either (1) shall require repayment to the United States, over a period of not to exceed forty years from the year in which water first delivered for the use of the contracting party, with interest not exceeding the rate of 3½ per centum per annum if the Secretary determines an interest charge to be proper, of an appropriate share as determined by the Secretary of that part of the construction costs allocated by him to municipal water supply or other miscellaneous purposes; or (2) shall be for such periods, not to exceed forty years, and at such rates as in the Secretary's judgment will produce revenues at least sufficient to cover an appropriate share of the annual operation and maintenance cost and an appropriate share of such fixed charges as the Secretary deems proper, and shall require the payment of said rates each year in advance of delivery of water for said year. Any sale of electric power or lease of power privileges, made by the Secretary in connection with the operation of any project or division of a project, shall be for such periods, not to exceed forty years, and at such rates as in the Secretary's judgment will produce power revenues at least sufficient to cover an appropriate share of the annual operation and maintenance cost, interest on an appropriate share of the construction investment at not less than 3 per centum per annum, and such other fixed charges as the Secretary deems proper: *Provided further*, That in said sales or leases preference shall be given to municipalities and other public corporations or agencies; and also to cooperatives and other nonprofit organizations financed in whole or in part by loans made pursuant to the Rural Electrification Act of 1936. Nothing in this subsection shall be applicable to provisions in existing contracts, made pursuant to law, for the use of power and miscellaneous revenues of a project for the benefit of users of water from such project. The provisions of this subsection respecting the terms of sales of electric power and leases of power privileges shall be in addition and alternative to any authority in existing laws relating to particular projects. No contract relating to municipal water supply or miscellaneous purposes or to electric power or power privileges shall be made unless, in the judgment of the Secretary, it will not impair the efficiency of the project for irrigation purposes.

(d) *Delivery of water for irrigation; repayment contract prerequisites.*

No water may be delivered for irrigation of lands in connection with any new project, new division of a project, or supplemental works on a project until an organization, satisfactory in form and powers to the Secretary, has entered into a

repayment contract with the United States, in a form satisfactory to the Secretary, providing among other things—

(1) That the Secretary may fix a development period for each irrigation block, if any, of not to exceed ten years from and including the first calendar year in which water is delivered for the lands in said block; and that during the development period water shall be delivered to the lands in the irrigation block involved at a charge per annum per acre-foot, or other charge, to be fixed by the Secretary each year and to be paid in advance of delivery of water: *Provided*, That where the lands included in an irrigation block are for the most part lands owned by the United States, the Secretary, prior to execution of a repayment contract, may fix a development period, but in such case execution of such a contract shall be a condition precedent to delivery of water after the close of the development period: *Provided further*, That when the Secretary, by contract or by notice given thereunder, shall have fixed a development period of less than ten years, and at any time thereafter but before commencement of the repayment period conditions arise which in the judgment of the Secretary would have justified the fixing of a longer period, he may amend such contract or notice to extend such development period to a date not to exceed ten years from its commencement, and in a case where no development period was provided, he may amend such contract within the same limits: *Provided further*, That when the Secretary shall have deferred the payment of all or any part of any installments of construction charges under any repayment contract pursuant to the authority of the Act of September 21, 1959, he may, at any time prior to the due date prescribed for the first installment not reduced by such deferment, and by agreement with the contracting organization, terminate the supplemental contract by which such deferment was effected, credit the construction payments made, and exercise the authority granted in this section. After the close of the development period, any such charges collected and which the Secretary determines to be in excess of the cost of the operation and maintenance during the development period shall be credited to the construction cost of the project in the manner determined by the Secretary.

(2) That the part of the construction costs allocated by the Secretary to irrigation shall be included in a general repayment obligation of the organization; and that the organization may vary its distribution of construction charges in a manner that takes into account the productivity of the various classes of lands and the benefits accruing to the lands by reason of the construction: *Provided*, That no distribution of construction charges over the lands included in the organization shall in any manner be deemed to relieve the organization or any party or any land therein of the organization's general obligation to the United States.

(3) That the general repayment obligation of the organization shall be spread in annual installments, of the number and amounts fixed by the Secretary, over a period of not more than 40 years, exclusive of any development period fixed under paragraph (1) of this subsection, for any project contract unit or, if the project contract unit be divided into two or more irrigation blocks, for any such block, or as near to said period of not more than forty years as is con-

sistent with the adoption and operation of a variable payment formula which, being based on full repayment within such period under average conditions, permits variance in the required annual payments in the light of economic factors pertinent to the ability of the organization to pay.

(4) That the first annual installment for any project contract unit, or for any irrigation block, as the case may be, shall accrue, on the date fixed by the Secretary, in the year after the last year of the development period or, if there be no development period, in the calendar year after the Secretary announces that the construction contemplated in the repayment contract is substantially completed or is advanced to a point where delivery of water can be made to substantially all of the lands in said unit or block to be irrigated; and if there be no development period fixed, that prior to and including the year in which the Secretary makes said announcement water shall be delivered only on the toll charge basis hereinbefore provided for development periods.

(e) *Contracts to furnish water.*

In lieu of entering into a repayment contract pursuant to the provisions of subsection (d) of this section to cover that part of the cost of the construction of works connected with water supply and allocated to irrigation, the Secretary, in his discretion, may enter into either short- or long-term contracts to furnish water for irrigation purposes. Each such contract shall be for such period, not to exceed forty years, and at such rates as in the Secretary's judgment will produce revenues at least sufficient to cover an appropriate share of the annual operation and maintenance cost and an appropriate share of such fixed charges as the Secretary deems proper, due consideration being given to that part of the cost of construction of works connected with water supply and allocated to irrigation; and shall require payment of said rates each year in advance of delivery of water for said year. In the event such contracts are made for furnishing water for irrigation purposes, the costs of any irrigation water distribution works constructed by the United States in connection with the new project, new division of a project, or supplemental works on a project, shall be covered by a repayment contract entered into pursuant to subsection (d) of this section. (Aug. 4, 1939, ch. 418, § 9, 53 Stat. 1193; Aug. 8, 1958, Pub. L. 85-611, §§ 1, 3, 72 Stat. 542, 543; Aug. 28, 1962, Pub. L. 87-613, § 2, 76 Stat. 407.)

§ 485h-1. Administration of repayment contracts and long-term contracts to furnish water; renewal and conversion; credit for payments; right to available water supply; rates; construction component.

In administering subsections (d) and (e) of section 485h of this title, the Secretary of the Interior shall—

(1) include in any long-term contract hereafter entered into under subsection (e) of section 485h of this title provision, if the other contracting party so requests, for renewal thereof under stated terms and conditions mutually agreeable to the parties. Such terms and conditions shall provide for an increase or decrease in the charges set forth in the contract to reflect, among other things, increases or decreases in construction, operation, and maintenance costs and improvement or deterioration in the party's repayment capacity. Any

right of renewal shall be exercised within such reasonable time prior to the expiration of the contract as the parties shall have agreed upon and set forth therein;

(2) include in any long-term contract hereafter entered into under subsection (e) of section 485h of this title with a contracting organization provision, if the organization so requests, for conversion of said contract, under stated terms and conditions mutually agreeable to the parties, to a contract under subsection (d) of section 485h of this title at such time as, account being taken of the amount credited to return by the organization as hereinafter provided, the remaining amount of construction cost which is properly assignable for ultimate return by it can probably be repaid to the United States within the term of a contract under subsection (d) of section 485h of this title;

(3) credit each year to every party which has entered into or which shall enter into a long-term contract pursuant to subsection (e) of section 485h of this title so much of the amount paid by said party on or before the due date as is in excess of the share of the operation and maintenance costs of the project which the Secretary finds is properly chargeable to that party. Credit for payments heretofore made under any such contract shall be established by the Secretary as soon after July 2, 1956, as it is feasible for him to do so. After the sum of such credits is equal to the amount which would have been for repayment by the party if a repayment contract under subsection (d) of section 485h of this title had been entered into, which amount shall be established by the Secretary upon completion of the project concerned or as far in advance thereof as is feasible, no construction component shall be included in any charges made for the furnishing of water to the contracting party and any charges theretofore fixed by contract or otherwise shall be reduced accordingly;

(4) provide that the other party to any contract entered into pursuant to subsection (d) of section 485h of this title or to any long-term contract entered into pursuant to subsection (e) of section 485h of this title shall, during the term of the contract and of any renewal thereof and subject to fulfillment of all obligations thereunder, have a first right (to which right the rights of the holders of any other type of irrigation water contract shall be subordinate) to a stated share or quantity of the project's available water supply for beneficial use on the irrigable lands within the boundaries of, or owned by, the party and a permanent right to such share or quantity upon completion of payment of the amount assigned for ultimate return by the party subject to payment of an appropriate share of such costs, if any, as may thereafter be incurred by the United States in its operation and maintenance of the project works; and

(5) provide for payment of rates under any contract entered into pursuant to subsection (e) of section 485h of this title in advance of delivery of water on an annual or semiannual basis as specified in the contract.

(6) include a reasonable construction component in the rates set out in any long-term contract hereafter entered into under subsection (e) of section 485h of this title prior to amortization of that part of the cost of constructing the project which is assigned to be repaid by the contracting party.

(July 2, 1956, ch. 492, § 1, 70 Stat. 483.)

§ 485h-2. Same; amendments to existing contracts.

The Secretary is authorized to negotiate amendments to existing contracts entered into pursuant to subsection (e) of section 485h of this title to conform said contracts to the provisions of sections 485h-1 to 485h-5 of this title. (July 2, 1956, ch. 492, § 2, 70 Stat. 484.)

§ 485h-3. Same; definition of long-term contract.

As used in sections 485h-1 to 485h-5 of this title, the term "long-term contract" shall mean any contract the term of which is more than ten years. (July 2, 1956, ch. 492, § 3, 70 Stat. 484.)

§ 485h-4. Same; effect on State laws; right to use of water.

Nothing in sections 485h-1 to 485h-5 of this title shall be construed as affecting or intended to affect or to in any way interfere with the laws of any State relating to the control, appropriation, use, or distribution of water used in irrigation, or any vested right acquired thereunder, and the Secretary in carrying out the provisions of such sections, shall proceed in conformity with such laws, and nothing herein shall in any way affect any right of any State or of the Federal Government or of any landowner, appropriator, or user of water in, to, or from any interstate stream or the waters thereof: *Provided*, That the right to the use of water acquired under the provisions of such sections shall be appurtenant to the land irrigated and beneficial use shall be the basis, the measure, and the limit of the right. (July 2, 1956, ch. 492, § 4, 70 Stat. 484.)

§ 485h-5. Same; supplement to Federal reclamation laws.

Sections 485h-1 to 485h-5 of this title shall be a supplement to the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof or supplementary thereto). (July 2, 1956, ch. 492, § 5, 70 Stat. 484.)

§ 485h-6. Repayment contracts; amendment for provision, addition or modification of irrigation blocks.

After the execution of a contract pursuant to the authority of section 9(d)(1) of the Reclamation Project Act of 1939 and prior to the commencement of the development period provided thereunder, the Secretary of the Interior is authorized to amend such contract to provide for irrigation blocks, or if such are already provided, to add to or modify such irrigation blocks, as he shall deem desirable to carry out the purposes of that Act. (Pub. L. 87-613, § 1, Aug. 28, 1962, 76 Stat. 407.)

§ 485h-7. Same; amendment for payment of annual installments in two parts.

In any repayment contract which provides for payment of construction charges by single annual installments, the Secretary may by agreement with the contracting organization amend such contract to provide for the payment of such annual installments in two parts on such dates in the calendar year as may best enable the contracting organization to meet its payments. (Pub. L. 87-613, § 3, Aug. 28, 1962, 76 Stat. 408.)

§ 485i. Rules and regulations.

The Secretary is authorized to perform any and all acts and to make such rules and regulations as may be necessary and proper for the purpose of carrying the provisions of sections 375a, 387 to 389 and 485 to 485b-1, 485d to 485h, 485i to 485k of this title into full force and effect. (Aug. 4, 1939, ch. 418, § 15, 53 Stat. 1198.)

§ 485j. Effect on existing laws.

The provisions of previous Acts of Congress not inconsistent with the provisions of sections 375a, 387 to 389 and 485 to 485b-1, 485d to 485h, 485i to 485k of this title shall remain in full force and effect. (Aug. 4, 1939, ch. 418, § 16, 53 Stat. 1198.)

§ 485k. Short title.

Sections 375a, 387 to 389 and 485 to 485b-1, 485d to 485h, 485i to 485k of this title may be cited as the "Reclamation Project Act of 1939." (Aug. 4, 1939, ch. 418, § 19, 53 Stat. 1198.)

Mar. 25, 1936.

The order of September 20, 1919, and all subsequent orders opening unallotted Indian lands to exploration, location, and lease for the mining of metalliferous and nonmetalliferous minerals other than oil and gas, pursuant to the provisions of section 26 of the act of June 30, 1919 (41 Stat. 31), as amended by the acts of March 3, 1921 (41 Stat. 1231), and December 16, 1926 (44 Stat. 922-923), are hereby revoked, and the lands so opened are hereby withdrawn and closed to exploration, location, and leasing under the said acts until further orders. Where valid locations have already been made, however, they may be followed by application for lease under the regulations heretofore prescribed by the Department for the granting of such leases; and existing leases in good standing now shall not be disturbed hereby.

Secretary of the Interior.

ORDER OF RESTORATION

Pine Ridge Reservation, South Dakota

Whereas, under authority contained in the Act of Congress approved May 27, 1910 (36 Stat. 440), providing for the classification and disposition of surplus unallotted lands in Bennett County, in the Pine Ridge Reservation, State of South Dakota, certain classes of said surplus lands were opened to settlement and entry under the general provisions of the homestead laws and of the said Act of Congress, by Presidential proclamation of June 29, 1911 (37 Stat. 1691), and

Whereas, there are now remaining undisposed of on the opened portion of the Pine Ridge Reservation a number of tracts of said surplus lands which, while of little value for the original purpose of settlement and entry, upon thorough investigation have been found to be valuable to the Indians of the said reservation, and

Whereas, by relinquishment and cancellation of homestead entries a small additional area of similar lands may be included within the class of undisposed of surplus lands, and

Whereas, the Tribal Council, the Superintendent of the Pine Ridge Reservation, and the Commissioner of Indian Affairs have recommended restoration to tribal ownership of all such undisposed-of lands in the said reservation,

Now, therefore, by virtue of the authority vested in the Secretary of the Interior by Sections 3 and 7 of the Act of June 18, 1934 (48 Stat. 984), I hereby find that restoration to tribal ownership of all lands which are now, or may hereafter be, classified as undisposed-of surplus opened lands of the Pine Ridge Reservation, will be in the public interest, and the said lands are hereby restored to tribal ownership for the use and benefit of the Oglala Sioux Tribe of the Pine Ridge Reservation of South Dakota, and are added to and made a part of the existing reservation, subject to any valid existing rights.

Should minerals be found, locators have the privilege within one year of entering into a lease covering the land located. In accordance therewith I hereby declare the following described unallotted Indian land on the Hoopa Valley Indian Reservation, California, subject to exploration, and, with the exception of such land therein as may contain springs, water holes, or other bodies of water, subject to location and lease;

THE WHITE HOUSE,

[No. 7369]

1666

ORDER OF RESTORATION**Flathead Reservation, Montana**

April 21, 1936.

Whereas, by Order of the Department of the Interior of February 28, 1910, as amended April 19, 1910, issued pursuant to authority contained in the Act of Congress approved June 21, 1906 (34 Stat. L., 354), the townsite of Blue Bay, among others, was established within the Flathead Indian Reservation, Montana, and

Whereas, there has never been a demand for town lots in the area reserved for the said townsite, and it has never been surveyed into lots and blocks and offered for sale, and it has long been apparent that there is actually no need for, or any advantage in retaining the said townsite, and

Whereas, the Tribal Council, the Superintendent of the Flathead Agency, and the Commissioner of Indian Affairs have recommended restoration to tribal ownership of the lands reserved for the townsite above named,

Now, therefore, by virtue of the authority vested in the Secretary of the Interior by Sections 3 and 7 of the Act of June 18, 1934 (48 Stat. L., 984), I hereby find that restoration to tribal ownership of the lands originally reserved and set aside for the townsite of Blue Bay, on the Flathead Indian Reservation, Montana, will be in the public interest, and the said lands are hereby restored to tribal ownership for the use and benefit of the Confederated Salish and Kootenai Tribes of the Flat-

head Indian Reservation, and are added to and made a part of the existing reservation, subject to any valid existing rights.

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,
 January 18, 1938

[No. 7792]

ROSEBUD RESERVATION, SOUTH
 DAKOTA

Order of Restoration

Whereas, under authority contained in the acts of Congress approved April 23, 1904 (33 Stat. 254), March 2, 1907 (34 Stat. 1230), and May 30, 1910 (36 Stat. 448), providing for the disposal by the United States of large areas of land within the boundaries of the Rosebud Indian Reservation, State of South Dakota, said areas were opened to settlement and entry under the general provisions of the homestead and townsite laws of the United States and of the said acts of Congress by Presidential proclamations of May 13, 1904

(33 Stat. 2354), August 24, 1908 (35 Stat. 2203), and June 29, 1911 (37 Stat. 1691), respectively, and

Whereas, pursuant to authority contained in the act of March 2, 1907, supra, certain tracts of land within the opened portion of the reservation were set aside and reserved for the townsites of Wamblee, Witten, and Wewela, and

Whereas, there are now remaining undisposed of on the said opened portion of the Rosebud Reservation a number of tracts of surplus land, together with a large number of vacant lots within the above mentioned townsites which, while of little value for the original purpose of settlement and entry, upon thorough investigation have been found to be valuable to the Indians of the said reservation, and

Whereas, by relinquishment and cancellation of homestead entries a small additional area of land may be included within the class of undisposed-of surplus land, and

Whereas, the Tribal Council, the Superintendent of the Rosebud Indian Reservation, and the Commissioner of Indian Affairs have recommended restoration to tribal ownership of all such undisposed-of lands in the said reservation.

Whereas there is now remaining undisposed of within the said ceded areas, approximately 29,000 acres of land, which is

of little or no value for its original purpose of entry and settlement, but which will be of value to the Indians if restored to tribal ownership, and where practicable, consolidated by exchanges with other land owners, and

Whereas the Tribal Executive Committee of the Minnesota Chippewa Tribe, the General Council of the Red Lake Band of Chippewa Indians, the Superintendents in charge of the Consolidated Chippewa and Red Lake Agencies and the Commissioner of Indian Affairs have recommended the restoration to tribal ownership of all undisposed-of lands included within the reservation cessions made under the said Act of January 14, 1889, supra, of lands within the reservations named above;

[Order No. 486]

ESTABLISHMENT OF ROADLESS AND WILD AREAS ON INDIAN RESERVATIONS

October 25, 1937.

Mechanization is growing in America with unprecedented acceleration. Activity after activity which for countless generations have been performed directly by manpower and area after area which have been subject only to the forces of nature are now dominated by machinery. To millions of Americans this constitutes an unmitigated blessing.

There are other millions who, while they appreciate the good which the machine can bring, also have an intense craving for another type of existence. They do not see why their life must be lived entirely in the world of machinery when there is ample space in this great country for another world as well. They cannot believe that with vast stretches which need not be used for the mechanical activities of our civilization, it is necessary to make every nook and corner of the country a part of the machine world and to wipe out all sizable traces of the primitive.

It is perfectly feasible to reserve for such people something of those wilderness values which they crave. A little advance planning and a little balancing of the claims of genuine conflicting values will make it possible to save many areas from mechanization. In the past a great many ideal wilderness areas have been opened by roads which were of no necessity and which have never returned in value of service anywhere near the investment

1568

which has been put into them. Had there been a little prior thought about a reasonable balance between primitive and developed areas, these roads would not have been constructed.

From the standpoint of the Indians, it is of special importance to save as many areas as possible from invasion by roads. Almost everywhere they go the Indians encounter the competition and disturbances of the white race. Most of them desire some place which is all their own. If, on reservations where the Indians desire privacy, sizable areas are uninvaded by roads, then it will be possible for the Indians of these tribes to maintain a retreat where they may escape from constant contact with white men.

The present Indian Service policy emphasizes giving the Indians an opportunity to work for their livelihood. One important potential source of enjoyable and remunerative work is for the Indians to guide parties on camping and pack trips. It is obvious that no one is going to require a guide to travel down a road. The possibility for Indians to make money through guiding lies in maintaining portions of their reservations in a wild enough condition so that someone visiting them might conceivably need a guide.

In spite of these important advantages of maintaining roadless areas in general and especially of maintaining them on Indian reservations, it is nevertheless true that roadless areas are rapidly vanishing. The National Resources Board defines a roadless area as one which contains no provision for the passage of motorized transportation and which is at least 100,000 acres in forested country and at least 500,000 acres in non-forested country. Under such a definition there are left in the United States only 82 forest roadless areas and only 29 non-forest roadless areas. The number of such areas on Indian reservations is even more limited. Clearly, it seems exigent to set aside as many as practicable while the opportunity remains. Consequently, I am establishing the policy that existing areas without roads or settlements on Indian reservations should be preserved in such a condition, unless the requirements of fire protection, commercial use for the Indians' benefit or actual needs of the Indians clearly demand otherwise.

Under this policy, I hereby order that the following shall be established as roadless areas on Indian reservations:

Name of area	Reservation	Approximate acreage
Rainbow Bridge	Navajo	1,590,000
Black Mesa	Navajo	820,000
Grand Canyon	Hualpai	530,000
Painted Desert	Navajo	525,000
Black River	San Carlos-Ft. Apache	325,000
Wind River Mountains	Shoshone	220,000
Columbia-San Poil Divide.	Colville	155,000
Mt. Thomas	Ft. Apache	130,000
Mission Range	Flathead	125,000
Mesa Verde	Consolidated Ute	115,000
Goat Rocks	Yakima	105,000
Mt. Jefferson	Warm Springs	105,000

The boundaries of these areas are indicated in the appendix to this order.

There are certain areas, not large enough to be designated by the term roadless, from which it is nevertheless desirable to exclude provision for the passage of motorized transportation. Such tracts the National Resources Board has designated as *wild areas*. I hereby order that the following shall be established as wild areas on Indian reservations:

Name of area	Reservation	Approximate acreage
Mt. Admas	Yakima	48,000
Fort Charlotte	Grand Portage	19,000
Grand Portage	Grand Portage	11,000
Cape Flattery	Makah	5,000

The boundaries of these areas are indicated in the appendix to this order.

Within the boundaries of these officially designated roadless and wild areas it will be the policy of the Interior Department to refuse consent to the construction or establishment of any routes passable to motor transportation, including in this restriction highways, roads, truck trails, work roads, and all other types of way constructed to make possible the passage of motor vehicles either for transportation of people or for the hauling of supplies and equipment. Foot trails and horse trails are not barred. Superintendents of reservations on which roadless and wild areas have been established will be held strictly accountable for seeing that these areas are maintained in a roadless condition. Elimination of any areas or parts of areas from the restriction of this order will be made only upon a written showing of an actual and controlling need.

JOHN COLLIER, *Commissioner*.

Approved, October 29, 1937.

Secretary of the Interior.

**BOUNDARIES OF WIND RIVER
MOUNTAIN ROADLESS AREA**

August 9, 1938.

MR. FORREST R. STONE,
Supt., Wind River Agency.

DEAR MR. STONE: Reference is made to your communications of May 17, June 13 and July 7 recommending a revision of the description of the Wind River Mountain Roadless Area established by Departmental Order No. 486, dated October 25, 1937.¹

You state that the description of the area as set forth in the order and shown on the map does not conform to the bound-

¹ 3 F. R. 708 DI.

aries as established in the field by Mr. Robert Marshall, former Director of Forestry, Mr. George M. Nyce, Regional Forester, and yourself. You also direct attention to the fact that the boundaries as now defined include accessible timber resources required by the Indians for fuel and timber products; and embrace a ranger station, existing roads and other improvements.

An examination of the record indicates that the description as set forth in the order was not definite with respect to the north boundary of the area; and that as a result thereof a straight line was projected on the map between the most northerly points on the east and west boundaries, instead of passing through Bold Mountain as intended.

Accordingly the description of the boundaries of the Wind River Mountain Roadless Area is hereby amended to read as follows:

Starting at the south $\frac{1}{4}$ corner of Section 22, T. 2 S., R. 3 W., on the south boundary of the diminished Wind River Reservation; thence northerly approximately $\frac{1}{2}$ mile to Hobbs Peak; thence in a northerly direction along the divide between Moccasin Creek and Sand Creek to the $\frac{1}{4}$ corner between Sections 28 and 33, T. 1 S., R. 3 W.; thence north 1 mile to the $\frac{1}{4}$ corner between Sections 21 and 28; thence west $2\frac{1}{2}$ miles to the southwest corner of Section 19, T. 1 S., R. 3 W.; thence north along range line to the Wind River base line; thence west along base line 1 mile to the southwest corner of Section 36, T. 1 N., R. 4 W.; thence north $10\frac{1}{2}$ miles to the $\frac{1}{4}$ corner of Sections 11 and 12, T. 2 N., R. 4 W.; thence west $6\frac{1}{2}$ miles to the center of Section 11, T. 2 N., R. 5 W.; thence on a straight line in a northwesterly direction to the top of Bold Mountain; thence on a straight line in northwesterly direction to the point where the north line of Section 15, T. 4 N., R. 6 W., intersects the western boundary of the reservation; thence south, southeasterly and east along the reservation boundary to point of beginning.

Reference to the description of the boundaries as amended and the map which is attached hereto² will disclose the fact that the change recommended by your office in the east boundary of the area in Townships 1 and 2 South, Range 3 West, has also been authorized and that it now follows the well defined ridge which passes through Sections 22, 15, 9 and 4, T. 2 S., R. 3 W.; and Sections 33 and 28, T. 1 S., R. 3 W.

Sincerely yours,

WILLIAM ZIMMERMAN, JR.,
Assistant Commissioner.

**MODIFYING DEPARTMENTAL ORDER²
BY RESTORING UNDISPOSED-OF
OPENED LANDS OF GRAND POR-
TAGE RESERVATION, MINNESOTA,
TO CHIPPEWA INDIANS OF MINNE-
SOTA**

April 6, 1938.

The Honorable, The SECRETARY OF THE
INTERIOR.

MY DEAR MR. SECRETARY: On November 29, 1935, the First Assistant Secretary of the Interior, under authority contained in section 3 of the Indian Reorganization Act of June 18, 1934 (48 Stat. L., 984), upon the recommendation of this Office, restored the undisposed-of opened lands of the Grand Portage Indian Reservation, Minnesota, consisting of 9,277.59 acres, to tribal ownership.

In the recommendation of this Office it was asked that restoration be made in favor of the Grand Portage Band of Chippewa Indians of the Grand Portage Reservation. This position was taken because at that time it had not been definitely determined whether restorations of this kind should be made to individual bands of Chippewa Indians of Minnesota or to the Chippewa Indians of Minnesota generally. The Departmental indorsement making the restoration reads as follows:

"The lands described on the attached list are hereby restored to tribal ownership as recommended and the matter referred to the Commissioner of the General Land Office for appropriate notation on the records of that Office; also any lands inadvertently omitted from said list and any that may be released subsequently thereto."

In an opinion rendered February 19, 1938, by the Solicitor for the Interior Department, approved by the Assistant Secretary of the Interior on the same date, relating to the restoration of undisposed-of lands ceded by the Red Lake Band of Chippewa Indians under section 3 of the Indian Reorganization Act, in which it was held that the lands should be restored to the "Chippewa Indians of Minnesota" and not to the Red Lake Band alone, the following appears:

"In reaching this conclusion I have not overlooked the fact that certain lands within the Grand Portage Reservation have already been restored under section 3 of the Reorganization Act to the Grand Portage Indians. This action, taken without complete consideration of the general problem of land restoration in the Chippewa area and without due regard for the interest in those lands possessed by the other Chippewa Indians of Minnesota, should be modified to conform with this opinion.

"In summary of the foregoing conclusions, it is my opinion that the remaining undisposed-of lands ceded by the Red Lake Band under the act of 1889 should be restored under section 3 of the Reorganization Act to the 'Chippewa Indians of Minnesota', and that, if this opinion is approved, the remaining lands ceded by the other bands of Chippewa Indians un-

¹ Filed as a part of the original document with the Division of the Federal Register, The National Archives.

² November 29, 1935.

der the 1889 act should be restored to the same beneficiary, and the previous restoration of lands to the Grand Portage Band should be corrected."

In order to comply with the instructions referred to, it is respectfully recommended that the restoration order of November 29, 1935, mentioned in the opening paragraph of this letter, be modified so as to make the beneficiary the Chippewa Indians of Minnesota instead of the Grand Portage Band of Chippewa Indians of the Grand Portage Reservation.

Sincerely yours,

WILLIAM ZIMMERMAN, JR.,
Assistant Commissioner.

GENERAL LAND OFFICE,
April 9, 1938.

There are no reasons appearing in the records of this Office why the foregoing recommendation should not be approved.

D. K. PARROTT,
Acting Assistant Commissioner.

OFFICE OF THE SECRETARY,
June 3, 1938.

For the reason mentioned in the foregoing recommendation, Departmental order of November 29, 1935, restoring the undisposed-of opened lands of the Grand Portage Indian Reservation, Minnesota, to tribal ownership, is hereby modified to the extent of making the beneficiary the Chippewa Indians of Minnesota instead of the Grand Portage Band of Chippewa Indians of the Grand Portage Reservation.

OSCAR L. CHAPMAN,
Assistant Secretary of the Interior.

LETTER OF INSTRUCTIONS AUTHORIZING ASSESSMENTS ON LAND IN NON-INDIAN OWNERSHIP UNDER THE WAPATO INDIAN IRRIGATION PROJECT, WASHINGTON, FOR REPAYMENT OF THE CONSTRUCTION COSTS OF THAT PROJECT

July 25, 1938.

The Honorable, the SECRETARY OF THE INTERIOR.

MR. DEAR MR. SECRETARY: Reference is made to the matter of assessments for repayment to the Government of the construction costs incurred in the construction of the Wapato Indian irrigation project on the Yakima Indian Reservation, Washington.

The Act of Congress of February 14, 1920 (41 Stat., 431) provided for the use of the sum of \$250,000 for continuing the construction and enlargement of the Wapato irrigation and drainage system and among other things provided as follows:

That the Secretary of the Interior is hereby authorized and directed to collect on or before December 31 of each calendar year hereafter including 1920, from the white landowners under the said system the sum of \$5 per acre for each acre of land to which water for irrigation purposes can be delivered from the said system, which sum shall be credited on a per acre basis in favor of the land in behalf of which it shall have been paid and be deducted from the total per acre charge assessable against said land when the amount of such total charge can be determined. * * *

It will be observed from the above quotation that no determination had been made at that time of the total construction

cost that will finally be charged against each acre of land of that project but provision is made that any collections shall be credited against such total charge when the amount thereof can be determined. No such determination has as yet been made, and all rates of assessment heretofore fixed, as well as the rate now fixed, provide for only partial reimbursement of the construction costs.

On December 16, 1920, the Indian Office addressed a letter of instructions to the Supervising Engineer in charge of the Wapato project, which letter received departmental approval on December 20, 1920 (Indian Office file 51656-20-341 Part 1). The purpose of that letter was to direct the Supervising Engineer in the application of the provisions of the act of Congress above cited.

Subsequently the Act of Congress of May 25, 1922 (42 Stat., 595) modified Section 22 of the Act of February 14, 1920, supra, so as to read as follows:

That the Secretary of the Interior is hereby authorized and directed to collect on or before December 31 of each calendar year hereafter, including 1922, from landowners other than Indians under the said system, the sum of \$2.50 per acre for each acre of land to which water for irrigation purposes can be delivered from the said system, which sum shall be credited on a per acre basis in favor of the land in behalf of which it shall have been paid and be deducted from the total per acre charge assessable against said land when the amount of such total charge can be determined.

2224

Under date of June 12, 1922 (Indian Office file 51656-20-341 Part 1) the Office addressed another letter to the Supervising Engineer which received departmental approval on the same date. That letter contains appropriate instructions for applying the provisions of the legislation quoted above and to that extent modified and superseded the letter of instructions approved on December 20, 1920.

The correspondence on file (Indian Office file 9001-36-0-c) shows that the non-Indian landowners of the Wapato project have availed themselves of the benefits afforded by the various relief acts of Congress as follows: the Act of January 26, 1933 (47 Stat., 776) authorized the deferment of all construction assessments for the season of 1931 and one-half of the assessments for the season of 1932. The Act of March 7, 1933 (47 Stat., 1427) authorized the deferment of the remaining one-half of the assessments for 1932 and all assessments for 1933. The Act of June 13, 1935 (49 Stat., 337) authorized the deferment of all assessments for the years 1934 and 1935. The Act of April 14, 1936 (49 Stat., 1206) authorized the deferment of one-half of the assessments for the season of 1936. The repayment commission authorized by the Act of August 21, 1937 (50 Stat., 737) recommended the deferment of one-half of the construction assessments on the Wapato project for the season of 1937, which recommendation was approved by the Department on April 18, 1938 (Indian Office file 9228-36-G).

The deferred assessments discussed in the preceding paragraph are in each instance to become due as an annual installment one year after the date on which the last preceding installment becomes due under the existing laws and regulations.

The Act of Congress of July 1, 1932 (47

Stat., 564-565), known as the Leavitt Act, releases all Indian lands from further assessments for construction costs so long as such lands remain in Indian ownership.

The recent Act of Congress of February 24, 1938 (Public 433-75th Cong.) further modifies the Acts of February 14, 1920, supra, and May 25, 1922, supra as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That so much of the Act approved February 14, 1920 (41 Stat., 431), as amended by the Act approved May 25, 1922 (42 Stat. L. 595 and 596), as fixes the annual rate of payment of irrigation construction costs or assessments on the Wapato Indian irrigation project on the Yakima Reservation in the State of Washington, be, and it is hereby, amended so as to fix the per-acre per-annum assessment rate at \$1.25 against those lands classed as A or B which are subject to construction assessments pursuant to existing law. Such rate is to take effect immediately upon approval of this Act and shall continue until the total cost assessable under existing law against such of the A and B lands shall have been repaid.

SECTION 2. The Secretary of the Interior is hereby authorized and directed to modify the annual repayment schedule set forth in the memorandum agreement of March 9, 1921, approved March 31, 1921, as amended, wherein provision is made among other things for payment of the actual cost of the two hundred and fifty thousand acre-feet of water for certain of the lands under the Wapato Indian irrigation project so as to extend *payment of the balance of the cost of such water over a twenty-four-year period commencing with the payment due December 31, 1937.*

Further legislation is contemplated at the next session of Congress (1st session of 76th Cong.) with a view to carrying out the provisions of Section 2 of the act quoted above (Indian Office file 9228-36-R & X).

Pursuant to the recent legislation herein cited it is recommended that all prior instructions issued for the assessment of construction costs against the lands of the Wapato project be modified in so far as they may conflict with the legislation and the instructions contained herein, and it is also recommended that the Project Engineer be instructed to make the necessary preparations for the assessment of all lands in non-Indian ownership, which are properly subject to assessment under the existing laws and regulations, at the rate of \$1.25 per acre for the season of 1938 and for each succeeding year until further modified, such assessments to become due and payable on December 31 of each year.

Sincerely yours,

JOHN HERRICK,
Acting Commissioner.

Approved, August 3, 1938.

Assistant Secretary of the Interior.

 Lands Expiring During Calendar Year
 1939

By virtue of and pursuant to the authority vested in me by section 5 of the act of February 8, 1887, 24 Stat. 388, 389, by the act of June 21, 1906, 34 Stat. 325, 326, and by the act of March 2, 1917, 39 Stat. 969, 976, it is hereby ordered that the periods of trust applying to any Indian lands, whether of a tribal or individual status,

which, unless extended, will expire during the calendar year 1939, be, and they are hereby, extended for a further period of 25 years from the date on which any such trust would otherwise expire.

This order is not intended to apply to any case in which the Congress has specifically reserved to itself authority to extend the period of trust on tribal or individual Indian lands.

**SOUTHERN UTE INDIAN
RESERVATION, COLORADO**

Order of Restoration

September 14, 1938.

Whereas, pursuant to the provisions of the Act of February 20, 1895 (28 Stat. L., 677), the Southern Ute Band of Indians in Colorado ceded to the United States a large area of their reservation in the State of Colorado established expressly for their benefit under the treaty of June 15, 1880 (21 Stat. L., 199), and

Whereas, There is now remaining undisposed of within the said ceded area approximately 200,000 acres of such ceded land, most of which is urgently required as grazing land for the use of the Southern Ute Band of Indians, and which has been found to be primarily of value for Indian purposes as an addition to the existing Southern Ute Indian Reservation, and

Whereas, by relinquishment and cancellation of homestead entries within this area a limited additional acreage of land of similar character may later be included within this class of undisposed-of ceded land, and

Whereas, the Tribal Council, the Superintendent of the Consolidated Ute Indian Agency, and the Commissioner of Indian Affairs have recommended restoration to tribal ownership of all such undisposed-of ceded land within the following described boundaries:

Townships 32, 33 and 34 North, Ranges 1½ to 13 West, inclusive, of the N. M. P. M., in Colorado, being that area lying between the north boundary of the old Southern Ute Reservation and the south boundary of the State of Colorado and extending west from the 107th Meridian to the east boundary of the present Southern Ute Reservation.

Now, therefore, by virtue of the authority vested in the Secretary of the Interior by Sections 3 and 7 of the Act of June 18, 1934 (48 Stat. L., 984), I hereby find that restoration to tribal ownership of all land which is now, or may hereafter be, classified as undisposed-of ceded Ute Indian land lying within the above described boundaries in Colorado, will be in the public interest, and the said land is hereby restored to tribal ownership for the use and benefit of the Southern Ute Tribe of Indians of the Southern Ute Indian Reservation in Colorado, and is added to and made a part of the existing Southern Ute

Reservation, subject to any valid existing rights.

E. K. BURLEW,
Acting Secretary of the Interior.

Section 1 of the act of August 13, 1949 (Pub. Law 226, 81st Cong., 1st sess.), hereinafter referred to as the act, declares that title to certain federally owned acquired lands and improvements thereon within the State of New Mexico, and title to certain public domain lands and improvements thereon within the State of New Mexico which were temporarily withdrawn in aid of legislation by orders of the Secretary of the Interior of December 23, 1938, and May 31, 1939, is, subject to valid existing rights, in the United States of America in trust for certain tribes of Pueblo Indians and the Canonicito group of Navajo Indians, respectively, excepting portions thereof used by the United States for administrative purposes, and that certain other portions of such lands are a part of the public domain of the United States. The boundaries and descriptions of the areas of such respective lands are set forth in sections III and IV, respectively, of the memorandum of information which is attached to and a part of report of the Secretary of the Interior to the Senate Committee on Interior and Insular Affairs on S. 1323, 81st Congress (Sen. Rep. 549, 81st Cong., 1st sess.). The act further provides that such boundaries and descriptions are adopted as a part of the act and shall be published in the FEDERAL REGISTER after the correction in Section III of such memorandum of information of any clerical errors, and the revision of such section so as to define the areas on Bell Rock Mesa used and occupied respectively by certain Laguna Pueblo Indians and the Canonicito band of Navajo Indians.

Correction of clerical errors has been made and the areas within Bell Rock Mesa have been defined.

Accordingly, under and pursuant to the authority vested in me by section 1 of the act, the boundaries and descriptions of the areas of lands, the title of which is in the United States of America in trust for the respective tribes, bands, or groups of Indians, are set forth below under section I, and the boundaries and descriptions of the areas of the lands declared to be a part of the public domain are set forth under section II of this order.

Pursuant to the authority vested in me by that act such lands are added to the respective New Mexico grazing districts as heretofore established and modified and as hereinafter indicated. The Federal Range Code for Grazing Districts (43 CFR, Part 161), and applicable special rules, shall govern the administration of such lands for grazing purposes.

Except with respect to grazing and exchanges under section 2 of the act the lands in section II hereof shall not become subject to any other form of disposition under any other public land law, including the mining of mineral leasing laws, until it is so provided by an appropriate order.

The remainder were by the said Act declared to be public domain. As authorized by the said Act, an order of the Secretary of the Interior appearing at pages 1851-1858 of the FEDERAL REGISTER of March 31, 1950, identified the lands in the respective categories. 8. Beginning at 10:00 a.m. on October 1, 1960, the lands in section 6, T. 2 N., R. 6 W., described in paragraph 6 of this order, shall be open to application, petition, location and selection, under applicable non-mineral public land laws, subject to valid existing rights, the requirements of applicable law, and the six-months preference right filing period granted to the State of New Mexico, by subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851-2).

Statement of the Plan and Description of its Objectives and Goals

Pursuant to section 896 Title 25, U.S.C. (sec. 7, Public Law 399, 83d Cong., as amended) a Plan such as this was submitted by the Menominee Indian Tribe (herein sometimes called "the Tribe") on January 26, 1959, to the Secretary of the Interior (herein sometimes called "the Secretary"). Under date of April 30, 1959, he wrote the Tribe stating that in view of the contingencies still attaching to our Plan, especially the unfinished legislation, he resubmitted the Plan conditionally as his Plan for a period of three months for negotiation purposes with the understanding that if the Plan should not by August 1 meet the approval of the Secretary for reasonable equity and legal conformity, he would have to take action as if there were no Plan.

On July 30, 1959, the said legislation was finished by signature of the Governor of Wisconsin on three bills on which the legislature completed action on July 24. These bills and the remainder of the Plan as revised after numerous conferences with State officials were submitted to the Secretary on July 30, 1959, which is included hereinafter. This was accepted for the Secretary by letter of the same date which is included hereinafter.

After extensive study by the staff of the Secretary, including those in the Bureau of Indian Affairs, a conference was held by such staff with representatives of the Tribe and of the State of Wisconsin on October 26 through 29, 1959, inclusive, at which agreement was reached for changes in the detail but not the principles of the Plan, and the Secretary so stated by letter of October 30, 1959, a hereinafter included.

The Plan as herein presented (and defined in the Table of Contents) includes the changes as agreed upon.

OBJECTIVES AND GOALS

To better insure the welfare of the Menominee people, their heirs and descendants, the Menominee Indian Study Committee and representatives of the Tribe during the course of their meetings agreed upon several objectives, which we believe it is desirable to record.

1. To promote the most beneficial use of the Menominee property, consisting substantially of forest land, State law and deed covenants were agreed upon which will enforce the maintenance of sustained yield principles in the care and preservation of the forest. It is believed that within thirty years sustained yield will have served the ultimate benefit of the Menominee people as a tribe, at the end of which time the owners can reassess their condition. If deemed advisable, the forest could be sold to or acquired in part by the State for the benefit of all its citizens, and particularly for those of Menominee extraction who wish to remain on the land.

2. To overcome gaps in essential training and experience among the 3,270 Menominee members and to lessen the influence of non-essential politics in the management of business affairs the voting trust principle was adopted as a device to better insure stability in the Menominee corporation to be.

3. Basic rights of Menominee members, their heirs and descendants, to hold residence and employment on the Menominee land are tied into the articles and bylaws as a safeguard against possible abuse of ownership or other unfair exploitation, recognizing a preferential right in such persons.

4. A merit system in government is desirable and the Menominee county board will be requested to seek its establishment. Buildings owned by the tribe and needed in governmental operations will be transferred to the best municipal use without cost to the new county or town.

5. Hospital and medical services and the continued operation of public utilities are important elements in the welfare and progress of the Menominee community and should be continued in operation. Alternatives are in question and can hardly be resolved or bound until the corporation and municipal officers can study the practical effects of the termination of Federal supervision and the commencement of State licensing and regulation.

Section 896, Title 25, U.S.C. provides as follows:

The [Menominee] tribe shall * * * formulate and submit to the Secretary a plan for the future control of the tribal property and service functions now conducted by or under the supervision of the United States, including but not limited to services in the fields of health, education, welfare, credit, roads, and law and order, and for all other matters involved in the withdrawal of Federal supervision.

The Plan formulated and submitted by the Tribe is designed to meet the requirements of the law by (1) providing machinery for municipal activities heretofore su-

¹ Filed as part of the original document.

pervised by the Department of the Interior, including health, education, welfare, credit, roads, and law and order, and (2) providing a sound economic base through realization and use of communal tribal property and operation of the Menominee Forest on a sustained yield basis.

Description of legislation. The first objective has been achieved, to a large extent, by three laws which became a part of the Wisconsin Statutes on July 30, 1959. Chapter 259, Wisconsin Statutes, one of those laws, creates Menominee County as Wisconsin's seventy-second county. It becomes effective on the date of publication of the Termination Plan in the FEDERAL REGISTER by the Secretary under section 896, Title 25 U.S.C. This is intended to be and should be the same date as the proclamation in the FEDERAL REGISTER of transfer of property under section 899, Title 25 U.S.C. This law:

1. Creates Menominee County from all reservation areas as described therein, now included in Shawano and Oconto Counties.
2. Provides appropriate machinery for requiring and preserving necessary county records.
3. Attaches Menominee County to Shawano County for necessary judicial functions and provides that the District Attorney for Shawano County shall serve Menominee County.
4. Establishes one political town to consist of area of entire Menominee County (which will contain ten surveyor townships).
5. Attaches Menominee County to Shawano County for the purpose of the office and functions of the County Superintendent of Schools.
6. Attaches Menominee County to Shawano County for functions of the juvenile court and the judge of juvenile court.
7. Provides for the election of a Town Board by precincts and at large whose members ex-officio constitute the County Board.
8. Provides for handling of some town and county offices as part-time and combined assignments.
9. Provides machinery for assessment and collection of taxes in transition years.
10. Permits restraint on securities of any corporation or organization created by the Menominee Tribe.
11. Includes Menominee County in area of Tenth Circuit Court.
12. Creates a Shawano-Menominee County Court, and extends the jurisdiction of the Shawano City and County municipal court to the County of Menominee.

Chapter 260, Wisconsin Statutes, is a minor technical enactment required to distribute to Menominee County moneys held in escrow by the State's Treasurer. These moneys have been accumulated by the State of Wisconsin from taxes from income, intoxicating liquors and utilities. According to Wisconsin law, these funds must be distributed to the county.

The Tribal Lending Agency has already received a transfer from the Secretary of the Interior of \$368,196.96 in tribal funds under section 897, Title 25 U. S. C.

This Agency is operated under section 224.10, Wisconsin Statutes, and now has most of these funds out on loan to tribal members. This law needs amendment by the Wisconsin Legislature in order to provide for the appointment of Trustees by another agency than the "governing body of the Tribe" and to define the eligible borrowers otherwise than as "tribal members." It is proposed to ask the Legislature of 1961 to provide for appointment of trustees by the stockholders of Menominee Enterprises, Inc., or any successor thereof, and for loans to enrolled tribal members (as of June 17, 1954, as proclaimed) and their spouses and descendants and such additional classes as may be recommended by the Trustees. If such legislation fails of passage the Commissioner of Banking of Wisconsin will be asked to approve such changes by regulations adopted by the Trustees. Until termination date no change is required, and thereafter the existing Trustees will serve out their original terms, which will permit continuity pending action proposed above.

It is unnecessary, aside from amendment of Wisconsin laws to accord with existing judicial machinery, to provide specific plans for future handling of law and order, federal jurisdiction over the Menominee Reservation having been surrendered by the United States by Public Law 280, 83d Congress, as amended (18 U.S.C. 1162). Welfare problems will be handled within the framework of state law, particularly pursuant to specific provisions of chapter 259, Wisconsin Statutes. Agreement has been reached between the United States and the State of Wisconsin with respect to improvement and transfer of roads within the Menominee Reservation.

Chapter 258, Wisconsin Statutes, provide "a new method of taxation of forest lands required by federal law to be operated on a sustained-yield basis and the regulation of such land." This act accepts the principle that a forest required by law to be operated on sustained-yield has a fair market value equivalent to 40 percent of the fair market value of a forest owned and operated without such restriction. To be eligible for tax benefits under this chapter, the owner must apply to the Commissioner of Taxation for Wisconsin and file a forest management plan with the Conservation Commission of that State. The Conservation Commission must find that the plan provides for sustained-yield management of the forest lands consistent with sound forestry practices. (These are defined, and specific provision is made for catastrophic changes such as fire, flood, storm, and epidemic.) The Conservation Commission must inform the Commissioner of Taxation of its findings. The Commissioner of Taxation must then determine whether the forest lands involved are eligible for and qualified for taxation under chapter 258. If so, the Commissioner of Taxation orders the lands entered on a special property tax roll. The lands are then assessed as having a full value equal to 40 percent of fair market value of unrestricted forest lands. An application for

taxation under chapter 258 may be denied only after hearing.

Each year, the owner of sustained-yield forest lands is required to submit a sworn statement giving data which will enable the Conservation Department and the Commissioner of Taxation to determine whether the land involved shall continue to be taxed under this special law. Chapter 258 allows revision of the forest management plan upon submission of a revised plan not later than six months prior to the end of each cutting cycle. If the Conservation Commission finds that the revised plan is adequate to ensure continued sustained-yield management, it must enter such an order. Approval of a revised plan may not be denied without a hearing.

An owner may withdraw from sustained-yield operation any parcel of land not exceeding ten acres in size and 250 acres cumulatively in each calendar year. Larger parcels may be withdrawn only if the Commissioner of Taxation, after consultation with the Conservation Commission, finds that the lands involved may be dedicated to a higher beneficial use. Such lands may later be reinstated under chapter 258 upon appropriate application. The Commissioner of Taxation and the Conservation Commission are given the right to conduct hearings and examine all records to determine that the requirements of the law are being followed. Criminal penalties are provided for violations, such as excess cutting or failure to follow the management plan. Equitable jurisdiction is granted to the Circuit Court to compel "management and classification of lands" according to the articles of incorporation of a Wisconsin corporation.

Description of economic plan. The economic plan, designed to promote the highest beneficial use of the communal property, is set forth in six basic documents: (1) Articles of Incorporation of Menominee Enterprises, Inc., (2) By-Laws of Menominee Enterprises, Inc., (3) a common stock and voting trust, (4) a bond indenture, (5) a Menominee Assistance trust, (6) a Certificate of Beneficial Interest.

One Certificate of Beneficial Interest in form attached will be issued pursuant to section 893 Title 25 U.S.C., with list attached thereto of the tribal roll of 3,270 members as of June 17, 1954 (as finally proclaimed). The Certificate will be issued as of June 17, 1954, in advance of termination date, and will be held by the Coordinating and Negotiating Committee until that date. At that time, the Committee will mark it "cancelled" and file it with its records.

It is a part of this Plan that (1) the issue of stock to the said Coordinating and Negotiating Committee, (2) the issue of voting trust certificates to tribal members and lawful distributees of deceased members upon deposit of the stock in the Common Stock and Voting Trust, (3) the issue of income bonds, (4) the transfer of real and personal property to the said Coordinating and Negotiating Committee and/or to Menominee Enterprises, Inc., or any subsidiary, (5) the transfer of real and personal property to any public body; shall

all be in substitution for and consideration of cancellation of the Certificate of Beneficial Interest and no one shall thereafter have any rights or interest in such Certificate.

Such issuance of voting trust certificate, and income bonds to individuals shall be to or for those members so proclaimed who are alive at date of termination, and to the personal representatives, heirs or next of kin under the laws of the State of Wisconsin of those members who predecease the date of termination, as personal property shall be distributable.

The plan as to the Certificate of Beneficial Interest provided herein shall constitute the regulations of the Tribe governing alienability of interests under said section 893.

A copy of the cancelled Certificate shall be delivered to each recipient of voting trust certificates and income bonds at the time of distribution thereof.

The Board of Directors of Menominee Enterprises, Inc. will be elected by the holders of the common stock. While the voting trust is in existence (it may be terminated by the tribal members who become holders of the voting trust certificates in ten, twenty, or thirty years), the voting trustees will elect the board. It is contemplated that four of the nine members of the board will be persons listed on the final Menominee roll, and the remaining five will be men of experience in industry, the professions, and government.

The interests of minor members, persons non compos mentis and those otherwise deemed in need of assistance will be entrusted to the First Wisconsin Trust Company under the terms of the Menominee Assistance Trust. The selection of this trust company was recommended by the Coordinating and Negotiating Committee of the Menominee Tribe and confirmed by the General Council in 1958. Top officials of the First Wisconsin Trust Company have long evinced keen interest in Menominee affairs, responded promptly to requests by the tribal officials, and have contributed considerable time and assistance in formulation of the Plan. Utilization of one trust company will effect considerable savings for the beneficiaries when the alternative of a multitude of guardianships is considered. It is believed that the experience and advice of First Wisconsin Trust Company will be of considerable assistance during the formative years of Menominee Enterprises, Inc. First Wisconsin Trust Company has agreed to assume the fiduciary responsibility for the beneficiaries at rates comparable to going rates for similar activities. Any U.S. bonds held by the Federal Government for any of such beneficiaries at termination date will be released to the Menominee Assistance Trust.

Procedure on establishment of Menominee Enterprises, Inc. The selection of voting trustees will occur well in advance of termination date and before any trust in fact exists. The initial voting trustees will consist of four enrolled members of the Tribe elected by the General Council and three non-tribal members selected

jointly by the Advisory Council and the Coordinating and Negotiating Committee, subject to confirmation by the General Council. In case any should not be confirmed, he will be replaced by another selection by the same bodies for confirmation. It is expected that these three voting trustees will be outstanding Wisconsin citizens who have shown an interest in and understanding of the problem.

Contemporaneously with the selection of initial trustees, the members of the Coordinating and Negotiating Committee, as individuals, will incorporate Menominee Enterprises, Inc., will subscribe to all the stock as representatives of the persons entitled thereto, and hold the organizational meeting of the corporation. Before the organizational meeting of the corporation is held, the initial voting trustees will informally name the individual directors of the corporation, and those persons will be named in the articles of incorporation and will be formally elected by the subscribers to stock (the Coordinating and Negotiating Committee) at the organizational meeting of the corporation.

After being elected, the directors will hold their first meeting and will accept the stock subscription for 327,000 shares of common stock, \$1.00 par value, for a consideration of \$327,000. The Secretary of the Interior will advance cash for this purpose from the tribal 4 percent funds. Upon paying in the \$327,000 consideration, the corporation will issue a single stock certificate to the Coordinating and Negotiating Committee for 327,000 shares of stock. That Committee will then create the voting trust, naming as trustees the persons previously selected by the General Council of the Tribe, will deposit the common stock and instruct (on direction from the Secretary) the trustees to issue voting trust certificates evidencing such stock to the enrolled members of the Tribe and their heirs or next of kin on termination date or to First Wisconsin Trust Company, in the case of persons covered by the Menominee Assistance Trust. On termination date, or shortly before, the Secretary will transfer to Menominee Enterprises, Inc., as a capital contribution all of the remaining tribal assets which are to constitute corporate property, and the corporation will issue the income bonds to enrolled members or heirs, and to First Wisconsin Trust Company for persons covered by the Menominee Assistance Trust. Such persons will be determined by the Secretary prior to such transactions by a finding under section 900, Title 25 U. S. C.

Although income bonds of \$10,000,000 will be authorized, it is proposed to issue bonds at a par value of \$3,000 to each of the 3,270 enrolled members at an aggregate of \$9,810,000 par value.

Immediately after the transfers to it, the corporation, through its Board of Directors, will make a capital contribution of all the remaining tribal assets estimated to have a value of about \$7,500,000 which will be received as a capital contribution to "paid in surplus" and later transferred by the Board and added to "stated capital."

Each Voting Trust Certificate will contain the following language:

This Certificate represents 100 shares of stock of Menominee Enterprises, Inc. The stated capital which is the net book value on January 1, 1961, was \$_____ per share of stock, or \$_____ for the stock represented by this certificate. This price is the cost basis to a member of the Menominee Indian Tribe for federal and state income tax purposes under section 896, Title 25 U.S.C. and section 71.015, Wisconsin Statutes, for computing gain or loss in case of sale. The corporate assets represented by the capital of the corporation consist principally of forest lands and other physical property which have a per share value at least equal to that stated above, but which will not be realized or become income producing for some time to come.

The Secretary will issue separate deeds for lands presently classified as forest lands and other lands to Menominee Enterprises, Inc. He will also issue a deed or deeds to appropriate body or bodies for designated public lands, buildings and roads for school district, county and town, and a deed and bill of sale to the organization operating the hospital. The deed for the forest lands will contain the following language:

The parties hereto mutually covenant and agree for the benefit of the State of Wisconsin that the lands conveyed hereby shall be operated on a sustained-yield basis until released therefrom under the laws of Wisconsin or by act of Congress.

The parties further mutually covenant and agree for the benefit of the State of Wisconsin that for a period of 30 years commencing with the date of this deed the ownership of lands conveyed hereby shall not be transferred, nor shall such lands be encumbered without the prior consent of the State Conservation Commission of Wisconsin and approval of the Governor of Wisconsin unless released from sustained-yield basis under the laws of Wisconsin.

A lawful order removing land from sustained-yield taxation pursuant to the Wisconsin Statutes as they now exist or as they may be amended shall constitute a method of release.

These covenants shall be enforceable only by an action for an injunction brought in its own name by the State of Wisconsin.

An appraisal of the tangible property made by tax appraisers of the State of Wisconsin shows that the Menominee Forest is worth about \$30,000,000 based on stumpage prices. Other Menominee property is valued at approximately \$4,000,000. Based on the 40 percent formula adopted by the Wisconsin Legislature, this means that the Menominee Forest is worth, under the requirement of sustained yield operation, approximately \$12,000,000. This leaves a valuation on Menominee property of approximately \$16,000,000. By increasing the annual cut on the Menominee Forest, within agreed limits of sound sustained-yield practice, it is estimated that Menominee Enterprises, Inc. will be able to realize net earnings of \$400,000 to \$450,000 per year after taxes and before payments to stockholders. This is approximately the amount of payments made to tribal members over the past several years as so-called "stumpage payments." It is contemplated that most of this amount will be paid to holders of the income bonds to be issued by the corporation. As stated, income bonds of \$10,000,000 will be authorized bearing 4 percent interest if earned, and an aggregate of \$9,810,000 par value issued to the 3,270 enrolled members or their heirs. These bonds may be utilized for purchase of homestead or farm property from the corporation at par value under article XI of the By-Laws. They may not be sold for a

period of three years, but, in the meantime, may be pledged for loans. The corporation will reserve an option to meet bona fide offers after the three year period. During the first three years, pledgees will be required to refund to the pledgors any amounts in excess of the amount pledged plus lawful charges.

The Menominee Tribe now operates a conventional sawmill. This is done pursuant to the act of March 28, 1908 (35 Stat. 51), an Act which constituted an early model for sustained-yield forestry practices. The Menominee Indian Mills have not advanced perceptibly into specialized branches of the highly competitive lumber industry. In order to survive and to improve its present economic situation, such expansion is deemed essential. Tribal leaders, the Department of the Interior, and other advisors are currently considering expansion possibilities. Promising possibilities are a veneer plant and a dimensions plant. The latter would require a relatively small financial outlay, but would utilize materials which are now largely wasted. A comprehensive memorandum on these and other possibilities has been prepared by Mr. Arlie Toole of the Great Lakes Experiment Station and will be considered carefully by Menominee Tribal leaders and executives and directors chosen to operate Menominee Enterprises, Inc.

In addition, the Tribe and its successor corporation have available some of the most natural commercial recreational possibilities in the United States. Development of these resources is being considered, and such study will continue. Assistant Secretary Ernst has volunteered to make available the knowledge and advice of the National Parks Service and Bureau of Fish and Wildlife in this effort. What will develop along this line is uncertain, but this is one field which will have high priority on the part of tribal leaders and the executives and Board of Directors of Menominee Enterprises, Inc.

By virtue of the authority vested in me by section 301 of Title 3 of the United States Code, and as President of the United States, it is ordered as follows:

SECTION 1. (a) The Secretary of Agriculture is hereby designated and empowered to exercise, without the approval, ratification, or other action of the President, the authority vested in the President by clause (1) of the fifth sentence of section 407 of the Agricultural Act of 1949, as amended (7 U.S.C. 1427), to the extent prescribed in subsection (b) of this section.

(b) Whenever the Secretary of Agriculture determines that the chronic economic distress of the needy members of an Indian tribe is materially increased by severe drought, flood, hurricane, blizzard, or other uncontrollable catastrophe affecting any reservation or other land designated for Indian use which is utilized by members of such tribe for grazing livestock, he may, under subsection (a) of this section, declare such reservation or other land to be an acute distress area because of unemployment or other economic reasons if he finds that the use of farm commodities or the products thereof made available by the Commodity Credit Corporation for livestock feed in that area will not displace or interfere with normal marketing of agricultural commodities.

SEC. 2. Federal assistance in relieving distress, extended as a result of action by the Secretary of Agriculture under the authority delegated by section 1 of this order, shall terminate in each instance upon notice by the Secretary of Agriculture.

SEC. 3. In carrying out the provisions of this order the Secretary of Agriculture shall maintain liaison with the Secretary of the Interior and shall consult with the latter as may be appropriate.

SEC. 4. The declaration contained in the letter of the President to the Secretary of Agriculture, dated February 1, 1965, that reservation lands in Arizona, Utah and New Mexico, which are grazed in common by Indian tribes, are an acute distress area shall continue in effect until January 1, 1968, or until such earlier date as may be fixed by notice of the Secretary of Agriculture published in the FEDERAL REGISTER.

NEZ PERCE NATIONAL HISTORICAL PARK, IDAHO

Designation of Indian Trust Land

The Act of May 15, 1965 (79 Stat. 110, 16 U.S.C. 281), authorizes the Secretary of the Interior to designate as the Nez Perce National Historical Park various component sites in Federal and non-Federal ownership relating to the early Nez Perce culture, the Lewis and Clark Expedition through the area, the fur trade, missionaries, gold mining, and logging, the Nez Perce War of 1877, and such other sites as he finds will depict the role of the Nez Perce country in the westward expansion of the Nation;

The act authorizes the Secretary to designate Indian Trust land for inclusion in the Nez Perce National Historical Park with the concurrence of the beneficial owner. Designation of sites in Federal ownership under the administrative jurisdiction of other governmental agencies is authorized, with the concurrence of the agency having administrative responsibility therefor, but such designation effects no transfer of administrative control un-

less the administering agency consents thereto.

17708

The Secretary has obtained concurrence of the beneficial owners of Indian Trust to be designated. Moreover, the Forest Service, Department of Agriculture, is agreeable to designation of certain Lolo Trail route sites and the Lolo Pass Visitor Center as a component of the Nez Perce National Historical Park, with the understanding that these locations or sites are cooperative inclusions and are to be administered and interpreted by the Forest Service in accordance with local agreements entered into by the Forest Service and the National Park Service.

Accordingly, notice is hereby given in accordance with the aforesaid Act of May 15, 1965, and subject to the foregoing, that the Nez Perce National Historical Park is designated to comprise the components so depicted on a map bearing the identification NHP-NP-7100-B, March 1969 (Rev. Designation of a site or sites as a component of the park by issuance of this notice and approval of the aforesaid map does not affect administration or ownership of any property so designated that is not already under the administrative jurisdiction of this Department. The Secretary of the Interior is authorized by the Nez Perce National Historical Park Act to enter into cooperative agreements with any persons, organizations or agencies which own or administer such designated properties.

12996 **INDIAN TRIBES PERFORMING LAW ENFORCEMENT FUNCTIONS**

Notice of Determination

SECTION 601(d), title I, of the Omnibus Crime Control and Safe Streets Act of 1968, Public Law 90-351, places a responsibility on the Secretary of the Interior to determine those Indian tribes which perform law enforcement functions.

On March 18, 1969 (34 F.R. 5341), July 7, 1970 (35 F.R. 10917), and February 26, 1971 (36 F.R. 3531), there were published in the FEDERAL REGISTER lists identifying tribes determined by the Secretary to perform full law enforcement functions; however, the interpretation of "law enforcement" as given in section 601(a) means all activities pertaining to crime prevention or reduction and enforcement of the criminal law. The interpretation applied to the Act by the listing of March 18, 1969, as amended, was overly restrictive and could act to deny benefits to tribes which perform some services as defined by section 601(a).

Therefore, the Notice of Determination of March 18, 1969, as amended, is further amended by the addition of a statement following the list of tribes previously determined eligible, which reads as follows:

It is the determination of the Secretary of the Interior that all tribes recognized and serviced by the Bureau of Indian Affairs perform all or a part of "law enforcement" functions as defined in section 601(a).

Effective date. This notice shall be effective upon publication in the FEDERAL REGISTER (7-10-71).

Assistant Secretary of the Interior.

20 UINTAH AND OURAY RESERVATION,
UTAH

Order for Revocation of Oil Shale Withdrawal and Restoration of Certain Lands

Whereas, pursuant to the provisions of the Act of May 27, 1902 (32 Stat. 263), as amended and supplemented by the Acts of March 3, 1903 (32 Stat. 998); April 21, 1904 (33 Stat. 207); March 3, 1905 (33 Stat. 1069); and May 14, 1920 (41 Stat. 599); most of the unallotted lands of the Uintah and Ouray Indian Reservation in Utah were restored to the public domain with the proceeds from the sale of said lands to be used for the benefit of the Indians;

Whereas, pursuant to joint resolution of the 57th Congress, first session, dated June 19, 1902 (Public Resolution No. 31; 32 Stat. 744), certain lands on said reservation were set apart for a grazing reserve;

Whereas, pursuant to a recommendation from the Commissioner of Indian Affairs dated June 7, 1905, the Secretary of the Interior on July 11, 1905, established a timber reserve for the use and benefit of the Ute Indians of the Uintah and Ouray Reservation;

Whereas, pursuant to the authority of the Act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141-142), Executive Order No. 5327, dated April 15, 1930, withdrew from disposal all deposits of oil shale and the lands containing said deposits owned by the United States from lease or other disposal and reserved the same for investigation, examination, and classification;

Whereas, by Order of the Secretary of the Interior dated August 25, 1945 (10 F.R. 12409), all of the undisposed-of opened lands of said reservation, including undisposed-of opened lands containing deposits of oil shale, were restored to tribal ownership pursuant to the Act of June 18, 1934 (48 Stat. 984);

Whereas, lands withdrawn pursuant to said Executive Order No. 5327 are identified by Public Land Order No. 4522 of September 24, 1968;

Whereas, some of the lands so listed in said Public Land Order No. 4522 included (1) said grazing reserve; (2) said timber reserve; (3) lands allotted to individual Indians; and (4) lands restored by said August 25, 1945, order;

Whereas, no authority existed for an oil shale withdrawal of any allotted lands on the reservation; however, the identification of said allotted lands as oil shale lands served to cloud the title to those lands, which cloud should be removed;

Whereas, Executive Order No. 5327 of April 15, 1930, withdrawing oil shale lands as identified by Public Land Order No. 4522 also creates a cloud on the title of the lands held by the United States of America in trust for the Ute Indian Tribe or held by the Tribe's successors in interest;

Whereas, the Uintah and Ouray Tribal Business Committee of the Ute Indian Tribe has petitioned the Secretary to remove the cloud on the title to its lands by revoking said oil shale withdrawal as it applies to lands on said reservation;

Whereas, it is in the best interests of the public and the Ute Indian Tribe to restore any remaining undisposed-of open land on said reservation existing subsequent to said revocation;

Whereas, the superintendent of the Uintah and Ouray Reservation, the area director of the Phoenix Area Office, and the Commissioner of Indian Affairs have recommended that such petition be granted;

Now therefore, by virtue of the authority vested in the President of the United States by Section 1 of the Act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is hereby ordered that the Oil Shale Withdrawal of April 15, 1930 (Executive Order No. 5327), is hereby revoked insofar as it pertains to the following lands, all of which are located within the Uintah Special Base and Meridian survey: (1) all lands held in trust by the United States for the Ute Indian Tribe of the Uintah and Ouray Indian Reservation, Utah; (2) all lands held in trust by the United States for individual Indian allottees, their heirs or assigns; (3) all lands conveyed pursuant to the acts of June 18, 1934 (48 Stat. 984); and August 27, 1954 (68 Stat. 868); (4) all lands owned by the United States in which the Ute Indian Tribe of the Uintah and Ouray Reservation, Utah, has an interest in the proceeds from lease, sale, or other disposition; (5) the lands within the Forest and Grazing Reserves which are held in trust by the United States for the Ute Indian Tribe of the Uintah and Ouray Indian Reservation; (6) the lands, including lands containing deposits of oil shale, restored to tribal ownership by the Order of August 25, 1945; and (7) all lands described below, some of which are included in the prior categories:

*In a Departmental Manual revision of August 16, 1974, Secretarial delegations to the Commissioner were changed from an item-by-item format to a general delegation of the Secretary's authority with certain limitations. Secretarial Order #2508 and its amendments were thus superseded. Nevertheless they remain a useful guide to the Commissioner's authority.

PART V—TABLES OF STATUTES AFFECTED

The following tables of statutes affected are designed to serve as a guide to amendments, supplemental provisions, repeals and subsequent changes which have otherwise affected the statutes compiled in Kappler, Volumes I and III through VII. There are two tables. The first covers those sections of the Revised Statutes which are published in Kappler, Volume I. The second covers statutes or sections thereof from the Statutes at Large which are included in the several volumes of Kappler.

The entries for the period 1956–1970 have been derived from the Tables of Laws Affected volume of the United States Statutes at Large, and the entries for the period prior to 1956 from a hand-annotated copy of the Statutes at Large in the Library of Congress. To find post 1970 provisions affecting the statutes contained in these volumes, the user should consult the table of laws affected at the back of each succeeding volume of the Statutes at Large.

Every reasonable effort has been made to insure the accuracy of these tables. However, in an undertaking of this magnitude, some errors and omissions are inevitable. The tables are reference guides only and have no evidentiary status or legal effect. Indirect or implied relationships are not included. These may be found through the subject indexes to these volumes.
